If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² BATS Y-Exchange, Inc. (the “Exchange” or “BYX”) is filing with the Securities and Exchange Commission (“Commission”) a proposed rule change to amend the fee schedule applicable to Members³ and non-members of the Exchange pursuant to BYX Rules 15.1(a) and (c). Changes to the fee schedule pursuant to this proposal will be effective upon filing.

(a) The text of the proposed rule change is attached as Exhibit 5. Material proposed to be added is underlined. Material proposed to be deleted is enclosed in brackets.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of the Exchange on September 27, 2010. Exchange staff will advise the Board of Directors of the Exchange of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

Questions regarding this rule filing may be directed to Eric Swanson, Senior Vice President and General Counsel of the Exchange at (913) 815-7000.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.

(a) Purpose

The Exchange proposes to modify fees applicable to Members and non-members in order to encourage use of connectivity that provides redundant access to the Exchange by eliminating any potential fees for logical ports⁴ in connection with such redundant access.

The Exchange currently charges a monthly fee for ports used to enter orders in the Exchange's trading system and to receive data from the Exchange. The Exchange currently charges \$400.00 per month per "pair" of any port type other than a Multicast PITCH Spin Server Port or a GRP Port.⁵ Each pair of ports consists of one port at the Exchange's primary data center and one port at the Exchange's secondary data center. Rather than stating that the fee for logical ports is per "pair", the Exchange proposes to simplify the fee schedule by adding a footnote that states that logical port fees are limited to logical ports in the Exchange's primary data center and that no logical port fees will be assessed for redundant secondary data center ports. Although this change to fee schedule language will not result in any substantive change to Members or non-members, as the Exchange is already providing secondary data center ports free of charge, the Exchange believes that this is a simpler way to bill for ports rather than billing in pairs. Further, this

⁴ A logical port is commonly referred to as a TCP/IP port, and represents a port established by the Exchange within the Exchange's system for trading and billing purposes. Each logical port established is specific to a Member or non-member and grants that Member or non-member the ability to operate a specific application, such as FIX order entry or Multicast PITCH data receipt.

⁵ Thus, the charges apply to all Exchange FIX, FIXDROP, BOE, DROP, TCP PITCH, and TOP ports.

will allow the Exchange to include the concept of a “primary” Multicast PITCH data feed, as described below, without confusion as related to the Exchange’s primary data center.

In addition, the Exchange proposes to modify the description of the billing for ports related to the Exchange’s Multicast PITCH data feed.⁶ The Exchange currently provides 32 pairs of Multicast PITCH Spin Server Ports free of charge and, if such ports are used, one free pair of GRP Ports.⁷ The Exchange charges customers \$400.00 per month per additional set of 32 Multicast PITCH Spin Server Ports or additional pair of GRP Ports. Consistent with the change described above, the Exchange proposes to eliminate the concept of port “pairs” and instead maintain a fee schedule that imposes fees only for logical ports at the Exchange’s primary data center. Thus, the Exchange will continue to provide at the Exchange’s primary data center 32 Multicast PITCH Spin Server Ports free of charge and, if such ports are used, one free GRP Port and all redundant Multicast PITCH Spin Server Ports and GRP Ports at the secondary data center will be free of charge. Again, although not a substantive change for Members and non-members, the Exchange believes that this change simplifies the fee schedule and also

⁶ The Multicast PITCH data feed is defined in Rule 11.22(c) as “an uncompressed data feed that offers depth of book quotations and execution information based on equity orders entered into the System.”

⁷ The Exchange notes that its fees for Multicast PITCH customers, including the current provision of certain ports free of charge, are designed to encourage use of the Exchange’s Multicast PITCH data feed because the Exchange believes that the feed is its most efficient feed, and thus, will reduce infrastructure costs for both the Exchange and those who utilize the feed. Any Member or non-member that has entered into the appropriate agreements with the Exchange is permitted to receive Multicast PITCH Spin Server Ports and GRP Ports from the Exchange.

indicates the Exchange's support for Members and non-members to establish sufficient connectivity for business continuity purposes.

Similarly, the Exchange proposes to modify its fee schedule in order to allow Members and non-members to take redundant Multicast PITCH data feeds from the Exchange. The Exchange's Multicast PITCH data feed is currently offered through two primary feeds, identified as the "A feed" and the "C feed", which contain the same information but differ only in the way such feeds are received. The Exchange is in the process of commencing to offer redundant versions of the Multicast PITCH data feed and does not intend for Members and non-members that connect to such feeds to incur additional port fees. As such, the Exchange is proposing to modify its description of Multicast PITCH logical port fees so that only ports necessary to take a primary feed (either A or C), and not redundant versions of such feed, are subject to logical port fees. Again, the Exchange wishes to encourage Members and non-members to establish connectivity for business continuity purposes, including in the event the Exchange's data center is fully operational but a specific version of an Exchange data feed becomes unavailable.

Based on the proposal, the change applies to Members that obtain ports for direct access to the Exchange, Sponsored Participants sponsored by Members to receive direct access to the Exchange, non-member service bureaus that act as a conduit for orders entered by Exchange Members that are their customers, and market data recipients.

(b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a

national securities exchange, and, in particular, with the requirements of Section 6 of the Act.⁸ Specifically, the Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act,⁹ in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and other persons using any facility or system which the Exchange operates or controls.

The Exchange believes that its proposed changes to logical port fees are reasonable in light of the fact that all such changes are intended to ensure that Members and non-members are able to establish redundant connections to the Exchange without incurring additional logical port fees. In addition, the Exchange believes that the proposed changes to fees are equitably allocated among Exchange constituents as the cost savings for redundant connectivity will be available to all such constituents. The Exchange reiterates that the change to limit logical port fees to logical port fees at the primary data center is not a substantive change in that Exchange constituents currently receive without charge a corresponding port at the secondary data center for any port established at the primary data center.

The Exchange also believes that providing financial incentives to use Exchange technology that the Exchange believes is the most technologically efficient for the Exchange and its constituents is a fair and equitable approach to pricing. Accordingly, the Exchange believes that promotion of its Multicast PITCH data feed through the continued offering of free logical ports is fair and equitable. The Multicast PITCH data feed is available to all Members, and as such, all Members have the ability to receive

⁸ 15 U.S.C. 78f.

⁹ 15 U.S.C. 78f(b)(4).

applicable Multicast PITCH ports free of charge. Further, the Exchange believes that promoting the use of redundant connectivity is reasonable, fair and equitable and not unreasonably discriminatory as it is uniform in application amongst Members and non-members and should enable such participants to enhance their business continuity planning.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange will not assess new fees as part of the proposal. Instead, the proposal is focused on enhancing the clarity of the fee schedule and reducing barriers to Exchange Members and non-member constituents that may be seeking to establish redundant connections to the Exchange.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any written comments from members or other interested parties.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Pursuant to Section 19(b)(3)(A)(ii) of the Act¹⁰ and Rule 19b-4(f)(2) thereunder,¹¹ the Exchange has designated this proposal as establishing or changing a due, fee, or other

charge applicable to the Exchange's Members and non-members, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

Self-Regulatory Organizations; BATS Y-Exchange, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Related to Fees for Use of BATS Y-Exchange, Inc.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on May 3, 2013, BATS Y-Exchange, Inc. (the “Exchange” or “BYX”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as one establishing or changing a member due, fee, or other charge imposed by the Exchange under Section 19(b)(3)(A)(ii) of the Act³ and Rule 19b-4(f)(2) thereunder,⁴ which renders the proposed rule change effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the fee schedule applicable to Members⁵ and non-members of the Exchange pursuant to BYX Rules 15.1(a) and (c). Changes to the fee schedule pursuant to this proposal will be effective upon filing.

The text of the proposed rule change is available at the Exchange's website at <http://www.batstrading.com>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to modify fees applicable to Members and non-members in order to encourage use of connectivity that provides redundant access to the Exchange by eliminating any potential fees for logical ports⁶ in connection with such redundant access.

The Exchange currently charges a monthly fee for ports used to enter orders in the Exchange's trading system and to receive data from the Exchange. The Exchange currently charges \$400.00 per month per "pair" of any port type other than a Multicast

⁶ A logical port is commonly referred to as a TCP/IP port, and represents a port established by the Exchange within the Exchange's system for trading and billing purposes. PITCH Spin Server Port or a GRP Port.⁷ Each pair of ports consists of one port at the Exchange's primary data center and one port at the Exchange's secondary data center. Rather than stating that the fee for logical ports is per "pair", the Exchange proposes to simplify the fee schedule by adding a footnote that states that logical port fees are limited to logical ports in the Exchange's primary data center and that no logical port fees will be assessed for redundant secondary data center ports. Although this change to fee schedule language will not result in any substantive change to Members or non-members, as the Exchange is already providing secondary data center ports free of charge, the Exchange believes that this is a simpler way to bill for ports rather than billing in pairs. Further, this will allow the Exchange to include the concept of a "primary" Multicast PITCH data feed, as described below, without confusion as related to the Exchange's primary data center.

In addition, the Exchange proposes to modify the description of the billing for ports related to the Exchange's Multicast PITCH data feed.⁸ The Exchange currently provides 32 pairs of Multicast PITCH Spin Server Ports free of charge and, if such ports are used, one free pair of GRP Ports.⁹ The Exchange charges customers \$400.00 per

⁷ Thus, the charges apply to all Exchange FIX, FIXDROP, BOE, DROP, TCP PITCH, and TOP ports.

⁸ The Multicast PITCH data feed is defined in Rule 11.22(c) as "an uncompressed data feed that offers depth of book quotations and execution information based on equity orders entered into the System."

⁹ The Exchange notes that its fees for Multicast PITCH customers, including the current provision of certain ports free of charge, are designed to encourage use of the Exchange's Multicast PITCH data feed because the Exchange believes that the feed is its most efficient feed, and thus, will reduce infrastructure costs for both the Exchange and those who utilize the feed. Any Member or non-member that has entered into the appropriate agreements with the Exchange is permitted to receive Multicast PITCH Spin Server Ports and GRP Ports from the Exchange.

month per additional set of 32 Multicast PITCH Spin Server Ports or additional pair of GRP Ports. Consistent with the change described above, the Exchange proposes to eliminate the concept of port “pairs” and instead maintain a fee schedule that imposes fees only for logical ports at the Exchange’s primary data center. Thus, the Exchange will continue to provide at the Exchange’s primary data center 32 Multicast PITCH Spin Server Ports free of charge and, if such ports are used, one free GRP Port and all redundant Multicast PITCH Spin Server Ports and GRP Ports at the secondary data center will be free of charge. Again, although not a substantive change for Members and non-members, the Exchange believes that this change simplifies the fee schedule and also indicates the Exchange’s support for Members and non-members to establish sufficient connectivity for business continuity purposes.

Similarly, the Exchange proposes to modify its fee schedule in order to allow Members and non-members to take redundant Multicast PITCH data feeds from the Exchange. The Exchange’s Multicast PITCH data feed is currently offered through two primary feeds, identified as the “A feed” and the “C feed”, which contain the same information but differ only in the way such feeds are received. The Exchange is in the process of commencing to offer redundant versions of the Multicast PITCH data feed and does not intend for Members and non-members that connect to such feeds to incur additional port fees. As such, the Exchange is proposing to modify its description of Multicast PITCH logical port fees so that only ports necessary to take a primary feed (either A or C), and not redundant versions of such feed, are subject to logical port fees. Again, the Exchange wishes to encourage Members and non-members to establish connectivity for business continuity purposes, including in the event the Exchange’s data

center is fully operational but a specific version of an Exchange data feed becomes unavailable.

Based on the proposal, the change applies to Members that obtain ports for direct access to the Exchange, Sponsored Participants sponsored by Members to receive direct access to the Exchange, non-member service bureaus that act as a conduit for orders entered by Exchange Members that are their customers, and market data recipients.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6 of the Act.¹⁰ Specifically, the Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act,¹¹ in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and other persons using any facility or system which the Exchange operates or controls.

The Exchange believes that its proposed changes to logical port fees are reasonable in light of the fact that all such changes are intended to ensure that Members and non-members are able to establish redundant connections to the Exchange without incurring additional logical port fees. In addition, the Exchange believes that the proposed changes to fees are equitably allocated among Exchange constituents as the cost savings for redundant connectivity will be available to all such constituents. The Exchange reiterates that the change to limit logical port fees to logical port fees at the

primary data center is not a substantive change in that Exchange constituents currently receive without charge a corresponding port at the secondary data center for any port established at the primary data center.

The Exchange also believes that providing financial incentives to use Exchange technology that the Exchange believes is the most technologically efficient for the Exchange and its constituents is a fair and equitable approach to pricing. Accordingly, the Exchange believes that promotion of its Multicast PITCH data feed through the continued offering of free logical ports is fair and equitable. The Multicast PITCH data feed is available to all Members, and as such, all Members have the ability to receive applicable Multicast PITCH ports free of charge. Further, the Exchange believes that promoting the use of redundant connectivity is reasonable, fair and equitable and not unreasonably discriminatory as it is uniform in application amongst Members and non-members and should enable such participants to enhance their business continuity planning.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange will not assess new fees as part of the proposal. Instead, the proposal is focused on enhancing the clarity of the fee schedule and reducing barriers to Exchange Members and non-member constituents that may be seeking to establish redundant connections to the Exchange.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

No written comments were solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹² and paragraph (f) of Rule 19b-4 thereunder.¹³ At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

BATS BYX Exchange Fee Schedule

Effective [April 1]May 3, 2013

The following is the Schedule of Fees (pursuant to Rule 15.1(a) and (c)) for BATS Y-Exchange, Inc. ("BYX Exchange" or "BYX").

* * *

Logical Port Fees⁵

- \$400.00 per month per [pair (primary and secondary data center) of any] logical port other than a Multicast PITCH Spin Server Port or GRP Port

- Multicast PITCH customers: 32 free [pairs of] primary (A or C feed) Multicast PITCH Spin Server Ports, and, if such ports are used, one free [pair of] primary (A or C feed) GRP Port[s]; \$400.00 per month per additional set of 32 [pairs of] primary Multicast PITCH Spin Server Ports or additional [pair of] primary GRP Port[s]⁶

* * *

⁵ Logical port fees are limited to logical ports within the primary data center. No logical port fees will be assessed for redundant secondary data center ports.

⁶ Multicast PITCH is available through one of two primary feeds, either the A or C feed. All secondary feed Multicast PITCH Spin Server and GRP Ports are provided for redundancy at no additional cost.
