1 Document Summary

This document details the file specification for the Terminal Order History file for the Cboe Options Exchange. This file layout contains specifications for orders routed to a terminal on the Cboe trading floor and order activity for all other orders received on the floor but not routed to Cboe. The transaction date of each record in the file must match the date stamp of the file name. All time fields will be in Eastern time.

2 Document Upload Instructions

Contact the Cboe Operations Support Center (OSC) ([866-728-2263](tel:866-728-2263)/osc@cboe.com) for SFTP upload instructions.

2.1 File Naming Convention

```
<vendor>OptTerminalOrderHist.yyyymmdd.csv  
  <vendor> - Data vendor identifier provided by Cboe  
  <yyymmdd> - Trade date
```

3 File Description

This file contains options orders generated from vendor applications used on Cboe's trading floor. The csv file is sent daily to Cboe as soon as available after the 4:15 pm close. Important aspects to note:

- All fields should be included in the file.
- The file will be rejected if any required fields are empty
- Complex orders are handled in the file by requiring a row for each leg of the complex order, including the stock leg. This results in certain information being on every leg of the complex order.
- The file layout specifically details which fields are required for options and stock legs. String fields which contain any commas in the data, must be enclosed within double quotes.
- The filed definitions are below. FIX tags are provided for reference on fields that are sent to Cboe on orders.
- A header record is optional and is identified when the first field contains "ClOrdId".

Floor Broker Order File Record Layout (Version 1.5)

Seq	Field	Data Type	Description	Option Leg Required	Stock Leg Required	Floor Usage
1	ClOrdId	Alphanumeric	Unique ID chosen by user, which is the same value for all leg records for a given order. (FIX Tag 11)	Required	Required	Both
2	OrderCapacity	Alphanumeric	Order Capacity: C = Customer F = Firm B = Broker Dealer M = Market Maker N = Away Market Maker U = Professional J = JBO L = Non-TPH Affiliate of a Clearing TPH (FIX Tag 47)	Required	N/A	Both
3	CMTA	Whole Number	Customer Member Transfer Agreement (CMTA) Number of the firm that will clear the trade. (FIX Tag 439)	Optional	Optional	Both

6 Revision History

Version	Date	Description
1.0	03/05/19	Version 1.0
1.1	04/01/19	Added PriceType to support pricing of FLEX percentages and Cabinet orders
1.2	06/03/19	Renamed <i>OrderRoutedTime</i> to <i>TransactTime</i> . <i>TransactTime</i> will reflect the timestamp of the associated <i>TransType</i>
1.3	08/05/19	Removed <i>OrderInitiatedTime</i> and <i>OrderEntryTime</i> . <i>TransactTime</i> will coincide with update <i>TransType</i> values
1.4	08/21/19	Added <i>TransType</i> value when canceling order received on floor and routed away.
1.5	9/30/19	<i>TransactTime</i> is now required. Indicate that a header row is optional. Add field numbers for reference.
