Re: Options on CNET, Inc. (QKW)

The Market Performance Committee (MPC), by its authority under the provisions of Exchange Rule 8.7 (b)(iv), has temporarily established modified bid/ask differentials in the options series on CNET Inc. (QKW). Due to the volatility in the underlying stock, QKW options may be twice as wide as the markets allowed under the provisions of Rule 8.7. This relief is granted from the opening of business on February 12, 1999 through the March 1999 Expiration Cycle unless withdrawn by the Committee prior to that time.

The Market Performance Committee will continue to monitor the activity in the underlying security of QKW options, and will modify the bid/ask differentials in the respective options accordingly.
