RE: Restrictions on Transactions in C&J Energy Services, Ltd. (CJES)

Effective July 21, 2016, C&J Energy Services (CJES) was delisted from the NYSE and moved its listing to the Other-OTC Market under the symbol CJESQ. Therefore, trading in CJESQ options will be subject to restrictions.

Trading on CBOE in existing series of CJESQ options will be subject to the following restrictions. Only closing transactions may be affected in any series of CJESQ options except for (i) opening transactions by Market-Makers executed to accommodate closing transactions of other market participants and (ii) opening transactions by CBOE TPH organizations to facilitate the closing transactions of public customers executed as crosses pursuant to and in accordance with CBOE Rule 6.74(b) or (d).

Trading on C2 in existing series of CJESQ options will be subject to the following restrictions. Only closing transactions may be affected in any series of CJESQ options except for opening transactions by Market-Makers executed to accommodate closing transactions of other market participants.

The execution of opening transactions in CJESQ options, except as permitted above, and/or the misrepresentation as to whether an order is opening or closing, will constitute a violation of CBOE rules, and may result in disciplinary action. TPH organizations should ensure that they have appropriate procedures in place to prevent their customers from entering opening orders in this restricted option class. In addition, transactions in contravention of this restriction may be subject to nullification pursuant to CBOE Rule 6.25 or C2 Rule 6.15.

There are no restrictions in place with respect to the exercise of CJESQ options.
