

Information Circular 10-063

Date: June 10, 2010

Re: **PowerShares International Corporate Bond Portfolio**

Pursuant to Rule 14.1(c)(2) of the Rules of BATS Exchange, Inc. ("BATS" or the "Exchange"), this Information Circular is being issued to advise you that the following security has been approved for trading on the Exchange as a UTP Derivative Security pursuant to Chapter XIV of the Exchange's Rules.

Securities (the "Fund")

Symbol

PowerShares International Corporate Bond Portfolio

PICB

Commencement of Trading: June 11, 2010

Issuer/Trust: PowerShares Exchange-Traded Fund Trust II

Issuer Website: www.invescopowershares.com

Primary Listing Exchange: NYSE Arca

Primary Exchange Circular: RB-10-71 (June 3, 2010)

Registration Statement: Nos. 811-21977 and 333-138490

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange's unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website, examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus, the Issuer Registration Statement and the Primary Exchange Circular are hereafter collectively referred to as the "Issuer Disclosure Materials."

Background Information on the Fund

The PowerShares ETF Trust II (the "Trust") is a management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"), consisting of several investment portfolios. This circular relates only to the PowerShares International Corporate Bond Portfolio (the "Fund"). The shares of the Fund are referred to herein as "Shares." Invesco PowerShares Capital Management LLC (the "Adviser") is the investment adviser to the Fund.

The Fund seeks investment results that correspond (before fees and expenses) generally to the price and yield performance of the index called the S&P International Corporate Bond Index (the "Underlying Index").

The Fund will normally invest at least 80% of its total assets in corporate bonds. The Fund will normally invest at least 80% of its total assets in the securities that comprise the Underlying Index. The Underlying Index measures the performance of investment grade corporate bonds issued by non-U.S. issuers in the following currencies: Australia Dollar (AUD), British Pound (GBP), Canadian Dollar (CAD), Euro (EUR), Japanese Yen (JPY), Swiss Franc (CHF), Danish Krone (DKK), New Zealand Dollar (NZD), Norwegian

Krone (NOK) and Swedish Krona (SEK). The Fund does not purchase all of the securities in the Underlying Index. Instead, the Adviser utilizes a “sampling” methodology in seeking to achieve the Fund’s investment objective. The Underlying Index is generated and published under an agreement between Standard & Poor’s and Credit Suisse.

The Fund will invest 25% or more of the value of its total assets in securities of issuers in an industry or group of industries to the extent that the Underlying Index concentrates in an industry or group of industries.

The Underlying Index is reconstituted and rebalanced monthly. For inclusion in the Underlying Index, each bond must meet a minimum threshold for the total outstanding value of such bonds. This threshold will vary with the currency in which the bond is denominated. Each Underlying Index constituent must be rated investment grade by Standard & Poor’s, a division of The McGraw-Hill Companies, Inc. or Moody’s Investors Service, Inc. Each security’s lower rating is used to determine eligibility for the Underlying Index. Temporary unrated tapped issues, in which the issuer reopens and sells debt instruments from past eligible rated issues, may be included in the Underlying Index. The weighting of each bond is based on its outstanding market value, which is set at the monthly rebalancing, and exposure to a single currency is capped at 50% at each monthly rebalancing. If there are more than ten eligible issuers for a given currency on the date of rebalancing, 25% of the lowest yielding bonds denominated in that currency will be removed from the universe of eligible instruments in order to enhance the yield of the Underlying Index.

The weight of a bond is first calculated by dividing the outstanding Underlying Index market value for the bond by the total outstanding Underlying Index market value for the eligible universe, with all figures being converted to U.S. dollars using spot foreign exchange rates as of the monthly rebalancing date. Then, the aggregated weight for each currency is calculated. If the aggregated weight for a currency is above the 50% cap, the weighting of each bond in this currency is modified by multiplying the initial weight by $(0.5/\text{aggregated weight})$ so that the modified aggregated weight for this currency is at 50%. The excess weight above the 50% cap is distributed to the remaining currencies according to each currency’s aggregated weight.

The Fund, using an “indexing” investment approach, attempts to replicate, before fees and expenses, the performance of the Underlying Index. The Adviser seeks correlation over time of 0.95 or better between the Fund’s performance and the performance of the Underlying Index; a figure of 1.00 would represent perfect correlation. The Fund does not purchase all of the securities in the Underlying Index. Instead, the Adviser utilizes a “sampling” methodology in seeking to achieve the Fund’s objective. Sampling means that the Adviser uses a quantitative analysis to select securities from the Underlying Index universe to obtain a representative sample of securities that resemble the Underlying Index in terms of key risk factors, performance attributes and other characteristics. These include industry weightings, market capitalization and other financial characteristics of securities. The quantity of holdings in the Fund will be based on a number of factors, including asset size of the Fund. The Adviser generally expects the Fund to hold less than the total number of securities in the Underlying Index, but reserves the right to hold as many securities as it believes necessary to achieve the Fund’s investment objective. The Fund may sell securities that are represented in the Underlying Index in anticipation of their removal from the Underlying Index, or purchase securities not represented in the Underlying Index in anticipation of their addition to the Underlying Index.

As described more fully in the Trust’s prospectus and Statement of Additional Information, the Fund will issue and redeem Shares on a continuous basis at their net asset value (“NAV”) only in large blocks of 50,000 Shares (each, a “Creation Unit”). Creation Units will be issued and redeemed principally in-kind for securities included in the underlying index. Except when aggregated in Creation Units, the Shares may not be redeemed with the Fund.

Ordinarily, dividends from net investment income, if any, are declared and paid monthly. The Fund distributes its net realized capital gains, if any, to shareholders annually.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for the Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or "ET") of the New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

The registration statement for the Funds describes the various fees and expenses for the Funds' Shares. For a more complete description of the Funds and the underlying indexes, visit the Issuer Website.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Fund of the principal risks of an investment in the Fund. These include tracking error risk (factors causing the Fund's performance to not match the performance of the underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, fund of funds risk, underlying fund risk, management risk, credit risk, interest rate risk, foreign market risk and liquidity risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on BATS is subject to BATS equity trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during Regular Trading Hours.

The Shares will trade on BATS between 8:00 a.m. and 5:00 p.m. ET. Please note that trading in the Shares during the Exchange's Pre-Opening and Post-Close Sessions may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Pre-Opening and Post-Close Sessions, (2) lower liquidity in the Pre-Opening and Post-Close Sessions may impact pricing, (3) higher volatility in the Pre-Opening and Post-Close Sessions may impact pricing, (4) wider spreads may occur in the Pre-Opening and Post-Close Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Pre-Opening or Post-Close Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Delivery of a Prospectus

BATS Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Funds' website. The prospectus for the Fund does not contain all of the information set forth in the Funds' Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the Investment Company Act of 1940 and in the future make available a written product description, BATS Rule 14.1(c)(3) requires that BATS Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form

prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, BATS Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a BATS member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*]."

A BATS member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to BATS member under this rule.

Upon request of a customer, BATS Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on BATS will be subject to the provisions of Exchange Rule 3.7. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

BATS will halt trading in the Shares of a security in accordance with BATS Rule 14.1(c)(4). The grounds for a halt under BATS Rule 14.1(c)(4) include a halt by the primary market because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, or a halt for other regulatory reasons. In addition, BATS will stop trading the Shares of a security if the primary market de-lists the security.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any "distribution participant" and its "affiliated purchasers" from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Fund to engage in secondary market transactions in such

shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Fund (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Fund for redemption does not constitute a bid for or purchase of any of the Fund's securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Fund for purposes of purchasing Creation Unit Aggregations ("Deposit Securities") or the identity, number and price of shares to be delivered by the Trust for the Fund to the redeeming holder ("Redemption Securities"). The composition of the securities required to be tendered to the Fund for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Rule 10b-17 (Untimely Announcement of Record Dates)

The SEC has granted an exemption from the requirements of Rule 10b-17 that will cover transactions in the Shares.

Section 11(d)(1); Rule 11d1-2 (Customer Margin)

The SEC has taken a no-action position under Section 11(d)(1) that will permit broker-dealers that do not create Shares but engage in both proprietary and customer transactions in such Shares exclusively in the secondary market to extend or maintain or arrange for the extension or maintenance of credit on the Shares, in connection with such secondary market transactions. For broker-dealers that engage in the creation of Shares, the SEC has also taken a no-action position under Rule 11d1-2 that will cover the extension or maintenance or the arrangement for the extension or maintenance of credit on the Shares that have been owned by the persons to whom credit is provided for more than 30 days.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Fund (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities

to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6 (Disclosure of Control and interest in Distributions)

The SEC has taken a no-action position under Rule 15c1-5 that will permit a broker-dealer to execute transactions in Shares without disclosing any control relationship with an issuer of a component security. In addition, the SEC has taken a no-action position under Rule 15c1-6 that will permit a broker dealer to execute transactions in the Shares without disclosing its participation or interest in a primary or secondary distribution of a component security.

This Information Circular is not a statutory prospectus. BATS Members should consult the prospectus for a security and the security's website for relevant information.
