**Subject:** ALPS International Sector Dividend Dogs ETF

**Background Information on the Fund**

As more fully explained in the [Registration Statement](#) (Nos. 333-148826 and 811-22175), ALPS ETF Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended. The Trust consists of several exchange-traded funds, including that listed below (the “Fund”). The shares of the Fund are referred to herein as “Shares.” The Fund is an actively-managed exchanged-traded fund (“ETF”).

ALPS Advisors, Inc. serves as the investment adviser to the Fund (the “Adviser”). ALPS Distributors, Inc. serves as the Distributor for the Fund. The Bank of New York Mellon is the custodian, fund accounting agent and transfer agent for the Fund. Rich Investment Solutions, LLC is the sub-adviser to the Fund (the “Sub-Adviser”).

Ticker	Fund Name	CUSIP
IDOG	ALPS International Sector Dividend Dogs ETF	00162Q718

**Description of the Fund**

The Fund seeks investment results that replicate as closely as possible, before fees and expenses, the performance of the S-Net International Sector Dividend Dogs Index (the “Underlying Index”).

The Adviser will seek to match the performance of the Underlying Index. The Underlying Index is a rules-based index intended to give investors a means of tracking the overall performance of the highest dividend paying stocks (i.e. “Dividend Dogs”) in the S-Net International Developed Markets (ex-Americas) Index, a universe of mainly large capitalization stocks in international developed markets not located in the Americas (the “S-Net Developed Markets”) on a sector-by-sector basis. “Dividend Dogs” refers to the five stocks in each of the ten Global Industry Classification Standard (“GICS”) sectors that make up the S-Net Developed Markets which offer the highest dividend yields.

The Underlying Index generally consists of 50 stocks on each annual reconstitution date, which is the third Friday of December each year. The Underlying Index’s stocks must be constituents of the S-Net Developed Markets universe, which includes stocks whose domicile

and primary exchange listings are in countries in Europe, Australia and the Far East and identified by the World Bank as High Income Countries, and excludes stocks from countries a) located in the Americas, b) that do not have stock exchanges, c) were members of the former Comecon and d) whose companies, in the opinion of the Index Provider, have idiosyncratic dividend policies. The World Bank's methodology for identifying High Income Countries is based on the country's gross national income (GNI) per capita. The selection criteria for the universe also includes requirements for sector inclusion, primary exchange listing, minimum market capitalization, share price, average daily trading volume and other factors.

The Underlying Index methodology selects the five stocks in each of the ten GICS sectors that make up the S-Net Developed Markets which offer the highest dividend yields as of the last trading day of November. Dividend yield is computed based on the regular cash dividends paid by the company over the previous twelve month period, divided by the share price. The eligible stocks that are selected for inclusion in the Underlying Index's portfolio are equally weighted. If there are less than 5 eligible securities represented in any sector, then the Underlying Index will include only those securities that qualify. The Underlying Index is rebalanced quarterly.

The Underlying Index was developed by S-Network Global Indexes LLC (the "Index Provider"), and its publication began on June 10, 2013. Standard & Poor's serves as calculation agent. Underlying Index values are distributed to the public via the Chicago Mercantile Exchange throughout the day, between the hours of 7:00 p.m. and 4:30 p.m. Eastern time the following day, at 15 second intervals under the symbol "IDOGX."

The Adviser seeks a correlation over time of 0.95 or better between the Fund's performance, before fees and expenses, and the performance of the Underlying Index. A figure of 1.00 would represent perfect correlation.

The Fund generally will invest in all of the securities that comprise the Underlying Index in proportion to their weightings in the Underlying Index. However, under various circumstances, it may not be possible or practicable to purchase all of the securities in the Underlying Index in those weightings. In those circumstances, the Fund may purchase a sample of the securities in the Underlying Index in proportions expected by the Adviser to replicate generally the performance of the Underlying Index as a whole. There may also be instances in which the Adviser may choose to overweight another security in the Underlying Index, purchase (or sell) securities not in the Underlying Index which the Adviser believes are appropriate to substitute for one or more Underlying Index components or utilize various combinations of other available investment techniques, in seeking to replicate, before fees and expenses, the performance of the Underlying Index. In addition, from time to time securities are added to or removed from the Underlying Index. The Fund may sell securities that are represented in the Underlying Index or purchase securities that are not yet represented in the Underlying Index in anticipation of their removal from or addition to the Underlying Index.

As described more fully in the Trust's [prospectus](#) ("Prospectus") and [statement of additional information](#) ("SAI"), the Fund will issue and redeem Shares on a continuous at net asset value ("NAV") only with authorized participants ("APs") and only in large blocks of at

least 50,000 Shares (each block of Shares called a "Creation Unit") or multiples thereof ("Creation Unit Aggregations") in exchange for the deposit or delivery of a basket of securities. As a practical matter, only broker-dealers, or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Dividends from net investment income, if any, are declared and paid at least quarterly by the Fund. Distributions of net realized securities gains, if any, generally are declared and paid annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Fund and is recognized as the owner of all Shares for all purposes.

The NAV of the Fund is generally determined as of the close of trading (normally 4:00 p.m., Eastern time) on each day the NASDAQ Stock Market is open for business. The NAV of the Fund is calculated by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of outstanding shares of the Fund, generally rounded to the nearest cent.

The Fund's [registration statement](#) describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and its underlying portfolio, visit [www.alpsfunds.com](http://www.alpsfunds.com).

### **Principal Risks**

Interested persons are referred to the discussion in the [prospectus](#) for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing the Fund's performance to not match the performance of the underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, equity risk, foreign securities risk and currency risk.

### **Exchange Rules Applicable to Trading in the Shares**

The Shares are considered equity securities, thus rendering trading in the Shares subject to the Exchanges existing rules governing the trading of equity securities.

### **Trading Hours**

Trading in the Shares on the Exchanges is on a UTP basis and is subject to the Exchanges' equity trading rules. The Shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the Shares during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value ("IIV"). For certain derivative securities

products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

### **Trading Halts**

The Exchanges will halt trading in the Shares in accordance with Exchange Rules 14.1(c)(4). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Shares and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, the Exchanges will stop trading the Shares if the primary market de-lists the Shares.

### **Suitability**

Trading in the Shares on the Exchanges will be subject to the provisions of Exchange Rules 3.7. Members recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer. In addition, Members must possess sufficient information to satisfy the “know your customer” obligation that is embedded in Exchange Rules 3.7.

Members also should review FINRA Notice to Members 03-71 for guidance on trading these products. The Notice reminds Members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

### **Delivery of a Prospectus**

Pursuant to federal securities laws, investors purchasing Shares must receive a prospectus prior to or concurrently with the confirmation of a transaction. Investors purchasing Shares directly from the Fund (by delivery of the Deposit Amount) must also receive a prospectus.

The prospectuses may be obtained through the Distributor or on the Fund’s [website](#). The Prospectus does not contain all of the information set forth in the registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to the Trust’s [registration statement](#).

### **Regulation M Exemptions**

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and

its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The Commission issued a No-Action Letter by which persons participating in a distribution of shares of a fund may engage in secondary market transactions in such shares during their participation in such a distribution, despite the requirements of from Rule 101 under Regulation M. In addition, the SEC has permitted persons who may be deemed to be participating in the distribution of shares of a fund (i) to purchase securities for the purpose of purchasing creation unit aggregations of fund shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the Commission has clarified that the tender of fund shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The Commission has issued a No-Action Letter relating to paragraph (e) of Rule 102 under Regulation M which allow the redemption of fund shares in creation unit aggregations during the continuous offering of shares.

### **Customer Confirmations for Creation or Redemption of Fund Shares (SEC Rule 10b-10)**

Broker-dealers who handle purchases or redemptions of Fund shares in Creation Units for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing creation unit aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

1. Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
2. Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
3. Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

### **SEC Rule 14e-5**

The Commission has permitted any person acting as a dealer-manager of a tender offer

for a component security of fund (1) to redeem fund shares in creation unit aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase fund shares during such tender offer. In addition, a No-Action has been issued under Rule 14e-5 states that if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more creation unit aggregations of shares, it must be made in conformance with the following:

1. such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
2. purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
3. such bids or purchases are not effected for the purpose of facilitating such tender offer.

#### **Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2**

Section 11(d)(1) of the Securities Exchange Act of 1934 (the "Act") generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The Commission has clarified that Section 11(d)(1) does not apply to broker-dealers that are not authorized participants (and, therefore, do not create creation unit aggregations) that engage in both proprietary and customer transactions in shares of a fund in the secondary market, and for broker-dealer authorized participants that engage in creations of creation unit aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an authorized participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the shares of a fund to persons outside the fund complex, other than non-cash compensation permitted under NASD (now FINRA) Rule 2830 (I)(5)(A), (B) or (C). See letter dated November 22, 2005 from Brian A Bussey, Assistant Chief Counsel, SEC Division of Market Regulation, to Barclays Global Investors, N.A., dated November 22, 2005. The Commission has issued a No-Action Letter under Section 11(d)(1) of the Act now states that broker-dealers may treat shares of a fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

#### **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The SEC Division of Trading and Markets has issued revised Staff Legal Bulletin No. 9 (Revised September 10, 2010) (“Staff Bulletin”, available at [www.sec.gov](http://www.sec.gov), at Staff Legal Bulletins, SLB 9), in which the Division has granted exceptions from certain provisions of Regulation M (Rules 101(c)(4) and 102(d)(4)), under the Securities Exchange Act of 1934 (“1934 Act”) with respect to certain transactions in Shares of actively-managed ETFs. The Fund relies on the exceptions stated in the Staff Bulletin. The Fund also relies on the relief granted in a letter dated June 16, 2011 from Joseph Furey, Acting Co-Chief Counsel, Division of Trading and Markets, to W. John McGuire, Morgan, Lewis & Bockius LLP, regarding Section 11(d)(1) of the 1934 Act and Rules 10b-10, 11d1-2, 15c1-5, and 15c1-6 thereunder.

The Staff Bulletin states, that (1) the Rule 101(c)(4) exception is available to permit persons who may be deemed to be participating in a distribution of actively managed ETF Shares to bid for or purchase such Shares during their participation in a distribution, and (2) the Rule 102(d)(4) exception is available to permit an open-end investment company to redeem actively managed ETF Shares, if the following conditions are met: (i) the Shares are issued by a registered open-end investment company; (ii) the Shares are exchange listed and exchange traded; (iii) the ETF continuously redeems the Shares at net asset value (NAV); (iv) a close alignment between the Shares' secondary market price and the ETF's NAV is expected; (v) on each day the Shares trade, prior to commencement of such trading, the ETF discloses on its website the identities and quantities of the securities and assets held by the ETF which will form the basis of the calculation of the ETF's NAV at the end of such day; (vi) the exchange listing the Shares or other information provider disseminates every 15 seconds throughout the trading day, through the facilities of the Consolidated Tape Association, an amount representing on a per Share basis the sum of the current value of the securities, assets, and cash required to create new Shares (intraday indicative value or IIV); (vii) arbitrageurs are expected to take advantage of price variations between Shares' secondary market price and the ETF's NAV; and (viii) the arbitrage mechanism will be facilitated by the transparency of the ETF's portfolio, the availability of the IIV, the liquidity of the ETF's portfolio securities, the ability to access such securities, and the arbitrageurs' ability to create workable hedges.

In addition, the Staff Bulletin states that the redemption of creation unit sized aggregations of ETF Shares and the receipt of securities in exchange therefore by persons who may be deemed to be participating in a distribution of Shares do not constitute an "attempt to induce any person to bid for or purchase" a covered security during an applicable restricted period for purposes of Rule 101, but only if the redemptions are not made for the purpose of creating actual, or apparent, active trading in or raising or otherwise affecting the price of Shares or the securities received in exchange for the Shares redeemed.

### **SEC Rule 15c1-5 and 15c1-6**

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Shares of the Fund and secondary market transactions therein. (See [letter](#) from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)
