**Partial Amendment No. 5 to SR-BatsBZX-2017-14**

Bats BZX Exchange, Inc. (the “Exchange” or “BZX”) is filing this Partial Amendment No. 5 to SR-BatsBZX-2017-14, which was originally submitted on February 17, 2017 and subsequently amended and replaced in its entirety by Amendment No. 2, which was submitted on March 30, 2017, which was subsequently amended and replaced in its entirety by Amendment No. 3 (the “Proposal”), which was submitted on April 7, 2017. Pursuant to the Proposal, the Exchange proposed a rule change to list and trade shares of the Amplify YieldShares Oil Hedged MLP Fund (the “Fund”), a series of the Amplify ETF Trust (the “Trust” or “Issuer”), under Rule 14.11(i), Managed Fund Shares. This Partial Amendment No. 5 proposes to add clarifying information related to details about the Fund. The Exchange believes that these proposed changes clarify and add additional detail to the Proposal, as further described below, and are consistent with the Securities Exchange Act of 1934 in that they would further clarify and add additional detail to the Proposal.

The Exchange is proposing to add the following sentences between the sentence that ends “to collateralize its derivatives positions” and the sentence that begins “The Exchange represents that, except for the 30% limitation” in both the Form 19b-4 Information and the Exhibit 1 on pages 7 and 19, respectively:

As noted above, the Fund’s investment in MLPs will constitute at least 80% of the Fund’s total assets under Normal Market Conditions. The Fund may hold up to 20% of its total assets in fixed income securities, cash, and the cash value of futures positions under Normal Market Conditions. The combination of MLPs,

fixed income securities, cash, and the cash value of futures positions<sup>1</sup> will constitute the entirety of the Fund's holdings and the cash value of these holdings will be used to form the basis for these calculations. The Exchange notes that this is different than the calculation used to measure the Fund's holdings in WTI Crude Oil Futures as it relates to the Fund holding up to 50% of the weight of its portfolio, which, as noted above, includes gross notional exposures gained through the WTI Crude Oil Futures in both the numerator and denominator, which is consistent with the derivatives exposure calculation under Rule 14.11(i)(4)(C)(iv).

The Exchange is proposing to replace the language in footnote 15 in both the Form 19b-4 Information and the Exhibit 1 on pages 10 and 21, respectively, which currently states:

As of 1/31/2017 the average daily contract volume over the last year was 558,353, 307,289 and 110,208 respectively for the front, second and third month contracts. For the third month contract, at today's price levels, that equates to an average daily traded notional of approximately \$5.9 billion.

The Exchange proposes to replace that language with the following:

As of 1/31/2017, the average daily contract volume combined on NYMEX and ICE over the last year was 558,353, 307,289, and 110,208 respectively for the front, second, and third month WTI Crude Oil Futures contracts. At today's price levels, that equates to an average daily traded notional of approximately \$29.4

---

<sup>1</sup> The cash value of futures positions is based on the value of the Fund's daily margin account with the applicable futures exchange(s).

billion, \$16.2 billion, and \$5.8 billion for the first, second, and third month contracts, respectively.

As noted above, the Exchange believes that these proposed changes add clarifying information related to details about the Fund and are consistent with the Securities Exchange Act of 1934 in that they would clarify and add additional detail to the Proposal and eliminate potential confusion.
