

BATS Announces Post-Migration Pricing Accommodation for EDGA and EDGX Exchanges

Overview

EDGA Exchange and EDGX Exchange are pleased to announce a post-migration pricing accommodation for the month of January. Trading volumes from the first week of trading on the new platforms, which includes trading days of January 12 through 16, will be excluded from volume tier calculations for the month of January, pending filing with the SEC.

Members trading on EDGA and EDGX are encouraged to use the legacy Direct Edge systems right up to the migration. Members will then have a one week grace period to fully transition to the new EDGA and EDGX platforms before resuming normal trading activity for the remainder of the month.

We hope that this adjustment helps alleviate any concerns Members may have around attaining volume tiers for the month of January.
