CBOE BYX EXCHANGE, INC.
LETTER OF ACCEPTANCE, WAIVER AND CONSENT
NO. 2013036836005

TO: Cboe BYX Exchange, Inc.
c/o Department of Enforcement
Financial Industry Regulatory Authority ("FINRA")

RE: Instinet, LLC, Respondent
Broker-Dealer
CRD No. 7897

Pursuant to Rule 8.3 of the Rules of Cboe BYX Exchange, Inc. ("BYX" or the "Exchange"), Instinet, LLC ("INCA" or the "Firm") submits this Letter of Acceptance, Waiver and Consent ("AWC") for the purpose of proposing a settlement of the alleged rule violations described below. This AWC is submitted on the condition that, if accepted, BYX will not bring any future actions against the Firm alleging violations based on the same factual findings described herein.

I.

ACCEPTANCE AND CONSENT

A. The Firm hereby accepts and consents, without admitting or denying the findings, and solely for the purposes of this proceeding and any other proceeding brought by or on behalf of BYX, or to which BYX is a party, prior to a hearing and without an adjudication of any issue of law or fact, to the entry of the following findings by BYX:

BACKGROUND

1. The Firm has been a broker-dealer registered with the Securities and Exchange Commission (the "Commission") since April 25, 1979, and registered with BYX since September 1, 2010. Its registrations remain in effect. The Firm, among other things, provides market access and execution services to institutional market participants ("Market Access Clients") for a wide variety of products. In or about February 2007, INCA was acquired by Nomura Holdings, Inc., which shifted the majority of its global equities execution business to INCA in December 2012.

2. The Firm does not have a relevant disciplinary history.

SUMMARY

3. In Matter 20130376217, the Trading Analysis Section ("Trading Analysis") of FINRA's Department of Market Regulation ("Market Regulation") reviewed potential layering, spoofing, and wash trades by the Firm's Market Access Clients from July 17, 2013 through May 29, 2015, and the Firm's compliance with Rule

15c3-5 of the Securities Exchange Act of 1934 ("SEA") (the "Market Access Rule").[1]

4. In Matter No. 20150463452, the Market Manipulation Investigations Group of Market Regulation reviewed the Firm's layering and spoofing surveillances and exception reports in effect from April 2015 through April 2016, and the Firm's compliance with the Market Access Rule.

5. In Matter No. 20140436283, the Market Analysis Section ("Market Analysis") reviewed the Firm's duplicative order controls from July 1, 2013 through September 30, 2013.

6. In Matter 20140422166, Market Analysis reviewed the Firm's compliance with Rule 611 of Regulation National Market System ("Reg NMS") from July 25, 2011 through May 31, 2012, and the Firm's compliance with the Market Access Rule.

7. In Matter No. 20160509709, the Options Regulation Section of Market Regulation reviewed messaging activity by the Firm on March 30 and 31, 2016, and the Firm's compliance with the Market Access Rule.

8. In Matter No. 20150482156, Trading Analysis reviewed the Firm's procedures, systems, and controls related to potential layering, pre-opening spoofing, intraday spoofing, and wash trades in place from January 1, 2015 through May 31, 2017, and the Firm's compliance with the Market Access Rule.

9. The above matters were part of investigations conducted by Market Regulation on behalf of the Exchange and other self-regulatory organizations, including The NASDAQ Stock Market LLC; NASDAQ BX, Inc.; The NASDAQ Options Market LLC; Nasdaq PHLX LLC; Cboe BZX Exchange, Inc. ("BZX"); Cboe EDGA Exchange, Inc. ("EDGA"); Cboe EDGX Exchange, Inc. ("EDGX"); Investors Exchange LLC; NYSE Arca Options, Inc.; NYSE Arca Equities, Inc.; the New York Stock Exchange LLC; NYSE American Equities LLC; NYSE American Options LLC; BOX Options Exchange LLC; and FINRA (collectively, the "SROs"), to review the Firm's compliance with the Market Access Rule and the supervisory rules of the SROs, including BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2, during the period of August 2012 through at least November 2017 (the "Review Period").

10. As a result of Market Regulation's investigations, it was determined that, during the Review Period, INCA failed to establish, document, and maintain a system of risk management controls and supervisory procedures, including written supervisory procedures ("WSPs") and an adequate system of follow-up and

[1] The SEC adopted Rule 15c3-5 effective January 14, 2011. *See* 17 C.F.R. § 240.15c3-5, *Risk Management Controls for Brokers or Dealers with Market Access*, 75 Fed. Reg. 69792 (Nov. 15, 2010) (Final Rule Release).

review, reasonably designed to manage the financial, regulatory, and other risks of its market access business.

11. Specifically, during the Review Period, the Firm:

a. failed to have adequate risk management controls and supervisory procedures reasonably designed to prevent the entry of erroneous or duplicative orders and messaging resulting from malfunctioning software programs or trading systems in violation of SEA Rules 15c3-5(b) and (c)(1)(ii), and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2;

b. failed to ensure compliance with all regulatory requirements, including supervising client trading to detect and prevent potentially violative layering, spoofing, and wash trading in violation of SEA Rules 15c3-5(b), (c)(2), and (c)(2)(iii), and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2;

c. failed to have adequate pre-trade risk management controls and supervisory procedures reasonably designed to ensure compliance with all regulatory requirements of Rule 611(c) of Reg NMS in violation of SEA Rules 15c3-5(b), (c)(2), and (c)(2)(i), and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2; and

d. failed to ensure that its financial and regulatory risk management controls and supervisory procedures were under its direct and exclusive control in violation of SEA Rule 15c3-5(d) and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2.

FACTS AND VIOLATIVE CONDUCT

Applicable Rules

12. During the Review Period, SEA Rule 15c3-5(b) required broker-dealers that provide market access to establish, document, and maintain a system of risk management controls and supervisory procedures reasonably designed to manage the financial, regulatory, and other risks of their market access business.[2]

13. During the Review Period, SEA Rule 15c3-5(c)(1)(ii) specifically required market access broker-dealers to have financial risk management controls and supervisory procedures reasonably designed to prevent the entry of erroneous orders, by rejecting orders that exceed appropriate price or size parameters, on an order-by-order basis or over a short period of time, or that indicate duplicative orders.

14. During the Review Period, SEA Rule 15c3-5(c)(2) required market access broker-dealers to have regulatory risk management controls and supervisory procedures

[2] Rule 15c3-5 requires that, as gatekeepers to the financial markets, broker-dealers providing market access must "appropriately control the risks associated with market access, so as not to jeopardize their own financial condition, that of other market participants, the integrity of trading on the securities markets, and the stability of the financial system." 75 Fed. Reg. at 69792.

reasonably designed to ensure compliance with all regulatory requirements to, among other things, prevent the entry of orders unless there has been compliance with all regulatory requirements that must be satisfied on a pre-order entry basis and restrict access to trading systems and technology that provide market access to persons and accounts pre-approved and authorized by the market access broker-dealer.

15. During the Review Period, SEA Rule 15c3-5(c)(2)(i) specifically required market access broker-dealers to have regulatory risk management controls and supervisory procedures reasonably designed to prevent the entry of orders unless there has been compliance with all regulatory requirements that must be satisfied on a pre-order entry basis.

16. During the Review Period, SEA Rule 15c3-5(c)(2)(iii) specifically required market access broker-dealers to have regulatory risk management controls and supervisory procedures reasonably designed to restrict access to trading systems and technology that provide market access to persons and accounts pre-approved and authorized by the broker or dealer.

17. During the Review Period, SEA Rule 15c3-5(d) required that the financial and regulatory risk management controls and supervisory procedures as set forth in the Market Access Rule to be under the direct and exclusive control of the market access broker-dealer.

18. SEA Rule 15c3-5 requires, among other things, that a broker-dealer with market access document its system of risk management controls and supervisory procedures that are designed to manage the financial, regulatory, and other risks of market access. The broker-dealer must preserve a copy of its supervisory procedures and "*a written description of its risk management controls*" as part of its books and records for the time period required by SEC Rule 17a-4(e)(7).[3] The required written description is intended, among other things, to assist Commission and SRO staff to assess the broker-dealer's compliance with the rule.[4]

19. During the Review Period, BYX Rules 5.1, 5.2, and 5.3 required, among other things, that each member firm establish, maintain, and enforce written procedures to enable it to properly supervise the activities of associated persons to assure compliance with applicable securities laws and regulations, and BYX Rules.

20. During the Review Period, BYX Rule 3.1 provided that member firms, in the conduct of their business, shall observe high standards of commercial honor and just and equitable principles of trade.

---

[3] *See* 17 C.F.R. § 240.15c3-5(b) (emphasis added). Rule 17a-4(e)(7) requires a broker-dealer to maintain and preserve such description "until three years after the termination of the use of" the document. *See* 17 C.F.R. § 240.17a-4(e)(7).

[4] 75 Fed. Reg. at 69812.

21. During the Review Period, BYX Rule 3.2 provided that no member firm shall engage in conduct in violation of the SEA, or the rules or regulations thereunder and that every member firm shall supervise persons associated with the Member as to assure compliance with those requirements.

Inadequate Supervision of Customer Trading

Access to Trading Systems

22. Pursuant to INCA's written "Know Your Customer" procedures, when opening a new account, the New Account Sales Supervisor is required to obtain certain account information, complete a New Account form and confirm, in writing, the names of persons authorized to trade the account. However, from January 2013 through December 2013, INCA failed to enforce this procedure.

23. Specifically, for the account of two of its Market Access Clients, INCA only pre-approved and authorized the principals of the client. INCA failed to pre-approve the individual traders utilizing INCA's MPID to access the market through the clients and, therefore, did not know the identity of the underlying trader.

24. In addition, because INCA did not know the identity of the underlying traders, it had no means of verifying its Market Access Client's representation that a particular trader had been truly terminated or whether a disabled trader had been given a new trader ID for the client to access U.S. markets via INCA's systems after the trader had been terminated.

25. Accordingly, the Firm failed to have risk management controls and supervisory procedures to restrict access to trading systems and technology that provide market access to persons and accounts pre-approved and authorized by the broker-dealer.

26. The acts, practices, and conduct described above in paragraphs 22 through 25 constituted violations of SEA Rules 15c3-5(b) and (c)(2)(iii), and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2.

Wash Trading

27. During the Review Period, INCA had two systemic controls to detect potential wash trading by its customers: (i) a system operated by its parent company, Nomura Securities International; and (ii) its own proprietary alert system.

28. However, INCA was unable to determine if the noted exceptions were valid for the Market Access Clients noted above. Specifically, for those Market Access Clients, INCA did not know the identity of the underlying trader utilizing its MPID and, therefore, was unable to determine if the same trader was on both

sides of a transaction or if one trader was using multiple trader IDs to engage in wash trading.

29. As a result, INCA relied on its Market Access Clients to determine if beneficial ownership had changed during the relevant trade and report the occurrence of wash trading. However, INCA took wholly inadequate steps to follow-up with the Market Access Clients to verify that beneficial ownership had changed when a wash trade exception was detected.

30. The acts, practices, and conduct described above in paragraphs 27 through 29 constituted violations of SEA Rules 15c3-5(b) and (c), and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2.

Equities Layering[5] and Spoofing[6]

31. During the Review Period, INCA employed a proprietary alert system to detect potential layering and spoofing by its Market Access Clients. For certain Market Access Clients that previously had accounts with Nomura, INCA also relied upon a third-party surveillance operated by Nomura.

32. However, INCA's proprietary alert system improperly excluded potential instances of layering or spoofing where a market participant enters and cancels a series of orders that improve the National Best Bid ("NBB") or National Best Offer ("NBO"), ignoring a significant number of non-bona fide orders entered as part of a potential layering or spoofing strategy.

33. For exceptions detected by INCA's proprietary alert system, INCA's Compliance Department reviewed a sample and, where it was determined to be necessary, forwarded the exception to the relevant business side supervisor for follow-up with the client.

34. However, there were several deficiencies with INCA's follow-up and review of exceptions flagged by its proprietary surveillance systems. INCA's WSPs failed to describe the steps to be taken in addressing an exception. Specifically, INCA's

[5] "Layering" is a form of market manipulation that typically includes placement of multiple limit orders on one side of the market at various price levels that are intended to create the appearance of a change in the levels of supply and demand. In some instances, layering involves placing multiple limit orders at the same or varying prices across multiple exchanges or other trading venues. An order is then executed on the opposite side of the market and most, if not all, of the multiple limit orders are immediately cancelled. The purpose of the multiple limit orders that are subsequently cancelled is to induce, or trick, other market participants to enter orders due to the appearance of interest created by the orders such that the trader is able to receive a more favorable execution on the opposite side of the market.

[6] "Spoofing" is a manipulative trading tactic designed to induce other market participants into executing trades. Spoofing is a form of market manipulation that generally involves, but is not limited to, the market manipulator placing an order or orders with the intention of cancelling the order or orders once they have triggered some type of market movement and/or response from other market participants, from which the market manipulator might benefit by trading on the opposite side of the market.

WSPs: (i) did not describe the business side supervisor's role in the review of layering exceptions; (ii) failed to document the steps requiring the suspicious alerts to be sent to the business supervisor or describe the business supervisor's responsibility when receiving the client's response; (iii) failed to provide guidance in conducting sampling; (iv) failed to outline that the business side supervisor will investigate the alerts beyond any initial determinations by Compliance; and (v) failed to state where documentation of any such review will be maintained.

35. There were no WSPs to address exceptions detected by Nomura's third-party surveillance system. In the absence of any written guidance, INCA personnel engaged in an undocumented process whereby Nomura's Compliance Department would forward layering exception reports to the Firm's Compliance Department and the relevant business-side desk supervisor to follow-up with the relevant Market Access Client. The business-side desk supervisor would review any explanation or information provided by the relevant Market Access Client with Compliance and take any further necessary action. The business-side desk supervisor and the Firm's Compliance Department failed to take adequate action to review the explanations provided by the relevant Market Access Client.

36. As a result, six Market Access Clients were allowed to engage in potential layering and spoofing unabated despite regularly appearing on INCA's and Nomura's exception reports.

37. For example, from April 2013 through December 2013,[7] a Market Access Client of INCA generated approximately 694 layering and spoofing exceptions on Nomura's third-party surveillance.

38. Likewise, from January 2013 to on or about October 22, 2013,[8] another Market Access Client generated approximately 6,288 layering and spoofing alerts on INCA's proprietary surveillance system. During this time period, all INCA clients, in total, generated approximately 10,107 layering and spoofing alerts. Thus, the Market Access Client was responsible for approximately 60% of all INCA's layering and spoofing alerts.

39. The acts, practices, and conduct described above in paragraphs 31 through 38 constituted violations of SEA Rules 15c3-5(b) and (c)(2), and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2.

Spoofing the Open by INCA's Market Access Clients

40. During the Review Period, INCA had procedures and controls to detect potential instances of spoofing prior to the open. Beginning in January 2014, INCA had an exception report that identified any instance in which a customer placed an order

[7] INCA terminated the account on December 31, 2013.

[8] INCA terminated the account on October 22, 2013.

and cancelled the order prior to 9:30 a.m., where the cancellation quantity exceeded 5% of the security's 30-day average daily volume ("ADV").

41. However, in certain instances when an exception was triggered, INCA failed to conduct an adequate follow up and review.

42. For example, from April 7, 2015 through June 29, 2016, a Market Access Client of INCA generated approximately 279 pre-opening spoofing exceptions. Despite the number of exceptions, INCA failed to take adequate steps to address this Market Access Client's pre-opening activity.

43. The acts, practices, and conduct described above in paragraphs 40 through 42 constituted violations of SEA Rules 15c3-5(b) and (c)(2), and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2.

Inadequate Pre-Trade Controls for Erroneous Messaging Activity

44. On March 30 and 31, 2016, INCA sent a total of 53,381 order messages to BYX, BZX, EDGA, and EDGX in 19 different one-second periods. Its quoting activity accounted for an average of 99.50% of all order messages sent by all members of these four exchanges during the one-second windows noted and, on average, 28.77% of the total order messages it submitted for the entire day in the subject symbols. Nevertheless, INCA only executed four trades.

45. For example, in 5 instances on March 31, 2016, INCA entered 100 share offers priced equal to the NBO on BYX, EDGA, and EDGX that were designated as post only. The orders were immediately deleted by INCA within the same millisecond, immediately reentered for the same number of shares, canceled, and reentered for the same number of shares in a looping pattern. In each instance, INCA sent more than 1,000 messages per second, without an execution.

46. The messaging described above was the result of a programming error by its Market Access Client's third-party vendor algorithm.

47. During the Review Period, INCA failed to have reasonably designed risk management controls, including message rate controls, to detect or prevent, among other things, high levels of erroneous message traffic on the SROs that resulted from malfunctioning algorithms, software programs or trading systems used by its Market Access Clients.

48. In addition, INCA's control pertaining to duplicative orders was too narrow in that it required such orders to be entered consecutively with the same details.

49. As a result, the message activity on March 30-31, 2016, was not rejected.

50. The acts, practices, and conduct described above in paragraphs 44 through 49 constituted violations of SEA Rules 15c3-5(b) and (c)(1)(ii), and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2.

Failure to Retain Direct and Exclusive Control of Risk Management Controls and Procedures

51. From July 25, 2011 through May 31, 2012, a non-broker-dealer Market Access Client of INCA directed approximately 30,000 Intermarket Sweep Orders ("ISOs") each day to various exchanges, including BYX using INCA's MPID.

52. INCA had a price deviation risk control based on the percentage away from the National Best Bid and Offer ("NBBO") (if available) and the percentage away from the last sale, or the security's opening price or prior day's closing price (in that order of priority), if the NBBO was not available. In addition, INCA had financial and regulatory pre-trade risk controls before orders are routed to an exchange under its MPID. Finally, in routing ISOs, INCA's Market Data System ("IMDS") consolidates and processes quote information from direct market center feeds and the UTP Securities Information Processor ("SIP") feed to determine the best protected price. INCA's proprietary smart order router utilizes IMDS for ISO routing decisions.

53. However, INCA permitted the above-mentioned non-broker-dealer Market Access Client to make ISO decisions based on that client's own market data processing. To review the client's activity, INCA sampled only nine ISOs initiated by the Market Access Client from three trading days each month and received daily emails with statistical percentage of potential trade-throughs from the client's Compliance Department.

54. INCA's controls and supervisory systems related to the Market Access Client's ISO trading were unreasonable. First, INCA's review of its Market Access Client's ISO trading was limited to a post trade sampling of nine out of more than approximately 750,000 ISOs a month. Second, INCA relied on its Market Access Client's controls, for which it did not retain control, to ensure that all the necessary requirements have been met before submitting ISOs.

55. The acts, practices, and conduct described above in paragraphs 51 through 54 constituted violations of SEA Rules 15c3-5(b), (c)(2)(i) and (d), and BYX Rules 5.1, 5.2, 5.3, 3.1, and 3.2.

B. The Firm also consents to the imposition of the following sanctions:

1. A censure;

2. A fine in the amount of $1,575,000 of which $79,700 is payable to BYX;[9] and

[9] The balance of the sanction will be paid to the self-regulatory organizations listed in Paragraph B.4.

3. An undertaking requiring the Firm to address the Market Access Rule deficiencies described in this AWC and to ensure that it has implemented controls and procedures that are reasonably designed to achieve compliance with the rules and regulations cited herein.

   a. Within 90 days of the date of the issuance of this AWC, INCA shall submit to the COMPLIANCE ASSISTANT, DEPARTMENT OF ENFORCEMENT, 9509 KEY WEST AVENUE, ROCKVILLE, MD 20850, a written report, certified by a senior management Firm executive, to MarketRegulationComp@finra.org that provides the following information:

      (i) a reference to this matter;

      (ii) a representation that the Firm has addressed the deficiencies described above; and

      (iii) the date this was completed.

   b. Between 90 and 120 days after the submission of the written report, the Firm shall submit a supplemental written report to FINRA to provide an update on the effectiveness of the enhancements and changes made by the Firm to its risk management controls and procedures as describe above.

   c. The Department of Enforcement may, upon a showing of good cause and in its sole discretion, extend the time for compliance with these provisions.

4. Acceptance of this AWC is conditioned upon acceptance of similar settlement agreements in related matters between INCA and each of the following self-regulatory organizations: The NASDAQ Stock Market LLC; NASDAQ BX, Inc.; The NASDAQ Options Market LLC; Nasdaq PHLX LLC; Cboe BZX Exchange, Inc.; Cboe EDGA Exchange, Inc.; Cboe EDGX Exchange, Inc.; Investors Exchange LLC; NYSE Arca Options, Inc.; NYSE Arca Equities, Inc.; the New York Stock Exchange LLC; NYSE American Equities LLC; NYSE American Options LLC; BOX Options Exchange LLC; and FINRA.

The Firm agrees to pay the monetary sanction(s) upon notice that this AWC has been accepted and that such payment(s) are due and payable. It has submitted an Election of Payment form showing the method by which it proposes to pay the fine imposed.

The Firm specifically and voluntarily waives any right to claim that it is unable to pay, now or at any time hereafter, the monetary sanction(s) imposed in this matter.

The sanctions imposed herein shall be effective on a date set by BYX.

II.

WAIVER OF PROCEDURAL RIGHTS

The Firm specifically and voluntarily waives the following rights granted under BYX Rules:

A. To have a Statement of Charges issued specifying the allegations against the Firm;

B. To be notified of the Statement of Charges and have the opportunity to answer the allegations in writing;

C. To defend against the allegations in a disciplinary hearing before a Hearing Panel, to have a written record of the hearing made and to have a written decision issued; and

D. To appeal any such decision to the Appeals Committee of the BYX's Board of Directors and then to the U.S. Securities and Exchange Commission and a U.S. Court of Appeals.

Further, the Firm specifically and voluntarily waives any right to claim bias or prejudgment of the Chief Regulatory Officer ("CRO"), in connection with the CRO's participation in discussions regarding the terms and conditions of this AWC, or other consideration of this AWC, including acceptance or rejection of this AWC.

The Firm further specifically and voluntarily waives any right to claim that a person violated the ex parte prohibitions of BYX Rule 8.16, in connection with such person's or body's participation in discussions regarding the terms and conditions of this AWC, or other consideration of this AWC, including its acceptance or rejection.

III.

OTHER MATTERS

The Firm understands that:

A. Submission of this AWC is voluntary and will not resolve this matter unless and until it has been reviewed and accepted by the CRO, pursuant to BYX Rule 8.3;

B. If this AWC is not accepted, its submission will not be used as evidence to prove any of the allegations against the Firm; and

C. If accepted:

1. This AWC will become part of the Firm's permanent disciplinary record and may be considered in any future actions brought by BYX or any other regulator against the Firm;

2. This AWC will be published on a website maintained by BYX in accordance with BYX Rule 8.18. In addition, this AWC will be made available through FINRA's public disclosure program in response to public inquiries about the Firm's disciplinary record; and

3. The Firm may not take any action or make or permit to be made any public statement, including in regulatory filings or otherwise, denying, directly or indirectly, any finding in this AWC or create the impression that the AWC is without factual basis. The Firm may not take any position in any proceeding brought by or on behalf of BYX, or to which BYX is a party, that is inconsistent with any part of this AWC. Nothing in this provision affects the Firm's: (i) testimonial obligations; or (ii) right to take legal or factual positions in litigation or other legal proceedings in which BYX is not a party.

D. The Firm may attach a Corrective Action Statement to this AWC that is a statement of demonstrable corrective steps taken to prevent future misconduct. The Firm understands that it may not deny the charges or make any statement that is inconsistent with the AWC in this Statement. This Statement does not constitute factual or legal findings by BYX, nor does it reflect the views of BYX or its staff.

The undersigned, on behalf of the Firm, certifies that a person duly authorized to act on its behalf has read and understands all of the provisions of this AWC and has been given a full opportunity to ask questions about it; that it has agreed to the AWC's provisions voluntarily; and that no offer, threat, inducement, or promise of any kind, other than the terms set forth herein and the prospect of avoiding the issuance of a Complaint, has been made to induce the Firm to submit it.
