

## Regulatory Circular RG14-059

**Date:** April 9, 2014

**To:** Trading Permit Holders  
**From:** Business Development Division  
**RE:** Preferred Market-Maker Program Eligible Classes

[Updates Regulatory Circular RG14-049](#)

This circular announces that the effective date for the modifications described below has changed from April 9, 2014 to April 11, 2014.

Classes DJX, OEX, XEO, XSP and XSPAM will be eligible for the Preferred Market-Maker (PMM) program. PMMs will be entitled to a participation right, after public customers, on the allocation of incoming electronically-executed orders.

In addition, for these classes, 100% of the remainder of incoming electronically executed orders with an original quantity of 1-5 lots, after allocation to resting public customers, will be allocated to the DPM (or LMM if applicable) as long as the DPM or LMM is on the NBBO and the order is not preferred to another Market-Maker who is quoting on the NBBO.

Market-Makers who may be designated as a PMM on orders in these classes are reminded to comply with PMM quoting obligations, which differ from quoting obligations applicable to non-PMM Market-Makers. In general, PMMs are required to provide continuous electronic quotes in the lesser of (A) at least 99% of the non-adjusted options series that have a time to expiration of less than nine months or (B) 100% of the non-adjusted options series that have a time to expiration of less than nine months minus one call/put pair of each appointed options class, pursuant to Rule 8.13. Rule 1.1 defines "continuous" as 90% of the time. These continuous quoting obligations will not apply to intra-day add-on series on the day during which the series are added.
