Re: New Vendor Service

Effective March 18, ILX is scheduled to add the bid/ask size information on OPRA quotes in various features and begin dynamically updating them at that time. Currently, it's only available statically in Time & Sales. This enhancement will require a revision of the ILX software on your workstation. CBOE will begin upgrading all ILX terminals to this revision effective immediately and have at least one terminal per firm upgraded by 3/18/02. There is no charge for this enhancement. If you have Reuters Plus it is already available.

Contact Steve Pawloski at x7789, Michael Baser at x8145 or Peter Smith at x7681.
