Regulatory Circular RG00-155

Date: October 20, 2000

To: CBOE Members and Member Firms

From: The Index Floor Procedure Committee

RE: RAES Series Guidelines for OEX

Due to increased market volatility, the Index Floor Procedure Committee has determined to delay the increased parameters for RAES eligible orders in OEX that were previously announced in Regulatory Circular RG00-149. The current RAES parameters - **All series that are bid \$10 or less, 20 contracts in the front two months and 5 contracts for the back three months-** will remain in effect.

If you have any questions, please contact the RAES Supervisors at x4340, or the CBOE Help Desk at x7100 or any member of the Index Floor Procedure Committee.
