If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

### 1. Text of the Proposed Rule Change

(a) Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act” or “Exchange Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> BATS Exchange, Inc. (“BZX” or the “Exchange”) proposes to amend its fees and rebates applicable to Members<sup>3</sup> and non-Members of the Exchange pursuant to BZX Rule 15.1(a) and (c) (“Fee Schedule”) to modify its fees for physical connectivity. The text of the proposed rule change is attached as Exhibit 5.

(b) Inapplicable.

(c) Inapplicable.

### 2. Procedures of the Self-Regulatory Organization

The Exchange submits the proposed rule change pursuant to authority delegated by the Board of Directors of the Exchange on February 11, 2014. Exchange staff will advise the Exchange’s Board of Directors of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change and, therefore, the Exchange’s internal procedures with respect to the proposed change are complete.

The persons on the Exchange staff prepared to respond to questions and comments on the proposed rule change are:

for, the Proposed Rule Change

(a) Purpose

The Exchange proposes to amend its Fee Schedule to modify its fees for physical connectivity. A physical port is utilized by a Member or non-Member to connect to the Exchange at the data centers where the Exchange's servers are located. The Exchange currently maintains a presence in two third-party data centers: (i) the primary data center where the Exchange's business is primarily conducted on a daily basis, and (ii) a secondary data center, which is predominantly maintained for business continuity purposes. The Exchange currently assesses the following physical connectivity fees for Members and non-Members on a monthly basis: \$1,000 per physical port that connects to the System<sup>4</sup> via 1 gigabyte circuit; and \$2,500 per physical port that connects to the System via 10 gigabyte circuit.

The Exchange now proposes to amend its physical connectivity fees to align the Exchange's fees with its affiliates.<sup>5</sup> The Exchange proposes to increase the fee per physical port that connects to the System via : (i) 1 gigabyte circuit from \$1,000 per month to \$2,000 per month; and (ii) 10 gigabyte circuit from \$2,500 per month to \$4,000 per month.

---

<sup>4</sup> The term "System" is defined as "the electronic communications and trading facility designated by the Board through which securities orders of Users are consolidated for ranking, execution and, when applicable, routing away." See Exchange Rule 1.5(cc).

<sup>5</sup> The Exchange's affiliates are EDGX Exchange, Inc. ("EDGX"), EDGA Exchange, Inc. ("EDGA") and BATS Y-Exchange, Inc. ("BYX", together with the Exchange, EDGA and EDGX, the "BATS Exchanges"). The Exchange notes that each of its affiliates has also filed or will also file proposed rule changes with Commission to adopt similar physical connectivity fees.

### Implementation Date

The Exchange proposes to implement this amendment to its Fee Schedule immediately.

### (b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,<sup>6</sup> in general, and furthers the objectives of Section 6(b)(4),<sup>7</sup> in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.

The Exchange believes that the proposal represents an equitable allocation of reasonable dues, fees, and other charges as its fees for physical connectivity are reasonably constrained by competitive alternatives. If a particular exchange charges excessive fees for connectivity, affected Members and non-Members may opt to terminate their connectivity arrangements with that exchange, and adopt a possible range

---

<sup>6</sup> 15 U.S.C. 78f.

<sup>7</sup> 15 U.S.C. 78f(b)(4).

of alternative strategies, including routing to the applicable exchange through another participant or market center or taking that exchange's data indirectly. Accordingly, if the Exchange charges excessive fees, it would stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity.

Furthermore, the proposed rule change is also an equitable allocation of reasonable dues, fees, and other charges as the Exchange believes that the increased fees obtained will enable it to cover its increased infrastructure costs associated with establishing physical ports to connect to the Exchange's Systems. The additional revenue from the increased fees will also enable the Exchange to continue to maintain and improve its market technology and services. The Exchange believes that the proposed fees for 1 gigabyte circuit of \$2,000 per month and for 10 gigabyte circuit of \$4,000 per month are reasonable in that they are less than analogous fees charged by the Nasdaq Stock Market LLC ("Nasdaq"), which are \$2,500 per month for 1 gigabyte connectivity and range from \$10,000 - \$15,000 per month for 10 gigabyte circuits.<sup>8</sup> In addition, the Exchange proposed physical connectivity fees are designed to align the Exchange's fees with its affiliates.<sup>9</sup>

Finally, the Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members and non-Members.

---

<sup>8</sup> See Nasdaq Rule 7034(b).

<sup>9</sup> See supra note 5.

Members and non-Members will continue to choose whether they want more than one physical port and choose the method of connectivity based on their specific needs. All Exchange Members that voluntarily select various service options will be charged the same amount for the same services. As is true of all physical connectivity, all Members and non-Members have the option to select any connectivity option, and there is no differentiation with regard to the fees charged for the service.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. As discussed above, the Exchange believes that fees for connectivity are constrained by the robust competition for order flow among exchanges and non-exchange markets. Further, excessive fees for connectivity, including port fee access, would serve to impair an exchange's ability to compete for order flow rather than burdening competition. The proposal to increase the fees for physical connectivity would bring the fees charged by the Exchange closer to similar fees charged for physical connectivity by other exchanges.<sup>10</sup>

In addition, the proposed rule change does not impose any burden on intramarket competition as the fees are uniform for all Members and non-Members. The Exchange notes that Members and non-Members also have the ability to obtain access to these services without the need for an independent physical port connection, such as through alternative means of financial extranets and service bureaus that act as a conduit for orders entered by Members and non-Members.

<sup>10</sup> See supra note 8.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from Members or other interested parties.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

## SECURITIES AND EXCHANGE COMMISSION

(Release No. 34-\_\_\_\_\_; File No. SR-BATS-2015-53)

Self-Regulatory Organizations; BATS Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Related to Fees for Use of BATS Exchange, Inc.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on \_\_\_\_\_, BATS Exchange, Inc. (the “Exchange” or “BATS”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Exchange has designated the proposed rule change as one establishing or changing a member due, fee, or other charge imposed by the Exchange under Section 19(b)(3)(A)(ii) of the Act<sup>3</sup> and Rule 19b-4(f)(2) thereunder,<sup>4</sup> which renders the proposed rule change effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend its fees and rebates applicable to Members<sup>5</sup> and non-Members of the Exchange pursuant to BZX Rule 15.1(a) and (c)

(“Fee Schedule”) to modify its fees for physical connectivity. Changes to the fee schedule pursuant to this proposal are effective upon filing.

The text of the proposed rule change is available at the Exchange’s website at [www.batstrading.com](http://www.batstrading.com), at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fee Schedule to modify its fees for physical connectivity. A physical port is utilized by a Member or non-Member to connect to the Exchange at the data centers where the Exchange’s servers are located. The Exchange currently maintains a presence in two third-party data centers: (i) the primary data center where the Exchange’s business is primarily conducted on a daily basis, and (ii) a secondary data center, which is predominantly maintained for business continuity purposes. The Exchange currently assesses the following physical connectivity fees for Members and non-Members on a monthly basis: \$1,000 per physical port that connects to

the System<sup>6</sup> via 1 gigabyte circuit; and \$2,500 per physical port that connects to the System via 10 gigabyte circuit.

The Exchange now proposes to amend its physical connectivity fees to align the Exchange's fees with its affiliates.<sup>7</sup> The Exchange proposes to increase the fee per physical port that connects to the System via : (i) 1 gigabyte circuit from \$1,000 per month to \$2,000 per month; and (ii) 10 gigabyte circuit from \$2,500 per month to \$4,000 per month.

#### Implementation Date

The Exchange proposes to implement this amendment to its Fee Schedule immediately.

#### 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,<sup>8</sup> in general, and furthers the objectives of Section 6(b)(4),<sup>9</sup> in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its

<sup>7</sup> The Exchange's affiliates are EDGX Exchange, Inc. ("EDGX"), EDGA Exchange, Inc. ("EDGA") and BATS Y-Exchange, Inc. ("BYX", together with the Exchange, EDGA and EDGX, the "BATS Exchanges"). The Exchange notes that each of its affiliates has also filed or will also file proposed rule changes with Commission to adopt similar physical connectivity fees.

facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange. The Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members. The Exchange believes the fees and credits remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.

The Exchange believes that the proposal represents an equitable allocation of reasonable dues, fees, and other charges as its fees for physical connectivity are reasonably constrained by competitive alternatives. If a particular exchange charges excessive fees for connectivity, affected Members and non-Members may opt to terminate their connectivity arrangements with that exchange, and adopt a possible range of alternative strategies, including routing to the applicable exchange through another participant or market center or taking that exchange's data indirectly. Accordingly, if the Exchange charges excessive fees, it would stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity.

Furthermore, the proposed rule change is also an equitable allocation of reasonable dues, fees, and other charges as the Exchange believes that the increased fees obtained will enable it to cover its increased infrastructure costs associated with

establishing physical ports to connect to the Exchange's Systems. The additional revenue from the increased fees will also enable the Exchange to continue to maintain and improve its market technology and services. The Exchange believes that the proposed fees for 1 gigabyte circuit of \$2,000 per month and for 10 gigabyte circuit of \$4,000 per month are reasonable in that they are less than analogous fees charged by the Nasdaq Stock Market LLC ("Nasdaq"), which are \$2,500 per month for 1 gigabyte connectivity and range from \$10,000 - \$15,000 per month for 10 gigabyte circuits.<sup>10</sup> In addition, the Exchange proposed physical connectivity fees are designed to align the Exchange's fees with its affiliates.<sup>11</sup>

Finally, the Exchange believes that the proposed rates are equitable and non-discriminatory in that they apply uniformly to all Members and non-Members. Members and non-Members will continue to choose whether they want more than one physical port and choose the method of connectivity based on their specific needs. All Exchange Members that voluntarily select various service options will be charged the same amount for the same services. As is true of all physical connectivity, all Members and non-Members have the option to select any connectivity option, and there is no differentiation with regard to the fees charged for the service.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the

<sup>10</sup> See Nasdaq Rule 7034(b).

<sup>11</sup> See supra note 7.

Act. As discussed above, the Exchange believes that fees for connectivity are constrained by the robust competition for order flow among exchanges and non-exchange markets. Further, excessive fees for connectivity, including port fee access, would serve to impair an exchange's ability to compete for order flow rather than burdening competition. The proposal to increase the fees for physical connectivity would bring the fees charged by the Exchange closer to similar fees charged for physical connectivity by other exchanges.<sup>12</sup>

In addition, the proposed rule change does not impose any burden on intramarket competition as the fees are uniform for all Members and non-Members. The Exchange notes that Members and non-Members also have the ability to obtain access to these services without the need for an independent physical port connection, such as through alternative means of financial extranets and service bureaus that act as a conduit for orders entered by Members and non-Members.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from Members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)

<sup>12</sup> See supra note 10.

of the Act<sup>13</sup> and paragraph (f) of Rule 19b-4 thereunder.<sup>14</sup> At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

#### IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposal is consistent with the Act.

Comments may be submitted by any of the following methods:

##### Electronic Comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
