Re: Pilot Program Extended for Unrestricted Trading of Options on the  
iShares MSCI Emerging Market Index Fund (EEM)

---

The SEC has approved the extension of a pilot program until December 7, 2006 (see SR-CBOE-2006-72) whereby CBOE may continue unrestricted trading in options on the iShares MSCI Emerging Market Index Fund (EEM). The pilot program was scheduled to expire on September 7, 2006.

Under the terms of the pilot program extension, CBOE will continue its attempt to obtain a surveillance sharing agreement with the Bolsa Mexicana de Valores ("BMV"). Once CBOE satisfies the provisions of the pilot program extension, and provided that EEM otherwise meets the Exchange's listing standards, trading in EEM series will remain unrestricted.
