Partial Amendment Add Remove View	If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² Bats EDGA Exchange, Inc. (“EDGA” or the “Exchange”) is filing with the Securities and Exchange Commission (“Commission”) a proposal to amend Rule 13.8 to adopt a new market data product known as EDGA Summary Depth. The Exchange has designated this proposal as non-controversial and provided the Commission with the notice required by Rule 19b-4(f)(6)(iii) under the Act.³

The proposed amendment to the Exchange’s rules is attached as Exhibit 5. Material proposed to be added is underlined. Material proposed to be deleted is enclosed in brackets.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The Exchange submits the proposed rule change pursuant to authority delegated by the Board of Directors of the Exchange on February 11, 2014. Exchange staff will advise the Exchange’s Board of Directors of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

The persons on the Exchange staff prepared to respond to questions and comments on the proposed rule change are:

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.

(a) Purpose

The Exchange proposes to amend Rule 13.8 to adopt a new market data product known as EDGA Summary Depth. EDGA Summary Depth would be a data feed that offers aggregated two-sided quotations for all displayed orders entered into the System⁴ for up to five (5) price levels for securities traded on the Exchange and for which the Exchange reports quotes under the Consolidated Tape Association ("CTA") Plan or the Nasdaq/UTP Plan. EDGA Summary Depth also contains the individual last sale information, Market Status, Trading Status, and Trade Break messages. The individual last sale information will include the price, size, and time of execution. The last sale message will also include the cumulative number of shares executed on the Exchange for that trading day. The Exchange will disseminate the aggregate Best Bid and Offer ("BBO") and last sale information through EDGA Summary Depth no earlier than it provides its BBO and last sale information to the processors under the CTA Plan or the Nasdaq/UTP Plan.

The Market Status message will reflect a change in the status of the Exchange. For example, the Market Status message would indicate whether the Exchange is experiencing a systems issue or disruption resulting in quotation or trade information not

⁴ "System" is defined as the "the electronic communications and trading facility designated by the Board through which securities orders of Users Are consolidated for ranking, execution and, when applicable, routing away." See Exchange Rule 1.5(aa).

currently being disseminated as part of the aggregated BBO. The Market Status message will also indicate when Exchange has resolved a systems issue or disruption and is properly reflecting the status of the aggregated BBO. The Trade Break message will indicate when an execution is broken in accordance with Exchange rules.⁵ The Trading Status message will indicate the current trading status of a security on the Exchange. For example, a Trading Status message will be sent when a short sale price restriction is in effect pursuant to Rule 201 of Regulation SHO (“Short Sale Circuit Breaker”),⁶ or when the security is subject to a trading halt, suspension or pause declared by the listing market. A Trading Status message will be sent whenever a security’s trading status changes.

The Exchange intends to offer EDGA Summary Depth as of January 3, 2017. Prior to January 3, 2017, the Exchange will file a separate rule change with the Commission proposing fees to be charged for EDGA Summary Depth.⁷

(b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁸ in general, and furthers the objectives of Section 6(b)(5) of the Act,⁹ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices,

⁵ See, e.g., Exchange Rule 11.15, Clearly Erroneous Executions.

⁶ 17 CFR 242.200(g); 17 CFR 242.201

⁷ The Exchange understands that its affiliated exchanges intend to file identical proposed rule changes to adopt rules and fees for the Book Viewer data feed with the Commission. The Exchange’s affiliates are Bats EDGX Exchange, Inc., (“EDGX”), Bats BYX Exchange, Inc. (“BYX”), and Bats BZX Exchange, Inc. (“BZX”) (“collectively, the “Bats Exchanges”).

to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and to protect investors and the public interest, and that it is not designed to permit unfair discrimination among customers, brokers, or dealers. This proposal is in keeping with those principles in that it promotes increased transparency through the dissemination of EDGA Summary Depth. The Exchange also believes this proposal is consistent with Section 6(b)(5) of the Act because it protects investors and the public interest and promotes just and equitable principles of trade by providing investors with an alternative for receiving market data as requested by market data vendors and purchasers that expressed an interest in exchange-only data for instances where consolidated data is no longer required to be purchased and displayed. The proposed rule change would benefit investors by facilitating their prompt access to real-time depth-of-book information contained in EDGA Summary Depth.

The Exchange also believes that the proposed rule change is consistent with Section 11(A) of the Act¹⁰ in that it supports (i) fair competition among brokers and dealers, among exchange markets, and between exchange markets and markets other than exchange markets and (ii) the availability of information with respect to quotations for and transactions in securities to brokers, dealers, and investors. Furthermore, the proposed rule change is consistent with Rule 603 of Regulation NMS,¹¹ which provides that any national securities exchange that distributes information with respect to quotations for or transactions in an NMS stock do so on terms that are not unreasonably

¹⁰ 15 U.S.C. 78k-1.

¹¹ See 17 CFR 242.603.

discriminatory. EDGA Summary Depth would be accessed and subscribed to on a voluntary basis, in that neither the Exchange nor market data distributors are required by any rule or regulation to make this data available. Accordingly, distributors and subscribers can discontinue their use at any time and for any reason.

In adopting Regulation NMS, the Commission granted self-regulatory organizations and broker-dealers increased authority and flexibility to offer new and unique market data to consumers of such data. It was believed that this authority would expand the amount of data available to users and consumers of such data and also spur innovation and competition for the provision of market data. The Exchange believes that the data products proposed herein are precisely the sort of market data products that the Commission envisioned when it adopted Regulation NMS. The Commission concluded that Regulation NMS – by lessening regulation of the market in proprietary data – would itself further the Act’s goals of facilitating efficiency and competition:

[E]fficiency is promoted when broker-dealers who do not need the data beyond the prices, sizes, market center identifications of the NBBO and consolidated last sale information are not required to receive (and pay for) such data. The Commission also believes that efficiency is promoted when broker-dealers may choose to receive (and pay for) additional market data based on their own internal analysis of the need for such data.¹²

By removing “unnecessary regulatory restrictions” on the ability of exchanges to sell their own data, Regulation NMS advanced the goals of the Act and the principles reflected in its legislative history.

In addition, EDGA Summary Depth removes impediments to and perfects the mechanism of a free and open market and a national market system by providing

investors with alternative market data and competing with similar market data products currently offered by the New York Stock Exchange, Inc. (“NYSE”) and the Nasdaq Stock Market LLC (“Nasdaq”).¹³ The provision of new options for investors to receive market data was a primary goal of the market data amendments adopted by Regulation NMS.¹⁴

4. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.¹⁵ The Exchange believes that the proposal will promote competition by

¹³ See Nasdaq Rule 7023(a)(1)(C) (describing Nasdaq TotalView as a depth-of-book data feed that includes all orders and quotes from all Nasdaq members displayed in the Nasdaq Market Center as well as the aggregate size of such orders and quotes at each price level in the execution functionality of the Nasdaq Market Center). See NYSE OpenBook available at <http://www.nyxdata.com/openbook> (last visited July 5, 2016) (providing real-time view of the NYSE limit order book including the aggregated size at each price level). ¹⁴ See Regulation NMS Adopting Release, supra note 12.

¹⁵ The Bats One Feed is a data feed that disseminates, on a real-time basis, the aggregate BBO of all displayed orders for securities traded on each of the Bats Exchanges and for the Bats Exchanges report quotes under the CTA Plan or the Nasdaq/UTP Plan. The Bats One Feed also contains the individual last sale information for the Bats Exchanges (collectively with the aggregate BBO, the “Bats One Summary Feed”). In addition, the Bats One Feed contains optional functionality which enables recipients to receive aggregated two-sided quotations from the Bats Exchanges for up to five (5) price levels (“Bats One Premium Feed”). See Exchange Rule 13.8(b). See also Securities Exchange Act Release No. 73918 (December 23, 2014), 79 FR 78920 (December 31, 2014) (File Nos. SR-EDGX-2014-25; SR-EDGA-2014-25; SR-BATS-2014-055; SR-BYX-2014-030) (Notice of Amendments No. 2 and Order Granting Accelerated Approval to Proposed Rule Changes, as Modified by Amendments Nos. 1 and 2, to Establish a New Market Data Product called the Bats One Feed) (“Bats One Approval Order”). The Exchange uses the following data feeds to create the Bats One Feed,

enabling the Exchange to offer a market data product similar to that currently offered by the NYSE and Nasdaq.¹⁶ Thus, the Exchange believes this proposed rule change is necessary to permit fair competition among national securities exchanges.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The Exchange has designated this rule filing as non-controversial under Section 19(b)(3)(A) of the Act¹⁷ and paragraph (f)(6) of Rule 19b-4 thereunder.¹⁸ The Exchange asserts that the proposed rule change: (1) will not significantly affect the protection of investors or the public interest, (2) will not impose any significant burden on competition,

each of which are available to vendors: EDGX Depth, EDGA Depth, BYX PITCH Feed, and the BZX PITCH Feed. The Exchange notes that a vendor could utilize the proposed EDGA Summary Depth Feed, as well as the summarized depth feeds to be proposed by BYX, BZX, and EDGX to create a competing product to the Bats One Feed. Supra note 7. The Exchange represents that a competing vendor could obtain these data feeds from each Bats Exchange on the same latency basis as the system that performs the aggregation and consolidation of the Bats One Feed. See Bats One Approval Order. While the proposed EDGA Summary Depth Feed does not contain the symbol summary or consolidated volume data included in the Bats One Feed, a vendor could include this information in a competing product as this information is easily derivable from the proposed feeds or can be obtained from the securities information processors on the same terms as the Exchange.

¹⁶ See supra note 13.

and (3) and will not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate. In addition, the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing, or such shorter time as designated by the Commission.¹⁹

The Exchange believes that the proposed rule change meets the criteria of subparagraph (f)(6) of Rule 19b-4²⁰ because the proposed rule change would not significantly affect investors or the public interest. The proposed rule change would benefit investors and is in the public interest because it facilitates investors prompt access to real-time depth-of-book information contained in EDGA Summary Depth. The proposed rule change also does not impose any significant burden on competition for the reasons stated under Section 4 above. The proposed market data product is similar to data products currently offered by the NYSE and Nasdaq,²¹ as well as the existing EDGA Book Viewer data feed,²² all of which have been subject to public notice and comments. Therefore, the proposed rule change presents no new novel issues that have not been considered by the Commission. Based on the foregoing, the Exchange has designated this rule filing as non-controversial under Section 19(b)(3)(A) of the Act²³ and paragraph

(f)(6) of Rule 19b-4 thereunder.²⁴

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

SECURITIES AND EXCHANGE COMMISSION

(Release No. 34-_____; File No. SR-BatsEDGA-2016-19)

Self-Regulatory Organizations; Bats EDGA Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to Amend Rule 13.8, EDGA Book Feeds, to Adopt a New Market Data Product known as EDGA Summary Depth

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on _____, Bats EDGA Exchange, Inc. (the “Exchange” or “EDGA”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange has designated this proposal as a “non-controversial” proposed rule change pursuant to Section 19(b)(3)(A) of the Act³ and Rule 19b-4(f)(6)(iii) thereunder,⁴ which renders it effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange filed a proposal to amend Rule 13.8 to adopt a new market data product known as EDGA Summary Depth.

The text of the proposed rule change is available at the Exchange’s website at www.batstrading.com, at the principal office of the Exchange, and at the Commission’s

Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend Rule 13.8 to adopt a new market data product known as EDGA Summary Depth. EDGA Summary Depth would be a data feed that offers aggregated two-sided quotations for all displayed orders entered into the System⁵ for up to five (5) price levels for securities traded on the Exchange and for which the Exchange reports quotes under the Consolidated Tape Association ("CTA") Plan or the Nasdaq/UTP Plan. EDGA Summary Depth also contains the individual last sale information, Market Status, Trading Status, and Trade Break messages. The individual last sale information will include the price, size, and time of execution. The last sale message will also include the cumulative number of shares executed on the Exchange for that trading day. The Exchange will disseminate the aggregate Best Bid and Offer ("BBO") and last sale information through EDGA Summary Depth no earlier than it

⁵ "System" is defined as the "the electronic communications and trading facility designated by the Board through which securities orders of Users Are consolidated for ranking, execution and, when applicable, routing away." See Exchange Rule 1.5(aa).

provides its BBO and last sale information to the processors under the CTA Plan or the Nasdaq/UTP Plan.

The Market Status message will reflect a change in the status of the Exchange. For example, the Market Status message would indicate whether the Exchange is experiencing a systems issue or disruption resulting in quotation or trade information not currently being disseminated as part of the aggregated BBO. The Market Status message will also indicate when Exchange has resolved a systems issue or disruption and is properly reflecting the status of the aggregated BBO. The Trade Break message will indicate when an execution is broken in accordance with Exchange rules.⁶ The Trading Status message will indicate the current trading status of a security on the Exchange. For example, a Trading Status message will be sent when a short sale price restriction is in effect pursuant to Rule 201 of Regulation SHO (“Short Sale Circuit Breaker”),⁷ or when the security is subject to a trading halt, suspension or pause declared by the listing market. A Trading Status message will be sent whenever a security’s trading status changes.

The Exchange intends to offer EDGA Summary Depth as of January 3, 2017. Prior to January 3, 2017, the Exchange will file a separate rule change with the Commission proposing fees to be charged for EDGA Summary Depth.⁸

⁶ See, e.g., Exchange Rule 11.15, Clearly Erroneous Executions.

⁷ 17 CFR 242.200(g); 17 CFR 242.201

⁸ The Exchange understands that its affiliated exchanges intend to file identical proposed rule changes to adopt rules and fees for the Book Viewer data feed with the Commission. The Exchange’s affiliates are Bats EDGX Exchange, Inc., (“EDGX”), Bats BYX Exchange, Inc. (“BYX”), and Bats BZX Exchange, Inc. (“BZX”) (“collectively, the “Bats Exchanges”).

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁹ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹⁰ in particular, in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and to protect investors and the public interest, and that it is not designed to permit unfair discrimination among customers, brokers, or dealers. This proposal is in keeping with those principles in that it promotes increased transparency through the dissemination of EDGA Summary Depth. The Exchange also believes this proposal is consistent with Section 6(b)(5) of the Act because it protects investors and the public interest and promotes just and equitable principles of trade by providing investors with an alternative for receiving market data as requested by market data vendors and purchasers that expressed an interest in exchange-only data for instances where consolidated data is no longer required to be purchased and displayed. The proposed rule change would benefit investors by facilitating their prompt access to real-time depth-of-book information contained in EDGA Summary Depth.

The Exchange also believes that the proposed rule change is consistent with Section 11(A) of the Act¹¹ in that it supports (i) fair competition among brokers and

dealers, among exchange markets, and between exchange markets and markets other than exchange markets and (ii) the availability of information with respect to quotations for and transactions in securities to brokers, dealers, and investors. Furthermore, the proposed rule change is consistent with Rule 603 of Regulation NMS,¹² which provides that any national securities exchange that distributes information with respect to quotations for or transactions in an NMS stock do so on terms that are not unreasonably discriminatory. EDGA Summary Depth would be accessed and subscribed to on a voluntary basis, in that neither the Exchange nor market data distributors are required by any rule or regulation to make this data available. Accordingly, distributors and subscribers can discontinue their use at any time and for any reason.

In adopting Regulation NMS, the Commission granted self-regulatory organizations and broker-dealers increased authority and flexibility to offer new and unique market data to consumers of such data. It was believed that this authority would expand the amount of data available to users and consumers of such data and also spur innovation and competition for the provision of market data. market data based on their own internal analysis of the need for such data.¹³

By removing “unnecessary regulatory restrictions” on the ability of exchanges to sell their own data, Regulation NMS advanced the goals of the Act and the principles reflected in its legislative history.

See Securities Exchange Act Release Nos. 46843 (November 18, 2002), 67 FR 70471 (November 22, 2002) (SR-NASD-2002-33) (order approving fees for Nasdaq TotalView); and 45138 (December 7, 2001), 66 FR 64895 (December 14, 2001) (SR-NYSE-2001-42) (order approving fees for NYSE OpenBook).

of the Act.¹⁶ The Exchange believes that the proposal will promote competition by enabling the Exchange to offer a market data product similar to that currently offered by the NYSE and Nasdaq.¹⁷ Thus, the Exchange believes this proposed rule change is necessary to permit fair competition among national securities exchanges.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

¹⁶ The Bats One Feed is a data feed that disseminates, on a real-time basis, the aggregate BBO of all displayed orders for securities traded on each of the Bats Exchanges and for the Bats Exchanges report quotes under the CTA Plan or the Nasdaq/UTP Plan. The Bats One Feed also contains the individual last sale information for the Bats Exchanges (collectively with the aggregate BBO, the "Bats One Summary Feed"). In addition, the Bats One Feed contains optional functionality which enables recipients to receive aggregated two-sided quotations from the Bats Exchanges for up to five (5) price levels ("Bats One Premium Feed"). See Exchange Rule 13.8(b). See also Securities Exchange Act Release No. 73918 (December 23, 2014), 79 FR 78920 (December 31, 2014) (File Nos. SR-EDGX-2014-25; SR-EDGA-2014-25; SR-BATS-2014-055; SR-BYX-2014-030) (Notice of Amendments No. 2 and Order Granting Accelerated Approval to Proposed Rule Changes, as Modified by Amendments Nos. 1 and 2, to Establish a New Market Data Product called the Bats One Feed) ("Bats One Approval Order"). The Exchange uses the following data feeds to create the Bats One Feed, each of which are available to vendors: EDGX Depth, EDGA Depth, BYX PITCH Feed, and the BZX PITCH Feed. The Exchange notes that a vendor could utilize the proposed EDGA Summary Depth Feed, as well as the summarized depth feeds to be proposed by BYX, BZX, and EDGX to create a competing product to the Bats One Feed. Supra note 8. The Exchange represents that a competing vendor could obtain these data feeds from each Bats Exchange on the same latency basis as the system that performs the aggregation and consolidation of the Bats One Feed. See Bats One Approval Order. While the proposed EDGA Summary Depth Feed does not contain the symbol summary or consolidated volume data included in the Bats One Feed, a vendor could include this information in a competing product as this information is easily derivable from the proposed feeds or can be obtained from the securities information processors on the same terms as the Exchange.

¹⁷ See supra note 14.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (A) significantly affect the protection of investors or the public interest; (B) impose any significant burden on competition; and (C) by its terms, become operative for 30 days from the date on which it was filed or such shorter time as the Commission may designate it has become effective pursuant to Section 19(b)(3)(A) of the Act¹⁸ and paragraph (f)(6) of Rule 19b-4 thereunder,¹⁹ the Exchange has designated this rule filing as non-controversial. The Exchange has given the Commission written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (1) necessary or appropriate in the public interest; (2) for the protection of investors; or (3) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposal is consistent with the Act.
