

Regulatory Circular RG12-130

DATE: September 24, 2012
FROM: Market Operations Department
RE: Restrictions on Transactions in
Sino Clean Energy, Inc

Effective September 25, 2012, Sino Clean Energy, Inc (“SCEI”) will be delisted from the NASDAQ Global Market. Trading in SCEI will commence on the Other OTC market.

Trading on the CBOE in existing series of SCEI options will be subject to the following restrictions. Only closing transactions may be affected in any series of SCEI options except for (i) opening transactions by Market-Makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE TPH organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).

The execution of opening transactions in SCEI options, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action. TPH organizations should ensure that they have appropriate procedures in place to prevent their customers from entering opening orders in this restricted option class. In addition, transactions in contravention of this restriction may be subject to nullification pursuant to Exchange Rule 6.25.

There are no restrictions in place with respect to the exercise of SCEI options.
