**Subject: Accelerated Return Notes Linked to the Energy Select Sector Index due on January 28, 2011**

### **Background Information on the Notes**

As more fully described in the Prospectus Supplement, the Accelerated Return Notes® linked to the Energy Select Sector Index due January 28, 2011 (the "Notes") are senior, unsecured debt securities of Aktiebolaget Svensk Exportkredit (Publ) (Swedish Export Credit Corporation) ("SEK") and are not guaranteed or insured by the Federal Deposit Insurance Corporation ("FDIC") or secured by collateral. The Notes will rank equally with all of SEK's other unsecured and unsubordinated debt, and any payments due on the Notes, including any repayment of principal, will be subject to the credit risk of SEK. The Notes provide a leveraged return for investors, subject to a cap, if the level of the Energy Select Sector Index (the "Index") increases moderately from the Starting Value of the Index, determined on the Pricing Date, to the Ending Value of the Index, determined on the Calculation Days shortly prior to the maturity date of the Notes.

For additional information regarding the Notes, including the applicable risk factors, please consult the Prospectus Supplement, filed with the Securities and Exchange Commission by SEK.

### **Exchange Rules Applicable to Trading in the Notes**

The Notes are considered equity securities, thus rendering trading in the Notes subject to the Exchange's existing rules governing the trading of equity securities.

### **Trading Hours**

Trading in the shares on EDGA and EDGX Exchanges (the "Exchanges") is on a UTP basis and is subject to the Exchanges equity trading rules. The shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the shares during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value ("IIV"). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

## **Trading Halts**

The Exchanges will halt trading in the Shares of a Trust in accordance with Exchange Rules 14.1(c)(4). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Shares and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, the Exchanges will stop trading the Shares of a Trust if the primary market de-lists the Shares.

**This Regulatory Information Circular is not a statutory Prospectus. Members should consult the Trust's Registration Statement, SAI, Prospectus and the Fund's website for relevant information.**
