**Subject: SPDR Barclays Capital Investment Grade Floating Rate ETF
SPDR Barclays Capital Short Term Treasury ETF**

Background Information on the Funds

As more fully explained in the Registration Statement (Nos. 333-57793 and 811-08839) for SPDR[®] Series Trust ("Trust"), the Trust is an open-end management investment company registered under the Investment Company Act of 1940, as amended ("1940 Act"), that consists of separate exchange-traded funds, of which SPDR Barclays Capital Investment Grade Floating Rate ("Floating Rate Fund") and SPDR Barclays Capital Short Term Treasury ("Treasury Fund") are two portfolios (together, the "Funds"). The Funds are exchange-traded index funds ("ETF"). The shares of the Funds are referred to herein as "Shares."

Description of the Funds

SPDR Barclays Capital Investment Grade Floating Rate ETF

The Floating Rate Fund seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of Barclays Capital U.S. Floating Rate Note < 5 Years Index (the "Floating Rate Fund Index").

The Floating Rate Fund Index is designed to measure the performance of U.S. dollar-denominated, investment grade floating rate notes. Securities in the Index must have a remaining maturity of greater than or equal to one month and less than five years, and have \$300 million or more of outstanding face value. The Index consists of debt instruments that pay a variable coupon rate, a majority of which are based on the 3-month LIBOR, with a fixed spread. The Index may include U.S. registered, dollar denominated bonds of non-U.S. corporations, governments and supranational entities. Excluded from the Index are fixed rate bullet bonds, fixed-rate puttable and fixed-rate callable bonds, fixed rate and fixed to floating capital securities, bonds with equity-linked features (e.g. warrants and convertibles), inflation linked bonds and securitized bonds. The Index is market capitalization weighted and the securities in the Index are updated on the last calendar day of each month. As of July 29, 2011, there were approximately 325 securities in the Index.

SPDR Barclays Capital Short Term Treasury ETF

The Treasury Fund seeks to provide investment results that, before fees and expenses, correspond generally to the price and yield performance of the Barclays Capital 1-5 Year U.S. Treasury Index (the "Treasury Fund Index").

The Treasury Fund Index is designed to measure the performance of public obligations of the U.S. Treasury that have a remaining maturity of greater than or equal to 1 year and less than 5 years. The Index includes all publicly issued, U.S. Treasury securities that have a remaining maturity of greater than or equal to 1 year and less than 5 years, are rated investment grade, and have \$250 million or more of outstanding face value. In addition, the securities must be denominated in U.S. dollars and must be fixed rate and non-convertible. Excluded from the Index are certain special issues, such as flower bonds, targeted investor notes, state and local government series bonds, inflation protected public obligations of the U.S. Treasury, commonly known as "TIPS," and coupon issues that have been stripped from bonds included in the Index. Also excluded from the Index are structured notes with embedded swaps or other special features, private placements, floating rate securities and Eurobonds. The Index is market capitalization weighted and the securities in the Index are updated on the last business day of each month. As of September 30, 2011, there were approximately 113 securities in the Index and the modified adjusted duration of securities in the Index was approximately 2.68 years.

In seeking to track the performance of the Indexes, the Funds employ a sampling strategy, which means that the Funds are not required to purchase all of the securities represented in the Indexes. Instead, the Funds may purchase a subset of the securities in the Indexes in an effort to hold a portfolio of securities with generally the same risk and return characteristics of the Index.

The quantity of holdings in the Funds will be based on a number of factors, including asset size of the Funds. The investment adviser to the Funds generally expects the Fund to hold less than the total number of securities in the Indexes, but reserves the right to hold as many securities as it believes necessary to achieve the Fund's investment objective.

SSgA Funds Management, Inc. is the investment adviser to the Funds ("Adviser"). State Street Global Markets, LLC is the distributor for the Funds ("Distributor"). State Street Bank and Trust Company is the custodian, administrator, fund accounting agent and transfer agent for the Funds.

Under normal market conditions, the Funds generally invest substantially all, but at least 80%, of its total assets in the securities comprising the Indexes or in securities the Adviser determines have economic characteristics substantially identical to the economic characteristics of the securities that comprise the Indexes. The Funds will provide shareholders with at least 60 days' notice prior to any material change in this 80% investment policy. In addition, the Funds may invest in debt securities that are not included in the Indexes, cash and cash equivalents or money market instruments, such as repurchase agreements and money market funds (including money market funds advised by the Adviser).

As described more fully in the Trust's prospectus ("Prospectus") and Statement of Additional Information ("SAI"), the Funds will issue (or redeem) shares to certain institutional investors (typically market makers or other broker-dealers) only in large blocks of 100,000 shares known as "Creation Units." Creation Unit transactions are typically conducted in exchange for the deposit or delivery of in-kind securities and/or cash constituting a substantial replication, or a representation, of the securities included in the Funds' Indexes.

Income dividend distributions, if any, are generally distributed to shareholders monthly, but may vary significantly from month to month. Net capital gains are distributed at least annually.

Dividends may be declared and paid more frequently to improve Index tracking or to comply with the distribution requirements of the Internal Revenue Code.

The Depository Trust Company (“DTC”) serves as securities depository for the shares. Shares of the Funds are represented by securities registered in the name of DTC or its nominee, Cede & Co., and deposited with, or on behalf of, DTC. Except in the limited circumstance provided in the Prospectus and SAI, certificates will not be issued for shares.

The NAV per share for the Funds will be determined each business day, normally at the close of regular trading (ordinarily, 4:00 p.m. Eastern Standard Time (“ET”)) on the Exchanges. NAV is calculated by dividing the value of the net assets of each Fund (i.e., the total value of its assets less all liabilities) by the number of shares outstanding, rounded to the nearest cent. NAV will be available from the Distributor and will also be available to National Securities Clearing Corporation (“NSCC”) participants through data made available from NSCC.

The Trust’s registration statement for the [Floating Rate Fund](#) and the [Treasury Fund](#), describes the various fees and expenses for the Fund’s shares. For a more complete description of the Funds and the Indexes, visit www.spdrs.com.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund’s performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk, interest rate risk and liquidity risk.

Exchange Rules Applicable to Trading in the Shares

The Shares are considered equity securities, thus rendering trading in the shares subject to the Exchange's existing rules governing the trading of equity securities.

Trading Hours

Trading in the shares on EDGA and EDGX Exchanges (the “Exchanges”) is on a UTP basis and is subject to the Exchanges equity trading rules. The shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the shares during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value (“IIV”). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

Trading Halts

The Exchanges will halt trading in the shares in accordance with Exchange Rules 14.1(c)(4). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the shares and/or a halt because dissemination of the IIV or applicable currency spot

price has ceased, or a halt for other regulatory reasons. In addition, the Exchanges will stop trading the shares if the primary market de-lists the shares.

Suitability

Trading in the shares on the Exchanges will be subject to the provisions of EDGA and EDGX Exchange Rules 3.7. Members recommending transactions in the shares to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the "know your customer" obligation that is embedded in Exchange Rules 3.7.

Members also should review FINRA Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

Delivery of a Prospectus

Pursuant to federal securities laws, investors purchasing Shares must receive a prospectus prior to or concurrently with the confirmation of a transaction. Investors purchasing Shares directly from the Funds (by delivery of the Deposit Amount) must also receive a prospectus.

Prospectuses may be obtained through the Distributor or on the Fund's website. The Prospectus does not contain all of the information set forth in the registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Funds, please refer to the Funds' registration statements.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Commission has issued letters dated April 9, 2007, November 21, 2005 and August 17, 2001 (together, the "No- Action Letters") granting exemptive, interpretive and no-action relief from certain provisions of and rules under the Securities Exchange Act of 1934 for exchange-traded funds listed and traded on a registered national securities exchange that meet certain criteria. Members are referred to the No-Action Letters, available at www.sec.gov, for additional information. A description of the relief granted in the No- Action Letters follows.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The Commission issued a No-Action Letter by which persons participating in a distribution of

shares of a fund may engage in secondary market transactions in such shares during their participation in such a distribution, despite the requirements of from Rule 101 under Regulation M. In addition, the SEC has permitted persons who may be deemed to be participating in the distribution of shares of a fund (i) to purchase securities for the purpose of purchasing creation unit aggregations of fund shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the Commission has clarified that the tender of fund shares to each Fund for redemption does not constitute a bid for or purchase of any of the Funds' securities during the restricted period of Rule 101. The Commission has issued a No-Action Letter to paragraph (e) of Rule 102 under Regulation M which allow the redemption of fund shares in creation unit aggregations during the continuous offering of shares.

Customer Confirmations for Creation or Redemption of Fund Shares (SEC Rule 10b-10)

Broker-dealers who handle purchases or redemptions of Fund shares in Creation Units for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing creation unit aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemptions is subject to the following conditions:

1. Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
2. Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c);
3. Except for the identity, number and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

SEC Rule 14e-5

The Commission has permitted any person acting as a dealer-manager of a tender offer for a component security of fund (1) to redeem fund shares in creation unit aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase fund shares during such tender offer. In addition, a No-Action has been issued under Rule 14e-5 states that if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more creation unit aggregations of shares, it must be made in conformance with the following:

- i. such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchased; or
- ii. purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and

- iii. such bids or purchases are not effected for the purpose of facilitating such tender offer.

Section 11(d)(1); SEC Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The Commission has clarified that Section 11(d)(1) does not apply to broker-dealers that are not authorized participants (and, therefore, do not create creation unit aggregations) that engage in both proprietary and customer transactions in shares of a fund in the secondary market, and for broker-dealer authorized participants that engage in creations of creation unit aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an authorized participant) does not, directly or indirectly, receive from the fund complex any payment, compensation or other economic incentive to promote or sell the shares of a fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830 (I)(5)(A), (B) or (C). See letter dated November 22, 2005 from Brian A Bussey, Assistant Chief Counsel, SEC Division of Market Regulation, to Barclays Global Investors, N.A., dated November 22, 2005. The Commission has issued a No-Action Letter under Section 11(d)(1) of the Act states that broker-dealers may treat shares of a fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

SEC Rule 15c1-5 and 15c1-6

The Commission has issued a No-Action letter with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of fund shares and secondary market transactions therein.

This Regulatory Information Circular is not a statutory Prospectus. Members should consult the Trust's Registration Statements for the [Floating Rate Fund](#) and the [Treasury Fund](#), SAI, Prospectus and the Funds' [website](#) for relevant information.
