

BZX Information Circular 14-012
BYX Information Circular 14-012

Date: January 24, 2014

Re: DBX ETF Trust

Pursuant to Rule 14.11(j)(2) of the Rules of BATS Exchange, Inc. and 14.1(c)(2) of the Rules of BATS Y-Exchange, Inc. (each referred to hereafter as “BATS” or the “Exchange”), this Information Circular is being issued to advise you that the following securities have been approved for trading pursuant to unlisted trading privileges (“UTP”) on the Exchange as UTP Derivative Securities pursuant to Chapter XIV of the Exchange’s Rules.

<u>Securities (the “Funds”)</u>	<u>Symbol</u>
db X-trackers MSCI All World ex US Hedged Equity Fund	DBAW
db X-trackers MSCI South Korea Hedged Equity Fund	DBKO
db X-trackers MSCI Mexico Hedged Equity Fund	DBMX

Commencement of Trading on the Exchange: January 27, 2014

Issuer/Trust: DBX ETF Trust

Issuer Website: www.dbxus.com.com

Primary Listing Exchange: NYSE Arca

Compliance and supervisory personnel should note that, among other things, this Information Circular discusses the need to deliver a prospectus to customers purchasing shares of the Fund (“Shares”) issued by the DBX ETF Trust (“Trust”). Please forward this Information Circular to other interested persons within your organization.

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products pursuant to the Exchange’s unlisted trading privileges, as well as to provide certain characteristics and features of the Shares. For a more complete description of the Issuer, the Shares and the underlying market instruments or indexes, visit the Issuer Website, consult the Prospectus available on the Issuer Website or examine the Issuer Registration Statement or review the most current information bulletin issued by the Primary Listing Exchange. The Issuer Website, the Prospectus and the Issuer Registration Statement are hereafter collectively referred to as the “Issuer Disclosure Materials.”

Background Information on the Fund

The DBX ETF Trust (the “Trust”) is a management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”), consisting of several investment portfolios. This circular relates only to the Funds listed above (each, a “Fund” and together, the “Funds”). The shares of the Fund are referred to herein as “Shares.” DBX Advisors LLC (the “Adviser”) is the investment adviser to the Funds.

DBAW seeks investment results that correspond generally to the performance, before fees and expenses, of the MSCI ACWI ex USA US Dollar Hedged Index (the “Underlying Index”).

The Underlying Index is designed to provide exposure to equity securities in developed and emerging stock markets (excluding the United States), while at the same time mitigating exposure to fluctuations between the value of the U.S. dollar and selected non-U.S. currencies. As of December 19, 2013, the Underlying Index consisted of issuers from the following 43 developed and emerging market countries: Australia, Austria, Belgium, Brazil, Canada, Chile, China, Colombia, the Czech Republic, Denmark, Egypt, Finland, France, Germany, Greece, Hong Kong, Hungary, India, Indonesia, Ireland, Israel, Italy, Japan, Malaysia, Mexico, the Netherlands, New Zealand, Norway, Peru, the Philippines, Poland, Portugal, Russia, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, Turkey and the United Kingdom. As of December 19, 2013, the MSCI ACWI ex USA US Dollar Hedged Index consisted of 1,825 securities with an average market capitalization of approximately \$9.79 billion and a minimum market capitalization of approximately \$273.5 million. The Underlying Index hedges each foreign currency in the Underlying Index to the U.S. dollar by reflecting the effect of selling the applicable foreign currency forward at the one-month forward rate published by WM/Reuters.

For U.S. investors, international equity investments include two components of return. The first is the return attributable to stock prices in the non-U.S. market or markets in which an investment is made. The second is the return attributable to the value of non-U.S. currencies in these markets relative to the U.S. dollar. The Underlying Index and the Fund seek to track the performance of equity securities in these developed and emerging markets that is attributable solely to stock prices.

The Fund, using a “passive” or indexing investment approach, attempts to approximate the investment performance of the Underlying Index. The Adviser and/or Sub-Adviser expect that, over time, the correlation between the Fund’s performance and that of the Underlying Index before fees and expenses will be 95% or better. A figure of 100% would indicate perfect correlation.

The Adviser and/or Sub-Adviser use a representative sampling indexing strategy in seeking to achieve the Fund’s investment objective. “Representative sampling” is an indexing strategy that involves investing in a representative sample of securities included in the Underlying Index that collectively has an investment profile similar to the Underlying Index. The securities selected are expected to have, in the aggregate, investment characteristics (based on factors such as market capitalization and industry weightings), fundamental characteristics (such as estimated variability of returns and yield) and liquidity measures similar to those of the Underlying Index. The Fund may or may not hold all of the securities in the Underlying Index. The Fund intends to enter into forward currency contracts designed to offset the Fund’s exposure to non-U.S. currencies. A forward currency contract is a contract between two parties to buy or sell a specific currency in the future at an agreed-upon rate. The rate can be higher or lower than the spot rate between the currencies that are the subject of the contract. The amount of forward contracts in the Fund is based on the aggregate exposure of the Fund and Underlying Index to each non-U.S. currency based on currency weights as of the beginning of each month. While this approach is designed to minimize the impact of currency fluctuations on Fund returns, this does not necessarily eliminate exposure to all currency fluctuations. The return of the forward currency contracts may not perfectly offset the actual fluctuations of non-U.S. currencies relative to the U.S. dollar.

The Fund will normally invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in equity securities of issuers from countries other than the United States and in instruments designed to hedge the Fund’s exposure to non-U.S. currencies. In addition, the Fund will invest at least 80% of its total assets (but typically far more) in instruments that comprise the Underlying Index. The Fund may also invest in depositary receipts (which are securities issued by banks representing an issuer’s shares that are publicly traded in another country) in respect of equity securities that comprise the Underlying Index to seek performance that corresponds to the Underlying Index. Investments in such depositary receipts will count towards the 80% investment policy discussed above with respect to instruments that comprise the Underlying Index.

DBKO seeks investment results that correspond generally to the performance, before fees and expenses, of the MSCI Korea 25/50 US Dollar Hedged Index (the “Korea Index”).

The Korea Index is designed to provide exposure to South Korean equity markets, while at the same time mitigating exposure to fluctuations between the value of the U.S. dollar and the South Korean won. As of December 19, 2013, the MSCI Korea 25/50 US Dollar Hedged Index consisted of 105 securities with an average market capitalization of approximately \$5.72 billion and a minimum market capitalization of approximately \$873.9 million. The Korea Index hedges South Korean won to the U.S. dollar by reflecting the effect of selling South Korean won currency forwards at the one-month forward rate published by WM/Reuters.

For U.S. investors, international equity investments include two components of return. The first is the return attributable to stock prices in the non-U.S. market or markets in which an investment is made. The second is the return attributable to the value of non-U.S. currencies in these markets relative to the U.S. dollar. The Korea Index and the Fund seek to track the performance of equity securities in the South Korean markets that is attributable solely to stock prices.

The Fund, using a “passive” or indexing investment approach, attempts to approximate the investment performance of the Korea Index. The Adviser and/or Sub-Adviser expect that, over time, the correlation between the Fund’s performance and that of the Korea Index before fees and expenses will be 95% or better. A figure of 100% would indicate perfect correlation.

The Adviser uses a representative sampling indexing strategy in seeking to achieve the Fund’s investment objective. “Representative sampling” is an indexing strategy that involves investing in a representative sample of securities included in the Korea Index that collectively has an investment profile similar to the Korea Index. The securities selected are expected to have, in the aggregate, investment characteristics (based on factors such as market capitalization and industry weightings), fundamental characteristics (such as estimated variability of returns and yield) and liquidity measures similar to those of the Korea Index. The Fund may or may not hold all of the securities in the Korea Index. The Fund intends to enter into forward currency contracts designed to offset the Fund’s exposure to non-U.S. currencies. A forward currency contract is a contract between two parties to buy or sell a specific currency in the future at an agreed-upon rate. The rate can be higher or lower than the spot rate between the currencies that are the subject of the contract. The amount of forward contracts in the Fund is based on the aggregate exposure of the Fund and Korea Index to each non-U.S. currency based on currency weights as of the beginning of each month. While this approach is designed to minimize the impact of currency fluctuations on Fund returns, this does not necessarily eliminate exposure to all currency fluctuations. The return of the forward currency contracts may not perfectly offset the actual fluctuations of non-U.S. currencies relative to the U.S. dollar.

The Fund will normally invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in equity securities of issuers from South Korea and in instruments designed to hedge the Fund’s exposure to South Korean won. In addition, the Fund will invest at least 80% of its total assets (but typically far more) in instruments that comprise the Korea Index. The Fund may also invest in depositary receipts (which are securities issued by banks representing an issuer’s shares that are publicly traded in another country) in respect of equity securities that comprise the Korea Index to seek performance that corresponds to the Korea Index. Investments in such depositary receipts will count towards the 80% investment policy discussed above with respect to instruments that comprise the Korea Index.

DBMX seeks investment results that correspond generally to the performance, before fees and expenses, of the MSCI Mexico IMI 25/50 US Dollar Hedged Index (the “Mexico Index”).

The Mexico Index is designed to provide exposure to the Mexican equity markets, while at the same time mitigating exposure to fluctuations between the value of the U.S. dollar and Mexican peso. As of December 19, 2013, the MSCI Mexico IMI 25/50 US Dollar Hedged Index consisted of 48 securities with an average market capitalization of approximately \$4.46 billion and a minimum market capitalization of approximately \$185.2 million. The Mexico Index hedges Mexican peso to the U.S. dollar by reflecting the effect of selling Mexican peso currency forwards at the one-month forward rate published by WM/Reuters.

For U.S. investors, international equity investments include two components of return. The first is the return attributable to stock prices in the non-U.S. market or markets in which an investment is made. The second is the return attributable to the value of non-U.S. currencies in these markets relative to the U.S. dollar. The Mexico Index and the Fund seek to track the performance of equity securities in the Mexican markets that is attributable solely to stock prices.

The Fund, using a “passive” or indexing investment approach, attempts to approximate the investment performance of the Mexico Index. The Adviser and/or Sub-Adviser expect that, over time, the correlation between the Fund’s performance and that of the Mexico Index before fees and expenses will be 95% or better. A figure of 100% would indicate perfect correlation.

The Adviser and/or Sub-Adviser use a representative sampling indexing strategy in seeking to achieve the Fund’s investment objective. “Representative sampling” is an indexing strategy that involves investing in a representative sample of securities included in the Underlying Index that collectively has an investment profile similar to the Underlying Index. The securities selected are expected to have, in the aggregate, investment characteristics (based on factors such as market capitalization and industry weightings), fundamental characteristics (such as estimated variability of returns and yield) and liquidity measures similar to those of the Underlying Index. The Fund may or may not hold all of the securities in the Underlying Index. The Fund intends to enter into forward currency contracts designed to offset the Fund’s exposure to non-U.S. currencies. A forward currency contract is a contract between two parties to buy or sell a specific currency in the future at an agreed-upon rate. The rate can be higher or lower than the spot rate between the currencies that are the subject of the contract. The amount of forward contracts in the Fund is based on the aggregate exposure of the Fund and Underlying Index to each non-U.S. currency based on currency weights as of the beginning of each month. While this approach is designed to minimize the impact of currency fluctuations on Fund returns, this does not necessarily eliminate exposure to all currency fluctuations. The return of the forward currency contracts may not perfectly offset the actual fluctuations of non-U.S. currencies relative to the U.S. dollar.

The Fund will normally invest at least 80% of its net assets, plus the amount of any borrowings for investment purposes, in equity securities of issuers from Mexico and in instruments designed to hedge the Fund’s exposure to Mexico peso. In addition, the Fund will invest at least 80% of its total assets (but typically far more) in instruments that comprise the Underlying Index. The Fund may also invest in depositary receipts (which are securities issued by banks representing an issuer’s shares that are publicly traded in another country) in respect of equity securities that comprise the Underlying Index to seek performance that corresponds to the Underlying Index. Investments in such depositary receipts will count towards the 80% investment policy discussed above with respect to instruments that comprise the Underlying Index.

For more information regarding each Fund’s investment strategy, please read the prospectus for the Funds.

As described more fully in the Trust’s prospectus and Statement of Additional Information (“SAI”), the Funds issue and redeem Shares at net asset value (“NAV”) only in large blocks of 50,000 Shares (each block of Shares called a “Creation Unit”). As a practical matter, only broker-dealers or large institutional investors with creation and redemption agreements (called Authorized Participants) can purchase or redeem these Creation Units. Except when aggregated in Creation Units, the Shares may not be redeemed with the Funds.

Shares are held in book-entry form, which means that no Share certificates are issued. The Depository Trust Company or its nominee is the record owner of all outstanding Shares of the Funds and is recognized as the owner of all Shares for all purposes.

The NAV per Share for each Fund is computed by dividing the value of the net assets of the Fund (i.e., the value of its total assets less total liabilities) by the total number of Shares outstanding. Expenses and fees are accrued daily and taken into account for purposes of determining NAV. The NAV of each Fund is determined each business day after the close of trading (ordinarily 4:00 p.m., Eastern Time or “ET”) of the

New York Stock Exchange. Any assets or liabilities denominated in currencies other than the U.S. dollar are converted into U.S. dollars at the current market rates on the date of valuation as quoted by one or more sources.

Principal Risks

Interested persons are referred to the discussion in the prospectus for the Funds of the principal risks of an investment in the Funds. These include tracking error risk (factors causing a Fund's performance to not match the performance of its underlying index), market trading risk (for example, trading halts, trading above or below net asset value), investment style risk, sector risk, investment approach risk, non-diversification risk, issuer-specific risk, management risk and foreign securities risk.

Exchange Rules Applicable to Trading in the Shares

Trading in the Shares on BATS is subject to BATS equity trading rules.

Trading Hours

The value of the Index underlying the Shares will be disseminated to data vendors every 15 seconds during Regular Trading Hours.

The Shares will trade on BATS between 8:00 a.m. and 5:00 p.m. ET. Please note that trading in the Shares during the Exchange's Pre-Opening and After Hours Trading Sessions may result in additional trading risks which include: (1) that the current underlying indicative value may not be updated during the Pre-Opening and After Hours Trading Sessions, (2) lower liquidity in the Pre-Opening and After Hours Trading Sessions may impact pricing, (3) higher volatility in the Pre-Opening and After Hours Trading Sessions may impact pricing, (4) wider spreads may occur in the Pre-Opening and After Hours Trading Sessions, and (5) because the indicative value is not calculated or widely disseminated during the Pre-Opening or After Hours Trading Sessions, an investor who is unable to calculate an implied value for the Shares in those sessions may be at a disadvantage to market professionals.

Dissemination of Data

The Consolidated Tape Association will disseminate real time trade and quote information for the Shares to Tape B.

Delivery of a Prospectus

BATS Members should be mindful of applicable prospectus delivery requirements under the federal securities laws with respect to transactions in the Fund. Prospectuses may be obtained through the Fund's website. The prospectus for the Fund does not contain all of the information set forth in the Funds Registration Statement (including the exhibits to the Registration Statement), parts of which have been omitted in accordance with the rules and regulations of the SEC. For further information about the Fund, please refer to its Registration Statement.

In the event that the Fund relies upon an order by the SEC exempting the Shares from certain prospectus delivery requirements under Section 24(d) of the 1940 Act and in the future make available a written product description, BATS Rule 14.1(c)(3) require that BATS Members provide to all purchasers of Shares a written description of the terms and characteristics of such securities, in a form prepared by the Issuer of the Fund, no later than the time a confirmation of the first transaction in the Shares is delivered to such purchaser. In addition, BATS Members shall include such a written description with any sales material relating to the Shares that is provided to customers or the public. Any other written materials provided by a BATS member to customers or the public making specific reference to the Shares as an investment vehicle must include a statement in substantially the following form: "A circular describing the terms and characteristics of [*the UTP Derivative Securities*] has been prepared by the [*open-ended management investment company name*] and is available from your broker. It is recommended that you obtain and review such circular before purchasing [*the UTP Derivative Securities*]."

A BATS member carrying an omnibus account for a non-member broker-dealer is required to inform such non-member that execution of an order to purchase Shares for such omnibus account will be deemed to constitute agreement by the non-member to make such written description available to its customers on the same terms as are directly applicable to BATS member under this rule.

Upon request of a customer, BATS Members also shall provide a copy of the Prospectus.

Suitability

Trading in the securities on BATS will be subject to the provisions of Exchange Rule 3.7. Members recommending transactions in the securities to customers should make a determination that the recommendation is suitable for the customer.

Trading Halts

BATS will halt trading in the Shares of a security in accordance with BATS Rules. The grounds for a halt include a halt because the intraday indicative value of the security and/or the value of its underlying index are not being disseminated as required, a halt for other regulatory reasons or due to other conditions or circumstances deemed to be detrimental to the maintenance of a free and orderly market.

Exemptive, Interpretive and No-Action Relief Under Federal Securities Regulations

The Securities and Exchange Commission (the "SEC") has issued letters granting exemptive, interpretive and no-action relief from certain provisions of rules under the Securities Exchange Act of 1934 for exchange-traded securities listed and traded on a registered national securities exchange that meet certain criteria.

AS WHAT FOLLOWS IS ONLY A SUMMARY OF THE RELIEF OUTLINED IN THE NO-ACTION LETTERS REFERENCED ABOVE, THE EXCHANGE ADVISES INTERESTED PARTIES TO CONSULT THE NO-ACTION LETTERS FOR MORE COMPLETE INFORMATION REGARDING THE MATTERS COVERED THEREIN AND THE APPLICABILITY OF THE RELIEF GRANTED IN RESPECT OF TRADING IN SECURITIES. INTERESTED PARTIES SHOULD ALSO CONSULT THEIR PROFESSIONAL ADVISORS.

Regulation M Exemptions

Generally, Rules 101 and 102 of Regulation M prohibit any “distribution participant” and its “affiliated purchasers” from bidding for, purchasing, or attempting to induce any person to bid for or purchase any security which is the subject of a distribution until after the applicable restricted period, except as specifically permitted in Regulation M. The provisions of the Rules apply to underwriters, prospective underwriters, brokers, dealers, and other persons who have agreed to participate or are participating in a distribution of securities.

The SEC has granted an exemption from Rule 101 under Regulation M to permit persons participating in a distribution of shares of the above-mentioned Funds to engage in secondary market transactions in such shares during their participation in such a distribution. In addition, the SEC has granted relief under Regulation M to permit persons who may be deemed to be participating in the distribution of Shares of the above-mentioned Funds (i) to purchase securities for the purpose of purchasing Creation Unit Aggregations of Fund Shares and (ii) to tender securities for redemption in Creation Unit Aggregations. Further, the SEC has clarified that the tender of Fund Shares to the Funds for redemption does not constitute a bid for or purchase of any of the Funds’ securities during the restricted period of Rule 101. The SEC has also granted an exemption pursuant to paragraph (e) of Rule 102 under Regulation M to allow the redemption of Fund Shares in Creation Unit Aggregations during the continuous offering of Shares.

Rule 10b-10 (Customer Confirmations for Creation or Redemption of Fund Shares)

Broker-dealers who handle purchases or redemptions of Fund Shares in Creation Unit size for customers will be permitted to provide such customers with a statement of the number of Creation Unit Aggregations created or redeemed without providing a statement of the identity, number and price of shares of the individual securities tendered to the Funds for purposes of purchasing Creation Unit Aggregations (“Deposit Securities”) or the identity, number and price of shares to be delivered by the Trust for the Funds to the redeeming holder (“Redemption Securities”). The composition of the securities required to be tendered to the Funds for creation purposes and of the securities to be delivered on redemption will be disseminated each business day and will be applicable to requests for creations or redemption, as the case may be, on that day. This exemptive relief under Rule 10b-10 with respect to creations and redemption is subject to the following conditions:

- 1) Confirmations to customers engaging in creations or redemptions must state that all information required by Rule 10b-10 will be provided upon request;
- 2) Any such request by a customer for information required by Rule 10b-10 will be filed in a timely manner, in accordance with Rule 10b-10(c); and
- 3) Except for the identity, number, and price of shares of the component securities of the Deposit Securities and Redemption Securities, as described above, confirmations to customers must disclose all other information required by Rule 10b-10(a).

Section 11(d)(1); Rules 11d1-1 and 11d1-2

Section 11(d)(1) of the Act generally prohibits a person who is both a broker and a dealer from effecting any transaction in which the broker-dealer extends credit to a customer on any security which was part of a new issue in the distribution of which he participated as a member of a selling syndicate or group within thirty days prior to such transaction. The SEC has clarified that Section 11(d)(1) does not apply to broker-dealers that are not Authorized Participants (and, therefore, do not create Creation Unit Aggregations) that engage in both proprietary and customer transactions in Shares of a Fund in the secondary market, and for broker-dealer Authorized Participants that engage in creations of Creation Unit Aggregations. This relief is subject to specific conditions, including the condition that such broker-dealer (whether or not an Authorized Participant) does not, directly or indirectly, receive from the Fund complex any payment, compensation or other economic incentive to promote or sell the Shares of a Fund to persons outside the fund complex, other than non-cash compensation permitted under NASD Rule 2830(l)(5)(A), (B) or (C). (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities

Industry Association, Derivative Products Committee, dated November 21, 2005.) The SEC also has taken a no-action position under Section 11(d)(1) of the Act that broker-dealers may treat Shares of a Fund, for purposes of Rule 11d1-2, as "securities issued by a registered open-end investment company as defined in the Investment Company Act" and thereby extend credit or maintain or arrange for the extension or maintenance of credit on Shares that have been owned by the persons to whom credit is provided for more than 30 days, in reliance on the exemption contained in the rule.

Rule 14e-5

An exemption from Rule 14e-5 has been granted to permit any person acting as a dealer-manager of a tender offer for a component security of the Funds (1) to redeem Fund Shares in Creation Unit Aggregations from the issuer that may include a security subject to such tender offer and (2) to purchase Fund Shares during such tender offer. In addition, a no-action position has been taken under Rule 14e-5 if a broker-dealer acting as a dealer-manager of a tender offer for a security of the Fund purchases or arranges to purchase such securities in the secondary market for the purpose of tendering such securities to purchase one or more Creation Unit Aggregations of Shares, if made in conformance with the following:

- 1) such bids or purchases are effected in the ordinary course of business, in connection with a basket of 20 or more securities in which any security that is the subject of a distribution, or any reference security, does not comprise more than 5% of the value of the basket purchase; or
- 2) purchases are effected as adjustments to such basket in the ordinary course of business as a result of a change in the composition of the underlying index; and
- 3) such bids or purchases are not effected for the purpose of facilitating such tender offer.

SEC Rule 15c1-5 and 15c1-6

The SEC has taken a no-action position with respect to Rule 15c1-5 and Rule 15c1-6 as to the required disclosure of control by a broker or dealer with respect to creations and redemptions of Fund Shares and secondary market transactions therein. (See letter from Catherine McGuire, Chief Counsel, SEC Division of Market Regulation, to Securities Industry Association, Derivative Products Committee, dated November 21, 2005.)

This Information Circular is not a statutory prospectus. BATS Members should consult the prospectus for a security and the security's website for relevant information.
