Exhibit 2 - Notices, Written Comments, Transcripts, Other Communications

Add Remove View

Exhibit Sent As Paper Document

☐

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

Exhibit 3 - Form, Report, or Questionnaire

Add Remove View

Exhibit Sent As Paper Document

☐

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

Exhibit 4 - Marked Copies

Add Remove View

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

Exhibit 5 - Proposed Rule Text

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

Partial Amendment

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² BATS Y-Exchange, Inc. (the “Exchange” or “BYX”) is filing with the Securities and Exchange Commission (“Commission”) a proposal to amend Rule 12.6 to make it substantially the same as Financial Industry Regulatory Authority (“FINRA”) Rule 5320.

(a) The text of the proposed rule change is attached as Exhibit 5. Material proposed to be added is underlined. Material proposed to be deleted is enclosed in brackets.

(b) Not applicable

(c) Not applicable

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by the Board of Directors of the Exchange on October 2, 2013. No other action is necessary for the filing of the rule change. No other action is necessary for the filing of the rule change. If approved, the Exchange will designate an effective date for Rule 12.6, as amended, and will notify Members of such effective date in a regulatory circular, as described below.

Questions regarding this rule filing may be directed to Eric Swanson, Senior Vice President and General Counsel of the Exchange at (913) 815-7000.

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.

(a) Purpose

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

The Exchange proposes to amend Rule 12.6, which limits trading ahead of customer orders by Members,³ to make the rule substantially the same as FINRA Rule 5320.⁴ As with FINRA Rule 5320, amended Rule 12.6 would prohibit Members from trading ahead of customer orders, subject to specified exceptions. The amended rule would include exceptions for large orders and institutional accounts, proprietary transactions effected by a trading unit of a Member with no knowledge of customer orders held by another trading unit of the Member, riskless principal transactions, intermarket sweep orders (“ISOs”), and odd lot and bona fide error transactions, discussed in detail below. Amended Rule 12.6 would also provide the same guidance as FINRA Rule 5320 on minimum price improvement standards, order handling procedures, and trading outside normal market hours.

Background

Current Rule 12.6, the customer order protection rule, generally prohibits Members from trading on a proprietary basis ahead of, or along with, customer orders that are executable at the same price as the proprietary order. The rule contains several exceptions that make it permissible for a Member to enter a proprietary order while representing a customer order that could be executed at the same price, including permitting transactions for the purposes of facilitating the execution, on a riskless principal basis, of one or more customer orders.

Proposal to Adopt Text of FINRA Rule 5320

³ Members are registered brokers or dealers that have been admitted to membership at the Exchange. BYX Rule 1.5(n).

⁴ See Securities Exchange Act Release No. 63895 (February 11, 2011), 76 FR 9386 (February 17, 2011) (SR-FINRA-2009-90).

To harmonize its rules with FINRA, the Exchange proposes to delete the current text of Rule 12.6 and its supplementary material and adopt the text and supplementary material of FINRA Rule 5320, with certain technical changes, as Rule 12.6. FINRA Rule 5320 generally provides that a FINRA member that accepts and holds an order in an equity security from its own customer, or a customer of another broker-dealer, without immediately executing the order is prohibited from trading that security on the same side of the market for its own account at a price that would satisfy the customer order, unless it immediately thereafter executes the customer order up to the size and at the same or better price at which it traded for its own account.

Exceptions

Amended Rule 12.6 would include exceptions to the prohibition against trading ahead of customer orders. That is, a Member that meets the conditions of an exception would be permitted to trade a security on the same side of the market for its own account at a price that would satisfy a customer order in certain circumstances. The exceptions are set out below.

Large Orders and Institutional Accounts

One exception would permit a Member to negotiate terms and conditions with respect to the acceptance of certain large-sized orders (orders of 10,000 shares or more unless such orders are less than \$100,000 in value) or orders from institutional accounts. The term “institutional account” will be defined in accordance with FINRA Rule 4512(c). That is, an institutional account will be defined as the account of: (1) a bank savings and loan association, insurance company or registered investment company; (2) an investment adviser registered either with the SEC under Section 203 of the Investment

Advisers Act or with a state securities commission (or any agency or office performing like functions); or (3) any other person (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million. This exception would require the Member to provide clear and comprehensive written disclosure to each customer at account opening and annually thereafter that: (a) states that the Member may trade proprietarily at prices that would satisfy the customer order, and (b) provides the customer with a meaningful opportunity to opt in to the Rule 12.6 protections with respect to all or any portion of its order. If a customer does not opt in to the protections with respect to all or any portion of its order, the Member may reasonably conclude that such customer has consented to the Member trading a security on the same side of the market for its own account at a price that would satisfy the customer's order.⁵

In lieu of providing written disclosure to customers at account opening and annually thereafter, the proposed rule would permit Members to provide clear and comprehensive oral disclosure to, and obtain consent from, a customer on an order-by-order basis. The Member would be required to document who provided such consent and that such consent evidences the customer's understanding of the terms and conditions of the order. If a customer opted in to the Rule 12.6 protections, a Member could still obtain consent on an order-by-order basis to trade ahead of or along with an order from that customer, provided that the Member documented who provided such consent and that

⁵ A customer would retain the right to withdraw consent at any time. Therefore, a Member's reasonable conclusion that a customer has consented to the Member trading along with such customer's order is subject to further instruction and modification from the customer.

such consent evidenced the customer's understanding of the terms and conditions of the order.

No-Knowledge Exception

The Exchange is also proposing to include in Interpretation and Policy .02 a "no-knowledge" exception to its customer order protection rule. The proposed exception would allow one trading unit of a Member to trade in a proprietary capacity and at prices that would satisfy customer orders held by another, separate trading unit of the Member. The No-Knowledge Exception would be applicable with respect to NMS stocks, as defined in Rule 600 of Regulation NMS under the Act.

To avail itself of the No-Knowledge Exception, a Member would be required to meet certain conditions. First, it would have to implement and utilize an effective system of internal controls (such as appropriate information barriers) that operate to prevent the proprietary trading unit from obtaining knowledge of the customer orders held by a separate trading unit. As proposed, Interpretation and Policy .02 will make clear that appropriate information barriers must, at a minimum, comply with the Exchange's existing requirements regarding the prevention of the misuse of material, non-public information, which are set forth in Exchange Rule 5.5. Second, the Member would have to provide, at account opening and annually thereafter, a written description of how it handles customer orders and the circumstances under which it may trade proprietarily, including in a market-making capacity, at prices that would satisfy the customer order. A Member must maintain records indicating which orders rely on the no-knowledge exception and produce these records to the Exchange upon request. The onus will be on the Member to produce sufficient documentation justifying reliance on the No-

Knowledge exception for any given trade. To ensure clarity and transparency regarding this exception and others, the Exchange will be issuing a regulatory notice informing Members of these proposed rule changes. The Exchange will include in the regulatory notice the effective date for the rule as amended, which shall be at least 30 days after the approval of the amendments to Rule 12.6 in order to allow Members to make any necessary changes to their internal policies or processes.

Riskless Principal Exception

Amended Rule 12.6 would not apply to a proprietary trade made by the Member to facilitate the execution, on a riskless principal basis, of another order from a customer (whether its own customer or the customer of another broker-dealer). To take advantage of this exception, the Member would have to: (a) submit a report, contemporaneously with the execution of the facilitated order, identifying the trade as riskless principal to the Exchange, and (b) have written policies and procedures to ensure that riskless principal transactions relied upon for this exception comply with applicable Exchange rules. At a minimum, these policies and procedures would have to require: (1) receipt of the customer order before execution of the offsetting principal transaction, and (2) execution of the offsetting principal transaction at the same price as the customer order, exclusive of any markup or markdown, commission equivalent, or other fee and allocation to a riskless principal or customer account in a consistent manner and within 60 seconds of execution.

Members would have to have supervisory systems in place that produce records that enable the Member and the Exchange to reconstruct accurately, readily, and in a time-sequenced manner all orders on which a Member relies in claiming this exception.

ISO Exception

The proposed rule change would also exempt a Member from the obligation to execute a customer order in a manner consistent with Rule 12.6 with regard to trading for its own account when the Member routed an ISO in compliance with Rule 600(b)(30)(ii) of Regulation NMS if the customer order is received after the Member routed the ISO. If a Member routes an ISO to facilitate a customer order, and that customer has consented to not receiving the better prices obtained by the ISO, the Member would also be exempt with respect to any trading for its own account that is the result of the ISO with respect to the consenting customer's order.

Odd Lot and Bona Fide Error Exception

The Exchange proposes to except a Member's proprietary trade that: (1) offsets a customer odd lot order (i.e., an order less than one round lot, which is typically 100 shares), or (2) corrects a bona fide error. With respect to bona fide errors, the Member would be required to demonstrate and document the basis upon which a transaction meets the bona fide error exception. For purposes of this proposed Rule, the Exchange will adopt the definition of "bona fide error" found in Regulation NMS's exemption for error correction transactions.⁶ Thus, a bona fide error is:

(i) The inaccurate conveyance or execution of any term of an order including, but not limited to, price, number of shares or other unit of trading; identification of the security; identification of the account for which securities are purchased or sold; lost or otherwise misplaced order tickets; short sales that were instead sold long or vice versa; or the execution of an order on the wrong side of a market; (ii) the unauthorized or unintended purchase sale or allocation of securities or the failure to

⁶ Securities Exchange Act Release No. 55884 (June 8, 2007), 72 FR 32926, 32927 (June 14, 2007) (Order Exempting Certain Error Correction Transactions from Rule 611 of Regulation NMS under the Securities Exchange Act of 1934).

follow specific client instructions; (iii) the incorrect entry of data into relevant systems, including reliance on incorrect cash positions, withdrawals, or securities positions reflected in an account; or (iv) a delay, outage, or failure of a communication system used to transmit market data prices or to facilitate the delivery or execution of an order.⁷

Minimum Price Improvement Standards

The proposed rule change establishes the minimum amount of price improvement necessary for a Member to execute an order on a proprietary basis when holding an unexecuted limit order in that same security without being required to execute the held limit order.

In addition, if the minimum price improvement standards set forth in proposed Interpretation and Policy .06, paragraphs (a) through (g) would trigger the protection of a pending customer limit order, any better-priced customer limit order(s) must also be protected under this Rule, even if those better-priced limit orders would not be directly triggered under these minimum price improvement standards.

Order Handling Procedures

The proposed rule change provides that a Member must make every effort to execute a marketable customer order that it receives fully and promptly. A Member holding a marketable customer order that has not been immediately executed would have to make every effort to cross such order with any other order received by the Member on the other side of the market, up to the size of such order at a price that is no less than the best bid and no greater than the best offer at the time that the subsequent order is received by the Member and that is consistent with the terms of the orders. If a Member were holding multiple orders on both sides of the market that have not been executed, the

⁷ Id.

Member would have to make every effort to cross or otherwise execute such orders in a manner reasonable and consistent with the objectives of the proposed Rule and with the terms of the orders. A Member could satisfy the crossing requirement by contemporaneously buying from the seller and selling to the buyer at the same price.

Trading Outside Normal Market Hours

Under the proposed amendments to Rule 12.6, a Member generally could limit the life of a customer order to the period of normal market hours of 9:30 a.m. to 4:00 p.m. Eastern Time. However, if the customer and Member agreed to the processing of the customer's order outside normal market hours, the protections of amended Rule 12.6 would apply to that customer's order at all times the customer order is executable by the Member.

(b) Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act⁸ in general, and furthers the objectives of Section 6(b)(5) of the Act⁹ in particular, in that it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. The Exchange believes that amending the rule to conform to FINRA Rule 5320 will contribute to investor protection by defining important parameters by which Members must abide when trading proprietarily while holding customer limit and market orders, and foster

⁸ 15 U.S.C. 78f(b).

⁹ 15 U.S.C. 78f(b)(5).

cooperation by harmonizing requirements across self-regulatory organizations. The Exchange also believes that including this rule will reinforce the importance of and ensure that Members are aware of these requirements.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange believes that the proposal enhances cooperation among markets and other trading venues to promote fair and orderly markets and to protect the interests of the public and of investors. Specifically, by aligning the Exchange's customer protection rules with those of FINRA and other exchanges,¹⁰ the proposed rule change will reduce the complexity of the customer order protection rules for those Members that are also subject to the customer order protection rules of FINRA and other exchanges. As a result, the proposed rule will help assure the protection of customer orders without imposing undue regulatory costs on industry participants.

¹⁰ See, e.g., Securities Exchange Act Release No. 64418 (May 6, 2011), 76 FR 27735 (May 12, 2011) (SR-CHX-2011-08) (notice of filing and immediate effectiveness of proposed rule change of Chicago Stock Exchange, Inc. to adopt customer order protection language consistent with FINRA Rule 5320); Securities Exchange Act Release No. 65165 (August 18, 2011), 76 FR 53009 (August 24, 2011) (SR-NYSEAmex-2011-059) (notice of filing and immediate effectiveness of proposed rule change of NYSE Amex LLC (now known as NYSE MKT LLC) to adopt customer order protection language that is substantially the same as FINRA Rule 5320); and Securities Exchange Act Release No. 65166 (August 18, 2011), 76 FR 53012 (August 24, 2011) (SR-NYSEArca-2011-057) (notice of filing and immediate effectiveness of proposed rule change of NYSE Arca, Inc. to adopt customer order protection language that is substantially the same as FINRA Rule 5320).

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any written comments from Members or other interested parties.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The Exchange believes that good cause for accelerated effectiveness of the proposed rule changes exists in light of the fact that the proposal will align the Exchange's customer protection rules with those of FINRA and other exchanges.¹¹ Accordingly, the proposed rule change will reduce the complexity of the customer order protection rules for those Members that are also subject to the customer order protection rules of FINRA and other exchanges. As a result, the proposed rule will help assure the protection of customer orders without imposing undue regulatory costs on industry participants. The Exchange also notes that similar changes have in many instances been filed on an immediately effective basis.¹² Based on the foregoing, the Exchange respectfully requests that the Commission find good cause to accelerate approval.

¹¹ Id.

¹² Id.

8. Proposed Rule Change Based on Rule of Another Self-Regulatory Organization or of the Commission

The proposed rule change is based on FINRA Rule 5320. The Exchange notes that the proposed rule change is nearly identical to FINRA Rule 5320 with three primary exceptions, as described below.

First, the Exchange omitted from its proposal all language contained in FINRA Rule 5320 specifically directed to OTC equity securities because such language is not applicable to trading on the Exchange. Second, the proposed rule change differs from FINRA Rule 5320 with respect to proposed Interpretation and Policy .02, which makes clear that the “No-Knowledge Exception” applies to proprietary and/or market making desks rather than just market making desks. This particular distinction is based on CBOE Rule 53.2, which applies the No-Knowledge Exception to proprietary and/or market making desks. Finally, Members must maintain records indicating which orders rely on the No-Knowledge Exception and submit these records to the Exchange upon request, rather than marking information regarding such reliance on their orders. This distinction is also based on CBOE Rule 53.2, and reflects the fact that the Exchange does not require Members to submit records of orders and executions through any reporting structure analogous to FINRA’s Order Audit Trail System (“OATS”). The Exchange proposes the distinctions described above based on differences between the overall structure of Exchange rules as opposed to FINRA rules.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

EXHIBIT 1

SECURITIES AND EXCHANGE COMMISSION

(Release No. 34-_____; File No. SR-BYX-2013-056)

Self-Regulatory Organizations; BATS Y-Exchange, Inc.; Notice of Filing of a Proposed Rule Change to Amend Rule 12.6 to Conform to FINRA Rule 5320 Relating to Trading Ahead of Customer Orders.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on October 3, 2013, BATS Y-Exchange, Inc. (the “Exchange” or “BYX”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend Rule 12.6 to make it substantially the same as Financial Industry Regulatory Authority (“FINRA”) Rule 5320.

The text of the proposed rule change is available at the Exchange’s website at <http://www.batstrading.com>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 12.6, which limits trading ahead of customer orders by Members,³ to make the rule substantially the same as FINRA Rule 5320.⁴ As with FINRA Rule 5320, amended Rule 12.6 would prohibit Members from trading ahead of customer orders, subject to specified exceptions. The amended rule would include exceptions for large orders and institutional accounts, proprietary transactions effected by a trading unit of a Member with no knowledge of customer orders held by another trading unit of the Member, riskless principal transactions, intermarket sweep orders ("ISOs"), and odd lot and bona fide error transactions, discussed in detail below. Amended Rule 12.6 would also provide the same guidance as FINRA Rule 5320 on minimum price improvement standards, order handling procedures, and trading outside normal market hours.

Background

Current Rule 12.6, the customer order protection rule, generally prohibits Members from trading on a proprietary basis ahead of, or along with, customer orders that are executable at the same price as the proprietary order. The rule contains several exceptions that make it permissible for a Member to enter a proprietary order while

³ Members are registered brokers or dealers that have been admitted to membership at the Exchange. BYX Rule 1.5(n).

⁴ See Securities Exchange Act Release No. 63895 (February 11, 2011), 76 FR 9386 (February 17, 2011) (SR-FINRA-2009-90).

representing a customer order that could be executed at the same price, including permitting transactions for the purposes of facilitating the execution, on a riskless principal basis, of one or more customer orders.

Proposal to Adopt Text of FINRA Rule 5320

To harmonize its rules with FINRA, the Exchange proposes to delete the current text of Rule 12.6 and its supplementary material and adopt the text and supplementary material of FINRA Rule 5320, with certain technical changes, as Rule 12.6. FINRA Rule 5320 generally provides that a FINRA member that accepts and holds an order in an equity security from its own customer, or a customer of another broker-dealer, without immediately executing the order is prohibited from trading that security on the same side of the market for its own account at a price that would satisfy the customer order, unless it immediately thereafter executes the customer order up to the size and at the same or better price at which it traded for its own account.

Exceptions

Amended Rule 12.6 would include exceptions to the prohibition against trading ahead of customer orders. That is, a Member that meets the conditions of an exception would be permitted to trade a security on the same side of the market for its own account at a price that would satisfy a customer order in certain circumstances. The exceptions are set out below.

Large Orders and Institutional Accounts

One exception would permit a Member to negotiate terms and conditions with respect to the acceptance of certain large-sized orders (orders of 10,000 shares or more unless such orders are less than \$100,000 in value) or orders from institutional accounts.

The term “institutional account” will be defined in accordance with FINRA Rule 4512(c). That is, an institutional account will be defined as the account of: (1) a bank savings and loan association, insurance company or registered investment company; (2) an investment adviser registered either with the SEC under Section 203 of the Investment Advisers Act or with a state securities commission (or any agency or office performing like functions); or (3) any other person (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million. This exception would require the Member to provide clear and comprehensive written disclosure to each customer at account opening and annually thereafter that: (a) states that the Member may trade proprietarily at prices that would satisfy the customer order, and (b) provides the customer with a meaningful opportunity to opt in to the Rule 12.6 protections with respect to all or any portion of its order. If a customer does not opt in to the protections with respect to all or any portion of its order, the Member may reasonably conclude that such customer has consented to the Member trading a security on the same side of the market for its own account at a price that would satisfy the customer’s order.⁵

In lieu of providing written disclosure to customers at account opening and annually thereafter, the proposed rule would permit Members to provide clear and comprehensive oral disclosure to, and obtain consent from, a customer on an order-by-order basis. The Member would be required to document who provided such consent and that such consent evidences the customer’s understanding of the terms and conditions of

⁵ A customer would retain the right to withdraw consent at any time. Therefore, a Member’s reasonable conclusion that a customer has consented to the Member trading along with such customer’s order is subject to further instruction and modification from the customer.

the order. If a customer opted in to the Rule 12.6 protections, a Member could still obtain consent on an order-by-order basis to trade ahead of or along with an order from that customer, provided that the Member documented who provided such consent and that such consent evidenced the customer's understanding of the terms and conditions of the order.

No-Knowledge Exception

The Exchange is also proposing to include in Interpretation and Policy .02 a "no-knowledge" exception to its customer order protection rule. The proposed exception would allow one trading unit of a Member to trade in a proprietary capacity and at prices that would satisfy customer orders held by another, separate trading unit of the Member. The No-Knowledge Exception would be applicable with respect to NMS stocks, as defined in Rule 600 of Regulation NMS under the Act.

To avail itself of the No-Knowledge Exception, a Member would be required to meet certain conditions. First, it would have to implement and utilize an effective system of internal controls (such as appropriate information barriers) that operate to prevent the proprietary trading unit from obtaining knowledge of the customer orders held by a separate trading unit. As proposed, Interpretation and Policy .02 will make clear that appropriate information barriers must, at a minimum, comply with the Exchange's existing requirements regarding the prevention of the misuse of material, non-public information, which are set forth in Exchange Rule 5.5. Second, the Member would have to provide, at account opening and annually thereafter, a written description of how it handles customer orders and the circumstances under which it may trade proprietarily, including in a market-making capacity, at prices that would satisfy the customer order. A

Member must maintain records indicating which orders rely on the no-knowledge exception and produce these records to the Exchange upon request. The onus will be on the Member to produce sufficient documentation justifying reliance on the No-Knowledge exception for any given trade. To ensure clarity and transparency regarding this exception and others, the Exchange will be issuing a regulatory notice informing Members of these proposed rule changes. The Exchange will include in the regulatory notice the effective date for the rule as amended, which shall be at least 30 days after the approval of the amendments to Rule 12.6 in order to allow Members to make any necessary changes to their internal policies or processes.

Riskless Principal Exception

Amended Rule 12.6 would not apply to a proprietary trade made by the Member to facilitate the execution, on a riskless principal basis, of another order from a customer (whether its own customer or the customer of another broker-dealer). To take advantage of this exception, the Member would have to: (a) submit a report, contemporaneously with the execution of the facilitated order, identifying the trade as riskless principal to the Exchange, and (b) have written policies and procedures to ensure that riskless principal transactions relied upon for this exception comply with applicable Exchange rules. At a minimum, these policies and procedures would have to require: (1) receipt of the customer order before execution of the offsetting principal transaction, and (2) execution of the offsetting principal transaction at the same price as the customer order, exclusive of any markup or markdown, commission equivalent, or other fee and allocation to a riskless principal or customer account in a consistent manner and within 60 seconds of execution.

Members would have to have supervisory systems in place that produce records that enable the Member and the Exchange to reconstruct accurately, readily, and in a time-sequenced manner all orders on which a Member relies in claiming this exception.

ISO Exception

The proposed rule change would also exempt a Member from the obligation to execute a customer order in a manner consistent with Rule 12.6 with regard to trading for its own account when the Member routed an ISO in compliance with Rule 600(b)(30)(ii) of Regulation NMS if the customer order is received after the Member routed the ISO. If a Member routes an ISO to facilitate a customer order, and that customer has consented to not receiving the better prices obtained by the ISO, the Member would also be exempt with respect to any trading for its own account that is the result of the ISO with respect to the consenting customer's order.

Odd Lot and Bona Fide Error Exception

The Exchange proposes to except a Member's proprietary trade that: (1) offsets a customer odd lot order (i.e., an order less than one round lot, which is typically 100 shares), or (2) corrects a bona fide error. With respect to bona fide errors, the Member would be required to demonstrate and document the basis upon which a transaction meets the bona fide error exception. For purposes of this proposed Rule, the Exchange will adopt the definition of "bona fide error" found in Regulation NMS's exemption for error correction transactions.⁶ Thus, a bona fide error is:

⁶ Securities Exchange Act Release No. 55884 (June 8, 2007), 72 FR 32926, 32927 (June 14, 2007) (Order Exempting Certain Error Correction Transactions from Rule 611 of Regulation NMS under the Securities Exchange Act of 1934).

(i) The inaccurate conveyance or execution of any term of an order including, but not limited to, price, number of shares or other unit of trading; identification of the security; identification of the account for which securities are purchased or sold; lost or otherwise misplaced order tickets; short sales that were instead sold long or vice versa; or the execution of an order on the wrong side of a market; (ii) the unauthorized or unintended purchase sale or allocation of securities or the failure to follow specific client instructions; (iii) the incorrect entry of data into relevant systems, including reliance on incorrect cash positions, withdrawals, or securities positions reflected in an account; or (iv) a delay, outage, or failure of a communication system used to transmit market data prices or to facilitate the delivery or execution of an order.⁷

Minimum Price Improvement Standards

The proposed rule change establishes the minimum amount of price improvement necessary for a Member to execute an order on a proprietary basis when holding an unexecuted limit order in that same security without being required to execute the held limit order.

In addition, if the minimum price improvement standards set forth in proposed Interpretation and Policy .06, paragraphs (a) through (g) would trigger the protection of a pending customer limit order, any better-priced customer limit order(s) must also be protected under this Rule, even if those better-priced limit orders would not be directly triggered under these minimum price improvement standards.

Order Handling Procedures

The proposed rule change provides that a Member must make every effort to execute a marketable customer order that it receives fully and promptly. A Member holding a marketable customer order that has not been immediately executed would have to make every effort to cross such order with any other order received by the Member on

⁷

Id.

the other side of the market, up to the size of such order at a price that is no less than the best bid and no greater than the best offer at the time that the subsequent order is received by the Member and that is consistent with the terms of the orders. If a Member were holding multiple orders on both sides of the market that have not been executed, the Member would have to make every effort to cross or otherwise execute such orders in a manner reasonable and consistent with the objectives of the proposed Rule and with the terms of the orders. A Member could satisfy the crossing requirement by contemporaneously buying from the seller and selling to the buyer at the same price.

Trading Outside Normal Market Hours

Under the proposed amendments to Rule 12.6, a Member generally could limit the life of a customer order to the period of normal market hours of 9:30 a.m. to 4:00 p.m. Eastern Time. However, if the customer and Member agreed to the processing of the customer's order outside normal market hours, the protections of amended Rule 12.6 would apply to that customer's order at all times the customer order is executable by the Member.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act⁸ in general, and furthers the objectives of Section 6(b)(5) of the Act⁹ in particular, in that it is designed to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national

⁸ 15 U.S.C. 78f(b).

⁹ 15 U.S.C. 78f(b)(5).

market system and, in general, to protect investors and the public interest. The Exchange believes that amending the rule to conform to FINRA Rule 5320 will contribute to investor protection by defining important parameters by which Members must abide when trading proprietarily while holding customer limit and market orders, and foster cooperation by harmonizing requirements across self-regulatory organizations. The Exchange also believes that including this rule will reinforce the importance of and ensure that Members are aware of these requirements.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange believes that the proposal enhances cooperation among markets and other trading venues to promote fair and orderly markets and to protect the interests of the public and of investors. Specifically, by aligning the Exchange's customer protection rules with those of FINRA and other exchanges,¹⁰ the proposed rule change will reduce the complexity of the customer order protection rules for those Members that are also subject to the customer order protection rules of FINRA

¹⁰ See, e.g., Securities Exchange Act Release No. 64418 (May 6, 2011), 76 FR 27735 (May 12, 2011) (SR-CHX-2011-08) (notice of filing and immediate effectiveness of proposed rule change of Chicago Stock Exchange, Inc. to adopt customer order protection language consistent with FINRA Rule 5320); Securities Exchange Act Release No. 65165 (August 18, 2011), 76 FR 53009 (August 24, 2011) (SR-NYSEAmex-2011-059) (notice of filing and immediate effectiveness of proposed rule change of NYSE Amex LLC (now known as NYSE MKT LLC) to adopt customer order protection language that is substantially the same as FINRA Rule 5320); and Securities Exchange Act Release No. 65166 (August 18, 2011), 76 FR 53012 (August 24, 2011) (SR-NYSEArca-2011-057) (notice of filing and immediate effectiveness of proposed rule change of NYSE Arca, Inc. to adopt customer order protection language that is substantially the same as FINRA Rule 5320).

and other exchanges. As a result, the proposed rule will help assure the protection of customer orders without imposing undue regulatory costs on industry participants.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) by order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposal is consistent with the Act.

Comments may be submitted by any of the following methods:

Electronic Comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File No. SR-BYX-2013-036 on the subject line.

Paper Comments:

- Send paper comments in triplicate to Elizabeth M. Murphy, Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File No. SR-BYX-2013-036. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet website (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule changes between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 am and 3:00 pm. Copies of such filing will also be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File No. SR-BYX-2013-036 and should be submitted on or before [_____21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹¹

Kevin M. O'Neill
Deputy Secretary

¹¹ 17 CFR 200.30-3(a)(12).

Note: Proposed new language is underlined. Proposed deletions are enclosed in [brackets].

Rules of BATS Y-Exchange, Inc.

CHAPTER XII. TRADING PRACTICE RULES

Rule 12.6. [Customer Priority] Prohibition Against Trading Ahead of Customer Orders

(a) [No Member shall (i) personally buy or initiate the purchase of any security traded on the Exchange for its own account or for any account in which it or any associated person of the member is directly or indirectly interested while such a member holds or has knowledge that any person associated with it holds an unexecuted market order to buy such security in the unit of trading for a customer, or (ii) sell or initiate the sale of any such security for any such account while it personally holds or has knowledge that any person associated with it holds an unexecuted market order to sell such security in the unit of trading for a customer.] Except as provided herein, a Member that accepts and holds an order in an equity security from its own customer or a customer of another broker-dealer without immediately executing the order is prohibited from trading that security on the same side of the market for its own account at a price that would satisfy the customer order, unless it immediately thereafter executes the customer order up to the size and at the same or better price at which it traded for its own account.

(b) [No Member shall (i) buy or initiate the purchase of any such security for any account in which it or any associated person of the member is directly or indirectly interested at or below the price at which it personally holds or has knowledge that any person associated with it holds an unexecuted limit order to buy such security in the unit of trading for a customer or (ii) sell or initiate the sale of any such security for any such account at or above the price at which it personally holds or has knowledge that any person associated with it holds an unexecuted limit order to sell such security in the unit of trading for a customer.] A Member must have a written methodology in place governing the execution and priority of all pending orders that is consistent with the requirements of this Rule. A Member also must ensure that this methodology is consistently applied.

[(c) The provisions of paragraphs (a) and (b) of this Rule shall not apply: (i) to any purchase or sale of any such security in an amount less than the unit of trading made by a member to offset odd-lot orders for customers; (ii) to any purchase or sale of any such security upon terms for delivery other than those

specified in such unexecuted market or limit order; or (iii) to any unexecuted order that is subject to a condition that has not been satisfied.

(d) The provisions of paragraphs (a) and (b) of this Rule also shall not apply if a Member engages in trading activity to facilitate the execution, on a riskless principal basis, of another order from its customer (whether its own customer or the customer of another member) (the “facilitated order”). This exemption applies to both offsetting transaction legs of a riskless principal transaction but only to the extent of the actual number of shares that are required to satisfy the facilitated order. A “riskless principal transaction” is defined as two offsetting principal transaction legs in which a Member, (i) after having received an order to buy a security that it holds for execution on the Exchange, purchases the security as principal at the same price, exclusive of markups, markdowns, commissions and other fees, to satisfy all or a portion of the order to buy or (ii) after having received an order to sell a security that it holds for execution on the Exchange, sells the security as principal at the same price, exclusive of markups, markdowns, commissions and other fees, to satisfy all or a portion of the order to sell.]

Interpretations and Policies

.01 [A Member or any associated person of a Member responsible for entering orders for its own account or any account in which it is directly or indirectly interested shall be presumed to have knowledge of a particular unexecuted customer order. Such presumption can be rebutted by adequate evidence which shows, to the Exchange’s satisfaction, that the Member has implemented a reasonable system of internal policies and procedures and has an adequate system of internal controls to prevent the misuse of information about customer orders by those responsible for entering such proprietary orders.] **Large Orders and Institutional Account Exceptions.** With respect to orders for customer accounts that meet the definition of an “institutional account” or for orders of 10,000 shares or more (unless such orders are less than \$100,000 in value), a Member is permitted to trade a security on the same side of the market for its own account at a price that would satisfy such customer order, provided that the Member has provided clear and comprehensive written disclosure to such customer at account opening and annually thereafter that:

(a) discloses that the Member may trade proprietarily at prices that would satisfy the customer order, and

(b) provides the customer with a meaningful opportunity to opt in to the Rule 12.6 protections with respect to all or any portion of its order.

If the customer does not opt in to the Rule 12.6 protections with respect to all or any portion of its order, the Member may reasonably conclude that such customer

has consented to the Member trading a security on the same side of the market for its own account at a price that would satisfy the customer's order.

In lieu of providing written disclosure to customers at account opening and annually thereafter, a Member may provide clear and comprehensive oral disclosure to and obtain consent from the customer on an order-by-order basis, provided that the Member documents who provided such consent and such consent evidences the customer's understanding of the terms and conditions of the order.

For purposes of this Rule, "institutional account" shall mean the account of:

- (1) a bank savings and loan association, insurance company or registered investment company;
- (2) an investment adviser registered either with the SEC under Section 203 of the Investment Advisers Act or with a state securities commission (or any agency or office performing like functions); or
- (3) any other person (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million.

.02 [A Member shall be deemed to have violated Rule 12.6 if, while holding a customer limit order (as rounded to a penny increment) representing the NBBO, the Member, for his own account, trades with an incoming market or marketable limit order at a price which is less than one penny better than the price of such customer limit order (not the quoted price) held by such Member.] **No-Knowledge Exception.**

(a) With respect to NMS stocks (as defined in Rule 600 under of the Securities and Exchange Commission's Regulation NMS), if a Member implements and utilizes an effective system of internal controls, such as appropriate information barriers, that operate to prevent one trading unit from obtaining knowledge of customer orders held by a separate trading unit, those other trading units trading in a proprietary capacity may continue to trade at prices that would satisfy the customer orders held by the separate trading unit. A Member that structures its order handling practices in NMS stocks to permit its proprietary and/or market-making desk to trade at prices that would satisfy customer orders held by a separate trading unit must disclose in writing to its customers, at account opening and annually thereafter, a description of the manner in which customer orders are handled by the Member and the circumstances under which the Member may trade proprietarily at its proprietary and/or market-making desk at prices that would satisfy the customer order.

(b) If a Member implements and utilizes appropriate information barriers in reliance on this exception, the Member must uniquely identify such

information barriers in place at the department within the Member where the order was received or originated. Appropriate information barriers must, at minimum, comply with the requirements set forth in Rule 5.5.

(c) Members must maintain records that indicate which orders rely on the No-Knowledge Exception and submit these records to the Exchange upon request.

.03 [A Member shall be deemed to have violated Rule 12.6 if, while holding a customer limit order (as rounded to a penny increment) at a price outside the NBBO, the Member, for his own account, trades with an incoming market or marketable limit order at a price which is less than the nearest penny increment to the actual price of the customer limit order (not the quoted price) held by such Member.] **Riskless Principal Exception.** The obligations under this Rule shall not apply to a Member's proprietary trade if such proprietary trade is for the purposes of facilitating the execution, on a riskless principal basis, of an order from a customer (whether its own customer or the customer of another broker-dealer) (the "facilitated order"), provided that the Member:

(a) submits a report, contemporaneously with the execution of the facilitated order, identifying the trade as riskless principal to the Exchange (or another self-regulatory organization if not required under Exchange rules); and

(b) has written policies and procedures to ensure that riskless principal transactions for which the Member is relying upon this exception comply with applicable Exchange rules. At a minimum these policies and procedures must require that the customer order was received prior to the offsetting principal transaction, and that the offsetting principal transaction is at the same price as the customer order exclusive of any markup or markdown, commission equivalent or other fee and is allocated to a riskless principal or customer account in a consistent manner and within 60 seconds of execution.

A Member must have supervisory systems in place that produce records that enable the Member and the Exchange to reconstruct accurately, readily, and in a time-sequenced manner all facilitated orders for which the Member relies on this exception.

.04 ISO Exception. A Member shall be exempt from the obligation to execute a customer order in a manner consistent with this Rule with regard to trading for its own account that is the result of an intermarket sweep order ("ISO") routed in compliance with Rule 600(b)(30)(ii) of Regulation NMS where the customer order is received after the Member routed the ISO. Where a Member routes an ISO to facilitate a customer order and that customer has consented to not receiving the better prices obtained by the ISO, the Member also shall be exempt with respect to any trading for its own account that is the result of the ISO with respect to the consenting customer's order.

.05 **Odd Lot and Bona Fide Error Transaction Exceptions.** The obligations under this Rule shall not apply to a Member's proprietary trade that is (1) to offset a customer order that is in an amount less than a normal unit of trading; or (2) to correct a bona fide error. Members are required to demonstrate and document the basis upon which a transaction meets the bona fide error exception. For purposes of this Rule, a bona fide error is:

(a) the inaccurate conveyance or execution of any term of an order, including, but not limited to, price, number of shares or other unit of trading; identification of the security; identification of the account for which securities are purchased or sold; lost or otherwise misplaced order tickets; short sales that were instead sold long or vice versa; or the execution of an order on the wrong side of a market;

(b) the unauthorized or unintended purchase, sale, or allocation of securities or the failure to follow specific client instructions;

(c) the incorrect entry of data into relevant systems, including reliance on incorrect cash positions, withdrawals, or securities positions reflected in an account; or

(d) a delay, outage, or failure of a communication system used to transmit market data prices or to facilitate the delivery or execution of an order.

.06 **Minimum Price Improvement Standards.** The minimum amount of price improvement necessary for a Member to execute an order on a proprietary basis when holding an unexecuted limit order in that same security, and not be required to execute the held limit order is as follows:

(a) For customer limit orders priced greater than or equal to \$1.00, the minimum amount of price improvement required is \$0.01 for NMS stocks;

(b) For customer limit orders priced greater than or equal to \$0.01 and less than \$1.00, the minimum amount of price improvement required is the lesser of \$0.01 or one-half (1/2) of the current inside spread;

(c) For customer limit orders priced less than \$0.01 but greater than or equal to \$0.001, the minimum amount of price improvement required is the lesser of \$0.001 or one-half (1/2) of the current inside spread;

(d) For customer limit orders priced less than \$0.001 but greater than or equal to \$0.0001, the minimum amount of price improvement required is the lesser of \$0.0001 or one-half (1/2) of the current inside spread;

(e) For customer limit orders priced less than \$0.0001 but greater than or equal to \$0.00001, the minimum amount of price improvement required is the lesser of \$0.00001 or one-half (1/2) of the current inside spread;

(f) For customer limit orders priced less than \$0.00001, the minimum amount of price improvement required is the lesser of \$0.000001 or one-half (1/2) of the current inside spread; and

(g) For customer limit orders priced outside the best inside market, the minimum amount of price improvement required must either meet the requirements set forth above or the Member must trade at a price at or inside the best inside market for the security.

In addition, if the minimum price improvement standards above would trigger the protection of a pending customer limit order, any better-priced customer limit order(s) must also be protected under this Rule, even if those better-priced limit orders would not be directly triggered under the minimum price improvement standards above.

.07 **Order Handling Procedures.** A Member must make every effort to execute a marketable customer order that it receives fully and promptly. A Member that is holding a customer order that is marketable and has not been immediately executed must make every effort to cross such order with any other order received by the Member on the other side of the market up to the size of such order at a price that is no less than the best bid and no greater than the best offer at the time that the subsequent order is received by the Member and that is consistent with the terms of the orders. In the event that a Member is holding multiple orders on both sides of the market that have not been executed, the Member must make every effort to cross or otherwise execute such orders in a manner that is reasonable and consistent with the objectives of this Rule and with the terms of the orders. A Member can satisfy the crossing requirement by contemporaneously buying from the seller and selling to the buyer at the same price.

.08 **Trading Outside Normal Market Hours.** Members generally may limit the life of a customer order to the period of normal market hours of 9:30 a.m. to 4:00 p.m. Eastern Time. However, if the customer and Member agree to the processing of the customer's order outside normal market hours, the protections of this Rule shall apply to that customer's order at all times the customer order is executable by the Member.
