FROM: **Market Operations Department**

RE: **Restrictions on Transactions in
CDC Corporation Class A ("CHINA")**

Effective October 28, 2011 the NASDAQ will suspend CDC Corporation Class A ("CHINA"). Trading in CDC Corporation Class A will commence on the Other OTC market under the symbol CDCAQ.

Trading on the CBOE in existing series of CDCAQ options will be subject to the following restrictions. Only closing transactions may be affected in any series of CDCAQ options except for (i) opening transactions by Market-Makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE TPH organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).

The execution of opening transactions in CDCAQ options, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action. TPH organizations should ensure that they have appropriate procedures in place to prevent their customers from entering opening orders in this restricted option class. In addition, transactions in contravention of this restriction may be subject to nullification pursuant to Exchange Rule 6.25.

There are no restrictions in place with respect to the exercise of CDCAQ options. The provisions of this circular apply to any options on CDCAQ traded on CBOE.
