RE: Restrictions on Transactions in
Smurfit-Stone Container Corporation (SSCC)

Effective Wednesday, February 4, 2009, the NASDAQ suspended trading in Smurfit-Stone Container Corporation (SSCC/JJQ/LXM).

Trading on the CBOE in existing series of JJQ and LXM options is subject to the following restrictions. Only closing transactions may be affected in any series of JJQ and LXM options except for (i) opening transactions by market makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE member organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).

The execution of opening transactions in JJQ and LXM options, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action. Member organizations should ensure that they have appropriate procedures in place to prevent their customers from entering opening orders in this restricted option class. In addition, transactions in contravention of this restriction may be subject to nullification pursuant to Exchange Rule 6.25 or 24.16.

There are no restrictions in place with respect to the exercise of JJQ and LXM options. The provisions of this circular apply to any options on JJQ and LXM traded on CBOE.
