

Regulatory Circular RG15-008

Date: January 20, 2015

To: Trading Permit Holders
From: Market Operations Department
RE: Restrictions on Transactions in UBS AG (OUBS)

Effective as of January 16, 2015, UBS AG (OUBS) was delisted from the NYSE and moved its listing to the Other-OTC market under the symbol OUBS. Therefore, trading in OUBS options as of January 20, 2015 will be subject to restrictions.

Trading on CBOE in existing series of OUBS options will be subject to the following restrictions. Only closing transactions may be affected in any series OUBS options except for (i) opening transactions by Market-Makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE TPH organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).

The execution of opening transactions in OUBS options, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action. TPH organizations should ensure that they have appropriate procedures in place to prevent their customers from entering opening orders in this restricted option class. In addition, transactions in contravention of this restriction may be subject to nullification pursuant to Exchange Rule 6.25.

There are no restrictions in place with respect to the exercise of OUBS options.

In addition, effective January 20, 2015 the Automated Improvement Mechanism (AIM) will be deactivated in all series of UBS AG (OUBS). Any reactivation of AIM in the above-listed class in the future will be announced via Regulatory Circular.
