Subject: Market Index Target Term Securities Linked to the Dow Jones Industrial Average,

Background Information on the Notes

Bank of America (the "Issuer") has issued Market Index Target-Term Securities ("MITTS") linked to the Dow Jones Industrial Average (the "Index"). The Notes were priced at \$10 each and mature on March 27, 2015.

The MITTS are senior unsecured debt securities. The MITTS are not guaranteed or insured by the Federal Deposit Insurance Corporation (the "FDIC") or secured by collateral, and they are not guaranteed under the FDIC's Temporary Liquidity Guarantee Program. The MITTS will rank equally with all of the Issuer's other unsecured and unsubordinated debt, and any payments due on the MITTS, including any repayment of principal, will be subject to the credit risk of the Issuer. The MITTS provide investors with a 100% participation rate in increases in the level of the Index from the Starting Value of the Index, determined on the pricing date, to the Ending Value of the Index, determined during the Maturity Valuation Period shortly before the maturity date. Investors must be willing to forgo interest payments on the MITTS.

At maturity, investors will receive:

- If the Ending Value of the Index is greater than the Starting Value of the Index:

$$\$10 + [\$10 \times ((\text{Ending Value} - \text{Starting Value}) / \text{Starting Value})]$$

- If the Ending Value of the Index is less than the Starting Value of the Index:

$$\$10$$

The Starting Value of the Index is 10,836.15. The Ending Value of the Index will be determined closer to the maturity date.

Please see the prospectus for the Notes for more details regarding the calculations and details regarding the Index.

Principal Risks

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to

maturity, the dividend yield of the stocks comprising the Index, and the credit rating of the Issuer.

Exchange Rules Applicable to Trading in the Shares

The Shares are considered equity securities, thus rendering trading in the Shares subject to the Exchanges' existing rules governing the trading of equity securities.

Trading Hours

Trading in the shares on EDGA and EDGX Exchanges (the "Exchanges") is on a UTP basis and is subject to the Exchanges' equity trading rules. The shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the shares during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value ("IIV"). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

Trading Halts

The Exchanges will halt trading in the Shares of a Trust in accordance with Exchange Rules 14.1(c)(4). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Shares and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, the Exchanges will stop trading the Shares of a Trust if the primary market de-lists the Shares.

Suitability

Trading in the Shares on the Exchanges will be subject to the provisions of EDGA and EDGX Exchange Rules 3.7. Members recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the "know your customer" obligation that is embedded in Exchange Rules 3.7.

Members also should review FINRA Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

This Regulatory Information Circular is not a statutory Prospectus. Members should consult the Trust's Registration Statement, SAI, Prospectus and the Fund's website for relevant information.
