

1. Text of the Proposed Rule Change

(a) EDGX Exchange, Inc. (“Exchange” or “EDGX”) proposes to establish its initial fees and rebates applicable to Members¹ of the Exchange pursuant to EDGX Rule 15.1(a) and (c). The Exchange intends to implement this rule proposal immediately upon commencement of its operations as a national securities exchange. Text of the proposed rule change is attached as Exhibit 5.

(b) Inapplicable.

(c) Inapplicable.

2. Procedures of the Self-Regulatory Organization

(a) The Exchange’s Board of Directors approved the proposed rule change on April 28, 2010. This action constitutes the requisite approval under the Exchange’s Bylaws.

3. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

(a) Purpose

On March 12, 2010, the Securities and Exchange Commission (“SEC” or “Commission”) approved EDGX Exchange, Inc.² (the “Exchange”) Form 1 application under the Securities Exchange Act of 1934 (the “Act”), which sought registration as a national securities exchange pursuant to Section 6 of the Act.³

EDGX Exchange proposes to implement a fee schedule applicable to use of the Exchange commencing on the date it begins operating as a national securities exchange. The Exchange currently intends to commence operations as a national securities exchange on July 2, 2010. Please find below a description of the fees and rebates that the Exchange intends to impose under the initial, proposed fee schedule.

(i) Fees for Removing Liquidity

¹ A Member is any registered broker or dealer that has been admitted to membership in the Exchange.

² EDGA Exchange, Inc. will file a separate fee schedule with the Commission.

³ See Securities and Exchange Release No. 61698 (March 12, 2010), 75 FR 13151 (March 18, 2010) (approving File No. 10-196). EDGA Exchange, Inc. (“EDGA”) was also approved as an exchange, and will file a separate 19b-4 filing with its fee schedule.

For securities priced \$1.00 and over, the Exchange is proposing to charge \$0.0029 per share for executions that remove liquidity from the Exchange. For securities priced less than \$1.00, there is a charge of 0.10% of the total value of the transaction.

The rebates for removing liquidity will apply to securities traded on the Exchange pursuant to unlisted trading privileges that are listed on: (A) the New York Stock Exchange (“NYSE”); (B) regional exchanges, such as NYSE Arca Equities (“NYSE Arca”) and NYSE Alternext US (“NYSE Alternext,” formerly the American Stock Exchange); and (C) the NASDAQ Stock Market (“Nasdaq”) (“Tape A Securities”, “Tape B Securities” and “Tape C Securities”, respectively, and collectively, “All Tapes”).

Applicable Flags⁴

For orders in Tapes B and C Securities that remove liquidity from the EDGX book, a charge of \$0.0029 per share is proposed, as described above, and this situation yields Flag “N.” For orders in Tape A Securities that remove liquidity from the EDGX book, a charge of \$0.0029 is proposed, as described above, and this situation yields Flag “W.”

For orders that remove liquidity from LavaFlow ECN, a charge of \$0.0029 per share is proposed and this situation yields Flag “U.” However, if a Member posts an average of 100,000 share or more per day using a ROLF strategy (yielding Flag “M”), then said Member’s fee when routed to LavaFlow decreases to \$0.0023 per share (yielding Flag “U”). The latter rate reflects a pass-through of the LavaFlow ECN fee. A ROLF strategy sweeps the EDGA book and the remainder routes to LavaFlow.

For orders that remove liquidity in the Pre-Opening⁵ and Post-Closing⁶ Sessions in securities on all Tapes, a charge of \$0.0029 per share is also proposed. This situation yields Flag “6.”

(ii) Standard Rebates for Adding Liquidity

For securities priced \$1.00 and over, the Exchange is proposing to rebate \$0.0029 per share for executions that add liquidity to the Exchange. For securities priced less than \$1.00, there is a rebate of \$0.00003 to add liquidity. The Exchange believes that this rebate is appropriate as it represents 30% of the minimum price increment for securities priced less than \$1.00 (\$0.0001) and effectively aligns the rebate with access

⁴ The following rebates and fees apply to orders in securities priced \$1 and over. For securities priced less than \$1.00, there is a charge of 0.10% of the total value of the transaction.

⁶ As defined in EDGA Rule 1.5(p).

fee caps under Regulation NMS.⁷ The charge for adding liquidity will apply to securities traded on the Exchange pursuant to unlisted trading privileges that are Tape A Securities, Tape B Securities, and Tape C Securities.

However, Members can qualify for a rebate of \$0.0032 per share for all liquidity posted on EDGX if they add or route at least 5,000,000 shares of average daily volume prior to 9:30 AM or after 4:00 PM (includes all flags except 6) and add a minimum of 50,000,000 shares of average daily volume on EDGX in total, including during both market hours and Pre-Opening and Post-Closing Sessions. For the month of July 2010 only, these average daily volume thresholds (5,000,000 and 50,000,000) will be multiplied by a fraction, the numerator of which shall be the sum of the daily consolidated volumes for each Exchange-traded symbol for all days that such symbol is traded on the Exchange during the month of July and the denominator of which shall be the monthly consolidated volume for all Exchange-traded symbols during the month of July. This calculation adjusts these volume thresholds during the month of July when trading is being phased into the Exchange from Direct Edge's ECN and reflects the portion of the volume that occurs on the Exchange during the month.

Additionally, upon a Member's request, EDGX Exchange will aggregate share volume calculations for wholly owned affiliates on a prospective basis.

Applicable Flags⁸

For orders in Tape B Securities that add liquidity to the EDGX book, a rebate of \$0.0029 per share is proposed, as described above, and this situation yields Flag "B." For orders in Tape A Securities that add liquidity to the EDGX book, a rebate of \$0.0029 per share is proposed, as described above, and this situation yield Flag "V." For orders in Tape C Securities that add liquidity to the EDGX book, a rebate of \$0.0002 per share is proposed, as described above, and this situation yields Flag "Y." For all cases described above, Members could receive higher rebates if they meet the thresholds described above.

For those orders that add liquidity on LavaFlow ECN, a rebate of \$0.0024 per share is proposed and this situation would yield Flag "M." However, if a Member posts an average of 100,000 shares or more using a ROLF routing strategy, yielding flag M, then such Member's fee, when removing liquidity from LavaFlow, will decrease to \$0.0023 per share and yield flag U, as described above. For orders that add liquidity in the Pre-Opening and Post-Closing Sessions in Tapes A & C Securities, a rebate of \$0.0029 per share is proposed (yielding Flag "3"). For those orders that add liquidity in the Pre-Opening and Post-Closing Sessions in Tape B securities, a rebate of \$0.0029 per

⁷ The Access Rule of Regulation NMS limits the fees any trading center can charge, or allow to be charged, for accessing its protected quotations, both displayed and reserve size, to no more than \$0.003 per share. See Rule 610(c) of Regulation NMS, Securities and Exchange Act Release No. 51808 (June 9, 2005), 70 FR 37496 (June 29, 2005).

⁸ The following rebates and fees apply to orders in securities priced \$1.00 and over. For securities priced less than \$1.00, there is no rebate.

share is also proposed (yielding Flag “4”). However, Members could receive higher rebates if they meet the thresholds described above.

The Exchange believes that this fee structure is equitable in that it applies uniformly to all Members and provide higher rebates for higher volume thresholds, resulting from lower administrative costs. Destination-specific fees are also based, in part, on fees charged by other market centers.

(iii) Routing Charges

The Exchange proposes to charge the routing charges described below. All charges by the Exchange for routing are applicable only in the event that an order is executed. In other words, there is no charge for orders that are routed away from the Exchange but are not filled. In connection with routing of orders away from the Exchange, the Exchange proposes to charge \$0.0029 per share for securities priced \$1.00 and over and 0.30% of the total dollar value of the transaction⁹ for securities priced less than \$1.00.

For destination specific orders, the following fees/rebates are proposed to apply to all securities priced \$1 and over:¹⁰ For orders that are routed to Nasdaq using the INET order type, and remove liquidity in Tape B Securities, a charge of \$0.0030 per share is proposed (yielding Flag “2”). For securities routed to Nasdaq using the INET order type and that remove liquidity in Tape A & C Securities, a charge of \$0.0030 per share is proposed (yielding Flag “L”). The INET order type sweeps the EDGA book and removes liquidity from Nasdaq, if the order is marketable, or posts on Nasdaq, if the order is non-marketable. Members routing an average daily volume (“ADV”): (i) less than 5,000,000 shares will be charged \$0.0030 per share, as described above; (ii) equal to or greater than 5,000,000 shares but less than 20,000,000 shares will be charged Nasdaq’s best removal tier rate per share; (iii) equal to or greater than 20,000,000 shares but less than 30,000,001 shares will be charged Nasdaq’s best removal tier rate - \$0.0001 per share; and (iv) equal to or greater than 30,000,001 shares will be charged Nasdaq’s best removal tier rate - \$0.0002 per share. The rates, in all cases, are calculated for shares removed from Nasdaq. The Exchange believes that this fee structure is equitable in that it applies uniformly to all Members and provides lower fees for higher volume

⁹ This charge applies in all cases, except when (i) routing to the NYSE, where securities priced under \$1.00 are charged \$0.0021 per share when removing liquidity; (ii) when routing to Nasdaq BX and removing liquidity in Tapes A & C Securities, where securities priced under \$1.00 are charged 0.10% of the dollar value of the transaction; and (iii) when routing to Nasdaq and removing liquidity in securities on all Tapes, securities priced under \$1.00 are charged 0.20% of the dollar value of the transaction. These fees are proposed to be indicated by footnote number 3 being appended to the “C,” “J,” “L,” and “2” flags.

¹⁰ For securities priced below \$1.00, a standard routing charge of 0.30% of the total dollar value of the transaction applies, except when routing to the NYSE, as described above.

thresholds, resulting from lower administrative costs. Destination-specific fees are also based, in part, on fees charged by other market centers.

For those orders routed to Nasdaq that add liquidity, a rebate of \$0.0020 per share is proposed (yielding Flag “A”). For orders routed to Nasdaq OMX BX in Tape A and C Securities and that remove liquidity, a rebate of \$0.0001 per share is proposed (yielding Flag “C”). For orders routed or re-routed to NYSE and that remove liquidity, a charge of \$0.0021 per share is proposed (yielding Flag “D”).¹¹ For orders routed to NYSE that add liquidity, a rebate of \$0.0013 per share is proposed (yielding Flag “F”). For orders routed to NYSE Arca in Tape A & C Securities that remove liquidity, a charge of \$0.0030 per share is proposed (yielding Flag “G”). For orders routed to EDGA Exchange, Inc., a charge of \$0.0029 per share is proposed (yielding Flag “I”). For orders routed to Nasdaq that remove liquidity, a charge of \$0.0030 per share is proposed (yielding Flag “J”). For orders routed to the BATS Exchange (“BATS”) using a ROBA order type, a charge of \$0.0025 per share is proposed (yielding Flag “K”). A ROBA order type sweeps the EDGA book and routes to BATS Exchange as an immediate or cancel (IOC) order, with the remainder being cancelled if there is no execution.

For orders using the ROUQ or ROUC order types, a charge of \$0.0020 per share is proposed (yielding Flag “Q”). A ROUQ order type sweeps the EDGA book, then routes to other destination centers. A ROUC order type sweeps the EDGA book, then other destination centers, then Nasdaq OMX BX, then NYSE, and the remainder posts to EDGX. For any orders that are re-routed by EDGA, a charge of \$0.0030 per share is proposed (yielding Flag “R”). For Directed Intermarket Sweep Orders¹² (yielding Flag “S”), a charge of \$0.0033 per share is proposed. For orders that are routed and no other flag applies, a standard charge of \$0.0029 per share applies, as discussed above (yielding Flag “X”). For orders that are routed using the ROUZ order type, a charge of \$0.0010 per share is proposed (yielding Flag “Z”). A ROUZ order type sweeps the EDGA book before interacting with solicited orders. For orders routed during the Pre-Opening and Post-Closing Sessions, a charge of \$0.0030 per share applies (yielding Flag “7”). For orders that are routed using the ROUD or ROUE order types, a charge of \$0.0020 is proposed (yielding Flag “T”). A ROUD order sweeps the EDGA book before being routed to other destination centers. A ROUE order type sweeps the EDGA book, then other destination centers, and any remainder routes to other market centers.

The differences between the fees charged for routing to specific market centers and routing of specific order types described above are due to different cost structures at the various market centers to which orders may be routed and other factors. Similarly, lower transaction fees at other destination centers permit the Exchange to charge lower routing fees for orders routed to such venues. Because the Exchange incurs additional costs and performs additional services in connection with the routing of Directed ISOs, it charges a higher routing fee for such orders. Finally, because the Exchange believes that a uniform routing fee for all other orders routed away from

¹¹ This charge, instead of the standard 0.30% of the dollar value of the transaction described above, also applies to securities priced less than \$1.00.

¹² As defined in EDGA Rule 11.5(d).

the Exchange (other than those described above) provides Members with certainty as to transaction costs, it proposes to charge a standard routing fee of \$0.0029 per share, as described above, for such orders, rather than further differentiating routing fees that it charges to Members.

Other Charges and Flags

For customer internalization (i.e., same MPID),¹³ there is no charge nor rebate because the fees for removing liquidity would be offset by the rebate received for adding liquidity. This situation yields Flag “E.” During the Pre-Opening and Post-Closing sessions, there are also no charges nor rebates, but this situation yields Flag “5.”

For orders that execute during the Nasdaq opening cross (NOOP), it is proposed that these orders will be charged \$0.0005 per share and yield Flag “O.” However, this fee is proposed to be capped at \$10,000 per month per Member, which is a pass-through of Nasdaq’s opening cross cap.

For Direct Edge opening transactions, where Members match with each other at the midpoint of the national best bid/offer (“NBBO”) during EDGX’s opening process, IPO, or post-halt, a charge of \$0.0010 is proposed, yielding flag “OO.”

For Mid-Point Match (“MPM”) orders,¹⁴ the following applies:

- Where a Member added liquidity in the MPM product, a charge of \$0.0010 per share is proposed (yielding Flag “MM.”)
- Where a Member removed liquidity in the MPM product, a charge of \$0.0010 per share is proposed (yielding Flag “MT.”)
- A MPM Cross, where a Member crossed/matched with itself in the MPM product (Member is both sides of the trade), there is no charge proposed (yielding Flag “AA”).

The lower charge for MPM orders is designed to incent Members to use this order type, which provides price improvement by providing liquidity at the midpoint, and is similar to existing pricing for this order type on the International Securities Exchange, LLC.¹⁵

(b) Basis – The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Exchange Act,¹⁶ in general, and furthers the

¹³ This occurs when two orders presented to the Exchange from the same Member (i.e., MPID) are presented separately and not in a paired manner, but nonetheless inadvertently match with one another. Members are advised to consult Rule 12.2 respecting fictitious trading.

objectives of Section 6(b)(4),¹⁷ in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its members and other persons using its facilities. The Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. Finally, the Exchange believes that the proposed rates are equitable in that they apply uniformly to all Members and provide higher rebates for higher volume thresholds, resulting from lower administrative costs. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to those members that opt to direct orders to the Exchange rather than competing venues. Finally, the Exchange believes that the proposed rates further the objectives of Regulation NMS by promoting competition and granting fair and equal access to all exchange participants.

4. Self-Regulatory Organization's Statement on Burden on Competition

This proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Exchange Act.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

Self-Regulatory Organizations; EDGX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Implementing Fees For Use of EDGX Exchange, Inc.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on June 29, 2010, the EDGX Exchange, Inc. (the "Exchange" or the "EDGX") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to establish its initial fees and rebates applicable to Members³ of the Exchange pursuant to EDGX Rule 15.1(a) and (c). The Exchange intends to implement this rule proposal immediately upon commencement of its operations as a national securities exchange.

² 17 CFR 240.19b-4.

³ A Member is any registered broker or dealer that has been admitted to membership in the Exchange.

All of the changes described herein are applicable to EDGX Members. The text of the proposed rule change is available on the Exchange's Internet website at <http://www.directedge.com>.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

Purpose – On March 12, 2010, the Securities and Exchange Commission (“SEC” or “Commission”) approved EDGX Exchange, Inc.⁴ (the “Exchange”) Form 1 application under the Act, which sought registration as a national securities exchange pursuant to Section 6 of the Act.⁵

EDGX Exchange proposes to implement a fee schedule applicable to use of the Exchange commencing on the date it begins operating as a national securities exchange. The Exchange currently intends to commence operations as a national securities exchange on July 2, 2010. Please find below a description of the fees and rebates

⁴ EDGA Exchange, Inc. will file a separate fee schedule with the Commission.

⁵ See Securities and Exchange Release No. 61698 (March 12, 2010), 75 FR 13151 (March 18, 2010) (approving File No. 10-196). EDGA Exchange, Inc. (“EDGA”) was also approved as an exchange, and will file a separate 19b-4 filing with its fee schedule.

that the Exchange intends to impose under the initial, proposed fee schedule.

(i) Fees for Removing Liquidity

For securities priced \$1.00 and over, the Exchange is proposing to charge \$0.0029 per share for executions that remove liquidity from the Exchange. For securities priced less than \$1.00, there is a charge of 0.10% of the total value of the transaction.

The rebates for removing liquidity will apply to securities traded on the Exchange pursuant to unlisted trading privileges that are listed on: (A) the New York Stock Exchange (“NYSE”); (B) regional exchanges, such as NYSE Arca Equities (“NYSE Arca”) and NYSE Alternext US (“NYSE Alternext,” formerly the American Stock Exchange); and (C) the NASDAQ Stock Market (“Nasdaq”) (“Tape A Securities”, “Tape B Securities” and “Tape C Securities”, respectively, and collectively, “All Tapes”).

Applicable Flags⁶

For orders in Tapes B and C Securities that remove liquidity from the EDGX book, a charge of \$0.0029 per share is proposed, as described above, and this situation yields Flag “N.” For orders in Tape A Securities that remove liquidity from the EDGX book, a charge of \$0.0029 is proposed, as described above, and this situation yields Flag “W.”

For orders that remove liquidity from LavaFlow ECN, a charge of \$0.0029 per share is proposed and this situation yields Flag “U.” However, if a Member posts an average of 100,000 share or more per day using a ROLF strategy (yielding Flag “M”), then said Member’s fee when routed to LavaFlow decreases to \$0.0023 per share

⁶ The following rebates and fees apply to orders in securities priced \$1 and over. For securities priced less than \$1.00, there is a charge of 0.10% of the total value of the transaction.

(yielding Flag “U”). The latter rate reflects a pass-through of the LavaFlow ECN fee. A ROLF strategy sweeps the EDGA book and the remainder routes to LavaFlow.

For orders that remove liquidity in the Pre-Opening⁷ and Post-Closing⁸ Sessions in securities on all Tapes, a charge of \$0.0029 per share is also proposed. This situation yields Flag “6.”

(ii) Standard Rebates for Adding Liquidity

For securities priced \$1.00 and over, the Exchange is proposing to rebate \$0.0029 per share for executions that add liquidity to the Exchange. For securities priced less than \$1.00, there is a rebate of \$0.00003 to add liquidity. The Exchange believes that this rebate is appropriate as it represents 30% of the minimum price increment for securities priced less than \$1.00 (\$0.0001) and effectively aligns the rebate with access fee caps under Regulation NMS.⁹ The charge for adding liquidity will apply to securities traded on the Exchange pursuant to unlisted trading privileges that are Tape A Securities, Tape B Securities, and Tape C Securities.

However, Members can qualify for a rebate of \$0.0032 per share for all liquidity posted on EDGX if they add or route at least 5,000,000 shares of average daily volume prior to 9:30 AM or after 4:00 PM (includes all flags except 6) and add a minimum of 50,000,000 shares of average daily volume on EDGX in total, including during both market hours and Pre-Opening and Post-Closing Sessions. For the month of July 2010 only, these average daily volume

⁸ As defined in EDGA Rule 1.5(p).

⁹ The Access Rule of Regulation NMS limits the fees any trading center can charge, or allow to be charged, for accessing its protected quotations, both displayed and reserve size, to no more than \$0.003 per share. See Rule 610(c) of Regulation NMS, Securities and Exchange Act Release No. 51808 (June 9, 2005), 70 FR 37496 (June 29, 2005).

thresholds (5,000,000 and 50,000,000) will be multiplied by a fraction, the numerator of which shall be the sum of the daily consolidated volumes for each Exchange-traded symbol for all days that such symbol is traded on the Exchange during the month of July and the denominator of which shall be the monthly consolidated volume for all Exchange-traded symbols during the month of July. This calculation adjusts these volume thresholds during the month of July when trading is being phased into the Exchange from Direct Edge's ECN and reflects the portion of the volume that occurs on the Exchange during the month.

Additionally, upon a Member's request, EDGX Exchange will aggregate share volume calculations for wholly owned affiliates on a prospective basis.

Applicable Flags¹⁰

For orders in Tape B Securities that add liquidity to the EDGX book, a rebate of \$0.0029 per share is proposed, as described above, and this situation yields Flag "B." For orders in Tape A Securities that add liquidity to the EDGX book, a rebate of \$0.0029 per share is proposed, as described above, and this situation yield Flag "V." For orders in Tape C Securities that add liquidity to the EDGX book, a rebate of \$0.0002 per share is proposed, as described above, and this situation yields Flag "Y." For all cases described above, Members could receive higher rebates if they meet the thresholds described above.

For those orders that add liquidity on LavaFlow ECN, a rebate of \$0.0024 per share is proposed and this situation would yield Flag "M." However, if a Member posts an average of 100,000 shares or more using a ROLF routing strategy, yielding flag M, then such Member's fee, when removing liquidity from LavaFlow, will decrease to \$0.0023 per share and yield flag U, as described above. For orders that add liquidity in the Pre-Opening and Post-Closing Sessions in Tapes A & C Securities, a rebate of

¹⁰ The following rebates and fees apply to orders in securities priced \$1.00 and over. For securities priced less than \$1.00, there is no rebate.

\$0.0029 per share is proposed (yielding Flag “3”). For those orders that add liquidity in the Pre-Opening and Post-Closing Sessions in Tape B securities, a rebate of \$0.0029 per share is also proposed (yielding Flag “4”). However, Members could receive higher rebates if they meet the thresholds described above.

The Exchange believes that this fee structure is equitable in that it applies uniformly to all Members and provide higher rebates for higher volume thresholds, resulting from lower administrative costs. Destination-specific fees are also based, in part, on fees charged by other market centers.

(iii) Routing Charges

The Exchange proposes to charge the routing charges described below. All charges by the Exchange for routing are applicable only in the event that an order is executed. In other words, there is no charge for orders that are routed away from the Exchange but are not filled. In connection with routing of orders away from the Exchange, the Exchange proposes to charge \$0.0029 per share for securities priced \$1.00 and over and 0.30% of the total dollar value of the transaction¹¹ for securities priced less than \$1.00.

For destination specific orders, the following fees/rebates are proposed to apply to all securities priced \$1 and over:¹² For orders that are routed to Nasdaq using the INET

¹¹ This charge applies in all cases, except when (i) routing to the NYSE, where securities priced under \$1.00 are charged \$0.0021 per share when removing liquidity;(ii) when routing to Nasdaq BX and removing liquidity in Tapes A & C Securities, where securities priced under \$1.00 are charged 0.10% of the dollar value of the transaction; and (iii) when routing to Nasdaq and removing liquidity in securities on all Tapes, securities priced under \$1.00 are charged 0.20% of the dollar value of the transaction. These fees are proposed to be indicated by footnote number 3 being appended to the “C,” “J,” “L,” and “2” flags.

¹² For securities priced below \$1.00, a standard routing charge of 0.30% of the total dollar value of the transaction applies, except when routing to the NYSE, as

order type, and remove liquidity in Tape B Securities, a charge of \$0.0030 per share is proposed (yielding Flag “2”). For securities routed to Nasdaq using the INET order type and that remove liquidity in Tape A & C Securities, a charge of \$0.0030 per share is proposed (yielding Flag “L”). The INET order type sweeps the EDGA book and removes liquidity from Nasdaq, if the order is marketable, or posts on Nasdaq, if the order is non-marketable. Members routing an average daily volume (“ADV”): (i) less than 5,000,000 shares will be charged \$0.0030 per share, as described above; (ii) equal to or greater than 5,000,000 shares but less than 20,000,000 shares will be charged Nasdaq’s best removal tier rate per share; (iii) equal to or greater than 20,000,000 shares but less than 30,000,001 shares will be charged Nasdaq’s best removal tier rate - \$0.0001 per share; and (iv) equal to or greater than 30,000,001 shares will be charged Nasdaq’s best removal tier rate - \$0.0002 per share. The rates, in all cases, are calculated for shares removed from Nasdaq. The Exchange believes that this fee structure is equitable in that it applies uniformly to all Members and provides lower fees for higher volume thresholds, resulting from lower administrative costs. Destination-specific fees are also based, in part, on fees charged by other market centers.

For those orders routed to Nasdaq that add liquidity, a rebate of \$0.0020 per share is proposed (yielding Flag “A”). For orders routed to Nasdaq OMX BX in Tape A and C Securities and that remove liquidity, a rebate of \$0.0001 per share is proposed (yielding Flag “C”). For orders routed or re-routed to NYSE and that remove liquidity, a charge of \$0.0021 per share is proposed (yielding Flag “D”).¹³ For orders routed to NYSE that add

described above.

¹³ This charge, instead of the standard 0.30% of the dollar value of the transaction described above, also applies to securities priced less than \$1.00.

liquidity, a rebate of \$0.0013 per share is proposed (yielding Flag “F”). For orders routed to NYSE Arca in Tape A & C Securities that remove liquidity, a charge of \$0.0030 per share is proposed (yielding Flag “G”). For orders routed to EDGA Exchange, Inc., a charge of \$0.0029 per share is proposed (yielding Flag “I”). For orders routed to Nasdaq that remove liquidity, a charge of \$0.0030 per share is proposed (yielding Flag “J”). For orders routed to the BATS Exchange (“BATS”) using a ROBA order type, a charge of \$0.0025 per share is proposed (yielding Flag “K”). A ROBA order type sweeps the EDGA book and routes to BATS Exchange as an immediate or cancel (IOC) order, with the remainder being cancelled if there is no execution.

For orders using the ROUQ or ROUC order types, a charge of \$0.0020 per share is proposed (yielding Flag “Q”). A ROUQ order type sweeps the EDGA book, then routes to other destination centers. A ROUC order type sweeps the EDGA book, then other destination centers, then Nasdaq OMX BX, then NYSE, and the remainder posts to EDGX. For any orders that are re-routed by EDGA, a charge of \$0.0030 per share is proposed (yielding Flag “R”). For Directed Intermarket Sweep Orders¹⁴ (yielding Flag “S”), a charge of \$0.0033 per share is proposed. For orders that are routed and no other flag applies, a standard charge of \$0.0029 per share applies, as discussed above (yielding Flag “X”). For orders that are routed using the ROUZ order type, a charge of \$0.0010 per share is proposed (yielding Flag “Z”). A ROUZ order type sweeps the EDGA book before interacting with solicited orders. For orders routed during the Pre-Opening and Post-Closing Sessions, a charge of \$0.0030 per share applies (yielding Flag “7”). For orders that are routed using the ROUD or ROUE order types, a charge of \$0.0020 is proposed (yielding Flag “T”). A ROUD order sweeps the EDGA book before being

¹⁴ As defined in EDGA Rule 11.5(d).

routed to other destination centers. A ROUE order type sweeps the EDGA book, then other destination centers, and any remainder routes to other market centers.

The differences between the fees charged for routing to specific market centers and routing of specific order types described above are due to different cost structures at the various market centers to which orders may be routed and other factors. Similarly, lower transaction fees at other destination centers permit the Exchange to charge lower routing fees for orders routed to such venues. Because the Exchange incurs additional costs and performs additional services in connection with the routing of Directed ISOs, it charges a higher routing fee for such orders. Finally, because the Exchange believes that a uniform routing fee for all other orders routed away from the Exchange (other than those described above) provides Members with certainty as to transaction costs, it proposes to charge a standard routing fee of \$0.0029 per share, as described above, for such orders, rather than further differentiating routing fees that it charges to Members.

Other Charges and Flags

For customer internalization (i.e., same MPID),¹⁵ there is no charge nor rebate because the fees for removing liquidity would be offset by the rebate received for adding liquidity. This situation yields Flag “E.” During the Pre-Opening and Post-Closing sessions, there are also no charges nor rebates, but this situation yields Flag “5.”

For orders that execute during the Nasdaq opening cross (NOOP), it is proposed that these orders will be charged \$0.0005 per share and yield Flag “O.” However, this

¹⁵ This occurs when two orders presented to the Exchange from the same Member (i.e., MPID) are presented separately and not in a paired manner, but nonetheless inadvertently match with one another. Members are advised to consult Rule 12.2 respecting fictitious trading.

fee is proposed to be capped at \$10,000 per month per Member, which is a pass-through of Nasdaq's opening cross cap.

For Direct Edge opening transactions, where Members match with each other at the midpoint of the national best bid/offer ("NBBO") during EDGX's opening process, IPO, or post-halt, a charge of \$0.0010 is proposed, yielding flag "OO."

For Mid-Point Match ("MPM") orders,¹⁶ the following applies:

- Where a Member added liquidity in the MPM product, a charge of \$0.0010 per share is proposed (yielding Flag "MM.")
- Where a Member removed liquidity in the MPM product, a charge of \$0.0010 per share is proposed (yielding Flag "MT.")
- A MPM Cross, where a Member crossed/matched with itself in the MPM product (Member is both sides of the trade), there is no charge proposed (yielding Flag "AA").

The lower charge for MPM orders is designed to incent Members to use this order type, which provides price improvement by providing liquidity at the midpoint, and is similar to existing pricing for this order type on the International Securities Exchange, LLC.¹⁷

Basis – The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,¹⁸ in general, and furthers the objectives of Section 6(b)(4),¹⁹ in particular, as it is designed to provide for the equitable allocation of

reasonable dues, fees and other charges among its members and other persons using its facilities. The Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. Finally, the Exchange believes that the proposed rates are equitable in that they apply uniformly to all Members and provide higher rebates for higher volume thresholds, resulting from lower administrative costs. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to those members that opt to direct orders to the Exchange rather than competing venues. Finally, the Exchange believes that the proposed rates further the objectives of Regulation NMS by promoting competition and granting fair and equal access to all exchange participants.

B. Self-Regulatory Organization's
Statement on Burden on Competition

The proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on
Comments on the Proposed Rule Change
Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3) of the Act²⁰ and Rule 19b-4(f)(2)²¹ thereunder. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

¹ Members can qualify for a rebate of \$0.0032 per share for all liquidity posted on EDGX if they add or route at least 5,000,000* shares of average daily volume prior to 9:30 AM or after 4:00 PM (includes all flags except 6) AND add a minimum of 50,000,000* shares of average daily volume on EDGX in total, including during both market hours and pre and post-trading hours. * For the month of July 2010 only, these average daily volume thresholds (5,000,000 and 50,000,000) will be multiplied by a fraction, the numerator of which shall be the sum of the daily consolidated volumes for each Exchange-traded symbol for all days that such symbol is traded on the Exchange during the month of July and the denominator of which shall be the monthly consolidated volume for all Exchange-traded symbols during the month of July.

Upon a Member's request, EDGX will aggregate share volume calculations for wholly owned affiliates on a prospective basis.

² Intentionally omitted.

³ Stocks priced below \$1.00 on the NYSE are charged \$0.0021 per share when removing liquidity. Stocks priced below \$1.00 are charged 0.10% of the dollar value of the transaction when routed to Nasdaq BX and removing liquidity in Tapes A & C securities. Stocks priced below \$1.00 are charged 0.20% of the dollar value of the transaction when routed to Nasdaq and removing liquidity in securities on all Tapes.

⁴ Intentionally omitted.

⁵ Capped at \$10,000 per month per Member.

⁶ If Member posts an average of 100,000 shares or more per day using strategy ROLF (yielding Flag M), then said Member's fee when removing liquidity from LavaFlow decreases to \$0.0023 per share (yielding Flag U).

⁷ Members routing an average daily volume ("ADV"): (i) less than 5,000,000 shares will be charged \$0.0030 per share, as described in the schedule; (ii) equal to or greater than 5,000,000 shares but less than 20,000,000 shares will be charged Nasdaq's best removal tier rate per share; (iii) equal to or greater than 20,000,000 shares but less than 30,000,001 shares will be charged Nasdaq's best removal tier rate - \$0.0001 per share; and (iv) equal to or greater than 30,000,001 shares will be charged Nasdaq's best removal tier rate - \$0.0002 per share. The rates, in all cases, are calculated for shares removed from Nasdaq.

For order type definitions, please see the table below:

Order Type	Description
ROUQ	sweeps the EDGX book, then routes to other destination centers.
ROUC	sweeps the EDGX book, then sequentially sweeps the balance, if any, to the following destinations: other destination centers, then Nasdaq OMX BX, NYSE, and

	the remainder posts to EDGX
ROUD	sweeps the EDGX book before being routed to other destination centers
ROUE	sweeps the EDGX book, then other destination centers, and any remainder routes to other market centers
ROUZ	sweeps the EDGX book before interacting with solicited orders on a price/time priority basis
INET	sweeps the EDGX book and removes liquidity from Nasdaq, if the order is marketable, or posts on Nasdaq, if the order is non-marketable
ROBA	sweeps the EDGX book and routes to BATS Exchange as an immediate or cancel (IOC) order, with the remainder being cancelled if there is no execution
