Subject: Safety First Trust Series Principal Protected Certificates

Information on the Notes

The EDGA and EDGX Exchanges will begin trading, Safety First Trust Principal-Protected Certificates linked to the Dow Jones Industrial Average, the Nikkei 225 Index and the S&P 500 Index. The new securities were issued at \$10 each with a maturity date of November 22, 2010. The Certificates are guaranteed by the creditworthiness of Citigroup Funding Inc (Aa1/AA-).

At maturity for each Certificate, investors will receive the sum of (i) \$10.00 plus (ii) a Supplemental Distribution Amount calculated as follows:

- i. If the Final Basket Value is greater than the Initial Basket Value, the Supplemental Distribution Amount will equal the product of (i) \$10.00, (ii) the Index Return Percentage
- ii. Otherwise the Supplemental Distribution Amount will equal zero.

The Index Return Percentage is:

$$\frac{\text{Final Basket Value} - \text{Initial Basket Value}}{\text{Initial Basket Value}}$$

The Initial Basket Value is 100.

The notes are a series of unsecured debt issued by Safety First Trust and will be issued in book-entry form. The Trustee for the securities is *The Bank of New York*.

The market value of AZP will depend substantially on the value of the underlying index. Other factors that will likely affect the trading value of AZP are changes in interest rates, volatility of the index, time remaining to maturity, and the credit rating of the issuer.

Contact your Tax Advisor for information concerning taxation.

The Certificates will be quoted and trade as an equity issue in round lots of 100, and will trade "flat" without accrued interest.

Exchange Rules Applicable to Trading in the Notes

The Notes are considered equity securities, thus rendering trading in the Notes subject to the Exchange's existing rules governing the trading of equity securities.

Trading Hours

Trading in the shares on EDGA and EDGX Exchanges (the “Exchanges”) is on a UTP basis and is subject to the Exchanges equity trading rules. The shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the shares during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value (“IIV”). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

Trading Halts

The Exchanges will halt trading in the Shares of a Trust in accordance with Exchange Rules 14.1(c)(4). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Shares and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, the Exchanges will stop trading the Shares of a Trust if the primary market de-lists the Shares.
