3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.

(a) Purpose

The purpose of this proposed rule change is to implement pricing, effective immediately, applicable to the Exchange's options platform ("BATS Options") with respect to executions that occur as part of the modifications to the market opening procedures as described in Rule 20.7 (the "Market Opening Procedures"), which was approved on March 5, 2014.<sup>4</sup> Under the Market Opening Procedures, the Exchange will accept orders and quotes for queuing in a series of options prior to the opening of trading in that series of options. As such and as further described in Rule 20.7, executions might occur in a series as part of the Market Opening Procedures as the series is being opened for trading. The Exchange is proposing that for executions occurring as part of the Market Opening Procedures, the Exchange will neither charge a fee nor provide a rebate.

Currently, all orders executed on BATS Options are subject to standard pricing, which includes variable fees and/or rebates based on whether the order adds or removes liquidity, the capacity of the order (Professional,<sup>5</sup> Firm, Market Maker,<sup>6</sup> or Customer<sup>7</sup>

<sup>4</sup> See Securities Exchange Act Release No. 71651 (March 5, 2014), (SR-BATS-2014-003) (proposal to modify the BATS Options Opening Process).

<sup>5</sup> The term "Professional" is defined in Exchange Rule 16.1 to mean any person or entity that (A) is not a broker or dealer in securities, and (B) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s).

<sup>6</sup> As defined on the Exchange's fee schedule, the terms "Firm" and "Market Maker" apply to any transaction identified by a member for clearing in the Firm or Market Maker range, respectively, at the Options Clearing Corporation ("OCC").

<sup>7</sup> As defined on the Exchange's fee schedule, a "Customer order" refers to an order identified by a Member for clearing in the Customer range at the OCC, excluding any transaction for a "Professional" as defined in Exchange Rule 16.1.

orders), a Member's average daily trading volume, and whether the issue is a penny pilot issue, among others. In addition to standard rebates, the Exchange does not charge a fee nor does it provide a rebate for executions in Mini Options.<sup>8</sup> Finally, orders that add liquidity may be eligible for additional rebates upon execution of orders that originally set a new NBBO<sup>9</sup> as well as executions that qualify for the Exchange's quoting incentive program.<sup>10</sup>

The Exchange is proposing that for executions occurring as part of the Market Opening Procedures, the Exchange will neither charge a fee nor provide a rebate. Specifically, executions in the Market Opening Procedures will not be eligible for any rebate, including the NBBO setter liquidity rebate or the quoting incentive program liquidity rebates. It should be noted, however, that executions in the Market Opening Procedures will be counted in calculations of ADV<sup>11</sup> and TCV<sup>12</sup> for purposes of calculating other rebates and fees.

---

<sup>8</sup> Mini Options are options that overlie 10 equity or ETF shares, rather than the standard 100 shares. See Securities Exchange Act Release No. 69018 (March 1, 2013), 78 FR 15090 (March 8, 2013) (notice of filing and immediate effectiveness allowing Mini Options to be listed and traded on BATS Options) (SR-BATS-2013-013).

<sup>9</sup> As defined in Exchange Rule 27.1(11), the term "NBBO" is defined to mean the national best bid and offer in an option series as calculated by an Eligible Exchange.

<sup>10</sup> See Securities Exchange Act Release No. 69079 (March 8, 2013), 78 FR 16306 (March 14, 2013) (SR-BATS-2013-017) (notice of filing and immediate effectiveness of proposed rule change related to fees for use of BATS Options).

<sup>11</sup> As defined on the Exchange's fee schedule, ADV means average daily volume calculated as the number of contracts added or removed, combined, per day on a monthly basis; routed contracts are not included in ADV calculation; with prior notice to the Exchange, a Member may aggregate ADV with other Members that control, are controlled by, or are under common control with such Member.

(b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder that are applicable to a national securities exchange, and, in particular, with the requirements of Section 6 of the Act. Specifically, the Exchange believes that the proposed rule change is consistent with Section 6(b)(4) of the Act, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and other persons using any facility or system which the Exchange operates or controls. The Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels to be excessive.

The introduction of pricing for the Market Opening Procedures, as described above and proposed by this filing, is intended to allow the Exchange to begin allowing executions to occur as part of the Market Opening Procedures without charging any fees or providing any rebates for such executions. The Exchange believes that this is a reasonable, fair and equitable approach to pricing, particularly because the Exchange does not have any specific advanced knowledge of how market participants will react to the introduction of the Market Opening Procedures. Further, the Exchange believes that the proposal is reasonable because a high level of fees for executions occurring in the Market Opening Procedures would discourage participants from entering orders to participate in the Market Opening Procedures. In addition, the Exchange believes that this structure is a fair and equitable approach to pricing because it provides certainty for

---

<sup>12</sup> As defined on the Exchange's fee schedule, TCV means total consolidated volume calculated as the volume reported by all exchanges to the consolidated transaction reporting plan for the month for which the fees apply.

market participants with respect to execution costs across all trades occurring as part of the Market Opening Procedures. Lastly, the Exchange also believes that the proposed pricing for executions occurring as part of the Market Opening Procedures is non-discriminatory because it will apply equally to all Members.

The Exchange notes that this proposal is not increasing fees or decreasing rebates for any products traded on or routed by BATS Options, but rather, the proposal only proposes to introduce a pricing structure for executions occurring as part of the Market Opening Procedures.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. To the contrary, the Exchange notes that this rule change is being proposed as a competitive offering at a time when many other options exchanges are already offering similar processes for opening their respective markets. As a result of the competitive environment, market participants will have various pricing and execution models to choose from in making determinations on where to enter orders prior to the opening of trading in a series of options. As stated above, the Exchange notes that it operates in a highly competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels to be excessive.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any written comments from members or other interested parties.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Pursuant to Section 19(b)(3)(A)(ii) of the Act<sup>13</sup> and Rule 19b-4(f)(2) thereunder,<sup>14</sup> the Exchange has designated this proposal as establishing or changing a due, fee, or other charge applicable to the Exchange's Members and non-members, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to implement pricing, effective immediately, applicable to the Exchange's options platform ("BATS Options") with respect to executions that occur as part of the modifications to the market opening procedures as described in Rule 20.7 (the "Market Opening Procedures"), which was approved on March 15, 2014.<sup>6</sup> Under the Market Opening Procedures, the Exchange will accept orders and quotes for queuing in a series of options prior to the opening of trading in that series of options. is being opened for trading. The Exchange is proposing that for executions occurring as part of the Market Opening Procedures, the Exchange will neither charge a fee nor provide a rebate.

Currently, all orders executed on BATS Options are subject to standard pricing, which includes variable fees and/or rebates based on whether the order adds or removes liquidity, the capacity of the order (Professional,<sup>7</sup> Firm, Market Maker,<sup>8</sup> or Customer<sup>9</sup> orders), a Member's average daily trading volume, and whether the issue is a penny pilot issue, among others. In addition to standard rebates, the Exchange does not charge a fee nor does it provide a rebate for executions in Mini Options.<sup>10</sup> Finally, orders that add liquidity may be eligible for additional rebates upon execution of orders that originally

<sup>8</sup> As defined on the Exchange's fee schedule, the terms "Firm" and "Market Maker" apply to any transaction identified by a member for clearing in the Firm or Market Maker range, respectively, at the Options Clearing Corporation ("OCC").

The Exchange is proposing that for executions occurring as part of the Market Opening Procedures, the Exchange will neither charge a fee nor provide a rebate. It should be noted, however, that executions in the Market Opening Procedures will be counted in calculations of ADV<sup>13</sup> and TCV<sup>14</sup> for purposes of calculating other rebates and fees.
