Subject: **Barclays ETN+ FI Enhanced Europe 50 ETNs**

Background Information on the Notes

As more fully explained in the Pricing Supplement to the Registration Statement (No. 333-169119) for Barclays Bank PLC, the issuer ("Issuer") of the fund, the Issuer may issue from time to time, Barclays ETN+ FI Enhanced Europe 50 ETN (the "ETNs"), that are linked to the leveraged participation in the performance of the STOXX Europe 50® USD (Gross Return) Index (the "Index").

Ticker	Fund Name	CUSIP
FEEU	Barclays ETN+ FI Enhanced Europe 50 ETNs	06742C129

Description of the Notes

The return on the ETNs is linked to a leveraged participation in the performance of the Index. The Index is composed of 50 European blue-chip companies (the "Index Constituents") selected from within the STOXX Europe 600 Index (the "Parent Index"). The Parent Index contains the 600 largest stocks traded on the major exchanges of 18 European countries: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom. The Index is calculated, maintained and published by STOXX Limited (the "index sponsor"), which launched the Index on March 27, 2012. The intraday level and the official closing level of the Index are reported by the index sponsor on Bloomberg page "SX5PGV <Index>".

The ETNs are unsecured indebtedness of the Issuer and are not secured debt. The ETNs are Global Medium-Term Notes, Series A. The ETNs are riskier than ordinary unsecured debt securities. The return on the ETNs is linked to the performance of the Index. Investing in the ETNs is not equivalent to investing directly in the Index, the Index Constituents or the equity securities underlying the Index Constituents. The maturity date of the ETNs is June 5, 2018.

Payment at Maturity

If you hold your ETNs to maturity, you will receive a cash payment per ETN at maturity in U.S. dollars in an amount equal to (a) the closing indicative note value on the final valuation date minus (b) the settlement charge on the final valuation date.

On the initial valuation date, the closing indicative note value will equal $100. The closing indicative note value for each ETN on any subsequent valuation date will equal (a) the long index amount on such valuation date minus (b) the financing level on such valuation date, provided that if such calculation results in a negative value, the closing indicative note value will be $0.

On the initial valuation date, the long index amount for each ETN will equal $200, which is equal to the initial leverage factor of 2 times the principal amount per ETN. On any subsequent valuation date, the long index amount for each ETN will equal the product of (a) the long index amount on the immediately preceding valuation date times (b) the index performance factor on such valuation date minus (c) the rebalancing amount (if any) on such valuation date. The long index amount will be published on each valuation date under the ticker symbol "FEEU.LIA".

The initial leverage factor will equal 2. On any valuation date, the leverage factor will equal (a) the long index amount on such valuation date divided by (b) the closing indicative note value on such valuation date. The leverage factor will be published under the ticker symbol "FEEU.LF".

The index performance factor on the initial valuation date will equal 1. On any subsequent valuation date, the index performance factor will equal (a) the closing level of the Index on such valuation date divided by (b) the closing level of the Index on the immediately preceding valuation date.

Holder Redemption

A holder, as defined in the Pricing Supplement to the Prospectus, may, subject to certain restrictions, choose to redeem their ETNs on any redemption date during the term of the ETNs. If an investor redeems ETNs on a particular redemption date, the investor will receive a cash payment per ETN equal to the closing indicative value on the applicable valuation date minus the redemption charge. Investors must redeem at least 10,000 ETNs of the same series at one time in order to exercise the right to redeem the ETNs on any redemption date.

Issuer Redemption

The Issuer may redeem the ETNs (in whole but not in part) at its sole discretion on any trading day on or after the inception date until and including maturity. To exercise its right to redeem, the Issuer must deliver notice to the holders of the ETNs not less than 10 calendar days prior to the redemption date specified by the Issuer in such notice. If the Issuer redeems the ETNs, investors will receive a cash payment in U.S. dollars per ETN in an amount equal to the closing indicative value on the applicable valuation date that is three trading days prior to the redemption date specified in the notice.

Redemption Date

In the case of holder redemption, a redemption date is the 3rd business day following any valuation date (other than the final valuation date). The final redemption date will be the 3rd business day following the valuation date that is immediately prior to the final valuation date.

In case of issuer redemption, the redemption date is the date specified by us in the issuer redemption notice, which will in no event be prior to the 10th calendar day following the date on which we deliver such notice, but in any case not later than the maturity date. In case of an automatic termination event, the redemption date will be the fifth business day following the automatic termination date; provided that if calculation of the automatic redemption value is postponed as a result of a market disruption event, the redemption date will be the 5th business day after the automatic redemption value is calculated.

Principal Risks

Interested persons are referred to the Pricing Supplement to the Prospectus for a description of the most significant risks associated with an investment in the ETNs. These risks include risks relating to the return on the ETNs; risks relating to the Index; risks relating to liquidity and the secondary market; risks relating to conflicts of interest and hedging.

For a more complete description of the securities and the payment at maturity, early repurchase provisions, early repurchase mechanics, valuation, fees and risk factors, consult the ETNs' Pricing Supplement to the Prospectus.

Exchange Rules Applicable to Trading in the Notes

The Notes are considered equity securities, thus rendering trading in the Notes subject to EDGA Exchange, Inc. and EDGX Exchange, Inc.'s (together, the "Exchanges") existing rules governing the trading of equity securities.

Trading Hours

Trading in the ETNs on the Exchanges is on a UTP basis and is subject to the Exchanges equity trading rules. The Notes will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the Notes during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value ("IIV"). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

Trading Halts

The Exchanges will halt trading in the Notes in accordance with Exchange Rules 14.1(c)(4). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Notes and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, the Exchanges will stop trading the Notes if the primary market de-lists the Notes.

Suitability

Trading in the Notes on the Exchanges will be subject to the provisions of Exchange Rules 3.7. Members recommending transactions in the Notes to customers should make a determination that the recommendation is suitable for the customer. In addition, Members must possess sufficient information to satisfy the "know your customer" obligation that is embedded in Exchange Rules 3.7.

Members also should review FINRA Notice to Members 03-71 for guidance on trading these products. The Notice reminds Members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

Delivery of a Prospectus

Pursuant to federal securities laws, investors purchasing Notes must receive a prospectus prior to or concurrently with the confirmation of a transaction. Investors purchasing Notes directly from the Fund (by delivery of the Deposit Amount) must also receive a prospectus.

The prospectus may be obtained through the Distributor or on the Fund's website. The Prospectus does not contain all of the information set forth in the registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to the Trust's registration statement.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The SEC has issued exemptive, interpretive or no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 (the "Act") regarding trading in the above mentioned exchange-traded Fund.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The Commission issued a No-Action Letter by which persons participating in a distribution of shares of a fund may engage in secondary market transactions in such shares during their participation in such a distribution, despite the requirements of from Rule 101 under Regulation M. In addition, the SEC has permitted persons who may be deemed to be participating in the distribution of shares of a fund (i) to purchase securities for the purpose of purchasing creation unit aggregations of fund shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the Commission has clarified that the tender of fund shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The Commission has issued a No-Action Letter relating to paragraph (e) of Rule 102 under Regulation M which allow the redemption of fund shares in creation unit aggregations during the continuous offering of shares.

Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in shares of the Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the shares of the Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat shares of the Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC Rule 15c1-5 and 15c1-6

The Commission has issued a No-Action letter with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of fund shares and secondary market transactions therein.

This Regulatory Information Circular is not a statutory Prospectus. Members should consult the Trust's Registration Statement and Pricing Supplement to the Prospectus and the Fund's website for relevant information.
