**Subject: WisdomTree Emerging Markets Corporate Bond Fund**

**Background Information on the Fund**

As more fully explained in the Registration Statement (Nos. 333-132380 and 811-21864), the WisdomTree Trust (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), consisting of several investment portfolios. This circular relates only to the WisdomTree Emerging Markets Corporate Bond Fund (the "Fund"). The shares of the Fund are referred to herein as "Shares." WisdomTree Asset Management, Inc. (the "Adviser") is the investment adviser to the Fund.

**Description of the Fund**

The Fund seeks a high level of total return consisting of both income and capital appreciation. The Fund seeks to achieve its investment objective through investment in debt securities issued by corporate entities that are domiciled in, or economically tied to, emerging market countries. The issuers of such debt will include public, private, and state-owned or sponsored corporations. Under normal circumstances, the Fund will invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in Corporate Debt. For these purposes, Corporate Debt includes fixed income securities, such as bonds, notes, money market securities and other debt obligations (such as loan participation notes) of emerging market issuers. Corporate Debt does not include derivatives. The Fund is an actively managed exchange traded fund ("ETF").

The Fund intends to focus its investment on Corporate Debt issued in U.S. dollars. The Fund also may invest in Corporate Debt denominated in the local currency of emerging market countries. Non-U.S. dollar denominated debt is sometimes referred to as "local debt." Local debt provides exposure to changes in the value of such non-U.S. currencies against the U.S. dollar. Corporate Debt includes debt securities issued by supranational organizations, such as the European Investment Bank, International Bank for Reconstruction and Development or International Finance Corporation, or other regional development banks. The Fund may invest to a limited extent in debt securities of emerging market governments (also known as "sovereign debt") and debt securities linked to inflation rates in emerging market countries.

The Fund intends to seek exposure to Corporate Debt from the following regions: Asia, Latin America, Eastern Europe, Africa and the Middle East. Within these regions, the Fund is likely to invest in countries such as: Argentina, Brazil, Chile, China, Colombia, Hong Kong, India,

Indonesia, Israel, Jamaica, Kazakhstan, Malaysia, Mexico, Peru, the Philippines, Poland, Qatar, Russia, Singapore, Saudi Arabia, South Africa, South Korea, Taiwan, Thailand, Trinidad & Tobago, Turkey, Ukraine, the United Arab Emirates, and Venezuela. This list may change based on market developments. The Fund employs a structured investment approach that utilizes "top down" analysis of macroeconomic factors and "bottom up" analysis of emerging market countries and issuers. The Fund's credit exposures are consistently monitored from a risk perspective and may be modified, reduced or eliminated. The Fund's exposure to any single issuer generally will be limited to 10% of the Fund's net assets. The Fund's exposure to any single country generally will be limited to 30% of the Fund's net assets. The percentage of Fund assets invested in a specific region, country or issuer will change from time to time.

The universe of emerging market Corporate Debt currently includes securities that are rated "investment grade" as well as "non-investment grade" (commonly referred to as "junk bonds"). The Fund intends to provide a broad exposure to emerging market Corporate Debt and therefore will invest in both investment grade and non-investment grade securities. Securities rated investment grade generally are considered to be of higher credit quality and subject to lower default risk. Although securities rated below investment grade may offer the potential for higher yields, they generally are subject to a higher potential risk of loss.

The Fund attempts to limit interest rate risk by maintaining an aggregate portfolio duration of between two and ten years under normal market conditions. Aggregate portfolio duration is important to investors as an indication of the Fund's sensitivity to changes in interest rates. Funds with higher durations generally are subject to greater interest rate risk. An aggregate portfolio duration of between two and ten years generally would be considered to be "intermediate." The Fund's actual portfolio duration may be longer or shorter depending upon market conditions. The Fund may also invest in short-term money market securities denominated in U.S. dollars or the currencies of countries in which the Fund invests.

The Fund may invest up to 20% of its net assets in derivatives, such as swaps and forward currency contracts. A swap is an agreement between two parties to exchange payments based on a reference asset, which may be a currency or interest rate but also may be a single asset, a pool of assets or an index of assets. A forward currency contract is an agreement to buy or sell a specific currency at a future date at a price set at the time of the contract. The Fund's use of derivatives will be underpinned by investments in cash or other liquid assets (typically short-term, high-quality money market securities). The Fund also may enter into repurchase agreements with counterparties that are deemed to present acceptable credit risks. A repurchase agreement is a transaction in which the Fund purchases securities or other obligations from a bank or securities dealer and simultaneously agrees to resell them to a counterparty at an agreed-upon date or upon demand and at a price reflecting a market rate of interest unrelated to the coupon rate or maturity of the purchased obligations.

The Fund must invest at least 80% of its net assets directly in Corporate Debt. The decision to secure exposure through direct investment in Corporate Debt or indirectly through derivative transactions will be a function of, among other things, market accessibility, credit exposure, tax ramifications and regulatory requirements applicable to U.S. investment companies. If, subsequent to an investment, the Fund's 80% requirement is no longer met, the Fund's future

investments will be made in a manner that will bring the Fund into compliance with this policy. The Trust will provide shareholders with sixty (60) days' prior notice of any change to this policy for the Fund.

As described more fully in the Trust's prospectus and Statement of Additional Information ("SAI"), the Fund issues and redeems Shares at net asset value ("NAV") only in large blocks of shares, respectively, (each block of Shares called a "Creation Unit") or multiples thereof. Each Creation Unit consists of 100,000 shares. As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund. The Fund generally issues and redeems Creation Units in exchange for a portfolio of fixed income securities closely approximating the holdings of the Fund or a designated basket of non-U.S. currency and/or an amount of U.S. cash.

Dividends from net investment income, if any, are declared and paid at least monthly by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid annually.

The Depository Trust Company will serve as securities depository for the Shares, which may be held only in book-entry form; stock certificates will not be issued. DTC, or its nominee, is the record or registered owner of all outstanding Shares.

The NAV of the Fund's Shares is calculated once daily each day the Exchanges are open for business (a "Business Day") as of the close of regular trading on the Exchanges, generally 4:00 p.m. Eastern time. NAV per share is calculated by dividing the Fund's net assets by the number of the Fund's Shares outstanding. In calculating the Fund's NAV, Fund investments generally are valued using market valuations. NAV will be available from the Distributor and is also available to NSCC participants through data made available to NSCC. Short-term debt securities with remaining maturities of 60 days or less generally are valued on the basis of amortized cost. U.S. fixed income assets may be valued as of the announced closing time for such securities on any day that the Securities Industry and Financial Markets Association announce an early closing time.

The fund is subject to various fees and expenses as described in the Fund's Registration Statement. The Fund's registration statement describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and the Index, visit [www.wisdomtree.com](http://www.wisdomtree.com).

### **Principal Risks**

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include: investment risk, market risk, trading at prices other than NAV, capital controls risk, cash redemption risk, counterparty and issuer credit risk, currency exchange rate risk, derivatives investment risk, emerging markets risk, high yield securities risk, interest rate risk, management risk, non-diversification risk and repurchase agreement risk.

## **Exchange Rules Applicable to Trading in the Shares**

The Shares are considered equity securities, thus rendering trading in the Shares subject to the Exchanges' existing rules governing the trading of equity securities.

## **Trading Hours**

Trading in the Shares on EDGA and EDGX Exchanges (the "Exchanges") is on a UTP basis and is subject to the Exchanges equity trading rules. The Shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the Shares during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value ("IIV"). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

## **Trading Halts**

The Exchanges will halt trading in the Shares in accordance with Exchange Rules 14.1(c)(4). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Shares and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, the Exchanges will stop trading the Shares if the primary market de-lists the Shares.

## **Suitability**

Trading in the Shares on the Exchanges will be subject to the provisions of EDGA and EDGX Exchange Rules 3.7. Members recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the "know your customer" obligation that is embedded in Exchange Rules 3.7.

Members also should review FINRA Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

## **Delivery of a Prospectus**

Pursuant to federal securities laws, investors purchasing Shares must receive a prospectus prior to or concurrently with the confirmation of a transaction. Investors purchasing Shares directly from the Funds (by delivery of the Deposit Amount) must also receive a prospectus.

Prospectuses may be obtained through the Distributor or on the Funds' website. The Prospectus does not contain all of the information set forth in the registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Funds, please refer to the Trust's registration statement.

## **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Fund.

## **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The Commission issued a No-Action Letter by which persons participating in a distribution of shares of a fund may engage in secondary market transactions in such shares during their participation in such a distribution, despite the requirements of from Rule 101 under Regulation M. In addition, the SEC has permitted persons who may be deemed to be participating in the distribution of shares of a fund (i) to purchase securities for the purpose of purchasing creation unit aggregations of fund shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the Commission has clarified that the tender of fund shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds' securities during the restricted period of Rule 101. The Commission has issued a No-Action Letter to paragraph (e) of Rule 102 under Regulation M which allow the redemption of fund shares in creation unit aggregations during the continuous offering of shares.

## **Customer Confirmations for Creation or Redemption of Fund Shares (SEC Rule 10b-10)**

Broker-dealers who handle purchases or redemptions of Fund shares in Creation Units for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing creation unit aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust to the redeeming holder ("Redemption Securities"). The

composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

1. Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
2. Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
3. Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

### **SEC Rule 14e-5**

The Commission has permitted any person acting as a dealer-manager of a tender offer for a component security of fund (1) to redeem fund shares in creation unit aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase fund shares during such tender offer. In addition, a No-Action has been issued under Rule 14e-5 states that if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more creation unit aggregations of shares, it must be made in conformance with the following:

- i. such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- ii. purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- iii. such bids or purchases are not affected for the purpose of facilitating such tender offer.

### **Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2**

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The Commission has clarified that Section 11(d)(1) does not apply to broker-dealers that are not authorized participants (and, therefore, do not create creation unit aggregations) that engage in both proprietary and customer transactions in shares of a fund in the secondary market, and for broker-dealer authorized participants that engage in creations of creation unit aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an authorized participant) does not, directly or indirectly, receive from the fund complex

any payment, compensation or other economic incentive to promote or sell the shares of a fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830 (I)(5)(A), (B) or (C). See letter dated November 22, 2005 from Brian A Bussey, Assistant Chief Counsel, SEC Division of Market Regulation, to Barclays Global Investors, N.A., dated November 22, 2005. The Commission has issued a No-Action Letter under Section 11(d)(1) of the Act states that broker-dealers may treat shares of a fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

### **SEC Rule 15c1-5 and 15c1-6**

The Commission has issued a No-Action letter with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of fund shares and secondary market transactions therein.

**This Regulatory Information Circular is not a statutory Prospectus. Members should consult the Trust's Registration Statement, SAI, Prospectus and the Funds' [website](#) for relevant information.**
