SECURITIES AND EXCHANGE COMMISSION  
WASHINGTON, D.C. 20549

For complete Form 19b-4 instructions please refer to the EFFF website.

**Form 19b-4 Information \***

Add Remove View

The self-regulatory organization must provide all required information, presented in a clear and comprehensible manner, to enable the public to provide meaningful comment on the proposal and for the Commission to determine whether the proposal is consistent with the Act and applicable rules and regulations under the Act.

**Exhibit 1 - Notice of Proposed Rule Change \***

Add Remove View

The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)

**Exhibit 1A- Notice of Proposed Rule Change, Security-Based Swap Submission, or Advance Notice by Clearing Agencies \***

The Notice section of this Form 19b-4 must comply with the guidelines for publication in the Federal Register as well as any requirements for electronic filing as published by the Commission (if applicable). The Office of the Federal Register (OFR) offers guidance on Federal Register publication requirements in the Federal Register Document Drafting Handbook, October 1998 Revision. For example, all references to the federal securities laws must include the corresponding cite to the United States Code in a footnote. All references to SEC rules must include the corresponding cite to the Code of Federal Regulations in a footnote. All references to Securities Exchange Act Releases must include the release number, release date, Federal Register cite, Federal Register date, and corresponding file number (e.g., SR-[SRO]-xx-xx). A material failure to comply with these guidelines will result in the proposed rule change, security-based swap submission, or advance notice being deemed not properly filed. See also Rule 0-3 under the Act (17 CFR 240.0-3)

**Exhibit 2 - Notices, Written Comments, Transcripts, Other Communications**

Add Remove View

Exhibit Sent As Paper Document

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

**Exhibit 3 - Form, Report, or Questionnaire**

Add Remove View

Exhibit Sent As Paper Document

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

**Exhibit 4 - Marked Copies**

Add Remove View

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

**Exhibit 5 - Proposed Rule Text**

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

**Partial Amendment**

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> Bats BZX Exchange, Inc. (the “Exchange” or “BZX”) is filing with the Securities and Exchange Commission (“Commission”) a proposed rule change to list and trade shares of the JPMorgan Global Bond Opportunities ETF (the “Fund”) of the J.P. Morgan Exchange-Traded Fund Trust (the “Trust”) under BZX Rule 14.11(i) (“Managed Fund Shares”). The shares of the Fund are collectively referred to herein as the “Shares.”

- (a) Not applicable.
- (b) Not applicable.
- (c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of the Exchange on February 11, 2014. Exchange staff will advise the Board of Directors of the Exchange of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

The persons on the Exchange staff prepared to respond to questions and comments on the proposed rule change are:

Eric Swanson  
EVP, General Counsel  
(913) 815-7000

Kyle Murray  
Assistant General Counsel

---

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

(913) 815-7121

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.

(a) Purpose

The Exchange proposes to list and trade the Shares under BZX Rule 14.11(i), which governs the listing and trading of Managed Fund Shares on the Exchange.<sup>3</sup> All statements and representations made in this filing regarding (a) the description of the portfolio, (b) limitations on portfolio holdings or reference assets, or (c) the applicability of Exchange rules and surveillance procedures shall constitute continued listing requirements for listing the Shares on the Exchange. The Fund will be an actively managed fund. The Shares will be offered by the Trust, which was established as a Delaware statutory trust on February 25, 2010. The Trust is registered with the Commission as an open-end investment company and has filed a registration statement with respect to the Fund on Form N-1A ("Registration Statement") with the Commission.<sup>4</sup>

Description of the Shares and the Fund

---

<sup>3</sup> The Commission approved BZX Rule 14.11(i) in Securities Exchange Act Release No. 65225 (August 30, 2011), 76 FR 55148 (September 6, 2011) (SR-BATS-2011-018).

<sup>4</sup> See Registration Statement on Form N-1A for the Trust, dated May 26, 2016 (File Nos. 333-191837 and 811-22903). The descriptions of the Fund and the Shares contained herein are based, in part, on information in the Registration Statement. The Commission has issued an order granting certain exemptive relief to the Trust under the Investment Company Act of 1940 (15 U.S.C. 80a-1) ("1940 Act") (the "Exemptive Order"). See Investment Company Act Release No. 31990 (February 9, 2016) (File No. 812-13761).

J.P. Morgan Investment Management Inc. will be the investment adviser (“JPMIM” or “Adviser”) to the Fund. The Adviser will serve as the administrator for the Fund (the “Administrator”). SEI Investments Distribution Co. (the “Distributor”) serves as the distributor for the Trust. JPMorgan Chase Bank, N.A. will act as the custodian (the “Custodian”) and transfer agent (“Transfer Agent”) for the Trust.

BZX Rule 14.11(i)(7) provides that, if the investment adviser to the investment company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser shall erect a “fire wall” between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such investment company portfolio.<sup>5</sup> In addition, Rule 14.11(i)(7) further requires that personnel who make decisions on the investment company’s portfolio composition must be subject to procedures designed to prevent the use and dissemination of material nonpublic information regarding the applicable investment company

---

<sup>5</sup> An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the “Advisers Act”). As a result, the Adviser and its related personnel are subject to the provisions of Rule 204A-1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of non-public information by an investment adviser must be consistent with Rule 204A-1 under the Advisers Act. In addition, Rule 206(4)-7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written policies and procedures reasonably designed to prevent violation, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated an individual (who is a supervised person) responsible for administering the policies and procedures adopted under subparagraph (i) above.

portfolio. Rule 14.11(i)(7) is similar to BZX Rule 14.11(b)(5)(A)(i), however, Rule 14.11(i)(7) in connection with the establishment of a “fire wall” between the investment adviser and the broker-dealer reflects the applicable open-end fund’s portfolio, not an underlying benchmark index, as is the case with index-based funds. The Adviser is not registered as a broker-dealer but the Adviser is affiliated with a broker-dealer and has implemented a “fire wall” with respect to such broker-dealer regarding access to information concerning the composition and/or changes to the Fund’s portfolio. In the event (a) the Adviser becomes registered as a broker-dealer or newly affiliated with a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with a broker-dealer, it will implement a fire wall with respect to its relevant personnel or broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

#### JPMorgan Global Bond Opportunities ETF

According to the Registration Statement, the Fund will seek to provide total return by investing across sectors in developed and emerging markets located around the world. The Fund is an actively-managed fund that does not seek to replicate the performance of a specified index. Because the Fund is not managed to a benchmark, the Adviser has broad discretion to shift the Fund’s exposure to strategies, sectors, countries or currencies based on changing market conditions and its view of the best mix of investment opportunities. In buying and selling investments for the Fund, the Adviser allocates the Fund’s exposure to strategies, sectors, countries and currencies based on the Adviser’s

analysis of individual investments and broader economic conditions in individual countries, regions and the world. This allows the Adviser to take a conservative approach during uncertain periods and move into higher risk opportunities as market conditions improve, which may result in the Fund focusing in only a few markets and sectors

Under normal circumstances, the Fund will invest at least 80% of its net assets (plus the amount of borrowings for investment purposes) (“Assets”) in bonds. Under normal circumstances, the Fund will invest at least 40% of its Assets in countries other than the United States. The Fund may invest in developed or emerging markets.

Emerging markets currently includes most countries in the world except Australia, Canada, Japan, New Zealand, the U.S., the United Kingdom and most western European countries and Hong Kong. In managing the Fund, the Adviser will seek to diversify the Fund’s portfolio by investing in issuers in at least three countries other than the U.S. The Fund may invest a substantial part of its assets in just one country and is not required to allocate its investments in any set percentages in any particular countries.

Although the Fund has the flexibility to invest without limit in securities that are rated below investment grade (also known as junk bonds or high yield securities), or the unrated equivalent, the Fund generally invests at least 25% of the Fund’s Assets in securities that at the time of purchase are rated investment grade or the unrated equivalent. The Fund has flexibility to decrease the percentage of Assets invested in investment grade securities at any time to take advantage of higher risk opportunities when market conditions are improving.

The Fund currently seeks to maintain a duration of eight years or less, although the Fund has the flexibility to maintain a longer duration under certain market conditions

such as significant volatility in interest rates and spreads. Duration is a measure of the price sensitivity of a debt security or a portfolio of debt securities to relative changes in interest rates. For instance, a duration of three years means that a security's or portfolio's price would be expected to decrease by approximately 3% with a 1% increase in interest rates (assuming a parallel shift in yield curve).

As part of its principal investment strategy and for temporary defensive purposes, any portion of the Fund's total assets may be invested in cash and cash equivalents.

#### Principal Holdings

The Fund intends to achieve its investment objective by investing, under normal circumstances,<sup>6</sup> 80% of its Assets in bonds (a debt security with a maturity of 90 days or more at the time of its issuance) ("Bonds"), subject to certain limits described below. For purposes of this filing, Bonds will be defined as the following instruments: asset-backed securities<sup>7</sup> (including mortgages,<sup>8</sup> mortgage dollar rolls,<sup>9</sup> and stripped mortgage-

---

<sup>6</sup> The term "under normal circumstances" includes, but is not limited to, the absence of extreme volatility or trading halts in the fixed income markets or the financial markets generally; operational issues causing dissemination of inaccurate market information; or force majeure type events such as systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance.

<sup>7</sup> Asset-backed securities ("ABS") include securities secured by company receivables, home equity loans, truck and auto loans, leases, and credit card receivables or other securities backed by other types of receivables or other assets. ABS includes mortgage-backed securities ("MBS"), which are debt obligations secured by real estate loans and pools of loans such as collateralized mortgage obligations ("CMOs"), commercial mortgage-backed securities ("CMBS"), and other asset-backed structures. The Fund may not invest more than 20% of its portfolio in a combination of: illiquid ABS (as determined in footnote 31, below), and distressed or defaulted loans, including non-performing loans and reperforming loans.

backed securities);<sup>10</sup> bank obligations; commercial paper;<sup>11</sup> convertible bonds; corporate debt securities;<sup>12</sup> inflation-linked debt securities; inverse floating rate instruments;<sup>13</sup> municipal securities;<sup>14</sup> obligations of supranational agencies; private placements, restricted securities, and other unregistered securities; securities issued in connection with reorganizations and corporate restructurings; sovereign obligations; structured

---

<sup>8</sup> Mortgages are debt instruments secured by real property and include adjustable rate mortgage loans (“ARMs”), which are loans in a mortgage pool which provide for a fixed initial mortgage interest rate for a specified period of time, after which the rate may be subject to periodic adjustments.

<sup>9</sup> Mortgage dollar rolls involve a transaction in which the Fund sells securities for delivery in a current month and simultaneously contracts with the same party to repurchase similar but not identical securities on a specified future date.

<sup>10</sup> Stripped mortgage-backed securities are securities which are usually structured with two classes of shares that receive different proportions of the interest and principal from a pool of mortgage assets. These include Interest-Only (“IO”) and Principal-Only (“PO”) securities issued outside a Real Estate Mortgage Investment Conduit (“REMIC”) or CMO structure.

<sup>11</sup> Secured and unsecured short-term promissory notes issued by corporations and other entities. Maturities generally vary from a few days to nine months.

<sup>12</sup> May include bonds and other debt securities of domestic and foreign issuers, including obligations of industrial, utility, banking and other corporate issuers. While the Fund is permitted to invest without restriction in corporate bonds, the Adviser expects that, under normal circumstances, the Fund will generally seek to invest in corporate bond issuances that have at least \$100,000,000 par amount outstanding. Further, component corporate bonds that in the aggregate account for at least 75% of the weight of corporate bonds will have a minimum original principal outstanding of \$100 million or more.

<sup>13</sup> Inverse floating rate instruments are leveraged variable debt instruments with interest rates that reset in the opposite direction from the market rate of interest to which the inverse floater is indexed.

<sup>14</sup> Municipal securities held by the Fund will be rated Baa3/BBB- or higher by at least two of the following ratings agencies if all three agencies rate the security: Moody’s, S&P and Fitch. If only two of the three agencies rate the security, the lower rating is used. If only one of the three agencies rates a security, the rating must be at least Baa3/BBB-. Municipal securities held by the Fund will have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million.

investments;<sup>15</sup> treasury receipts;<sup>16</sup> trust preferreds; U.S. Government Agency Securities;<sup>17</sup> U.S. Government obligations;<sup>18</sup> and zero-coupon, pay-in-kind, and deferred payment securities.<sup>19</sup> Bonds may have fixed or variable interest rates<sup>20</sup> and be of any maturity.

---

<sup>15</sup> A structured investment is a security having a return tied to an underlying index or other security or asset class. Structured investments generally are individually negotiated agreements and may be traded over-the-counter. Structured investments are organized and operated to restructure the investment characteristics of the underlying security.

<sup>16</sup> The Fund may purchase interests in separately traded interest and principal component parts of U.S. Treasury obligations that are issued by banks or brokerage firms and that are created by depositing U.S. Treasury notes and U.S. Treasury bonds into a special account at a custodian bank. Receipts include Treasury Receipts (“TRs”), Treasury Investment Growth Receipts (“TIGRs”), and Certificates of Accrual on Treasury Securities (“CATS”).

<sup>17</sup> U.S. Government Agency Securities include securities issued by agencies and instrumentalities of the U.S. government. These include all types of securities issued by the Government National Mortgage Association (“Ginnie Mae”), the Federal National Mortgage Association (“Fannie Mae”) and the Federal Home Loan Mortgage Corporation (“Freddie Mac”), including funding notes, subordinated benchmark notes, CMOs and REMICs.

<sup>18</sup> U.S. Government obligations include direct obligations of the U.S. Treasury, including Treasury bills, notes and bonds, all of which are backed as to principal and interest payments by the full faith and credit of the United States, and separately traded principal and interest component parts of such obligations that are transferable through the Federal book-entry system known as Separate Trading of Registered Interest and Principal of Securities (“STRIPS”) and Coupons Under Book Entry Safekeeping (“CUBES”).

<sup>19</sup> Zero-coupon securities are securities that are sold at a discount to par value and on which interest payments are not made during the life of the security. Pay-in-kind securities are securities that have interest payable by delivery of additional securities. Deferred payment securities are zero-coupon debt securities which convert on a specified date to interest bearing debt securities.

<sup>20</sup> A variable rate security provides for the automatic establishment of a new interest rate on set dates. Variable rate obligations whose interest is readjusted no less frequently than annually will be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate. The Fund may also purchase floating rate securities. A floating rate security provides for the

In addition to investing at least 80% of its Assets in Bonds, the Fund may also invest in the following instruments as part of its principal investment strategy (“Non-Bonds”): custodial receipts;<sup>21</sup> derivatives, including options,<sup>22</sup> swaps,<sup>23</sup> and futures;

---

automatic adjustment of its interest rate whenever a specified interest rate changes. Interest rates on these securities are ordinarily tied to, and are a percentage of, a widely recognized interest rate, such as the yield on 90-day US Treasury bills or the prime rate of a specified bank. These rates may change as often as twice daily.

<sup>21</sup> The Fund may acquire securities in the form of custodial receipts that evidence ownership of future interest payments, principal payments or both on certain U.S. Treasury notes or bonds in connection with programs sponsored by banks and brokerage firms. These are not considered to be U.S. government securities. These notes and bonds are held in custody by a bank on behalf of the owners of the receipts.

<sup>22</sup> The Fund may invest in OTC and exchange-traded call and put options, including only the following: fixed income securities, currencies, and indexes of fixed income, currencies, or credit default swaps. All options will be covered.

<sup>23</sup> The Fund may invest in swaps, including only the following: interest rate swaps, credit default swaps, currency swaps, and total return swaps

exchange traded funds (“ETFs”);<sup>24</sup> foreign currency transactions;<sup>25</sup> investment company securities that are not ETFs;<sup>26</sup> preferred stock; and short-term funding agreements.<sup>27</sup>

#### Other Portfolio Holdings

While the Adviser, under normal circumstances, will invest at least 80% of the Fund’s Assets in Bonds and may invest additionally in Non-Bonds described above as part of its principal investment strategy, the Adviser may invest up to 20% of the Fund’s Assets in other securities and financial instruments, as described below.

The Fund may invest in auction rate securities, which include auction rate municipal securities and auction rate preferred securities issued by closed-end investment companies.

---

<sup>24</sup> For purposes of this filing, ETFs include Index Fund Shares (as described in Rule 14.11(c)); Portfolio Depositary Receipts (as described in Rule 14.11(b)); and Managed Fund Shares (as described in Rule 14.11(i)). The ETFs all will be listed and traded in the U.S. on registered exchanges. The Fund may invest in the securities of ETFs registered under the 1940 Act consistent with the requirements of Section 12(d)(1) of the 1940 Act, or any rule, regulation or order of the Commission or interpretation thereof. The Fund will not invest in inverse or leveraged (e.g., 2X, -2X, 3X or -3X) ETFs.

<sup>25</sup> Foreign currency transactions will be used to hedge against currency risks, for other risk management purposes, to increase income or gain to the Fund, and/or for other investment purposes and, in addition to the derivative strategies described above, may include spot and forward foreign currency transactions (including non-deliverable forwards (“NDFs”) and forward rate agreements. The Fund may engage in such transactions in both U.S. and non-U.S. markets.

<sup>26</sup> Investment company securities include shares of other investment companies, including money market funds for which the Adviser and/or its affiliates serve as investment adviser or administrator. The Adviser will waive certain fees when investing in funds for which it serves as investment adviser, to the extent required by law or contract.

<sup>27</sup> Short-term funding agreements are agreements issued by banks and highly rated U.S. insurance companies such as Guaranteed Investment Contracts (GICs) and Bank Investment Contracts (BICs).

The Fund may invest in Brady Bonds, which are securities created through the exchange of existing commercial bank loans to sovereign entities for new obligations in connection with a debt restructuring.

The Fund may invest in commodity-related pooled investment vehicles, which include only the following instruments: Trust Issued Receipts (as defined in BATS Rule 14.11(f)); Commodity-Based Trust Shares (as defined in Rule 14.11(e)(4)); Currency Trust Shares (as defined in Rule 14.11(e)(5)); Commodity Index Trust Shares (as defined in Rule 14.11(e)(6)); Trust Units (as defined in Rule 14.11(e)(9)); and Paired Class Shares (as defined in NASDAQ Stock Market LLC Rule 5713). The Fund will not invest in inverse or leveraged (e.g., 2X, -2X, 3X or -3X) commodity-related pooled investment vehicles.

The Fund may invest in commodity-linked derivatives, which are derivatives for which the value derives from the price of a commodity, including commodity futures and commodity options.

The Fund may invest in U.S. equity securities. Equity securities are securities that represent an ownership interest (or the right to acquire such an interest) in a company and include common and preferred stock, warrants, and rights. The Fund's investments in such U.S. equity securities may include securities traded over-the-counter as well as those traded on a securities exchange. The Fund may purchase such securities on a forward commitment or when-issued or delayed delivery basis, which means delivery and payment take place a number of days after the date of the commitment to purchase.

The Fund may purchase exchange-traded common stocks, exchange-traded warrants, and exchange-traded rights in foreign corporations. The Fund's investments in

common stock of foreign corporations may also be in the form of American Depositary Receipts (“ADRs”), Global Depositary Receipts (“GDRs”) and European Depositary Receipts (“EDRs”) (collectively “Depositary Receipts”).<sup>28</sup>

The Fund may invest in convertible securities traded on an exchange or OTC that are not described in the Principal Holdings section above. Convertible securities are securities that may be converted or exchanged (by the holder or by the issuer) into shares of the underlying common stock (or cash or securities of equivalent value) at a stated exchange ratio. Convertible securities include contingent convertible securities.<sup>29</sup>

The Fund may invest in loan assignments and participations, which are assignments of, or participations in, all or a portion of loans to corporations or to governments, including governments in less developed countries. The Fund may also invest in commitments to purchase loan assignments.

---

<sup>28</sup> Depositary Receipts are receipts, typically issued by a bank or trust company, which evidence ownership of underlying securities issued by a foreign corporation. For ADRs, the depository is typically a U.S. financial institution and the underlying securities are issued by a foreign issuer. For other Depositary Receipts, the depository may be a foreign or a U.S. entity, and the underlying securities may have a foreign or a U.S. issuer. Depositary Receipts will not necessarily be denominated in the same currency as their underlying securities. Generally, ADRs, in registered form, are designed for use in the U.S. securities market, and EDRs, in bearer form, are designated for use in European securities markets. GDRs are tradable both in the United States and in Europe and are designed for use throughout the world. The Fund will not invest in unsponsored ADRs. All exchange-traded equity securities in which the Fund may invest will trade on markets that are members of the Intermarket Surveillance Group (“ISG”) or that have entered into a comprehensive surveillance agreement with the Exchange.

<sup>29</sup> A contingent convertible security is a hybrid debt security typically issued by a non-U.S. bank that may be convertible into equity or may be written down if a pre-specified trigger event such as a decline in capital ratio below a prescribed threshold occurs.

The Fund may invest in exchange-traded master limited partnerships (“MLPs”).

#### Investment Restrictions

The Fund may hold up to an aggregate amount of 15% of its Assets in illiquid assets (calculated at the time of investment), including Restricted Securities deemed illiquid by the Adviser<sup>30</sup> under the 1940 Act.<sup>31</sup> The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, Assets, or other circumstances, more than 15% of the Fund’s Assets are held in illiquid assets. A security is considered illiquid if it cannot be “sold or disposed of in the ordinary course of business within 7 days at approximately the value” at which it is being carried by the Fund.

---

<sup>30</sup> In reaching liquidity decisions, the Adviser may consider factors including: the frequency of trades and quotes for the security; the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; dealer undertakings to make a market in the security; the nature of the security and the nature of the marketplace in which it trades (e.g., the time needed to dispose of the security, the method of soliciting offers, and the mechanics of transfer).

<sup>31</sup> The Commission has stated that long-standing Commission guidelines have required open-end funds to hold no more than 15% of their net assets in illiquid securities and other illiquid assets. See Investment Company Act Release No. 28193 (March 11, 2008), 73 FR 14618 (March 18, 2008), footnote 34. See also, Investment Company Act Release No. 5847 (October 21, 1969), 35 FR 19989 (December 31, 1970) (Statement Regarding “Restricted Securities”); Investment Company Act Release No. 18612 (March 12, 1992), 57 FR 9828 (March 20, 1992) (Revisions of Guidelines to Form N-1A). A fund’s portfolio security is illiquid if it cannot be disposed of in the ordinary course of business within seven days at approximately the value ascribed to it by the fund. See Investment Company Act Release No. 14983 (March 12, 1986), 51 FR 9773 (March 21, 1986) (adopting amendments to Rule 2a-7 under the 1940 Act); Investment Company Act Release No. 17452 (April 23, 1990), 55 FR 17933 (April 30, 1990) (adopting Rule 144A under the Securities Act of 1933).

The Fund intends to qualify each year as a regulated investment company (a “RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended.<sup>32</sup> The Fund will invest its assets, and otherwise conduct its operations, in a manner that is intended to satisfy the qualifying income, diversification, and distribution requirements necessary to establish and maintain RIC qualification under Subchapter M.

The Fund does not have an investment objective seeking to return two times or three times the Fund’s benchmark.

#### Net Asset Value

According to the Registration Statement, the NAV of the Fund’s Shares generally will be calculated once daily Monday through Friday as of the close of regular trading on the Exchange, generally 4:00 p.m. Eastern Time (the “NAV Calculation Time”) on each day that the Exchange is open for trading, based on prices at the NAV Calculation Time. NAV per Share is calculated by dividing the Fund’s Assets by the number of Fund Shares outstanding. The Fund’s Assets are valued primarily on the basis of market quotations. Expenses and fees, including the management fees, will be accrued daily and taken into account for purposes of determining NAV.

Convertible bonds, ARMs, ABS, bank obligations, corporate debt securities, inflation-linked debt securities, inverse floating rate instruments, mortgage dollar rolls, municipal securities, obligations of supranational agencies, private placements, restricted securities, and other unregistered securities, securities issued in connection with reorganizations and corporate restructurings, short-term funding agreements, sovereign

---

<sup>32</sup> 26 U.S.C. 851.

obligations, stripped mortgage-backed securities, structured investments, treasury receipts, trust preferreds, U.S. Government Agency Securities, U.S. Government obligations, zero-coupon, pay-in-kind, and deferred payment securities, commercial paper, auction rate securities, when-issued securities, delayed delivery securities, and forward commitments, loan assignments and participations, and Brady Bonds will be valued at prices supplied by approved pricing services which is generally based on bid-side quotations. Non-ARM mortgages will be valued based on prices received from pricing vendor who provides bid prices. CDS will be valued at market quotations supplied by approved pricing services.

Common stocks and other exchange-traded equity securities (including shares of preferred securities, convertible securities, MLPs, commodity-related pooled investment vehicles, and ETFs) generally will be valued at the last sale price or official closing price on the primary exchange. Warrants and rights are generally valued at their intrinsic value. Custodial receipts are valued at their intrinsic value based on the terms of the receipts. Foreign equities and exchange-listed Depositary Receipts will be valued at the last sale price or official market closing price on the primary exchange and is subject to adjustment (fair value) each day by applying a fair value factor provided by approved pricing services. U.S. equity securities traded OTC, OTC-traded preferred securities, and OTC-traded convertible securities will be valued based on price quotations obtained from a broker-dealer who makes markets in such securities or other equivalent indications of value provided by a third-party pricing service. Securities of non-exchange traded investment companies will be valued at NAV.

Listed futures will generally be valued at the settlement price determined by the applicable exchange. Exchange-traded options on U.S. equity exchanges are generally valued at the composite mean price, using the National Best Bid and Offer quotes. Other exchange traded options are valued at the settlement price of the relevant exchange. Listed swaps will be valued on the basis of quotations or equivalent indication of value supplied by a third-party pricing service or broker-dealer who makes markets in such instruments. Non-exchange traded derivatives, including OTC-traded options and swaps are priced utilizing market quotations provided by approved pricing services. Foreign currency transactions will be valued based on foreign exchange rates obtained from an approved pricing service, using spot and forward rates available at the time net asset values of the fund is calculated.

#### Creation and Redemption of Shares

The NAV of Shares of the Fund will be determined once each business day, normally 4:00 p.m. Eastern time. The Fund currently anticipates that a Creation Unit will consist of 100,000 Shares, though this number may change from time to time, including prior to the listing of the Fund. The exact number of Shares that will comprise a Creation Unit will be disclosed in the Registration Statement of the Fund. The Trust will issue and sell Shares of the Fund only in Creation Units on a continuous basis, without a sales load (but subject to transaction fees), at their NAV per Share next determined after receipt of an order, on any business day, in proper form. Creation and redemption will typically occur in cash, however, the Trust retains discretion to conduct such transactions on an in-kind basis or a combination of cash and in-kind, as further described below.

The consideration for purchase of a Creation Unit of the Fund generally will consist of either (i) the in-kind deposit of a designated portfolio of securities (the “Deposit Securities”) per each Creation Unit and the Cash Component (defined below), computed as described below, or (ii) the cash value of the Deposit Securities (“Deposit Cash”) and the “Cash Component,” computed as described below. When accepting purchases of Creation Units for cash, the Fund may incur additional costs associated with the acquisition of Deposit Securities that would otherwise be provided by an in-kind purchaser. Together, the Deposit Securities or Deposit Cash, as applicable, and the Cash Component constitute the “Fund Deposit,” which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The “Cash Component” is an amount equal to the difference between the NAV of the Shares (per Creation Unit) and the market value of the Deposit Securities or Deposit Cash, as applicable. If the Cash Component is a positive number (i.e., the NAV per Creation Unit exceeds the market value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such positive amount. If the Cash Component is a negative number (i.e., the NAV per Creation Unit is less than the market value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component will be such negative amount and the creator will be entitled to receive cash in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the market value of the Deposit Securities or Deposit Cash, as applicable.

The Custodian, through the National Securities Clearing Corporation (“NSCC”), will make available on each business day, prior to the opening of business on the

Exchange, the list of the names and the required amount of each Deposit Security or the required amount of Deposit Cash, as applicable, to be included in the current Fund Deposit (based on information at the end of the previous business day) for the Fund. Such Fund Deposit is subject to any applicable adjustments as described in the Registration Statement, in order to effect purchases of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities or the required amount of Deposit Cash, as applicable, is made available.

Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Transfer Agent and only on a business day.

With respect to the Fund, the Custodian, through the NSCC, will make available immediately prior to the opening of business on the Exchange (9:30 a.m. Eastern time) on each business day, the list of the names and share quantities of the Fund's portfolio securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form on that day ("Fund Securities"). Fund Securities received on redemption may not be identical to Deposit Securities.

Redemption proceeds for a Creation Unit will be paid either in-kind or in cash or a combination thereof, as determined by the Trust. With respect to in-kind redemptions of the Fund, redemption proceeds for a Creation Unit will consist of Fund Securities as announced by the Custodian on the business day of the request for redemption received in proper form plus cash in an amount equal to the difference between the NAV of the Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the "Cash Redemption Amount"), less a fixed

redemption transaction fee and any applicable additional variable charge as set forth in the Registration Statement. In the event that the Fund Securities have a value greater than the NAV of the Shares, a compensating cash payment equal to the differential will be required to be made by or through an authorized participant by the redeeming shareholder. Notwithstanding the foregoing, at the Trust's discretion, an authorized participant may receive the corresponding cash value of the securities in lieu of the in-kind securities value representing one or more Fund Securities.<sup>33</sup>

The creation/redemption order cut-off time for the Fund is expected to be 4:00 p.m. Eastern time. Creation/redemption order cut-off times may be earlier on any day that the Securities Industry and Financial Markets Association ("SIFMA") (or applicable exchange or market on which the Fund's investments are traded) announces an early closing time. On days when the Exchange closes earlier than normal, the Fund may require orders for Creation Units to be placed earlier in the day.

#### Availability of Information

The Fund's website, which will be publicly available prior to the public offering of Shares, will include a form of the prospectus for the Fund that may be downloaded. The website will include additional quantitative information updated on a daily basis, including, for the Fund: (1) the prior business day's reported NAV, mid-point of the bid/ask spread at the time of calculation of such NAV (the "Bid/Ask Price"),<sup>34</sup> daily

---

<sup>33</sup> The Adviser represents that, to the extent that the Trust permits or requires a "cash in lieu" amount, such transactions will be effected in the same or equitable manner for all Authorized Participants.

<sup>34</sup> The Bid/Ask Price of the Fund will be determined using the midpoint of the highest bid and the lowest offer on the Exchange as of the time of calculation of

trading volume, and a calculation of the premium and discount of the Bid/Ask Price against the NAV; and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters. Daily trading volume information for the Fund will also be available through subscription services such as Bloomberg, Thomson Reuters, and International Data Corporation, which can be accessed by authorized participants and other investors, as well as through other electronic services, including major public websites. On each business day, before commencement of trading in Shares during Regular Trading Hours<sup>35</sup> on the Exchange, the Fund will disclose on its website the identities and quantities of the portfolio of securities and other assets (the “Disclosed Portfolio”) held by the Fund that will form the basis for the Fund’s calculation of NAV at the end of the business day.<sup>36</sup> The Disclosed Portfolio will include, as applicable: the ticker symbol; CUSIP number or other identifier, if any; a description of the holding (including the type of holding, such as the type of swap); the identity of the security, commodity, index or other asset or instrument underlying the holding, if any; for options, the option strike price; quantity held (as measured by, for example, par value, notional value or number of shares, contracts, or units); maturity date, if any; coupon rate,

---

the Fund’s NAV. The records relating to Bid/Ask Prices will be retained by the Fund and its service providers.

<sup>35</sup> Regular Trading Hours are 9:30 a.m. to 4:00 p.m. Eastern Time.

<sup>36</sup> Under accounting procedures to be followed by the Fund, trades made on the prior business day (“T”) will be booked and reflected in NAV on the current business day (“T+1”). Accordingly, the Fund will be able to disclose at the beginning of the business day the portfolio that will form the basis for the NAV calculation at the end of the business day.

if any; effective date, if any; market value of the holding; and the percentage weighting of the holding in the Fund's portfolio. The website and information will be publicly available at no charge.

In addition, for the Fund, an estimated value, defined in BZX Rule 14.11(i)(3)(C) as the "Intraday Indicative Value," that reflects an estimated intraday value of the Fund's portfolio, will be disseminated. Moreover, the Intraday Indicative Value will be based upon the current value for the components of the Disclosed Portfolio and will be updated and widely disseminated by one or more major market data vendors at least every 15 seconds during the Exchange's Regular Trading Hours.<sup>37</sup> In addition, the quotations of certain of the Fund's holdings may not be updated during U.S. trading hours if such holdings do not trade in the United States or if updated prices cannot be ascertained.

The dissemination of the Intraday Indicative Value, together with the Disclosed Portfolio, will allow investors to determine the value of the underlying portfolio of the Fund on a daily basis and provide a close estimate of that value throughout the trading day.

Intraday, closing, and settlement prices of common stocks and other exchange-listed instruments (including futures, options, Depositary Receipts, preferred securities, convertible securities, warrants, rights, MLPs, commodity-related pooled investment vehicles, and ETFs) will be readily available from the exchanges trading such securities as well as automated quotation systems, published or other public sources, or online

---

<sup>37</sup> Currently, it is the Exchange's understanding that several major market data vendors display and/or make widely available Intraday Indicative Values published via the Consolidated Tape Association ("CTA") or other data feeds.

information services such as Bloomberg or Reuters. In addition, price information for U.S. exchange-traded options will be available from the Options Price Reporting Authority. Quotation information from brokers and dealers or pricing services will be available for Fixed Income Securities and U.S. government obligations. Quotation and price information for convertible bonds, ARMs, ABS, bank obligations, custodial receipts, corporate debt securities, inflation-linked debt securities, inverse floating rate instruments, mortgage dollar rolls, municipal securities, obligations of supranational agencies, private placements, restricted securities, and other unregistered securities, securities issued in connection with reorganizations and corporate restructurings, short-term funding agreements, sovereign obligations, stripped mortgage-backed securities, structured investments, treasury receipts, trust preferreds, U.S. Government Agency Securities, U.S. Government obligations, zero-coupon, pay-in-kind, and deferred payment securities, commercial paper, auction rate securities, when-issued securities, delayed delivery securities, and forward commitments, loan assignments and participations, Brady Bonds, mortgages, common stock warrants and rights, CDS, and foreign currency transactions will be available via major market data vendors or broker dealers that make markets in such instruments.

Information regarding market price and volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. The previous day's closing price and trading volume information for the Shares will be published daily in the financial section of newspapers. Quotation and last sale information for the Shares will be available on the facilities of the CTA.

#### Initial and Continued Listing

The Shares will be subject to BZX Rule 14.11(i), which sets forth the initial and continued listing criteria applicable to Managed Fund Shares. The Exchange represents that, for initial and/or continued listing, the Fund must be in compliance with Rule 10A-3 under the Act.<sup>38</sup> A minimum of 100,000 Shares will be outstanding at the commencement of trading on the Exchange. The Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time.

#### Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of the Fund. The Exchange will halt trading in the Shares under the conditions specified in BZX Rule 11.18. Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. These may include: (1) the extent to which trading is not occurring in the securities and/or the financial instruments composing the Disclosed Portfolio of the Fund; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. Trading in the Shares also will be subject to Rule 14.11(i)(4)(B)(iv), which sets forth circumstances under which Shares of the Fund may be halted.

#### Trading Rules

---

<sup>38</sup> See 17 CFR 240.10A-3.

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. The Exchange will allow trading in the Shares from 8:00 a.m. until 5:00 p.m. Eastern Time. The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions. As provided in BZX Rule 14.11(i)(2)(C), the minimum price variation for quoting and entry of orders in Managed Fund Shares traded on the Exchange is \$0.01.

#### Surveillance

The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Shares on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. Trading of the Shares through the Exchange will be subject to the Exchange's surveillance procedures for derivative products, including Managed Fund Shares. The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Fund to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Fund is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under Exchange Rule 14.12. The Exchange may obtain information regarding trading in the Shares and the underlying shares in exchange traded investment companies, U.S. equity securities, foreign equity securities, futures, and options via the ISG, from other exchanges who are members or affiliates of the ISG, or with which the Exchange

has entered into a comprehensive surveillance sharing agreement.<sup>39</sup> In addition, the Exchange is able to access, as needed, trade information for certain fixed income instruments reported to FINRA's Trade Reporting and Compliance Engine ("TRACE"). The Exchange can also access municipal bond trading activity for surveillance purposes in connection with trading in the Shares through the Electronic Municipal Market Access ("EMMA")<sup>40</sup> of the Municipal Securities Rulemaking Board ("MSRB"). The Exchange prohibits the distribution of material non-public information by its employees.

#### Information Circular

Prior to the commencement of trading, the Exchange will inform its members in an Information Circular of the special characteristics and risks associated with trading the Shares. Specifically, the Information Circular will discuss the following: (1) the procedures for purchases and redemptions of Shares in Creation Units (and that Shares are not individually redeemable); (2) BZX Rule 3.7, which imposes suitability obligations on Exchange members with respect to recommending transactions in the Shares to customers; (3) how information regarding the Intraday Indicative Value and the Disclosed Portfolio is disseminated; (4) the risks involved in trading the Shares during

---

<sup>39</sup> For a list of the current members and affiliate members of ISG, see [www.isgportal.com](http://www.isgportal.com). The Exchange notes that not all components of the Disclosed Portfolio for the Fund may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. The Exchange also notes that all exchange-traded instruments, including ETFs, commodity-related pooled investment vehicles, futures, and options will trade on markets that are a member of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

<sup>40</sup> Information available from EMMA includes next-day information regarding municipal securities transactions and par amounts traded.

the Pre-Opening<sup>41</sup> and After Hours Trading Sessions<sup>42</sup> when an updated Intraday Indicative Value will not be calculated or publicly disseminated; (5) the requirement that members deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information.

In addition, the Information Circular will advise members, prior to the commencement of trading, of the prospectus delivery requirements applicable to the Fund. Members purchasing Shares from the Fund for resale to investors will deliver a prospectus to such investors. The Information Circular will also discuss any exemptive, no-action, and interpretive relief granted by the Commission from any rules under the Act.

In addition, the Information Circular will reference that the Fund is subject to various fees and expenses described in the Registration Statement. The Information Circular will also disclose the trading hours of the Shares of the Fund and the applicable NAV Calculation Time for the Shares. The Information Circular will disclose that information about the Shares of the Fund will be publicly available on the Fund's website. In addition, the Information Circular will reference that the Trust is subject to various fees and expenses described in the Fund's Registration Statement.

b. Statutory Basis

The Exchange believes that the proposal is consistent with Section 6(b) of the Act<sup>43</sup> in general and Section 6(b)(5) of the Act<sup>44</sup> in particular in that it is designed to

---

<sup>41</sup> The Pre-Opening Session is from 8:00 a.m. to 9:30 a.m. Eastern Time.

<sup>42</sup> The After Hours Trading Session is from 4:00 p.m. to 5:00 p.m. Eastern Time.

<sup>43</sup> 15 U.S.C. 78f.

prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in BZX Rule 14.11(i). The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Shares on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. If the investment adviser to the investment company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser to the investment company shall erect a “fire wall” between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such investment company portfolio. The Adviser is not a registered broker-dealer, but is affiliated with a broker-dealer and has implemented a “fire wall” with respect to such broker-dealer regarding access to information concerning the composition and/or changes to the Fund’s portfolio. In the event (a) the Adviser becomes registered as a broker-dealer or newly affiliated with a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with a broker-dealer, it will implement a fire wall with respect to its

---

<sup>44</sup> 15 U.S.C. 78f(b)(5).

relevant personnel or broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio. The Exchange may obtain information regarding trading in the Shares and the underlying Depositary Receipts, exchange traded shares of investment companies, U.S. equity securities, futures, and exchange listed options via the ISG, from other exchanges who are members or affiliates of the ISG, or with which the Exchange has entered into a comprehensive surveillance sharing agreement.<sup>45</sup> In addition, the Exchange is able to access, as needed, trade information for certain fixed income instruments reported to FINRA's TRACE.

The Fund's investments will be consistent with the Fund's investment objective and the Fund does not have an investment objective seeking to return two times or three times the Fund's benchmark, as stated above.

In addition to the holdings in Bonds and Non-Bonds described above as part of the Fund's principal investment strategy, the Fund may also, to a limited extent (under normal circumstances, less than 20% of the Fund's Assets) and as further described above, engage in transactions in the following:

---

<sup>45</sup> For a list of the current members and affiliate members of ISG, [see www.isgportal.com](http://www.isgportal.com). The Exchange notes that not all components of the Disclosed Portfolio for the Fund may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. The Exchange also notes that all of the ETFs, commodity-related pooled investment vehicles, futures, and options will trade on markets that are a member of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

Auction rate securities, Brady Bonds, commodity-related pooled investment vehicles, commodity-linked derivatives, U.S. equity securities, exchange-traded common stocks of foreign corporations, exchange-traded warrants of foreign corporations, exchange-traded rights in foreign corporations, ADRs, GDRs, EDRS, convertible securities, and MLPs.

The Fund may hold up to an aggregate amount of 15% of its Assets in illiquid assets (calculated at the time of investment), including Restricted Securities deemed illiquid by the Adviser<sup>46</sup> under the 1940 Act.<sup>47</sup> The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, Assets, or other circumstances, more than 15% of the Fund's Assets are held in illiquid assets. A security

---

<sup>46</sup> In reaching liquidity decisions, the Adviser may consider factors including: the frequency of trades and quotes for the security; the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; dealer undertakings to make a market in the security; the nature of the security and the nature of the marketplace in which it trades (e.g., the time needed to dispose of the security, the method of soliciting offers, and the mechanics of transfer).

<sup>47</sup> The Commission has stated that long-standing Commission guidelines have required open-end funds to hold no more than 15% of their net assets in illiquid securities and other illiquid assets. See Investment Company Act Release No. 28193 (March 11, 2008), 73 FR 14618 (March 18, 2008), footnote 34. See also, Investment Company Act Release No. 5847 (October 21, 1969), 35 FR 19989 (December 31, 1970) (Statement Regarding "Restricted Securities"); Investment Company Act Release No. 18612 (March 12, 1992), 57 FR 9828 (March 20, 1992) (Revisions of Guidelines to Form N-1A). A fund's portfolio security is illiquid if it cannot be disposed of in the ordinary course of business within seven days at approximately the value ascribed to it by the fund. See Investment Company Act Release No. 14983 (March 12, 1986), 51 FR 9773 (March 21, 1986) (adopting amendments to Rule 2a-7 under the 1940 Act); Investment Company Act Release No. 17452 (April 23, 1990), 55 FR 17933 (April 30, 1990) (adopting Rule 144A under the Securities Act of 1933).

is considered illiquid if it cannot be “sold or disposed of in the ordinary course of business within 7 days at approximately the value” at which it is being carried by the fund.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest in that the Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time. In addition, a large amount of information is publicly available regarding the Fund and the Shares, thereby promoting market transparency. Moreover, the Intraday Indicative Value will be disseminated by one or more major market data vendors at least every 15 seconds during Regular Trading Hours. On each business day, before commencement of trading in Shares during Regular Trading Hours, the Fund will disclose on its website the Disclosed Portfolio that will form the basis for the Fund’s calculation of NAV at the end of the business day. Pricing information will be available on the Fund’s website including: (1) the prior business day’s reported NAV, the Bid/Ask Price of the Fund, and a calculation of the premium and discount of the Bid/Ask Price against the NAV; and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters. Additionally, information regarding market price and trading of the Shares will be continually available on a real-time basis throughout the day on brokers’ computer screens and other electronic services, and quotation and last sale information for the Shares will be available on the facilities of the CTA. The website for the Fund will include a form of the prospectus for

the Fund and additional data relating to NAV and other applicable quantitative information. Trading in Shares of the Fund will be halted under the conditions specified in BZX Rule 11.18. Trading may also be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. Finally, trading in the Shares will be subject to BZX Rule 14.11(i)(4)(B)(iv), which sets forth circumstances under which Shares of the Fund may be halted. In addition, the Exchange is able to access, as needed, trade information for certain fixed income instruments reported to FINRA's TRACE. As noted above, investors will also have ready access to information regarding the Fund's holdings, the Intraday Indicative Value, the Disclosed Portfolio, and quotation and last sale information for the Shares.

Intraday, closing, and settlement prices of common stocks and other exchange-listed instruments (including futures, options, Depositary Receipts, preferred securities, convertible securities, warrants, rights, MLPs, commodity-related pooled investment vehicles, and ETFs) will be readily available from the exchanges trading such securities as well as automated quotation systems, published or other public sources, or online information services such as Bloomberg or Reuters. In addition, price information for U.S. exchange-traded options will be available from the Options Price Reporting Authority. Quotation information from brokers and dealers or pricing services will be available for Fixed Income Securities and U.S. government obligations. Quotation and price information for convertible bonds, ARMs, ABS, bank obligations, custodial receipts, corporate debt securities, inflation-linked debt securities, inverse floating rate instruments, mortgage dollar rolls, municipal securities, obligations of supranational agencies, private placements, restricted securities, and other unregistered securities,

securities issued in connection with reorganizations and corporate restructurings, short-term funding agreements, sovereign obligations, stripped mortgage-backed securities, structured investments, treasury receipts, trust preferreds, U.S. Government Agency Securities, U.S. Government obligations, zero-coupon, pay-in-kind, and deferred payment securities, commercial paper, auction rate securities, when-issued securities, delayed delivery securities, and forward commitments, loan assignments and participations, Brady Bonds, mortgages, common stock warrants and rights, CDS, and foreign currency transactions will be available via major market data vendors or broker dealers that make markets in such instruments.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange has in place surveillance procedures relating to trading in the Shares and may obtain information via ISG from other exchanges that are members of ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement. In addition, as noted above, investors will have ready access to information regarding the Fund's holdings, the Intraday Indicative Value, the Disclosed Portfolio, and quotation and last sale information for the Shares.

For the above reasons, the Exchange believes that the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change will facilitate the listing and trading of an additional actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The Exchange requests the Commission to find good cause to accelerate effectiveness of this proposed rule change pursuant to Section 19(b)(2) of the Exchange Act and to approve the proposed rule change prior to the 30th day after publication of the proposed rule change in the Federal Register. The Exchange believes there is good cause to grant expedited review and accelerated effectiveness of this proposal because the issues raised are similar to those raised in other proposed rule changes that have been approved by the Commission relating to listing and trading of other issues of Managed Fund Shares on the Exchange.<sup>48</sup>

---

<sup>48</sup> The Commission has previously approved listing and trading on the Exchange of multiple actively managed funds under Rule 14.11(i). See, e.g., Securities

Exchange Act Release Nos. 67894 (September 20, 2012), 77 FR 59227 (September 26, 2012) (SR-BATS-2012-033) (order approving Exchange listing and trading of the iShares Short Maturity Bond Fund); 68390 (December 10, 2012), 77 FR 74520 (December 14, 2012) (SR-BATS-2012-042) (order approving Exchange listing and trading of the iShares Sovereign Screened Global Bond Fund); 70986 (December 4, 2013), 78 FR 74212 (December 10, 2013) (SR-BATS-2013-051) (order approving Exchange listing and trading of the iShares Liquidity Income Fund); 72099 (May 6, 2014), 79 FR 27023 (May 12, 2014) (SR-BATS-2014-007) (order approving Exchange listing and trading shares of certain funds of the ProShares Trust); and 74338 (February 20, 2015), 80 FR 10556 (February 26, 2015) (SR-NYSEArca-2014-143) (order approving listing and trading of shares of the SPDR DoubleLine Total Return Tactical ETF).

EXHIBIT 1

## SECURITIES AND EXCHANGE COMMISSION

(Release No. 34-\_\_\_\_\_; File No. SR-BatsBZX-2016-35)

Self-Regulatory Organizations; Bats BZX Exchange, Inc.; Notice of Filing of a Proposed Rule Change to BZX Rule 14.11(i), Managed Fund Shares, to List and Trade Shares of the JPMorgan Global Bond Opportunities ETF of the J.P. Morgan Exchange-Traded Fund Trust

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on \_\_\_\_\_, Bats BZX Exchange, Inc. (the “Exchange” or “BZX”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to list and trade shares of the JPMorgan Global Bond Opportunities ETF (the “Fund”) of the J.P. Morgan Exchange-Traded Fund Trust (the “Trust”) under BZX Rule 14.11(i) (“Managed Fund Shares”). The shares of the Fund are collectively referred to herein as the “Shares.”

The text of the proposed rule change is available at the Exchange’s website at [www.batstrading.com](http://www.batstrading.com), at the principal office of the Exchange, and at the Commission’s Public Reference Room.

---

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to list and trade the Shares under BZX Rule 14.11(i), which governs the listing and trading of Managed Fund Shares on the Exchange.<sup>3</sup> All statements and representations made in this filing regarding (a) the description of the portfolio, (b) limitations on portfolio holdings or reference assets, or (c) the applicability of Exchange rules and surveillance procedures shall constitute continued listing requirements for listing the Shares on the Exchange. The Fund will be an actively managed fund. The Shares will be offered by the Trust, which was established as a Delaware statutory trust on February 25, 2010. The Trust is registered with the Commission as an open-end investment company and has filed a registration statement

---

<sup>3</sup> The Commission approved BZX Rule 14.11(i) in Securities Exchange Act Release No. 65225 (August 30, 2011), 76 FR 55148 (September 6, 2011) (SR-BATS-2011-018).

with respect to the Fund on Form N-1A (“Registration Statement”) with the Commission.<sup>4</sup>

Description of the Shares and the Fund

J.P. Morgan Investment Management Inc. will be the investment adviser (“JPMIM” or “Adviser”) to the Fund. The Adviser will serve as the administrator for the Fund (the “Administrator”). SEI Investments Distribution Co. (the “Distributor”) serves as the distributor for the Trust. JPMorgan Chase Bank, N.A. will act as the custodian (the “Custodian”) and transfer agent (“Transfer Agent”) for the Trust.

BZX Rule 14.11(i)(7) provides that, if the investment adviser to the investment company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser shall erect a “fire wall” between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such investment company portfolio.<sup>5</sup> In addition, Rule 14.11(i)(7) further

---

<sup>4</sup> See Registration Statement on Form N-1A for the Trust, dated May 26, 2016 (File Nos. 333-191837 and 811-22903). The descriptions of the Fund and the Shares contained herein are based, in part, on information in the Registration Statement. The Commission has issued an order granting certain exemptive relief to the Trust under the Investment Company Act of 1940 (15 U.S.C. 80a-1) (“1940 Act”) (the “Exemptive Order”). See Investment Company Act Release No. 31990 (February 9, 2016) (File No. 812-13761).

<sup>5</sup> An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the “Advisers Act”). As a result, the Adviser and its related personnel are subject to the provisions of Rule 204A-1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of non-public information by an investment adviser must be consistent with Rule 204A-1 under the Advisers Act. In addition, Rule 206(4)-7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written policies and

requires that personnel who make decisions on the investment company's portfolio composition must be subject to procedures designed to prevent the use and dissemination of material nonpublic information regarding the applicable investment company portfolio. Rule 14.11(i)(7) is similar to BZX Rule 14.11(b)(5)(A)(i), however, Rule 14.11(i)(7) in connection with the establishment of a "fire wall" between the investment adviser and the broker-dealer reflects the applicable open-end fund's portfolio, not an underlying benchmark index, as is the case with index-based funds. The Adviser is not registered as a broker-dealer but the Adviser is affiliated with a broker-dealer and has implemented a "fire wall" with respect to such broker-dealer regarding access to information concerning the composition and/or changes to the Fund's portfolio. In the event (a) the Adviser becomes registered as a broker-dealer or newly affiliated with a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with a broker-dealer, it will implement a fire wall with respect to its relevant personnel or broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

JPMorgan Global Bond Opportunities ETF

---

procedures reasonably designed to prevent violation, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated an individual (who is a supervised person) responsible for administering the policies and procedures adopted under subparagraph (i) above.

According to the Registration Statement, the Fund will seek to provide total return by investing across sectors in developed and emerging markets located around the world. The Fund is an actively-managed fund that does not seek to replicate the performance of a specified index. Because the Fund is not managed to a benchmark, the Adviser has broad discretion to shift the Fund's exposure to strategies, sectors, countries or currencies based on changing market conditions and its view of the best mix of investment opportunities. In buying and selling investments for the Fund, the Adviser allocates the Fund's exposure to strategies, sectors, countries and currencies based on the Adviser's analysis of individual investments and broader economic conditions in individual countries, regions and the world. This allows the Adviser to take a conservative approach during uncertain periods and move into higher risk opportunities as market conditions improve, which may result in the Fund focusing in only a few markets and sectors

Under normal circumstances, the Fund will invest at least 80% of its net assets (plus the amount of borrowings for investment purposes) ("Assets") in bonds. Under normal circumstances, the Fund will invest at least 40% of its Assets in countries other than the United States. The Fund may invest in developed or emerging markets. Emerging markets currently includes most countries in the world except Australia, Canada, Japan, New Zealand, the U.S., the United Kingdom and most western European countries and Hong Kong. In managing the Fund, the Adviser will seek to diversify the Fund's portfolio by investing in issuers in at least three countries other than the U.S. The Fund may invest a substantial part of its assets in just one country and is not required to allocate its investments in any set percentages in any particular countries.

Although the Fund has the flexibility to invest without limit in securities that are rated below investment grade (also known as junk bonds or high yield securities), or the unrated equivalent, the Fund generally invests at least 25% of the Fund's Assets in securities that at the time of purchase are rated investment grade or the unrated equivalent. The Fund has flexibility to decrease the percentage of Assets invested in investment grade securities at any time to take advantage of higher risk opportunities when market conditions are improving.

The Fund currently seeks to maintain a duration of eight years or less, although the Fund has the flexibility to maintain a longer duration under certain market conditions such as significant volatility in interest rates and spreads. Duration is a measure of the price sensitivity of a debt security or a portfolio of debt securities to relative changes in interest rates. For instance, a duration of three years means that a security's or portfolio's price would be expected to decrease by approximately 3% with a 1% increase in interest rates (assuming a parallel shift in yield curve).

As part of its principal investment strategy and for temporary defensive purposes, any portion of the Fund's total assets may be invested in cash and cash equivalents.

#### Principal Holdings

The Fund intends to achieve its investment objective by investing, under normal circumstances,<sup>6</sup> 80% of its Assets in bonds (a debt security with a maturity of 90 days or

---

<sup>6</sup> The term "under normal circumstances" includes, but is not limited to, the absence of extreme volatility or trading halts in the fixed income markets or the financial markets generally; operational issues causing dissemination of inaccurate market information; or force majeure type events such as systems failure, natural or man-made disaster, act of God, armed conflict, act of terrorism, riot or labor disruption or any similar intervening circumstance.

more at the time of its issuance) (“Bonds”), subject to certain limits described below.

For purposes of this filing, Bonds will be defined as the following instruments: asset-backed securities<sup>7</sup> (including mortgages,<sup>8</sup> mortgage dollar rolls,<sup>9</sup> and stripped mortgage-backed securities);<sup>10</sup> bank obligations; commercial paper;<sup>11</sup> convertible bonds; corporate debt securities;<sup>12</sup> inflation-linked debt securities; inverse floating rate instruments;<sup>13</sup>

---

<sup>7</sup> Asset-backed securities (“ABS”) include securities secured by company receivables, home equity loans, truck and auto loans, leases, and credit card receivables or other securities backed by other types of receivables or other assets. ABS includes mortgage-backed securities (“MBS”), which are debt obligations secured by real estate loans and pools of loans such as collateralized mortgage obligations (“CMOs”), commercial mortgage-backed securities (“CMBS”), and other asset-backed structures. The Fund may not invest more than 20% of its portfolio in a combination of: illiquid ABS (as determined in footnote 31, below), and distressed or defaulted loans, including non-performing loans and reperforming loans.

<sup>8</sup> Mortgages are debt instruments secured by real property and include adjustable rate mortgage loans (“ARMs”), which are loans in a mortgage pool which provide for a fixed initial mortgage interest rate for a specified period of time, after which the rate may be subject to periodic adjustments.

<sup>9</sup> Mortgage dollar rolls involve a transaction in which the Fund sells securities for delivery in a current month and simultaneously contracts with the same party to repurchase similar but not identical securities on a specified future date.

<sup>10</sup> Stripped mortgage-backed securities are securities which are usually structured with two classes of shares that receive different proportions of the interest and principal from a pool of mortgage assets. These include Interest-Only (“IO”) and Principal-Only (“PO”) securities issued outside a Real Estate Mortgage Investment Conduit (“REMIC”) or CMO structure.

<sup>11</sup> Secured and unsecured short-term promissory notes issued by corporations and other entities. Maturities generally vary from a few days to nine months.

<sup>12</sup> May include bonds and other debt securities of domestic and foreign issuers, including obligations of industrial, utility, banking and other corporate issuers. While the Fund is permitted to invest without restriction in corporate bonds, the Adviser expects that, under normal circumstances, the Fund will generally seek to invest in corporate bond issuances that have at least \$100,000,000 par amount outstanding. Further, component corporate bonds that in the aggregate account for at least 75% of the weight of corporate bonds will have a minimum original principal outstanding of \$100 million or more.

municipal securities;<sup>14</sup> obligations of supranational agencies; private placements, restricted securities, and other unregistered securities; securities issued in connection with reorganizations and corporate restructurings; sovereign obligations; structured investments;<sup>15</sup> treasury receipts;<sup>16</sup> trust preferreds; U.S. Government Agency Securities;<sup>17</sup> U.S. Government obligations;<sup>18</sup> and zero-coupon, pay-in-kind, and deferred

---

<sup>13</sup> Inverse floating rate instruments are leveraged variable debt instruments with interest rates that reset in the opposite direction from the market rate of interest to which the inverse floater is indexed.

<sup>14</sup> Municipal securities held by the Fund will be rated Baa3/BBB- or higher by at least two of the following ratings agencies if all three agencies rate the security: Moody's, S&P and Fitch. If only two of the three agencies rate the security, the lower rating is used. If only one of the three agencies rates a security, the rating must be at least Baa3/BBB-. Municipal securities held by the Fund will have an outstanding par value of at least \$7 million and be issued as part of a transaction of at least \$75 million.

<sup>15</sup> A structured investment is a security having a return tied to an underlying index or other security or asset class. Structured investments generally are individually negotiated agreements and may be traded over-the-counter. Structured investments are organized and operated to restructure the investment characteristics of the underlying security.

<sup>16</sup> The Fund may purchase interests in separately traded interest and principal component parts of U.S. Treasury obligations that are issued by banks or brokerage firms and that are created by depositing U.S. Treasury notes and U.S. Treasury bonds into a special account at a custodian bank. Receipts include Treasury Receipts ("TRs"), Treasury Investment Growth Receipts ("TIGRs"), and Certificates of Accrual on Treasury Securities ("CATS").

<sup>17</sup> U.S. Government Agency Securities include securities issued by agencies and instrumentalities of the U.S. government. These include all types of securities issued by the Government National Mortgage Association ("Ginnie Mae"), the Federal National Mortgage Association ("Fannie Mae") and the Federal Home Loan Mortgage Corporation ("Freddie Mac"), including funding notes, subordinated benchmark notes, CMOs and REMICs.

<sup>18</sup> U.S. Government obligations include direct obligations of the U.S. Treasury, including Treasury bills, notes and bonds, all of which are backed as to principal and interest payments by the full faith and credit of the United States, and separately traded principal and interest component parts of such obligations that are transferable through the Federal book-entry system known as Separate

payment securities.<sup>19</sup> Bonds may have fixed or variable interest rates<sup>20</sup> and be of any maturity.

In addition to investing at least 80% of its Assets in Bonds, the Fund may also invest in the following instruments as part of its principal investment strategy (“Non-Bonds”): custodial receipts,<sup>21</sup> derivatives, including options,<sup>22</sup> swaps,<sup>23</sup> and futures;

---

Trading of Registered Interest and Principal of Securities (“STRIPS”) and Coupons Under Book Entry Safekeeping (“CUBES”).

<sup>19</sup> Zero-coupon securities are securities that are sold at a discount to par value and on which interest payments are not made during the life of the security. Pay-in-kind securities are securities that have interest payable by delivery of additional securities. Deferred payment securities are zero-coupon debt securities which convert on a specified date to interest bearing debt securities.

<sup>20</sup> A variable rate security provides for the automatic establishment of a new interest rate on set dates. Variable rate obligations whose interest is readjusted no less frequently than annually will be deemed to have a maturity equal to the period remaining until the next readjustment of the interest rate. The Fund may also purchase floating rate securities. A floating rate security provides for the automatic adjustment of its interest rate whenever a specified interest rate changes. Interest rates on these securities are ordinarily tied to, and are a percentage of, a widely recognized interest rate, such as the yield on 90-day US Treasury bills or the prime rate of a specified bank. These rates may change as often as twice daily.

<sup>21</sup> The Fund may acquire securities in the form of custodial receipts that evidence ownership of future interest payments, principal payments or both on certain U.S. Treasury notes or bonds in connection with programs sponsored by banks and brokerage firms. These are not considered to be U.S. government securities. These notes and bonds are held in custody by a bank on behalf of the owners of the receipts.

<sup>22</sup> The Fund may invest in OTC and exchange-traded call and put options, including only the following: fixed income securities, currencies, and indexes of fixed income, currencies, or credit default swaps. All options will be covered.

<sup>23</sup> The Fund may invest in swaps, including only the following: interest rate swaps, credit default swaps, currency swaps, and total return swaps

exchange traded funds (“ETFs”);<sup>24</sup> foreign currency transactions;<sup>25</sup> investment company securities that are not ETFs;<sup>26</sup> preferred stock; and short-term funding agreements.<sup>27</sup>

#### Other Portfolio Holdings

While the Adviser, under normal circumstances, will invest at least 80% of the Fund’s Assets in Bonds and may invest additionally in Non-Bonds described above as part of its principal investment strategy, the Adviser may invest up to 20% of the Fund’s Assets in other securities and financial instruments, as described below.

The Fund may invest in auction rate securities, which include auction rate municipal securities and auction rate preferred securities issued by closed-end investment companies.

---

<sup>24</sup> For purposes of this filing, ETFs include Index Fund Shares (as described in Rule 14.11(c)); Portfolio Depositary Receipts (as described in Rule 14.11(b)); and Managed Fund Shares (as described in Rule 14.11(i)). The ETFs all will be listed and traded in the U.S. on registered exchanges. The Fund may invest in the securities of ETFs registered under the 1940 Act consistent with the requirements of Section 12(d)(1) of the 1940 Act, or any rule, regulation or order of the Commission or interpretation thereof. The Fund will not invest in inverse or leveraged (e.g., 2X, -2X, 3X or -3X) ETFs.

<sup>25</sup> Foreign currency transactions will be used to hedge against currency risks, for other risk management purposes, to increase income or gain to the Fund, and/or for other investment purposes and, in addition to the derivative strategies described above, may include spot and forward foreign currency transactions (including non-deliverable forwards (“NDFs”) and forward rate agreements. The Fund may engage in such transactions in both U.S. and non-U.S. markets.

<sup>26</sup> Investment company securities include shares of other investment companies, including money market funds for which the Adviser and/or its affiliates serve as investment adviser or administrator. The Adviser will waive certain fees when investing in funds for which it serves as investment adviser, to the extent required by law or contract.

<sup>27</sup> Short-term funding agreements are agreements issued by banks and highly rated U.S. insurance companies such as Guaranteed Investment Contracts (GICs) and Bank Investment Contracts (BICs).

The Fund may invest in Brady Bonds, which are securities created through the exchange of existing commercial bank loans to sovereign entities for new obligations in connection with a debt restructuring.

The Fund may invest in commodity-related pooled investment vehicles, which include only the following instruments: Trust Issued Receipts (as defined in BATS Rule 14.11(f)); Commodity-Based Trust Shares (as defined in Rule 14.11(e)(4)); Currency Trust Shares (as defined in Rule 14.11(e)(5)); Commodity Index Trust Shares (as defined in Rule 14.11(e)(6)); Trust Units (as defined in Rule 14.11(e)(9)); and Paired Class Shares (as defined in NASDAQ Stock Market LLC Rule 5713). The Fund will not invest in inverse or leveraged (e.g., 2X, -2X, 3X or -3X) commodity-related pooled investment vehicles.

The Fund may invest in commodity-linked derivatives, which are derivatives for which the value derives from the price of a commodity, including commodity futures and commodity options.

The Fund may invest in U.S. equity securities. Equity securities are securities that represent an ownership interest (or the right to acquire such an interest) in a company and include common and preferred stock, warrants, and rights. The Fund's investments in such U.S. equity securities may include securities traded over-the-counter as well as those traded on a securities exchange. The Fund may purchase such securities on a forward commitment or when-issued or delayed delivery basis, which means delivery and payment take place a number of days after the date of the commitment to purchase.

The Fund may purchase exchange-traded common stocks, exchange-traded warrants, and exchange-traded rights in foreign corporations. The Fund's investments in

common stock of foreign corporations may also be in the form of American Depositary Receipts (“ADRs”), Global Depositary Receipts (“GDRs”) and European Depositary Receipts (“EDRs”) (collectively “Depositary Receipts”).<sup>28</sup>

The Fund may invest in convertible securities traded on an exchange or OTC that are not described in the Principal Holdings section above. Convertible securities are securities that may be converted or exchanged (by the holder or by the issuer) into shares of the underlying common stock (or cash or securities of equivalent value) at a stated exchange ratio. Convertible securities include contingent convertible securities.<sup>29</sup>

The Fund may invest in loan assignments and participations, which are assignments of, or participations in, all or a portion of loans to corporations or to governments, including governments in less developed countries. The Fund may also invest in commitments to purchase loan assignments.

---

<sup>28</sup> Depositary Receipts are receipts, typically issued by a bank or trust company, which evidence ownership of underlying securities issued by a foreign corporation. For ADRs, the depository is typically a U.S. financial institution and the underlying securities are issued by a foreign issuer. For other Depositary Receipts, the depository may be a foreign or a U.S. entity, and the underlying securities may have a foreign or a U.S. issuer. Depositary Receipts will not necessarily be denominated in the same currency as their underlying securities. Generally, ADRs, in registered form, are designed for use in the U.S. securities market, and EDRs, in bearer form, are designated for use in European securities markets. GDRs are tradable both in the United States and in Europe and are designed for use throughout the world. The Fund will not invest in unsponsored ADRs. All exchange-traded equity securities in which the Fund may invest will trade on markets that are members of the Intermarket Surveillance Group (“ISG”) or that have entered into a comprehensive surveillance agreement with the Exchange.

<sup>29</sup> A contingent convertible security is a hybrid debt security typically issued by a non-U.S. bank that may be convertible into equity or may be written down if a pre-specified trigger event such as a decline in capital ratio below a prescribed threshold occurs.

The Fund may invest in exchange-traded master limited partnerships (“MLPs”).

#### Investment Restrictions

The Fund may hold up to an aggregate amount of 15% of its Assets in illiquid assets (calculated at the time of investment), including Restricted Securities deemed illiquid by the Adviser<sup>30</sup> under the 1940 Act.<sup>31</sup> The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, Assets, or other circumstances, more than 15% of the Fund’s Assets are held in illiquid assets. A security is considered illiquid if it cannot be “sold or disposed of in the ordinary course of business within 7 days at approximately the value” at which it is being carried by the Fund.

---

<sup>30</sup> In reaching liquidity decisions, the Adviser may consider factors including: the frequency of trades and quotes for the security; the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; dealer undertakings to make a market in the security; the nature of the security and the nature of the marketplace in which it trades (e.g., the time needed to dispose of the security, the method of soliciting offers, and the mechanics of transfer).

<sup>31</sup> The Commission has stated that long-standing Commission guidelines have required open-end funds to hold no more than 15% of their net assets in illiquid securities and other illiquid assets. See Investment Company Act Release No. 28193 (March 11, 2008), 73 FR 14618 (March 18, 2008), footnote 34. See also, Investment Company Act Release No. 5847 (October 21, 1969), 35 FR 19989 (December 31, 1970) (Statement Regarding “Restricted Securities”); Investment Company Act Release No. 18612 (March 12, 1992), 57 FR 9828 (March 20, 1992) (Revisions of Guidelines to Form N-1A). A fund’s portfolio security is illiquid if it cannot be disposed of in the ordinary course of business within seven days at approximately the value ascribed to it by the fund. See Investment Company Act Release No. 14983 (March 12, 1986), 51 FR 9773 (March 21, 1986) (adopting amendments to Rule 2a-7 under the 1940 Act); Investment Company Act Release No. 17452 (April 23, 1990), 55 FR 17933 (April 30, 1990) (adopting Rule 144A under the Securities Act of 1933).

The Fund intends to qualify each year as a regulated investment company (a “RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended.<sup>32</sup> The Fund will invest its assets, and otherwise conduct its operations, in a manner that is intended to satisfy the qualifying income, diversification, and distribution requirements necessary to establish and maintain RIC qualification under Subchapter M.

The Fund does not have an investment objective seeking to return two times or three times the Fund’s benchmark.

#### Net Asset Value

According to the Registration Statement, the NAV of the Fund’s Shares generally will be calculated once daily Monday through Friday as of the close of regular trading on the Exchange, generally 4:00 p.m. Eastern Time (the “NAV Calculation Time”) on each day that the Exchange is open for trading, based on prices at the NAV Calculation Time. NAV per Share is calculated by dividing the Fund’s Assets by the number of Fund Shares outstanding. The Fund’s Assets are valued primarily on the basis of market quotations. Expenses and fees, including the management fees, will be accrued daily and taken into account for purposes of determining NAV.

Convertible bonds, ARMs, ABS, bank obligations, corporate debt securities, inflation-linked debt securities, inverse floating rate instruments, mortgage dollar rolls, municipal securities, obligations of supranational agencies, private placements, restricted securities, and other unregistered securities, securities issued in connection with reorganizations and corporate restructurings, short-term funding agreements, sovereign obligations, stripped mortgage-backed securities, structured investments, treasury

---

<sup>32</sup> 26 U.S.C. 851.

receipts, trust preferreds, U.S. Government Agency Securities, U.S. Government obligations, zero-coupon, pay-in-kind, and deferred payment securities, commercial paper, auction rate securities, when-issued securities, delayed delivery securities, and forward commitments, loan assignments and participations, and Brady Bonds will be valued at prices supplied by approved pricing services which is generally based on bid-side quotations. Non-ARM mortgages will be valued based on prices received from pricing vendor who provides bid prices. CDS will be valued at market quotations supplied by approved pricing services.

Common stocks and other exchange-traded equity securities (including shares of preferred securities, convertible securities, MLPs, commodity-related pooled investment vehicles, and ETFs) generally will be valued at the last sale price or official closing price on the primary exchange. Warrants and rights are generally valued at their intrinsic value. Custodial receipts are valued at their intrinsic value based on the terms of the receipts. Foreign equities and exchange-listed Depositary Receipts will be valued at the last sale price or official market closing price on the primary exchange and is subject to adjustment (fair value) each day by applying a fair value factor provided by approved pricing services. U.S. equity securities traded OTC, OTC-traded preferred securities, and OTC-traded convertible securities will be valued based on price quotations obtained from a broker-dealer who makes markets in such securities or other equivalent indications of value provided by a third-party pricing service. Securities of non-exchange traded investment companies will be valued at NAV.

Listed futures will generally be valued at the settlement price determined by the applicable exchange. Exchange-traded options on U.S. equity exchanges are generally

valued at the composite mean price, using the National Best Bid and Offer quotes.

Other exchange traded options are valued at the settlement price of the relevant exchange. Listed swaps will be valued on the basis of quotations or equivalent indication of value supplied by a third-party pricing service or broker-dealer who makes markets in such instruments. Non-exchange traded derivatives, including OTC-traded options and swaps are priced utilizing market quotations provided by approved pricing services. Foreign currency transactions will be valued based on foreign exchange rates obtained from an approved pricing service, using spot and forward rates available at the time net asset values of the fund is calculated.

#### Creation and Redemption of Shares

The NAV of Shares of the Fund will be determined once each business day, normally 4:00 p.m. Eastern time. The Fund currently anticipates that a Creation Unit will consist of 100,000 Shares, though this number may change from time to time, including prior to the listing of the Fund. The exact number of Shares that will comprise a Creation Unit will be disclosed in the Registration Statement of the Fund. The Trust will issue and sell Shares of the Fund only in Creation Units on a continuous basis, without a sales load (but subject to transaction fees), at their NAV per Share next determined after receipt of an order, on any business day, in proper form. Creation and redemption will typically occur in cash, however, the Trust retains discretion to conduct such transactions on an in-kind basis or a combination of cash and in-kind, as further described below.

The consideration for purchase of a Creation Unit of the Fund generally will consist of either (i) the in-kind deposit of a designated portfolio of securities (the “Deposit Securities”) per each Creation Unit and the Cash Component (defined below),

computed as described below, or (ii) the cash value of the Deposit Securities (“Deposit Cash”) and the “Cash Component,” computed as described below. When accepting purchases of Creation Units for cash, the Fund may incur additional costs associated with the acquisition of Deposit Securities that would otherwise be provided by an in-kind purchaser. Together, the Deposit Securities or Deposit Cash, as applicable, and the Cash Component constitute the “Fund Deposit,” which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The “Cash Component” is an amount equal to the difference between the NAV of the Shares (per Creation Unit) and the market value of the Deposit Securities or Deposit Cash, as applicable. If the Cash Component is a positive number (i.e., the NAV per Creation Unit exceeds the market value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component shall be such positive amount. If the Cash Component is a negative number (i.e., the NAV per Creation Unit is less than the market value of the Deposit Securities or Deposit Cash, as applicable), the Cash Component will be such negative amount and the creator will be entitled to receive cash in an amount equal to the Cash Component. The Cash Component serves the function of compensating for any differences between the NAV per Creation Unit and the market value of the Deposit Securities or Deposit Cash, as applicable.

The Custodian, through the National Securities Clearing Corporation (“NSCC”), will make available on each business day, prior to the opening of business on the Exchange, the list of the names and the required amount of each Deposit Security or the required amount of Deposit Cash, as applicable, to be included in the current Fund Deposit (based on information at the end of the previous business day) for the Fund. Such

Fund Deposit is subject to any applicable adjustments as described in the Registration Statement, in order to effect purchases of Creation Units of the Fund until such time as the next-announced composition of the Deposit Securities or the required amount of Deposit Cash, as applicable, is made available.

Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the Fund through the Transfer Agent and only on a business day.

With respect to the Fund, the Custodian, through the NSCC, will make available immediately prior to the opening of business on the Exchange (9:30 a.m. Eastern time) on each business day, the list of the names and share quantities of the Fund's portfolio securities that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form on that day ("Fund Securities"). Fund Securities received on redemption may not be identical to Deposit Securities.

Redemption proceeds for a Creation Unit will be paid either in-kind or in cash or a combination thereof, as determined by the Trust. With respect to in-kind redemptions of the Fund, redemption proceeds for a Creation Unit will consist of Fund Securities as announced by the Custodian on the business day of the request for redemption received in proper form plus cash in an amount equal to the difference between the NAV of the Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Fund Securities (the "Cash Redemption Amount"), less a fixed redemption transaction fee and any applicable additional variable charge as set forth in the Registration Statement. In the event that the Fund Securities have a value greater than the NAV of the Shares, a compensating cash payment equal to the differential will

be required to be made by or through an authorized participant by the redeeming shareholder. Notwithstanding the foregoing, at the Trust's discretion, an authorized participant may receive the corresponding cash value of the securities in lieu of the in-kind securities value representing one or more Fund Securities.<sup>33</sup>

The creation/redemption order cut-off time for the Fund is expected to be 4:00 p.m. Eastern time. Creation/redemption order cut-off times may be earlier on any day that the Securities Industry and Financial Markets Association ("SIFMA") (or applicable exchange or market on which the Fund's investments are traded) announces an early closing time. On days when the Exchange closes earlier than normal, the Fund may require orders for Creation Units to be placed earlier in the day.

#### Availability of Information

The Fund's website, which will be publicly available prior to the public offering of Shares, will include a form of the prospectus for the Fund that may be downloaded. The website will include additional quantitative information updated on a daily basis, including, for the Fund: (1) the prior business day's reported NAV, mid-point of the bid/ask spread at the time of calculation of such NAV (the "Bid/Ask Price"),<sup>34</sup> daily trading volume, and a calculation of the premium and discount of the Bid/Ask Price against the NAV; and (2) data in chart format displaying the frequency distribution of

---

<sup>33</sup> The Adviser represents that, to the extent that the Trust permits or requires a "cash in lieu" amount, such transactions will be effected in the same or equitable manner for all Authorized Participants.

<sup>34</sup> The Bid/Ask Price of the Fund will be determined using the midpoint of the highest bid and the lowest offer on the Exchange as of the time of calculation of the Fund's NAV. The records relating to Bid/Ask Prices will be retained by the Fund and its service providers.

discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters. Daily trading volume information for the Fund will also be available through subscription services such as Bloomberg, Thomson Reuters, and International Data Corporation, which can be accessed by authorized participants and other investors, as well as through other electronic services, including major public websites. On each business day, before commencement of trading in Shares during Regular Trading Hours<sup>35</sup> on the Exchange, the Fund will disclose on its website the identities and quantities of the portfolio of securities and other assets (the “Disclosed Portfolio”) held by the Fund that will form the basis for the Fund’s calculation of NAV at the end of the business day.<sup>36</sup> The Disclosed Portfolio will include, as applicable: the ticker symbol; CUSIP number or other identifier, if any; a description of the holding (including the type of holding, such as the type of swap); the identity of the security, commodity, index or other asset or instrument underlying the holding, if any; for options, the option strike price; quantity held (as measured by, for example, par value, notional value or number of shares, contracts, or units); maturity date, if any; coupon rate, if any; effective date, if any; market value of the holding; and the percentage weighting of the holding in the Fund’s portfolio. The website and information will be publicly available at no charge.

---

<sup>35</sup> Regular Trading Hours are 9:30 a.m. to 4:00 p.m. Eastern Time.

<sup>36</sup> Under accounting procedures to be followed by the Fund, trades made on the prior business day (“T”) will be booked and reflected in NAV on the current business day (“T+1”). Accordingly, the Fund will be able to disclose at the beginning of the business day the portfolio that will form the basis for the NAV calculation at the end of the business day.

In addition, for the Fund, an estimated value, defined in BZX Rule 14.11(i)(3)(C) as the “Intraday Indicative Value,” that reflects an estimated intraday value of the Fund’s portfolio, will be disseminated. Moreover, the Intraday Indicative Value will be based upon the current value for the components of the Disclosed Portfolio and will be updated and widely disseminated by one or more major market data vendors at least every 15 seconds during the Exchange’s Regular Trading Hours.<sup>37</sup> In addition, the quotations of certain of the Fund’s holdings may not be updated during U.S. trading hours if such holdings do not trade in the United States or if updated prices cannot be ascertained.

The dissemination of the Intraday Indicative Value, together with the Disclosed Portfolio, will allow investors to determine the value of the underlying portfolio of the Fund on a daily basis and provide a close estimate of that value throughout the trading day.

Intraday, closing, and settlement prices of common stocks and other exchange-listed instruments (including futures, options, Depositary Receipts, preferred securities, convertible securities, warrants, rights, MLPs, commodity-related pooled investment vehicles, and ETFs) will be readily available from the exchanges trading such securities as well as automated quotation systems, published or other public sources, or online information services such as Bloomberg or Reuters. In addition, price information for U.S. exchange-traded options will be available from the Options Price Reporting Authority. Quotation information from brokers and dealers or pricing services will be available for Fixed Income Securities and U.S. government obligations. Quotation and

---

<sup>37</sup> Currently, it is the Exchange’s understanding that several major market data vendors display and/or make widely available Intraday Indicative Values published via the Consolidated Tape Association (“CTA”) or other data feeds.

price information for convertible bonds, ARMs, ABS, bank obligations, custodial receipts, corporate debt securities, inflation-linked debt securities, inverse floating rate instruments, mortgage dollar rolls, municipal securities, obligations of supranational agencies, private placements, restricted securities, and other unregistered securities, securities issued in connection with reorganizations and corporate restructurings, short-term funding agreements, sovereign obligations, stripped mortgage-backed securities, structured investments, treasury receipts, trust preferreds, U.S. Government Agency Securities, U.S. Government obligations, zero-coupon, pay-in-kind, and deferred payment securities, commercial paper, auction rate securities, when-issued securities, delayed delivery securities, and forward commitments, loan assignments and participations, Brady Bonds, mortgages, common stock warrants and rights, CDS, and foreign currency transactions will be available via major market data vendors or broker dealers that make markets in such instruments.

Information regarding market price and volume of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services. The previous day's closing price and trading volume information for the Shares will be published daily in the financial section of newspapers. Quotation and last sale information for the Shares will be available on the facilities of the CTA.

#### Initial and Continued Listing

The Shares will be subject to BZX Rule 14.11(i), which sets forth the initial and continued listing criteria applicable to Managed Fund Shares. The Exchange represents that, for initial and/or continued listing, the Fund must be in compliance with Rule 10A-3

under the Act.<sup>38</sup> A minimum of 100,000 Shares will be outstanding at the commencement of trading on the Exchange. The Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time.

#### Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Shares of the Fund. The Exchange will halt trading in the Shares under the conditions specified in BZX Rule 11.18. Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. These may include: (1) the extent to which trading is not occurring in the securities and/or the financial instruments composing the Disclosed Portfolio of the Fund; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present. Trading in the Shares also will be subject to Rule 14.11(i)(4)(B)(iv), which sets forth circumstances under which Shares of the Fund may be halted.

#### Trading Rules

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. The Exchange will allow trading in the Shares from 8:00 a.m. until 5:00 p.m. Eastern Time. The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions. As provided in BZX Rule 14.11(i)(2)(C), the minimum price

---

<sup>38</sup> See 17 CFR 240.10A-3.

variation for quoting and entry of orders in Managed Fund Shares traded on the Exchange is \$0.01.

### Surveillance

The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Shares on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws.

Trading of the Shares through the Exchange will be subject to the Exchange's surveillance procedures for derivative products, including Managed Fund Shares. The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Fund to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Fund is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under Exchange Rule 14.12. The Exchange may obtain information regarding trading in the Shares and the underlying shares in exchange traded investment companies, U.S. equity securities, foreign equity securities, futures, and options via the ISG, from other exchanges who are members or affiliates of the ISG, or with which the Exchange has entered into a comprehensive surveillance sharing agreement.<sup>39</sup> In addition, the

---

<sup>39</sup> For a list of the current members and affiliate members of ISG, see [www.isgportal.com](http://www.isgportal.com). The Exchange notes that not all components of the Disclosed Portfolio for the Fund may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. The Exchange also notes that all exchange-traded instruments, including ETFs, commodity-related pooled investment vehicles, futures, and options will trade on markets that are a member of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

Exchange is able to access, as needed, trade information for certain fixed income instruments reported to FINRA's Trade Reporting and Compliance Engine ("TRACE"). The Exchange can also access municipal bond trading activity for surveillance purposes in connection with trading in the Shares through the Electronic Municipal Market Access ("EMMA")<sup>40</sup> of the Municipal Securities Rulemaking Board ("MSRB"). The Exchange prohibits the distribution of material non-public information by its employees.

#### Information Circular

Prior to the commencement of trading, the Exchange will inform its members in an Information Circular of the special characteristics and risks associated with trading the Shares. Specifically, the Information Circular will discuss the following: (1) the procedures for purchases and redemptions of Shares in Creation Units (and that Shares are not individually redeemable); (2) BZX Rule 3.7, which imposes suitability obligations on Exchange members with respect to recommending transactions in the Shares to customers; (3) how information regarding the Intraday Indicative Value and the Disclosed Portfolio is disseminated; (4) the risks involved in trading the Shares during the Pre-Opening<sup>41</sup> and After Hours Trading Sessions<sup>42</sup> when an updated Intraday Indicative Value will not be calculated or publicly disseminated; (5) the requirement that members deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information.

---

<sup>40</sup> Information available from EMMA includes next-day information regarding municipal securities transactions and par amounts traded.

<sup>41</sup> The Pre-Opening Session is from 8:00 a.m. to 9:30 a.m. Eastern Time.

<sup>42</sup> The After Hours Trading Session is from 4:00 p.m. to 5:00 p.m. Eastern Time.

In addition, the Information Circular will advise members, prior to the commencement of trading, of the prospectus delivery requirements applicable to the Fund. Members purchasing Shares from the Fund for resale to investors will deliver a prospectus to such investors. The Information Circular will also discuss any exemptive, no-action, and interpretive relief granted by the Commission from any rules under the Act.

In addition, the Information Circular will reference that the Fund is subject to various fees and expenses described in the Registration Statement. The Information Circular will also disclose the trading hours of the Shares of the Fund and the applicable NAV Calculation Time for the Shares. The Information Circular will disclose that information about the Shares of the Fund will be publicly available on the Fund's website. In addition, the Information Circular will reference that the Trust is subject to various fees and expenses described in the Fund's Registration Statement.

## 2. Statutory Basis

The Exchange believes that the proposal is consistent with Section 6(b) of the Act<sup>43</sup> in general and Section 6(b)(5) of the Act<sup>44</sup> in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest.

---

<sup>43</sup> 15 U.S.C. 78f.

<sup>44</sup> 15 U.S.C. 78f(b)(5).

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in BZX Rule 14.11(i). The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Shares on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. If the investment adviser to the investment company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser to the investment company shall erect a “fire wall” between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such investment company portfolio. The Adviser is not a registered broker-dealer, but is affiliated with a broker-dealer and has implemented a “fire wall” with respect to such broker-dealer regarding access to information concerning the composition and/or changes to the Fund’s portfolio. In the event (a) the Adviser becomes registered as a broker-dealer or newly affiliated with a broker-dealer, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with a broker-dealer, it will implement a fire wall with respect to its relevant personnel or broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio. The Exchange may obtain information regarding trading in the Shares and the underlying Depositary Receipts, exchange traded shares of investment companies, U.S. equity securities, futures, and exchange listed options via the ISG, from other exchanges who are members or affiliates of the ISG, or with which the Exchange

has entered into a comprehensive surveillance sharing agreement.<sup>45</sup> In addition, the Exchange is able to access, as needed, trade information for certain fixed income instruments reported to FINRA's TRACE.

The Fund's investments will be consistent with the Fund's investment objective and the Fund does not have an investment objective seeking to return two times or three times the Fund's benchmark, as stated above.

In addition to the holdings in Bonds and Non-Bonds described above as part of the Fund's principal investment strategy, the Fund may also, to a limited extent (under normal circumstances, less than 20% of the Fund's Assets) and as further described above, engage in transactions in the following:

Auction rate securities, Brady Bonds, commodity-related pooled investment vehicles, commodity-linked derivatives, U.S. equity securities, exchange-traded common stocks of foreign corporations, exchange-traded warrants of foreign corporations, exchange-traded rights in foreign corporations, ADRs, GDRs, EDRS, convertible securities, and MLPs.

The Fund may hold up to an aggregate amount of 15% of its Assets in illiquid assets (calculated at the time of investment), including Restricted Securities deemed

---

<sup>45</sup> For a list of the current members and affiliate members of ISG, see [www.isgportal.com](http://www.isgportal.com). The Exchange notes that not all components of the Disclosed Portfolio for the Fund may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. The Exchange also notes that all of the ETFs, commodity-related pooled investment vehicles, futures, and options will trade on markets that are a member of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

illiquid by the Adviser<sup>46</sup> under the 1940 Act.<sup>47</sup> The Fund will monitor its portfolio liquidity on an ongoing basis to determine whether, in light of current circumstances, an adequate level of liquidity is being maintained, and will consider taking appropriate steps in order to maintain adequate liquidity if, through a change in values, Assets, or other circumstances, more than 15% of the Fund's Assets are held in illiquid assets. A security is considered illiquid if it cannot be "sold or disposed of in the ordinary course of business within 7 days at approximately the value" at which it is being carried by the fund.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest in that the Exchange will obtain a representation from the issuer of the Shares that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market

---

<sup>46</sup> In reaching liquidity decisions, the Adviser may consider factors including: the frequency of trades and quotes for the security; the number of dealers wishing to purchase or sell the security and the number of other potential purchasers; dealer undertakings to make a market in the security; the nature of the security and the nature of the marketplace in which it trades (e.g., the time needed to dispose of the security, the method of soliciting offers, and the mechanics of transfer).

<sup>47</sup> The Commission has stated that long-standing Commission guidelines have required open-end funds to hold no more than 15% of their net assets in illiquid securities and other illiquid assets. See Investment Company Act Release No. 28193 (March 11, 2008), 73 FR 14618 (March 18, 2008), footnote 34. See also, Investment Company Act Release No. 5847 (October 21, 1969), 35 FR 19989 (December 31, 1970) (Statement Regarding "Restricted Securities"); Investment Company Act Release No. 18612 (March 12, 1992), 57 FR 9828 (March 20, 1992) (Revisions of Guidelines to Form N-1A). A fund's portfolio security is illiquid if it cannot be disposed of in the ordinary course of business within seven days at approximately the value ascribed to it by the fund. See Investment Company Act Release No. 14983 (March 12, 1986), 51 FR 9773 (March 21, 1986) (adopting amendments to Rule 2a-7 under the 1940 Act); Investment Company Act Release No. 17452 (April 23, 1990), 55 FR 17933 (April 30, 1990) (adopting Rule 144A under the Securities Act of 1933).

participants at the same time. In addition, a large amount of information is publicly available regarding the Fund and the Shares, thereby promoting market transparency. Moreover, the Intraday Indicative Value will be disseminated by one or more major market data vendors at least every 15 seconds during Regular Trading Hours. On each business day, before commencement of trading in Shares during Regular Trading Hours, the Fund will disclose on its website the Disclosed Portfolio that will form the basis for the Fund's calculation of NAV at the end of the business day. Pricing information will be available on the Fund's website including: (1) the prior business day's reported NAV, the Bid/Ask Price of the Fund, and a calculation of the premium and discount of the Bid/Ask Price against the NAV; and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters. Additionally, information regarding market price and trading of the Shares will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services, and quotation and last sale information for the Shares will be available on the facilities of the CTA. The website for the Fund will include a form of the prospectus for the Fund and additional data relating to NAV and other applicable quantitative information. Trading in Shares of the Fund will be halted under the conditions specified in BZX Rule 11.18. Trading may also be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable. Finally, trading in the Shares will be subject to BZX Rule 14.11(i)(4)(B)(iv), which sets forth circumstances under which Shares of the Fund may be halted. In addition, the Exchange is able to access, as needed, trade information for certain fixed income

instruments reported to FINRA's TRACE. As noted above, investors will also have ready access to information regarding the Fund's holdings, the Intraday Indicative Value, the Disclosed Portfolio, and quotation and last sale information for the Shares.

Intraday, closing, and settlement prices of common stocks and other exchange-listed instruments (including futures, options, Depositary Receipts, preferred securities, convertible securities, warrants, rights, MLPs, commodity-related pooled investment vehicles, and ETFs) will be readily available from the exchanges trading such securities as well as automated quotation systems, published or other public sources, or online information services such as Bloomberg or Reuters. In addition, price information for U.S. exchange-traded options will be available from the Options Price Reporting Authority. Quotation information from brokers and dealers or pricing services will be available for Fixed Income Securities and U.S. government obligations. Quotation and price information for convertible bonds, ARMs, ABS, bank obligations, custodial receipts, corporate debt securities, inflation-linked debt securities, inverse floating rate instruments, mortgage dollar rolls, municipal securities, obligations of supranational agencies, private placements, restricted securities, and other unregistered securities, securities issued in connection with reorganizations and corporate restructurings, short-term funding agreements, sovereign obligations, stripped mortgage-backed securities, structured investments, treasury receipts, trust preferreds, U.S. Government Agency Securities, U.S. Government obligations, zero-coupon, pay-in-kind, and deferred payment securities, commercial paper, auction rate securities, when-issued securities, delayed delivery securities, and forward commitments, loan assignments and participations, Brady Bonds, mortgages, common stock warrants and rights, CDS, and

foreign currency transactions will be available via major market data vendors or broker dealers that make markets in such instruments.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange has in place surveillance procedures relating to trading in the Shares and may obtain information via ISG from other exchanges that are members of ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement. In addition, as noted above, investors will have ready access to information regarding the Fund's holdings, the Intraday Indicative Value, the Disclosed Portfolio, and quotation and last sale information for the Shares.

For the above reasons, the Exchange believes that the proposed rule change is consistent with the requirements of Section 6(b)(5) of the Act.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change will facilitate the listing and trading of an additional actively-managed exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the Federal Register or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission will: (a) by order approve or disapprove such proposed rule change, or (b) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposal is consistent with the Act.

Comments may be submitted by any of the following methods:

Electronic Comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to [rule-comments@sec.gov](mailto:rule-comments@sec.gov). Please include File No. SR-BatsBZX-2016-35 on the subject line.

Paper Comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File No. SR-BatsBZX-2016-35. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission

will post all comments on the Commission's Internet website

(<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 am and 3:00 pm. Copies of such filing will also be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File No. SR-BatsBZX-2016-35 and should be submitted on or before [\_\_\_\_\_21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.<sup>48</sup>

Robert W. Errett  
Deputy Secretary
