**Commencement of Trading on the Exchanges:** May 15, 2018

**Issuer/Trust:** Credit Suisse

The purpose of this information circular is to outline various rules and policies that will be applicable to trading in these new products on the Exchanges, as well as to provide certain characteristics and features of the Notes.

**Background Information on the Notes**

As more fully explained in the Pricing Supplement dated May 10, 2018, Prospectus Supplement dated June 30, 2017, and the Prospectus dated June 30, 2017 for the exchange- traded notes listed above (the “ETNs”) (File No. 333-218604-02), the return of the ETNs is linked to a quarterly rebalanced leveraged participation in the performance of STOXX Europe 50 USD (Gross Return) Index (the “Index”). The ETNs do not guarantee any return of principal at maturity. The investor will not receive periodic interest payments under the circumstances described in the pricing supplement and a cash payment at maturity or upon early redemption based on the performance of the index to which the ETNs are linked. The ETNs are senior, unsecured obligations of Credit Suisse AG (the “Issuer”), which mature on May 11, 2028.

The ETNs intend to provide a quarterly compounded 2x leveraged exposure to the performance of the Index, which is composed of the equity securities of 50 European companies selected from within the STOXX Europe 600 Index (the “Parent Index”). The Parent Index contains the 600 largest companies traded on the major exchanges of 17 European countries: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Ireland, Italy, Luxembourg, the Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

The Index is provided by STOXX Limited and the value of the Index is reported on Bloomberg.

The ETNs are subject to early redemption or acceleration in whole or in part at any time. Accordingly, an investor should not expect to be able to hold the ETNs to maturity. Additionally, the ETNs do not guarantee any return of principal at maturity and do not pay any interest during their term. Instead, investors will receive a cash payment in U.S. dollars at maturity or upon early redemption based on the performance of the Index, less an investor fee.

The ETNs may be redeemed early, at the investor’s option, subject to a minimum redemption amount of 10,000 ETNs. Upon such early redemption, the investor will receive a cash payment that is based on the performance of the Index to which the ETNs are linked, less any fees.

The ETNs’ initial indicative value current value on the initial valuation date will equal \$100.00.

The Intraday Indicative Value for the ETNs will be disseminated by market data vendors under the symbol .IV.

Additional information regarding the ETNs, including information about redemption procedures, fees, and dividends can be found in the Pricing Supplement.

### **Investment Risks**

As described in the ETNs’ Pricing Supplement, investing in the ETNs involves a number of risks not associated with an investment in conventional debt securities. An investment in the ETNs involves significant risks and is not appropriate for every investor. Investing in the ETNs is not equivalent to investing directly in its Index. Accordingly, series of ETNs should be purchased only by knowledgeable investors who understand the terms of the investment in the ETNs and are familiar with the behavior of the Index and financial markets generally.

Interested persons are referred to the prospectus and prospectus supplement for each series of ETNs for a full description of risks associated with an investment in such series of ETNs. These risks may include, but are not limited to, issuer creditworthiness; loss of all or a substantial portion of an investment in ETNs; no guaranteed minimum payment at maturity or call, or upon acceleration or early redemption, no payment of interest or any coupon amount; risks associated with the applicable index or reference asset; acceleration and redemption, resulting in a loss of all or a substantial portion of an investment; and restriction on the minimum number of ETNs that may be redeemed and on the procedures and timing for early redemption.
