3. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

(a) Purpose

On the Exchange’s fee schedule, the Exchange currently charges a Member \$0.0020 per share for orders that yield Flag Q, where the Member’s order is routed using the ROUQ² or ROUC³ routing strategy and executes at non-exchange destinations. The pricing of Flag Q is also subject to the volume tiers detailed in Footnote 16, which currently states that where a Member posts greater than or equal to 0.30% of the Total Consolidated Volume (“TCV”) in Average Daily Volume (“ADV”) on EDGA and routes 2.5 million shares via Flag Q, then the Member’s rate for Flag Q decreases to \$0.0015 per share. Footnote 16 also states that where a Member posts greater than or equal to 0.30% of the TCV in ADV on EDGA and routes 5 million

² As defined in Exchange Rule 11.9(b)(3)(c)(iv).

³ As defined in Exchange Rule 11.9(b)(3)(a).

shares via Flag Q, then the Member's rate for Flag Q decreases to \$0.0010 per share. The Exchange proposes to expand the volume tiers in Footnote 16 to add additional criteria to achieve a lower rate of \$0.0015 per share. Specifically, Members will be assessed a charge of \$0.0015 per share for orders that yield Flag Q where a Member executes greater than or equal to an average daily volume of 12 million shares using the ROUC routing strategy and yields Flags C, D, I, K, Q, X, BY, CR and MT. The Exchange notes that Flags C, D, I, K, Q, X, BY, CR and MT correspond to the destinations on the System routing table⁴ where orders using the ROUC routing strategy may be executed; therefore, the Exchange proposes to count the volume generated from these flags in the proposed volume tier for Flag Q as described in Footnote 16.

The Exchange proposes to amend the description of Flag Q on the Exchange's fee schedule in order to provide Members additional transparency that orders that are routed using ROUQ or ROUC may execute at non-exchange destinations, yielding Flag Q. Therefore, the Exchange proposes to revise the description of Flag Q to state that Flag Q encompasses orders routed using the ROUQ or ROUC routing strategy that execute at non-exchange destinations on the System routing table. The Exchange notes that its proposal does not modify the existing routing functionality associated with Flag Q; but rather, the Exchange's proposal clarifies that orders yielding Flag Q are executed at non-exchange destinations.

The Exchange proposes to amend the description of Flag MT on the Exchange's fee schedule in order to provide Members additional transparency. Currently, the Exchange's fee schedule states that orders routed to EDGX Exchange, Inc., ("EDGX") Mid-Point Match ("MPM") using the IOCM or ROCO routing strategies, as defined in Exchange Rule 11.9(b)(3), will yield Flag MT. The Exchange proposes to revise the description of Flag MT on the Exchange's fee schedule to include ICMT and ROUC, as defined in Exchange Rule 11.9(b)(3), among the routing strategies listed. Accordingly, Members' orders that are routed to EDGX MPM using ICMT, IOCM, ROCO or ROUC routing strategies will yield Flag MT. The Exchange notes that its proposal does not modify the existing routing functionality associated with Flag MT; but rather, the Exchange's proposal modifies the fee schedule to reflect the specific routing strategies utilized and yielding Flag MT.

Currently, the Exchange offers Members a rebate of \$0.0005 per share for orders that are routed to NASDAQ OMX BX, Inc. (the "BX") and remove liquidity, yielding Flag C. The Exchange proposes to increase the rebate earned by Members' orders that yield Flag C to a \$0.0014 per share rebate.⁵ The Exchange also proposes to remove Footnote 7 in its entirety, which is appended to Flag C, thereby removing the condition that requires Members to post an

⁴ Exchange Rule 11.9(b)(3) defines the "System routing table" as the proprietary process for determining the specific trading venues to which the System, as defined in Exchange Rule 1.5(cc), routes orders and the order in which the System routes to them.

⁵ Currently, the Exchange offers Members a default rebate of \$0.0005 per share for orders that yield Flag C, where "default" refers to the standard rebate offered by the Exchange to Members for orders that yield Flag C absent Members qualifying for additional volume tiered pricing. The Exchange offered Members a rebate of \$0.0014 per share where Members posted an ADV of 25,000 shares to the BX (yielding Flag RB).

ADV of 25,000 shares to the BX (yielding Flag RB) because the Exchange is proposing a rebate of \$0.0014 per share for all Members' orders that yield Flag C.

The Exchange proposes to assess a fee of \$0.0025 per share in lieu of the current fee of \$0.0023 per share for Members' orders that are routed or re-routed to the New York Stock Exchange ("NYSE") and remove liquidity, yielding Flag D. This proposed change represents a pass-through of the rate that Direct Edge ECN LLC d/b/a DE Route ("DE Route"), the Exchange's affiliated routing broker dealer, is charged for routing orders to NYSE, in response to the pricing changes in NYSE's filing with the Securities and Exchange Commission (the "SEC").⁶

The Exchange proposes to implement these amendments to its fee schedule on October 1, 2012.

(b) Statutory Basis

The Exchange believes that the proposed rule changes are consistent with the objectives of Section 6 of the Securities and Exchange Act of 1934 (the "Act"),⁷ in general, and furthers the objectives of Section 6(b)(4),⁸ in particular, as the proposed rule changes are designed to provide for the equitable allocation of reasonable dues, fees and other charges among the Exchange's Members and other persons using its facilities.

The Exchange believes that its proposal to expand the volume tiers in Footnote 16 to also assess a charge of \$0.0015 per share for orders that yield Flag Q where a Member executes greater than or equal to an average daily volume of 12 million shares using the ROUC routing strategy, which yields Flags C, D, I, K, Q, X, BY, CR and MT, represents an equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The ROUC routing strategy initially routes orders to non-exchange destinations on the System routing table, which are associated with higher rebates and lower fees, before the orders are routed to higher cost exchange destinations. The Exchange believes that by initially routing orders to non-exchange destinations, the likelihood of the order being executed at the non-exchange destination increases. Accordingly, the Exchange proposes to pass along the potential cost savings to Members that DE Route achieves in the form of a reduced charge for orders that yield Flag Q where those orders are routed to and executed on these non-exchange destinations.

In addition, the Exchange also believes that charging Members a lower rate for achieving volume tiers in Footnote 16 will incentivize liquidity to the Exchange by increasing the use of the ROUC routing strategy, which is consistent with EDGA's low cost exchange model because

⁸ 15 U.S.C. 78f(b)(4).

ROUC offers the Exchange potential cost savings that it can pass on to its Members given that ROUC routes to a series of low cost destinations on the System routing table. Such increased volumes increase potential revenue to the Exchange, and allow the Exchange to spread its administrative and infrastructure costs over a greater number of shares, which results in lower per share costs. The Exchange may then pass on these savings to Members in the form of lower charges. The increased liquidity also benefits all investors by deepening EDGA's liquidity pool, offering additional flexibility for all investors to enjoy cost savings, supporting the quality of price discovery, promoting market transparency and improving investor protection. Volume-based discounts such as these have been widely adopted in the cash equities markets, and are equitable because volume-based discounts are open to all Members on an equal basis and provide discounts that are reasonably related to the value to an exchange's market quality associated with higher levels of market activity, such as higher levels of liquidity provision and introduction of higher volumes of orders into the price and volume discovery process. Lastly, the Exchange believes that the proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange believes that the proposed tier is equitable and reasonable when compared with the existing tier in Footnote 16 that also offers a discounted rate of \$0.0015 per share because the Exchange regards the criteria of each tier as equally stringent: Members posting greater than or equal to 0.30% of the TCV in ADV on EDGA and routing 2.5 million shares via Flag Q or Members posting greater than or equal to an average daily volume of 12 million shares using the ROUC routing strategy and yielding a variety of flags (i.e., Flags C, D, I, K, Q, X, BY, CR and MT). As discussed above, because of the potential cost savings to the Exchange where Members use the ROUC routing strategy, the Exchange can offer Members a reduced charge of \$0.0015 per share and require less volume than in the existing tier to achieve this rate given that these two tiers are equally beneficial to the Exchange in terms of their contribution towards liquidity.

The Exchange believes that its proposal to amend the description of Flag Q on the Exchange's fee schedule to state that Flag Q encompasses orders routed using ROUQ or ROUC and executed at non-exchange destinations represents an equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities because it supports the Exchange's efforts to provide additional transparency to Members when reading the fee schedule. Accordingly, the proposed revised description will advise Members that Flag Q encompasses orders routed using the ROUQ or ROUC routing strategy that execute at non-exchange destinations on the System routing table and yield Flag Q. The Exchange also believes that its proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange believes that its proposal to amend the description of Flag MT on the Exchange's fee schedule represents an equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities because it supports the Exchange's efforts to provide additional transparency to Members when reading the fee schedule. Currently, the Exchange's fee schedule states that orders routed to EDGX MPM using the IOCM or ROCO routing strategies will yield Flag MT. The Exchange proposes to revise the description of Flag MT on the Exchange's fee schedule to include ICMT and ROUC among the routing strategies listed. Accordingly, the proposed revised description will advise Members that

orders that are routed to EDGX MPM using ICMT, IOCM, ROCO or ROUC routing strategies will yield Flag MT. The Exchange also believes that its proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange believes that its proposal to increase the rebate earned by Members' orders that yield Flag C from \$0.0005 per share to \$0.0014 per share represents an equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange notes that it will provide to its Members the \$0.0014 per share rebate regardless of whether DE Route achieves the BX tier that requires posting an ADV of 25,000 shares. The Exchange believes that its proposal to increase the rebate earned by Members' orders that yield Flag C from \$0.0005 per share to \$0.0014 per share is also reasonable given that the BATS BZX Exchange, Inc., the BATS BYX Exchange, Inc., and NASDAQ OMX Group, Inc. also offer their customers a rebate of \$0.0014 per share for orders that are routed to the BX.⁹ The Exchange also notes that routing through DE Route is voluntary. Lastly, the Exchange also believes that the proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange currently offers Members a more favorable rebate of \$0.0014 per share for removing liquidity from BX where Members post an ADV of 25,000 shares to BX, as described in Footnote 7. The Exchange proposes to eliminate the volume tier requirement in Footnote 7 in its entirety and any references thereto, and the Exchange proposes to offer Members a rebate of \$0.0014 per share regardless of their volume. The Exchange believes that its proposal to delete Footnote 7 from the Exchange's fee schedule represents an equitable allocation of reasonable dues, fees, and other charges among its Members and other persons using its facilities because the Exchange is proposing to amend the rate for orders that yield Flag C to a rebate of \$0.0014 per share. The Exchange also notes that with the deletion of this tier, Members will continue to be subject to the other fees and tiers listed on the Exchange's fee schedule, and routing through DE Route is voluntary. Lastly, the Exchange also believes that the proposed amendment is non-discriminatory because it applies uniformly to all Members.

The rates associated with routing orders to NYSE through DE Route on the Exchange's fee schedule are pass-through rates from DE Route to the Exchange and represent an equitable allocation of reasonable dues, fees, and other charges among Members of the Exchange and other persons using its facilities because the Exchange does not levy additional fees or offer additional rebates for orders that it routes to NYSE through DE Route. The Exchange notes that routing through DE Route is voluntary. Currently, for orders yielding Flag D, NYSE charges DE Route a fee of \$0.0023 per share, which, in turn, is passed through to the Exchange. The Exchange, in turn, charges its Members a fee of \$0.0023 per share as a pass-through. In NYSE's

pricing changes for October 1, 2012, NYSE increased the rate it charges its customers, such as DE Route, from \$0.0023 per share to a charge of \$0.0025 per share for orders that are routed or re-routed to NYSE and remove liquidity. Therefore, the Exchange believes that the proposed change for Flag D from a fee of \$0.0023 per share to a fee of \$0.0025 per share is equitable and reasonable because it accounts for the pricing changes on NYSE. In addition, the proposal allows the Exchange to continue to charge its Members a pass-through rate for orders that are routed or re-routed to NYSE and remove liquidity using DE Route. Lastly, the Exchange also believes that the proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.

This proposed rule change does not impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

(the "Exchange" or "EDGA") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II and III below, which items have been prepared by the self-regulatory organization. places specified in Item IV below. The self-regulatory organization has prepared summaries, set forth in sections A, B and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

On the Exchange's fee schedule, the Exchange currently charges a Member \$0.0020 per share for orders that yield Flag Q, where the Member's order is routed using the ROUQ⁴ or ROUC⁵ routing strategy and executes at non-exchange destinations. The pricing of Flag Q is also subject to the volume tiers detailed in Footnote 16, which currently states that where a Member posts greater than or equal to 0.30% of the Total Consolidated Volume ("TCV") in Average Daily Volume ("ADV") on EDGA and routes 2.5 million shares via Flag Q, then the Member's rate for Flag Q decreases to \$0.0015 per share. Footnote 16 also states that where a Member posts greater than or equal to 0.30% of the TCV in ADV on EDGA and routes 5 million shares via Flag Q, then the Member's rate for Flag Q decreases to \$0.0010 per share. The Exchange proposes to expand the volume tiers in Footnote 16 to add additional criteria to achieve a lower rate of \$0.0015 per share. Specifically, Members will be assessed a charge of \$0.0015 per share for orders that yield Flag Q where a Member executes greater than or equal to an average daily volume of 12 million shares using the ROUC routing strategy and yields Flags C, D, I, K, Q, X, BY, CR and MT. The Exchange notes that Flags C, D, I, K, Q, X, BY, CR and

⁴ As defined in Exchange Rule 11.9(b)(3)(c)(iv).

⁵ As defined in Exchange Rule 11.9(b)(3)(a).

MT correspond to the destinations on the System routing table⁶ where orders using the ROUC routing strategy may be executed; therefore, the Exchange proposes to count the volume generated from these flags in the proposed volume tier for Flag Q as described in Footnote 16.

The Exchange proposes to amend the description of Flag Q on the Exchange's fee schedule in order to provide Members additional transparency that orders that are routed using ROUQ or ROUC may execute at non-exchange destinations, yielding Flag Q. Therefore, the Exchange proposes to revise the description of Flag Q to state that Flag Q encompasses orders routed using the ROUQ or ROUC routing strategy that execute at non-exchange destinations on the System routing table. The Exchange notes that its proposal does not modify the existing routing functionality associated with Flag Q; but rather, the Exchange's proposal clarifies that orders yielding Flag Q are executed at non-exchange destinations.

The Exchange proposes to amend the description of Flag MT on the Exchange's fee schedule in order to provide Members additional transparency. Currently, the Exchange's fee schedule states that orders routed to EDGX Exchange, Inc., ("EDGX") Mid-Point Match ("MPM") using the IOCM or ROCO routing strategies, as defined in Exchange Rule 11.9(b)(3), will yield Flag MT. The Exchange proposes to revise the description of Flag MT on the Exchange's fee schedule to include ICMT and ROUC, as defined in Exchange Rule 11.9(b)(3), among the routing strategies listed. Accordingly, Members' orders that are routed to EDGX MPM using ICMT, IOCM, ROCO or ROUC routing strategies will yield Flag MT. The Exchange notes that its proposal does not modify the existing routing functionality associated

with Flag MT; but rather, the Exchange's proposal modifies the fee schedule to reflect the specific routing strategies utilized and yielding Flag MT.

Currently, the Exchange offers Members a rebate of \$0.0005 per share for orders that are routed to NASDAQ OMX BX, Inc. (the "BX") and remove liquidity, yielding Flag C. The Exchange proposes to increase the rebate earned by Members' orders that yield Flag C to a \$0.0014 per share rebate.⁷ The Exchange also proposes to remove Footnote 7 in its entirety, which is appended to Flag C, thereby removing the condition that requires Members to post an ADV of 25,000 shares to the BX (yielding Flag RB) because the Exchange is proposing a rebate of \$0.0014 per share for all Members' orders that yield Flag C.

The Exchange proposes to assess a fee of \$0.0025 per share in lieu of the current fee of \$0.0023 per share for Members' orders that are routed or re-routed to the New York Stock Exchange ("NYSE") and remove liquidity, yielding Flag D. This proposed change represents a pass-through of the rate that Direct Edge ECN LLC d/b/a DE Route ("DE Route"), the Exchange's affiliated routing broker dealer, is charged for routing orders to NYSE, in response to the pricing changes in NYSE's filing with the Securities and Exchange Commission (the "SEC").⁸

The Exchange proposes to implement these amendments to its fee schedule on October 1, 2012.

⁷ Currently, the Exchange offers Members a default rebate of \$0.0005 per share for orders that yield Flag C, where "default" refers to the standard rebate offered by the Exchange to Members for orders that yield Flag C absent Members qualifying for additional volume tiered pricing. The Exchange offered Members a rebate of \$0.0014 per share where Members posted an ADV of 25,000 shares to the BX (yielding Flag RB).

⁸ See NYSE's Trader Update at <http://www.nyse.com/pdfs/NYSE%20Client%20Notice%20Fees%2010%201%202012.pdf> (discussing NYSE's fee changes effective October 1, 2012).

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,⁹ in general, and furthers the objectives of Section 6(b)(4),¹⁰ in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities.

The Exchange believes that its proposal to expand the volume tiers in Footnote 16 to also assess a charge of \$0.0015 per share for orders that yield Flag Q where a Member executes greater than or equal to an average daily volume of 12 million shares using the ROUC routing strategy, which yields Flags C, D, I, K, Q, X, BY, CR and MT, represents an equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The ROUC routing strategy initially routes orders to non-exchange destinations on the System routing table, which are associated with higher rebates and lower fees, before the orders are routed to higher cost exchange destinations. The Exchange believes that by initially routing orders to non-exchange destinations, the likelihood of the order being executed at the non-exchange destination increases. Accordingly, the Exchange proposes to pass along the potential cost savings to Members that DE Route achieves in the form of a reduced charge for orders that yield Flag Q where those orders are routed to and executed on these non-exchange destinations.

In addition, the Exchange also believes that charging Members a lower rate for achieving volume tiers in Footnote 16 will incentivize liquidity to the Exchange by increasing the use of the ROUC routing strategy, which is consistent with EDGA's low cost exchange model because ROUC offers the Exchange potential cost savings that it can pass on to its Members given that

⁹ 15 U.S.C. 78f.

¹⁰ 15 U.S.C. 78f(b)(4).

ROUC routes to a series of low cost destinations on the System routing table. Such increased volumes increase potential revenue to the Exchange, and allow the Exchange to spread its administrative and infrastructure costs over a greater number of shares, which results in lower per share costs. The Exchange may then pass on these savings to Members in the form of lower charges. The increased liquidity also benefits all investors by deepening EDGA's liquidity pool, offering additional flexibility for all investors to enjoy cost savings, supporting the quality of price discovery, promoting market transparency and improving investor protection. Volume-based discounts such as these have been widely adopted in the cash equities markets, and are equitable because volume-based discounts are open to all Members on an equal basis and provide discounts that are reasonably related to the value to an exchange's market quality associated with higher levels of market activity, such as higher levels of liquidity provision and introduction of higher volumes of orders into the price and volume discovery process. Lastly, the Exchange believes that the proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange believes that the proposed tier is equitable and reasonable when compared with the existing tier in Footnote 16 that also offers a discounted rate of \$0.0015 per share because the Exchange regards the criteria of each tier as equally stringent: Members posting greater than or equal to 0.30% of the TCV in ADV on EDGA and routing 2.5 million shares via Flag Q or Members posting greater than or equal to an average daily volume of 12 million shares using the ROUC routing strategy and yielding a variety of flags (i.e., Flags C, D, I, K, Q, X, BY, CR and MT). As discussed above, because of the potential cost savings to the Exchange where Members use the ROUC routing strategy, the Exchange can offer Members a reduced charge of \$0.0015 per share and require less volume than in the existing tier to achieve this rate

given that the these two tiers are equally beneficial to the Exchange in terms of their contribution towards liquidity.

The Exchange believes that its proposal to amend the description of Flag Q on the Exchange's fee schedule to state that Flag Q encompasses orders routed using ROUQ or ROUC and executed at non-exchange destinations represents an equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities because it supports the Exchange's efforts to provide additional transparency to Members when reading the fee schedule. Accordingly, the proposed revised description will advise Members that Flag Q encompasses orders routed using the ROUQ or ROUC routing strategy that execute at non-exchange destinations on the System routing table and yield Flag Q. The Exchange also believes that its proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange believes that its proposal to amend the description of Flag MT on the Exchange's fee schedule represents an equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities because it supports the Exchanges' efforts to provide additional transparency to Members when reading the fee schedule. Currently, the Exchange's fee schedule states that orders routed to EDGX MPM using the IOCM or ROCO routing strategies will yield Flag MT. The Exchange proposes to revise the description of Flag MT on the Exchange's fee schedule to include ICMT and ROUC among the routing strategies listed. Accordingly, the proposed revised description will advise Members that orders that are routed to EDGX MPM using ICMT, IOCM, ROCO or ROUC routing strategies will yield Flag MT. The Exchange also believes that its proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange believes that its proposal to increase the rebate earned by Members' orders that yield Flag C from \$0.0005 per share to \$0.0014 per share represents an equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange notes that it will provide to its Members the \$0.0014 per share rebate regardless of whether DE Route achieves the BX tier that requires posting an ADV of 25,000 shares. The Exchange believes that its proposal to increase the rebate earned by Members' orders that yield Flag C from \$0.0005 per share to \$0.0014 per share is also reasonable given that the BATS BZX Exchange, Inc., the BATS BYX Exchange, Inc., and NASDAQ OMX Group, Inc. also offer their customers a rebate of \$0.0014 per share for orders that are routed to the BX.¹¹ The Exchange also notes that routing through DE Route is voluntary. Lastly, the Exchange also believes that the proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange currently offers Members a more favorable rebate of \$0.0014 per share for removing liquidity from BX where Members post an ADV of 25,000 shares to BX, as described in Footnote 7. The Exchange proposes to eliminate the volume tier requirement in Footnote 7 in its entirety and any references thereto, and the Exchange proposes to offer Members a rebate of \$0.0014 per share regardless of their volume. The Exchange believes that its proposal to delete Footnote 7 from the Exchange's fee schedule represents an equitable allocation of reasonable dues, fees, and other charges among its Members and other persons using its facilities because

the Exchange is proposing to amend the rate for orders that yield Flag C to a rebate of \$0.0014 per share. The Exchange also notes that with the deletion of this tier, Members will continue to be subject to the other fees and tiers listed on the Exchange's fee schedule, and routing through DE Route is voluntary. Lastly, the Exchange also believes that the proposed amendment is non-discriminatory because it applies uniformly to all Members.

The rates associated with routing orders to NYSE through DE Route on the Exchange's fee schedule are pass-through rates from DE Route to the Exchange and represent an equitable allocation of reasonable dues, fees, and other charges among Members of the Exchange and other persons using its facilities because the Exchange does not levy additional fees or offer additional rebates for orders that it routes to NYSE through DE Route. The Exchange notes that routing through DE Route is voluntary. Currently, for orders yielding Flag D, NYSE charges DE Route a fee of \$0.0023 per share, which, in turn, is passed through to the Exchange. The Exchange, in turn, charges its Members a fee of \$0.0023 per share as a pass-through. In NYSE's pricing changes for October 1, 2012, NYSE increased the rate it charges its customers, such as DE Route, from \$0.0023 per share to a charge of \$0.0025 per share for orders that are routed or re-routed to NYSE and remove liquidity. Therefore, the Exchange believes that the proposed change for Flag D from a fee of \$0.0023 per share to a fee of \$0.0025 per share is equitable and reasonable because it accounts for the pricing changes on NYSE. In addition, the proposal allows the Exchange to continue to charge its Members a pass-through rate for orders that are routed or re-routed to NYSE and remove liquidity using DE Route. Lastly, the Exchange also believes that the proposed amendment is non-discriminatory because it applies uniformly to all Members.

The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.

¹ All removal rates on EDGA are contingent on the attributed MPID adding (including hidden) and/or routing a minimum average daily share volume, measured monthly, of 50,000 shares on EDGA. Any attributed MPID not meeting the aforementioned minimum will be charged \$0.0030 per share for removing liquidity from EDGA for securities priced \$1.00 and over and 0.20% of dollar value for securities priced less than \$1.00.

² Rates for Flags HA and HR are contingent upon Member adding or removing greater than 1,000,000 shares non-displayed(hidden) on a daily basis, measured monthly (yields Flags HA, HR, DM, DT and RP) or Member posting greater than 8,000,000 shares on a daily basis, measured monthly. Members not meeting either minimum will be charged \$0.0030 per share for Flags HA and HR.

³ Stocks priced below \$1.00 on the NYSE are charged \$0.0023 per share when removing liquidity. Stocks priced below \$1.00 are charged 0.10% of the dollar value of the transaction when routed to BX and removing liquidity in Tapes A, B, & C securities. Stocks priced below \$1.00 are charged 0.30% of the dollar value of the transaction when routed to NASDAQ and removing liquidity in securities on all Tapes.

⁴ If a Member, on a daily basis, measured monthly, posts more than 1% of the Total Consolidated Volume (“TCV”) in average daily volume on EDGA, including non-displayed orders that add liquidity, then the Member will be charged \$0.0005 per share for Flags B, V, Y, 3 and 4. TCV is defined as volume reported by all exchanges and trade reporting facilities to the consolidated transaction reporting plans for Tapes A, B and C securities for the month prior to the month in which the fees are calculated.

If a Member, on a daily basis, measured monthly, posts more than .25% of the TCV on EDGA, including non-displayed orders that add liquidity, and removes more than .25% of TCV in average daily volume, then the Member will be charged \$0.0005 per share.

⁵ Capped at \$10,000 per month per Member.

⁶ If Member posts an average of 100,000 shares or more per day using strategy ROLF (yielding Flag M), then said Member’s fee when removing liquidity from LavaFlow decreases to \$0.0023 per share (yielding Flag U).

⁷ Intentionally omitted. [If Member posts an average daily volume of 25,000 shares to NASDAQ BX (yielding Flag RB), then said Member's rebate for removing liquidity from NASDAQ BX increases to \$0.0014 per share (yielding Flag C).]

⁸ Flag D is assigned and a fee of \$0.0023 per share is assessed if an SWPA, SWPB, or SWPC routing strategy removes liquidity from NYSE.

⁹ A Flag "O" will be yielded and a fee of \$0.0005 per share will be assessed if an order is routed to NYSE Arca & BATS BZX's closing process.

¹⁰ A Flag "RX" will be yielded and a fee of \$0.0027 per share will be assessed when an order is routed to EDGX Exchange using the ROUT routing strategy.

¹¹ A Flag "T" will be yielded and a fee of \$0.0030 per share will be assessed when an order is routed to EDGX Exchange.

¹² Stocks priced below \$1.00 are charged \$0.0010 per share.

¹³ The eligible routing strategies for Flag CR are ROUT, RDOT, ROUE, ROUC, ROOC, ROCO, IOCT, or ICMT.

¹⁴ The eligible routing strategies for Flag XR are ROUX, RDOX, ROPA, INET, ROBB, ROBY, ROBX, ROBA, SWPA, SWPB, SWPC, ROLF, IOCX, or IOCM.

¹⁵ The eligible routing strategies for Flag PR are ROUZ, ROUD, or ROUQ.

¹⁶ If a Member posts greater than or equal to 0.30% of the TCV in ADV on EDGA and routes 2.5 million shares through the use of Flag Q, then the Member's rate for Flag Q decreases to \$0.0015 per share. If a Member executes greater than or equal to an average daily volume of 12 million shares using the ROUC routing strategy and yielding Flags C, D, I, K, Q, X, BY, CR and MT, then the Member's rate for Flag Q decreases to \$0.0015 per share.

If a Member posts greater than or equal to 0.30% of the TCV in ADV on EDGA and routes 5 million shares through the use of Flag Q, then the Member's rate for Flag Q decreases to \$0.0010 per share.

¹⁷ If a Member executes greater than 2 million shares per day, measured monthly, using routing strategy RMPT (*i.e.*, receiving flags PA, PT and PX), then the Member's rates for PT and PX are reduced to \$0.0008 per share.

^a Upon a Member's request, EDGA will aggregate share volume calculations for wholly owned affiliates on a prospective basis.

^b Trading activity on days when the market closes early does not count toward volume tiers.

^c Reserved.

^d A charge of 1% per month on the past due portion of the balance will be assessed on a Member's account that is past due. This fee will begin to accrue on a daily basis for items not paid within the 30 day payment terms until the item is paid in full. Late fees incurred will be included as line items on subsequent invoices.
