

Regulatory Circular RG06-52

DATE: May 22, 2006

FROM: Market Operations Department

RE: Restrictions on Transactions in
World Air Holdings (WLDA/QWA)

The NASD suspended trading in shares of World Air Holdings (WLDA/QWA), on the opening of business on May 22, 2006.

Trading on the CBOE in existing series of QWA options is subject to the following restrictions. Only closing transactions may be affected in any series of QWA options except for (i) opening transactions by market makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE member organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).

The execution of opening transactions in QWA options, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action. Member organizations should ensure that they have appropriate procedures in place to prevent their customers from entering opening orders in this restricted option class.

There are no restrictions in place with respect to the exercise of QWA options. The provisions of this circular apply to any options on QWA on traded on CBOE.
