## Regulatory Circular RG13-030

**Date:** February 25, 2013

**To:** Trading Permit Holders

**From:** Business Development Division

**RE:** Discontinuation of CBOE iSpreads Facility

---

CBOE has previously made available an iSpreads spread order facility through technology provided by LiquidPoint under which users were required to route to CBOE spread orders that were generated or managed by the iSpreads system. CBOE has discontinued this facility of the Exchange effective at the close of trading on February 22, 2013. It is our understanding that, independent of the discontinued facility, LiquidPoint intends to continue to make the iSpreads system available to users who trade on the Exchange.
