Partial Amendment

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

BATS Exchange, Inc. (the “Exchange” or “BATS”) is filing this partial amendment to SR-BATS-2010-026, which was originally filed on September 30, 2010, to replace the statutory basis section of the filing, which begins on page 7 of 20, with the following text:

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6 of the Act. Specifically, the Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and other persons using any facility or system which the Exchange operates or controls. As described below, the Exchange believes that its fees and credits are competitive with those charged by other venues and that the changes the Exchange has proposed will simplify the Exchange’s pricing model.

The various routing fees proposed by this filing, including fees for destination specific orders and best execution routing strategies offered by the Exchange, are intended to attract order flow to BATS Options by offering competitive and easy to understand rates to Exchange Members, especially those representing order flow that clears in the Customer range at the OCC. Accordingly, some of the changes the Exchange has proposed will result in reduced fees that will benefit Members due to the obvious economic savings those Members will receive and the potential of increased available liquidity at the

Exchange. In addition, the Exchange believes that the simplicity and certainty of its fee schedule will be a benefit to some Members. The Exchange notes that it does not currently operate any auctions through which orders are held and broadcast to its membership, nor does the Exchange engage in any payment for order flow practices. Rather, the Exchange is proposing to enhance its transparent market structure with an easy to understand and transparent pricing structure by further simplifying its routing fees. The Exchange believes that its proposed flat routing rates are, on average, better than or equal to the fees a market participant would pay if routing directly to certain market centers, especially with respect to Customer orders. The Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. Also, although routing options are available to all Members, Members are not required to use the Exchange's routing services, but instead, the Exchange's routing services are completely optional. Members can manage their own routing to different options exchanges or can utilize a myriad of other routing solutions that are available to market participants.

The Exchange proposes inserting the same language in the Exhibit 1 in place of the existing statutory basis section, which begins on page 15 of 20.

No other changes are proposed through this partial amendment.
