

Information Circular 09-066

Date: March 18, 2009

Re: Merrill Lynch & Co., Inc. ETN

Pursuant to Rule 14.1(c)(2) of the Rules of BATS Exchange, Inc. (the "Exchange"), this Information Circular is being issued to advise you that the following securities have been approved for trading on the Exchange as UTP Derivative Securities pursuant to Chapter XIV of the Exchange's Rules.

<u>Security ("Notes")</u>	<u>Symbol</u>
Merrill Lynch & Co., Inc. Accelerated Return Bear Market Notes Linked to the AMEX Energy Select Sector Index May 5, 2009	IMW

Commencement of Trading on the Exchange: March 19, 2009

Issuer/Trust: Merrill Lynch & Co., Inc.

Issuer Website: <http://www.totalmerrill.com>

Primary Listing Exchange: NYSE Arca

Primary Exchange Circular: RB-08-296 (November 23, 2008)

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in this new product on the Exchange, as well as to provide certain characteristics and features of the Notes.

Background Information on the Notes

The Issuer has issued Notes linked to the AMEX Energy Select Sector Index (the "Index"). The Notes were priced at \$10 each and mature on May 5, 2009. The Notes are not principal protected.

As more fully set forth in the Prospectus Supplement, each \$10 principal amount of the securities will be deemed a "Unit" for purposes of trading and transfer. There will be no payments or redemptions prior to the maturity date.

The Notes are designed for investors who believe that the level of the Index will decrease in value over the term of the Notes. Investors may receive less than the \$10 principal amount.

At maturity, investors will receive:

(1) If the Ending Value is less than or equal to the Starting Value:

$$\$10 + [\$50 * ((\text{Ending Value} - \text{Starting Value}) / \text{Starting Value})]$$

Subject to a maximum payment at maturity of \$12.00.

(2) If the Ending Value is greater than the Starting Value, but equal to or less than the Threshold Value:

\$10

(3) If the Ending Value is greater than the Starting Value, then investors will receive the greater of:

a) \$0; and

b) $\$10 - [\$10 \times ((\text{Ending Value} - \text{Threshold Value}) / \text{Starting Value})]$

The Starting Value is 773.81. The Threshold Value is 851.257. The Ending Value will be determined near the maturity date. See the prospectus for the Notes for more details.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

The Trustee for the securities is The Bank of New York.

It is expected that the market value of the Notes will depend substantially on the value of the Index and may be affected by a number of other interrelated factors including, among other things: the general level of interest rates, the volatility of the Index, the time remaining to maturity, the dividend yield of the stocks comprising the Index, and the credit ratings of the Issuer.

Exchange Rules Applicable to Trading in the Notes

Trading in the Notes on BATS is subject to BATS equity trading rules.

Trading Hours

The Notes will trade on BATS between 8:00 a.m. and 4:00 p.m. ET.

Please note that trading in the Notes during the Exchange's pre-opening session may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the pre-opening session, (2) the indicative value may not be updated during the pre-opening session, (3) lower liquidity in the pre-opening session may impact pricing, (4) higher volatility in the pre-opening session may impact pricing, (5) wider spreads may occur in the pre-opening session, and (6) because the indicative value is not calculated or widely disseminated during the pre-opening session, an investor who is unable to calculate an implied value for the Notes in that session may be at a disadvantage to market professionals.

Suitability

Trading in the securities on BATS will be subject to the provisions of Exchange Rule 3.7. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer. Members should adopt appropriate procedures for the opening and maintaining of accounts, including the maintaining of records prescribed by any applicable regulatory organization and by the rules and regulations of the Commission.

Trading Halts

BATS will halt trading in the shares of a security in accordance with BATS Rule 14.1(c)(4). The grounds for a halt under BATS Rule 14.1(c)(4) include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a

halt for other regulatory reasons. In addition, BATS will stop trading the shares of a security if the primary market de-lists the security.

This Information Circular is not a statutory prospectus. BATS Members should consult the prospectus for a security and the security's website for relevant information.
