**Subject: PIMCO Build America Bond Strategy Fund**

**Background Information on the Fund**

As more fully explained in the Registration Statement (No. 811-22250), the Trust is registered under the Investment Company Act of 1940 as an open-end management investment company. The Fund will be actively managed and does not seek to track the performance of an underlying index.

The Fund seeks to achieve its investment objective by investing under normal circumstances at least 80% of its assets in taxable municipal debt securities publicly issued under the Build America Bond program. The Build America Bond program was created as part of the American Recovery and Reinvestment Act of 2009 (the "Act") and is expected to continue through extensions of the Act or through other legislation providing for the issuance of taxable municipal securities on which the issuer receives U.S. Government support for the interest paid ("Build America Bonds").

The Fund invests in U.S. dollar-denominated Fixed Income Instruments that are primarily investment grade, but may invest up to 20% of its total assets in high yield securities ("junk bonds") rated B or higher by Moody's Investors Service, Inc., or equivalently rated by Standard & Poor's Ratings Services or Fitch, Inc., or, if unrated, determined by PIMCO to be of comparable quality.

PIMCO serves as the investment manager and advisor for the Fund. Allianz Global Investors Distributors LLC is the distributor for the Fund. State Street Bank & Trust Co. is the custodian and transfer agent for the Fund.

As described more fully in the Fund's prospectus ("Prospectus") and Statement of Additional Information ("SAI"), the Fund issues and redeems ETF shares at NAV only in large blocks of shares typically 100,000 shares or multiples thereof ("Creation Units"). Each Fund is an Exchange-Traded Fund ("ETF"). Individual Fund shares may only be purchased and sold on a national securities exchange through a broker-dealer and may not be purchased or redeemed directly with the Fund. The price of Fund shares is based on market price, and because ETF shares trade at market prices rather than net asset value ("NAV"), shares may trade at a price greater than NAV (a premium) or less than NAV (a discount).

The Fund distributes substantially all of its net investment income to shareholders in the form of dividends. The Fund intends to declare and distribute income dividends monthly to shareholders of record. In addition, the Fund distributes any net capital gains it earns from the sale of portfolio securities to shareholders no less frequently than annually. Net short-term capital gains may be

paid more frequently. Dividend payments are made through DTC participants and indirect participants to beneficial owners then of record with proceeds received from a Fund.

The Depository Trust Company ("DTC") will serve as securities depository for the Shares, which may be held only in book-entry form; stock certificates will not be issued. DTC, or its nominee, is the record or registered owner of all outstanding Shares.

The NAV per Share of the Fund will be determined as of the close of trading (normally, 4:00 p.m. Eastern Time ("ET")) on each day that the Exchange is open for business. NAV will be available from the Distributor and is also available to National Securities Clearing Corporation ("NSCC") participants through data made available from NSCC.

The Trust's registration statement describes the various fees and expenses for the Fund's Shares. For a more complete description of the Fund and the underlying index, visit [www.pimcoetfs.com](http://www.pimcoetfs.com).

### **Principal Risks**

Interested persons are referred to the Prospectus for a description of risks associated with an investment in the Shares. These risks include fixed income risk, municipal bond risk, and the risk that the Shares may trade at market prices that may differ from their NAV. The NAV of the Shares will fluctuate with changes in the market value of the Fund's holdings. The market prices of the Shares will fluctuate in accordance with changes in NAV as well as the supply and demand for the Shares.

### **Exchange Rules Applicable to Trading in the Shares**

The Shares are considered equity securities, thus rendering trading in the Shares subject to the Exchanges' existing rules governing the trading of equity securities.

### **Trading Hours**

Trading in the shares on the Exchanges is on a UTP basis and is subject to the Exchanges equity trading rules. The shares will trade from 8:00 a.m. until 8:00 p.m. Eastern Time. Members trading the shares during the Extended Market Sessions (Pre-opening and Post-closing sessions) are exposed to the risk of the lack of the calculation or dissemination of underlying index value or intraday indicative value ("IIV"). For certain derivative securities products, an updated underlying index value or IIV may not be calculated or publicly disseminated in the Extended Market hours. Since the underlying index value and IIV are not calculated or widely disseminated during Extended Market hours, an investor who is unable to calculate implied values for certain derivative securities products during Extended Market hours may be at a disadvantage to market professionals.

### **Trading Halts**

The Exchanges will halt trading in the Shares of a Trust in accordance with Exchange Rules 14.1(c)(4). The grounds for a halt under this Rule include a halt by the primary market because it stops trading the Shares and/or a halt because dissemination of the IIV or applicable currency spot price has ceased, or a halt for other regulatory reasons. In addition, the Exchanges will stop trading the Shares of a Trust if the primary market de-lists the Shares.

## **Delivery of a Prospectus**

Pursuant to federal securities laws, investors purchasing Shares must receive a prospectus prior to or concurrently with the confirmation of a transaction. Investors purchasing Shares directly from the Fund (by delivery of the Deposit Amount) must also receive a prospectus.

Prospectuses may be obtained through the Distributor or on the Fund's website. The Prospectus does not contain all of the information set forth in the registration statement (including the exhibits to the registration statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to the Trust's registration statement.

## **Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations**

The SEC Division of Trading and Markets has issued revised Staff Legal Bulletin No. 9 (Revised September 10, 2010) ("Staff Bulletin", available at [www.sec.gov](http://www.sec.gov), at Staff Legal Bulletins, SLB 9), in which the Division has granted exceptions from certain provisions of Regulation M (Rules 101(c)(4) and 102(d)(4)), under the Securities Exchange Act of 1934 with respect to certain transactions in Shares of actively-managed ETFs. The Fund relies on the exceptions stated in the Staff Bulletin.

The Staff Bulletin states, that (1) the Rule 101(c)(4) exception is available to permit persons who may be deemed to be participating in a distribution of actively managed ETF Shares to bid for or purchase such Shares during their participation in a distribution, and (2) the Rule 102(d)(4) exception is available to permit an open-end investment company to redeem actively managed ETF Shares, if the following conditions are met: (i) the Shares are issued by a registered open-end investment company; (ii) the Shares are exchange listed and exchange traded; (iii) the ETF continuously redeems the Shares at net asset value (NAV); (iv) a close alignment between the Shares' secondary market price and the ETF's NAV is expected; (v) on each day the Shares trade, prior to commencement of such trading, the ETF discloses on its website the identities and quantities of the securities and assets held by the ETF which will form the basis of the calculation of the ETF's NAV at the end of such day; (vi) the exchange listing the Shares or other information provider disseminates every 15 seconds throughout the trading day, through the facilities of the Consolidated Tape Association, an amount representing on a per Share basis the sum of the current value of the securities, assets, and cash required to create new Shares (intraday indicative value or IIV); (vii) arbitrageurs are expected to take advantage of price variations between Shares' secondary market price and the ETF's NAV; and (viii) the arbitrage mechanism will be facilitated by the transparency of the ETF's portfolio, the availability of the IIV, the liquidity of the ETF's portfolio securities, the ability to access such securities, and the arbitrageurs' ability to create workable hedges.

In addition, the Staff Bulletin states that the redemption of creation unit sized aggregations of ETF Shares and the receipt of securities in exchange therefore by persons who may be deemed to be participating in a distribution of Shares do not constitute an "attempt to induce any person to bid for or purchase" a covered security during an applicable restricted period for purposes of Rule 101, but only if the redemptions are not made for the purpose of creating actual, or apparent, active trading in or raising or otherwise affecting the price of Shares or the securities received in exchange for the Shares redeemed.

**This Regulatory Information Circular is not a statutory Prospectus. Members should consult the Trust's Registration Statement, SAI, Prospectus and the Fund's website for relevant information.**
