Trading on the CBOE in existing series of ENERQ options will be subject to the following restrictions. Only closing transactions may be affected in any series of ENERQ options except for (i) opening transactions by Market-Makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE TPH organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).
