Subject: DB Commodity Double Short Exchange Traded Notes
DB Commodity Double Long Exchange Traded Notes
DB Commodity Short Exchange Traded Notes
DB Commodity Long Exchange Traded Notes

Information on the Notes

Deutsche Bank AG (the "Issuer") has issued four Exchange-Traded Notes ("Notes") based on a total return version of the Deutsche Bank Liquid Commodity Index (the "Index"). DYY and DPU are linked to the Optimum Yield version of the Index and DEE and DDP are based on the standard version. The Notes were priced at \$25 each and mature on April 1, 2038. The Notes are not principal protected and do not pay any interest during their term.

The return on the Index is derived by combining the returns of two component indices: the DB 3-Month T-Bill Index (the "TBill index") and the Deutsche Bank Liquid Commodity Index (the "Commodity Index"). The Commodity Index is intended to reflect the changes in the market value of certain commodity futures contracts on crude oil, heating oil, corn, wheat, gold and aluminum. The T-Bill Index is intended to approximate the returns from investing in 3-month United States Treasury bills on a rolling basis.

DEE offers investors exposure to two times the monthly inverse performance of the Commodity Index plus the monthly TBill Index return, subject to the investor fee. DYY offers investors exposure to two times the monthly performance of the Commodity Index plus the monthly TBill Index return, subject to the investor fee. DDP offers investors exposure to the monthly inverse performance of the Commodity Index plus the monthly TBill Index return, subject to the investor fee. DPU offers investors exposure to the monthly performance of the Commodity Index plus the monthly TBill Index return, subject to the investor fee.

At maturity, if the Notes have not previously been repurchased by the Issuer (at the investor's election), investors will receive a cash payment per security equal to: (1) the current principal amount times (2) the applicable index factor on the final valuation date times (3) the fee factor on the final valuation date.

The index factor for DEE = $1 + \text{TBill Index return} - (2 \times \text{Commodity Index return})$
The index factor for DYY = $1 + \text{TBill Index return} + (2 \times \text{Commodity Index return})$

The index factor for DDP = 1 + TBill Index return – Commodity Index return
The index factor for DPU = 1 + TBill Index return + Commodity Index return

The final valuation date is March 29, 2038.

On any given day, the fee factor will be calculated as follows:

$$1 - [\text{investor fee} \times \text{day count fraction}]$$

The investor fee is equal to 0.75% per annum, calculated daily and applied monthly to the current principal amount.

Please refer to the prospectus for the Notes for additional information on the calculation of returns, fees and details regarding the underlying indices.

Trading in the Notes on the Exchange is on a UTP basis and is subject to member trading rules. The Notes will trade from 7:00 a.m. until 8:00 p.m. Eastern Time. Members recommending transactions in the Notes to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the “know your customer” obligation that is embedded in the Exchange Rules.

Exchange Rules Applicable to Trading in the Notes

The Notes are considered equity securities, thus rendering trading in the Notes subject to the Exchange's existing rules governing the trading of equity securities.

Trading Hours

Trading in the shares on EDGA and EDGX Exchanges (the “Exchanges”) is on a UTP basis and is subject to the Exchanges equity trading rules. The shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the shares during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value (“IIV”). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

Trading Halts

The Exchanges will halt trading in the Shares of a Trust in accordance with Exchange Rules 14.1(c)(4). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Shares and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, the Exchanges will stop trading the Shares of a Trust if the primary market de-lists the Shares.

Suitability

Trading in the Shares on the Exchanges will be subject to the provisions of EDGA and EDGX Exchange Rules 3.7. Members recommending transactions in the Shares to customers should make a determination that the recommendation is suitable for the customer. In addition, members must possess sufficient information to satisfy the “know your customer” obligation that is embedded in Exchange Rules 3.7.

Members also should review FINRA Notice to Members 03-71 for guidance on trading these products. The Notice reminds members of their obligations to: (1) conduct adequate due diligence to understand the features of the product; (2) perform a reasonable-basis suitability analysis; (3) perform customer-specific suitability analysis in connection with any recommended transactions; (4) provide a balanced disclosure of both the risks and rewards associated with the particular product, especially when selling to retail investors; (5) implement appropriate internal controls; and (6) train registered persons regarding the features, risk and suitability of these products.

Delivery of a Prospectus

Pursuant to federal securities laws, investors purchasing Shares must receive a prospectus prior to or concurrently with the confirmation of a transaction. Investors purchasing Shares directly from the Fund (by delivery of the Deposit Amount) must also receive a prospectus.

Prospectuses may be obtained through the Distributor or on the Fund’s website. The Prospectus does not contain all of the information set forth in the registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to the Trust’s registration statement.

No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission has issued no-action relief from certain provisions of and rules under the Securities Exchange Act of 1934 (the “Exchange Act”), regarding trading in Barclays iPath Exchange Traded Notes (SEC Letter dated July 27, 2006) and Deutsche Bank AG Exchange-Traded Notes (SEC Letter dated October 17, 2007) for securities with structures similar to that of the securities described herein (the “Letters”). As what follows is only a summary of the relief outlined in the Letters, the Exchange also advises interested Members to consult the Letters, for more complete information regarding the matters covered therein.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M is an anti-manipulation regulation that, subject to certain exemptions, prohibits a “distribution participant” and the issuer or selling security holder, in connection with a distribution of securities, from bidding for, purchasing, or attempting to induce any person to bid for or purchase, any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to

participate or are participating in a distribution of securities, and affiliated purchasers of such persons.

The Letters state that the SEC Division of Trading and Markets will not recommend enforcement action under Rule 101 of Regulation M against persons who may be deemed to be participating in a distribution of the notes to bid for or purchase the notes during their participation in such distribution.

Rule 102 of Regulation M prohibits issuers, selling security holders, or any affiliated purchaser of such person from bidding for, purchasing, or attempting to induce any person to bid for or purchase a covered security during the applicable restricted period in connection with a distribution of securities effected by or on behalf of an issuer or selling security holder. Rule 100 of Regulation M defines “distribution” to mean any offering of securities that is distinguished from ordinary trading transactions by the magnitude of the offering and the presence of special selling efforts and selling methods.

The Letters state that the SEC Division of Trading and Markets will not recommend enforcement action under Rule 102 of Regulation M against Barclays and its affiliated purchasers who bid for or purchase or redeem notes during the continuous offering of the notes.

Section 11(d)(1) of the Exchange Act; Exchange Act Rule 11d1-2

Section 11(d)(1) of the Exchange Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he or she participated as a member of a selling syndicate or group within thirty days prior to such transaction.

The Letter states that the SEC Division of Trading and Markets will not recommend enforcement action under Section 11(d)(1) of the Exchange Act against broker-dealers who treat the notes, for purposes of Rule 11d1-2, as “securities issued by a registered...open-end investment company as defined in the Investment Company Act” and thereby, extend credit or maintain or arrange for the extension or maintenance of credit on the notes that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

This Regulatory Information Bulletin is not a statutory Prospectus. Members should consult the Trust’s Registration Statement, SAI, Prospectus and the Fund’s website for relevant information.
