Re: Modified Bid/Ask Differentials

The Market Performance Committee ("MPC"), by its authority under the provisions of Exchange Rule 8.7(b)(iv), has temporarily established modified bid/ask differentials in the option series of the following option classes. Due to the volatility in the underlying stocks, options on these securities may be wider than the markets allowed under the provisions of Rule 8.7. This relief is granted from the opening of business on October 18, 1999 through the November 1999 Expiration Cycle unless withdrawn by the Committee prior to that time.

The Market Performance Committee will continue to monitor the activity in the underlying securities of these options, and will modify the bid/ask differentials in the respective options accordingly.

Any questions regarding this memorandum should be directed to Daniel Hustad at (312) 786-7715.

Bid/Ask Relief is granted as follows:
