2. Procedures of the Self-Regulatory Organization

The proposed rule filing was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of the Exchange on November 10, 2009. Exchange staff will advise the Board of Directors of the Exchange of any action taken pursuant to delegated authority. No other action is necessary for the filing of this proposal.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.

(a) Purpose

The Exchange proposes to amend Rule 11.18 to exclude all rights and warrants from the single stock circuit breaker under the rule. The Commission approved Rule 11.18(d) and Interpretation and Policy .05 to Rule 11.18 (the "Trading Pause Rule") on a pilot basis on June 10, 2010 to provide for trading pauses in individual securities due to extraordinary market volatility ("Trading Pause") in all securities included within the S&P 500® Index ("S&P 500") ("Pause Pilot").<sup>5</sup> The Exchange noted in its filing to

adopt the Trading Pause Rule that during the Pause Pilot period it would continue to assess whether additional securities need to be added and whether the parameters of Rule 11.18 would need to be modified to accommodate trading characteristics of different securities. The Exchange subsequently received approval to add to the Pause Pilot the securities included in the Russell 1000<sup>®</sup> Index (“Russell 1000”) and a specified list of Exchange Traded Products (“ETPs”).<sup>6</sup>

On June 23, 2011, the Commission approved proposed rule changes of the Exchanges to amend certain of their respective rules to expand the Pause Pilot to include all remaining NMS stocks (“Phase III Securities”), which included rights and warrants.<sup>7</sup> Unlike the original Pause Pilot securities, the amended Trading Pause Rule applies wider

percentage price moves to the Phase III Securities before a trading pause is triggered.<sup>8</sup>

The changes to the Trading Pause Rule became effective on August 8, 2011.

Over 25% of the trading pauses have occurred in rights and warrants since adoption of the Pause Pilot. Further, there has been a significant increase in trading pauses involving rights and warrants since the implementation of the Phase III Securities, with such pauses representing approximately 52% all trading pauses occurring through the end of August 2011. Rights and warrants trade on equity exchanges, but are closely related to call options. Rights and warrants entitle owners to purchase shares of stock at predetermined prices subject to various timing and other conditions. Like options, the price of rights and warrants are affected by the price of the underlying stock as well as other factors, particularly the volatility of the stock. As a consequence, the prices of rights and warrants may move more dramatically than the prices of the underlying stocks even when the rights and warrants (and the underlying stock) are trading in an orderly manner. This difference in trading behavior may result in a scenario whereby the rights and warrants trigger the circuit breaker under the Trading Pause Rule and are subject to a trading pause, even while the underlying stock continues to trade. This can be particularly true of rights and warrants that have low prices. Accordingly, the Exchange is proposing to exclude rights and warrants from the trading pause under the Trading Pause Rule.

(b) Statutory Basis

---

<sup>8</sup> Under amended rules, a pause is triggered by a 30% or more price move in a Phase III Security priced at \$1 or higher, and by a 50% or more price move to such a security priced less than \$1. The price of a security is based on the closing price on the previous trading day, or, if no closing price exists, the last sale reported to the Consolidated Tape on the previous trading day.

The proposed rule change is consistent with Section 6(b) of the Securities Exchange Act of 1934 (the “Act”),<sup>9</sup> in general, and furthers the objectives of Section 6(b)(5),<sup>10</sup> in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market and a national market system. The proposed rule change also is designed to support the principles of Section 11A(a)(1)<sup>11</sup> of the Act in that it seeks to ensure fair competition among brokers and dealers and among exchange markets. The Exchange believes that the proposed rule meets these requirements because it excludes certain securities from the rule’s coverage that are prone to triggering pauses because of their unique characteristics. These securities are unique in that they may move more dramatically than the prices of the underlying stocks to which they are related even when both securities are trading in an orderly manner. As such, the securities that are subject to this proposal may trigger the circuit breaker under the Trading Pause Rule and be subject to a trading pause, even while the underlying security continues to trade. Although there is little benefit in pausing trading in these securities, such pauses sequester regulatory resources that are better applied to the review of trading pauses in other securities that have a greater impact on the national market system.

4. Self-Regulatory Organization's Statement on Burden on Competition

The proposed rule change does not impose any burden on competition.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any written comments from members or other interested parties.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The Exchange requests that the Commission waive the 30-day operative waiting period contained in Exchange Act Rule 19b-4(f)(6)(iii).<sup>12</sup> The Exchange requests this waiver because it will allow the change to be operative as soon as possible in order to avoid further triggers of the Trading Pause Rule trading pause in rights and warrants, thereby avoiding the confusion caused by such pauses. Because similar rule filings are being proposed by other markets, the Exchange believes that removing such securities from the rule's coverage will maintain transparency and uniformity regarding decisions to pause trading and reduce the negative impacts of sudden, unanticipated price movements in individual securities covered by the pilot, yet uniformly eliminate pauses in securities prone to triggering the rule because of their unique nature. As such, the Exchange believes that implementation of proposal should not be delayed.

<sup>12</sup> 17 CFR 240.19b-4(f)(6)(iii).

Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

The Exchange has neither solicited nor received written comments on the proposed rule change.
