Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

(a) Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act” or “Exchange Act”),¹ and Rule 19b-4 thereunder,² Cboe BYX Exchange, Inc. (“BYX” or the “Exchange”) proposes to amend its fees and rebates applicable to Members³ and non-Members of the Exchange pursuant to BYX Rule 15.1(a) and (c) to modify its fees for physical ports. The text of the proposed rule change is attached as Exhibit 5.

(b) Inapplicable.

(a) Purpose

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ The term “Member” is defined as “any registered broker or dealer that has been admitted to membership in the Exchange.” See Exchange Rule 1.5(n).

The Exchange proposes to implement proposed changes to its fee schedule relating to physical connectivity fees, effective June 1, 2018. By way of background, a physical port is utilized by a Member or non-Member to connect to the Exchange at the data centers where the Exchange's servers are located. The Exchange currently maintains a presence in two third-party data centers: (i) the primary data center where the Exchange's business is primarily conducted on a daily basis, and (ii) a secondary data center, which is predominantly maintained for business continuity purposes. The Exchange currently assesses the following physical connectivity fees for Members and non-Members on a monthly basis: \$2,000 per physical port for a 1 gigabyte circuit and \$7,000 per physical port for a 10 gigabyte circuit. The Exchange proposes to increase the fees per physical ports from (i) \$2,000 to \$2,500 per month, per port for a 1 gigabyte circuit and (ii) \$7,000 to \$7,500 per month, per port for a 10 gigabyte circuit. The Exchange notes the proposed fees enable it to continue to maintain and improve its market technology and services and also notes that the proposed fee changes are in line with the amounts assessed by other exchanges for similar connections.⁴

The Exchange also proposes to adopt separate physical port fees for connection to its secondary data center, which is predominantly maintained for business continuity purposes ("Disaster Recovery Systems"). Particularly, the Disaster Recovery Systems can be accessed via physical ports in Chicago. Members and Non-Members may maintain physical ports in order to be able to connect to the Disaster Recovery Systems in case of a disaster. Currently, physical ports that are used to connect to the Disaster

Recovery Systems are assessed the same fees as physical ports used to connect to the Exchange's trading system. The Exchange proposes to establish separate pricing for physical ports that are used to connect to the Disaster Recovery Systems ("Disaster Recovery Physical Ports"). Specifically, the Exchange proposes to assess a monthly fee of \$2,000 per 1 gigabyte Disaster Recovery Physical Port and a monthly fee of \$6,000 per 10 gigabyte Disaster Recovery Physical Port. This amount will continue to enable the Exchange to maintain the Disaster Recovery Physical Ports in case they become necessary. The Exchange notes that the Disaster Recovery Physical Ports may also be used to access the Disaster Recovery Systems for the following affiliate exchanges Cboe BZX Exchange, Inc., Cboe EDGX Exchange, Inc., Cboe EDGA Exchange, Inc., Cboe C2 Exchange, Inc., Cboe Exchange, Inc. and Cboe Futures Exchange, LLC as well. The Exchange proposes to provide that market participants will only be assessed a single fee for any Disaster Recovery Physical Port that also accesses the Disaster Recover Systems for these exchanges.⁵

(b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,⁶ in general, and furthers the objectives of Section 6(b)(4),⁷ in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its

⁷ 15 U.S.C. 78f(b)(4).

facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange.

The Exchange believes that the proposed changes are equitable and non-discriminatory in that it applies uniformly to all Members. Members and non-Members will continue to choose whether they want more than one physical port and/or Disaster Recovery Physical Port and choose the method of connectivity based on their specific needs. All Members that voluntarily select various service options will be charged the same amount for the same services.

The Exchange believes that the proposal represents an equitable allocation of reasonable dues, fees, and other charges as its fees for physical connectivity are reasonably constrained by competitive alternatives. If a particular exchange charges excessive fees for connectivity, affected Members and non-Members may opt to terminate their connectivity arrangements with that exchange, and adopt a possible range of alternative strategies, including routing to the applicable exchange through another participant or market center or taking that exchange's data indirectly. Accordingly, if the Exchange charges excessive fees, it would stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity.

Furthermore, the proposed rule change is also an equitable allocation of reasonable dues, fees, and other charges as the Exchange believes that the proposed increased physical port fees will enable it to cover its infrastructure costs associated with establishing physical ports to connect to the Exchange's systems. The additional revenue from the increased fees will also enable the Exchange to continue to maintain and improve its market technology and services. Similarly, the Exchange believes the proposed fees for the Disaster Recovery Physical Ports will allow the Exchange to maintain the Disaster Recovery Physical Ports in case they become necessary.

Lastly, the Exchange believes the fees remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to Members.⁸

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. As discussed above, the Exchange believes that fees for connectivity are constrained by the robust competition for order flow among exchanges and non-exchange markets. The Exchange does not believe that the proposed changes represent a significant departure from previous pricing offered by the Exchange or pricing offered by the Exchange's competitors. Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Further, excessive fees

⁸ See e.g., NYSE Arca Equities Fees and Charges, NYSE Arca Marketplace: Other Fees and Charges, Connectivity Fees. See also, Nasdaq Phlx LLC Pricing Schedule, Section XI, Direct Connectivity to Phlx.

for connectivity would serve to impair an exchange's ability to compete for order flow rather than burdening competition.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from Members or other interested parties.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant parts of such statements.

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to implement proposed changes to its fee schedule relating to physical connectivity fees, effective June 1, 2018. By way of background, a physical port is utilized by a Member or non-Member to connect to the Exchange at the data centers where the Exchange's servers are located. The Exchange currently maintains a presence in two third-party data centers: (i) the primary data center where the Exchange's business is primarily conducted on a daily basis, and (ii) a secondary data center, which is predominantly maintained for business continuity purposes. The Exchange currently assesses the following physical connectivity fees for Members and non-Members on a monthly basis: \$2,000 per physical port for a 1 gigabyte circuit and \$7,000 per physical port for a 10 gigabyte circuit. The Exchange proposes to increase the

fees per physical ports from (i) \$2,000 to \$2,500 per month, per port for a 1 gigabyte circuit and (ii) \$7,000 to \$7,500 per month, per port for a 10 gigabyte circuit. The Exchange notes the proposed fees enable it to continue to maintain and improve its market technology and services and also notes that the proposed fee changes are in line with the amounts assessed by other exchanges for similar connections.⁶

The Exchange also proposes to adopt separate physical port fees for connection to its secondary data center, which is predominantly maintained for business continuity purposes (“Disaster Recovery Systems”). Particularly, the Disaster Recovery Systems can be accessed via physical ports in Chicago. Members and Non-Members may maintain physical ports in order to be able to connect to the Disaster Recovery Systems in case of a disaster. Currently, physical ports that are used to connect to the Disaster Recovery Systems are assessed the same fees as physical ports used to connect to the Exchange’s trading system. The Exchange proposes to establish separate pricing for physical ports that are used to connect to the Disaster Recovery Systems (“Disaster Recovery Physical Ports”). Specifically, the Exchange proposes to assess a monthly fee of \$2,000 per 1 gigabyte Disaster Recovery Physical Port and a monthly fee of \$6,000 per 10 gigabyte Disaster Recovery Physical Port. This amount will continue to enable the Exchange to maintain the Disaster Recovery Physical Ports in case they become necessary. The Exchange notes that the Disaster Recovery Physical Ports may also be used to access the Disaster Recovery Systems for the following affiliate exchanges Cboe BZX Exchange, Inc., Cboe EDGX Exchange, Inc., Cboe EDGA Exchange, Inc., Cboe C2

Exchange, Inc., Cboe Exchange, Inc. and Cboe Futures Exchange, LLC as well. The Exchange proposes to provide that market participants will only be assessed a single fee for any Disaster Recovery Physical Port that also accesses the Disaster Recover Systems for these exchanges.⁷

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the objectives of Section 6 of the Act,⁸ in general, and furthers the objectives of Section 6(b)(4),⁹ in particular, as it is designed to provide for the equitable allocation of reasonable dues, fees and other charges among its Members and other persons using its facilities. The Exchange also notes that it operates in a highly-competitive market in which market participants can readily direct order flow to competing venues if they deem fee levels at a particular venue to be excessive. The proposed rule change reflects a competitive pricing structure designed to incent market participants to direct their order flow to the Exchange.

The Exchange believes that the proposed changes are equitable and non-discriminatory in that it applies uniformly to all Members. Members and non-Members will continue to choose whether they want more than one physical port and/or Disaster Recovery Physical Port and choose the method of connectivity based on their specific needs. All Members that voluntarily select various service options will be charged the

same amount for the same services.

The Exchange believes that the proposal represents an equitable allocation of reasonable dues, fees, and other charges as its fees for physical connectivity are reasonably constrained by competitive alternatives. If a particular exchange charges excessive fees for connectivity, affected Members and non-Members may opt to terminate their connectivity arrangements with that exchange, and adopt a possible range of alternative strategies, including routing to the applicable exchange through another participant or market center or taking that exchange's data indirectly. Accordingly, if the Exchange charges excessive fees, it would stand to lose not only connectivity revenues but also revenues associated with the execution of orders routed to it, and, to the extent applicable, market data revenues. The Exchange believes that this competitive dynamic imposes powerful restraints on the ability of any exchange to charge unreasonable fees for connectivity.

Furthermore, the proposed rule change is also an equitable allocation of reasonable dues, fees, and other charges as the Exchange believes that the proposed increased physical port fees will enable it to cover its infrastructure costs associated with establishing physical ports to connect to the Exchange's systems. The additional revenue from the increased fees will also enable the Exchange to continue to maintain and improve its market technology and services. Similarly, the Exchange believes the proposed fees for the Disaster Recovery Physical Ports will allow the Exchange to maintain the Disaster Recovery Physical Ports in case they become necessary.

Lastly, the Exchange believes the fees remain competitive with those charged by other venues and therefore continue to be reasonable and equitably allocated to

Members.¹⁰

(B) Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. As discussed above, the Exchange believes that fees for connectivity are constrained by the robust competition for order flow among exchanges and non-exchange markets. The Exchange does not believe that the proposed changes represent a significant departure from previous pricing offered by the Exchange or pricing offered by the Exchange's competitors. Additionally, Members may opt to disfavor the Exchange's pricing if they believe that alternatives offer them better value. Further, excessive fees for connectivity would serve to impair an exchange's ability to compete for order flow rather than burdening competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has not solicited, and does not intend to solicit, comments on this proposed rule change. The Exchange has not received any unsolicited written comments from Members or other interested parties.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act¹¹ and paragraph (f) of Rule 19b-4 thereunder.¹² At any time within 60 days of
