RE: Restrictions on Transactions in Veolia Environment (VE)

Effective December 23, 2014, Veolia Environment (VE) is delisted from the NYSE and will move its listing to the Other-OTC market. The VE option symbol will remain the same for one day and change to VEOEY effective for Wednesday, December 24, 2014. Trading in VE options on December 23, 2014 and as of on December 24, 2014 VEOEY options will be subject to restrictions.

Trading on CBOE in existing series of VE and as of December 24, 2014 VEOEY options will be subject to the following restrictions. Only closing transactions may be affected in any series VE/VEOEY options except for (i) opening transactions by Market-Makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE TPH organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).

The execution of opening transactions in VE/VEOEY options, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action. TPH organizations should ensure that they have appropriate procedures in place to prevent their customers from entering opening orders in this restricted option class. In addition, transactions in contravention of this restriction may be subject to nullification pursuant to Exchange Rule 6.25.

There are no restrictions in place with respect to the exercise of VE/ VEOEY options.

In addition, effective December 24, 2014 the Automated Improvement Mechanism (AIM) will be deactivated in all series of Veolia Environment (VE). Any reactivation of AIM in the above-listed class in the future will be announced via Regulatory Circular.
