If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> Cboe BZX Exchange, Inc. (the “Exchange” or “BZX”) is filing with the Securities and Exchange Commission (“Commission”) a proposed rule change to list and trade under BZX Rule 14.11(d)(2)(K)(i) shares of the iPath S&P MLP ETN (the “Notes”) issued by Barclays Bank PLC (“Barclays” or the “Issuer”), which are currently listed on NYSE Arca, Inc. (“Arca”). The Exchange has designated this proposal as non-controversial and provided the Commission with the notice required by Rule 19b-4(f)(6)(iii) under the Act.<sup>3</sup>

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

(a) The Exchange’s President (or designee) pursuant to delegated authority approved the proposed rule change on April 25, 2019.

(b) Please refer questions and comments on the proposed rule change to Patrick Sexton, Executive Vice President, General Counsel and Corporate Secretary, (312) 786-7467, or Kyle Murray, Assistant General Counsel, (913) 815-7121.

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change.

(a) Purpose

---

<sup>1</sup> 15 U.S.C. 78s(b)(1).

<sup>2</sup> 17 CFR 240.19b-4.

<sup>3</sup> 17 CFR 240.19b-4(f)(6)(iii).

The Exchange proposes to list and trade the Notes<sup>4</sup> on the Exchange. The Exchange is submitting this proposed rule change because the Index<sup>5</sup> does not currently meet all of the “generic” listing requirements of BZX 14.11(d)(2)(K)(i)(a)(2)<sup>6</sup> applicable to the listing of Equity Index-Linked Securities. The Index meets all requirements of Rule 14.11(d)(2)(K)(i) except for Rule 14.11(d)(2)(K)(i)(a)(2)(C)<sup>7</sup> and will continue to meet all other requirements of Rule 14.11(d)(2)(K)(i) on an ongoing basis. The Exchange notes that the Notes are currently listed on Arca and the Notes are already trading on the Exchange pursuant to unlisted trading privileges, as provided in Rule 14.11(j).

---

<sup>4</sup> The Exchange notes that the Notes are currently listed on Arca pursuant to that exchange’s generic listing standards.

<sup>5</sup> The index underlying the Notes is the S&P MLP Index (the “Index”). The Index is designed to provide exposure to leading partnerships that trade on major U.S. exchanges and are classified in the GICS Energy Sector and GICS Gas Utilities Industry according to the Global Industry Classification Standard. It includes both master limited partnerships (“MLPs”) and publicly traded limited liability companies which have a similar legal structure to MLPs and share the same tax benefits as MLPs (the “Index Constituents”). The Index is calculated, maintained and published by S&P Dow Jones Indices LLC (the “Index Provider”). The composition of the Index is rebalanced annually after the market close of the third Friday of October.

<sup>6</sup> The Commission approved BZX Rule 14.11(d) in Securities Exchange Act Release No. 65225 (August 30, 2011), 76 FR 55148 (September 6, 2011) (SR-BATS-2011-018).

<sup>7</sup> BZX Rule 14.11(d)(2)(K)(i)(a)(2)(C) provides that no underlying component security (excluding Derivative Securities Products and Linked Securities) will represent more than 25% of the weight of the index, and, to the extent applicable, the five highest weighted component securities in the index (excluding Derivative Securities Products and Linked Securities) do not in the aggregate account for more than 50% of the weight of the index (60% for an index consisting of fewer than 25 component securities). Specifically, the five highest weighted component securities in the Index, as defined below, represent 52% of the weight of the Index.

Specifically, the Exchange submits this rule filing because the Index exceeds the concentration limitation for initial listing on the Exchange included in Rule 14.11(d)(2)(K)(i)(a)(2)(C) by less than 3%. The Notes will meet the continued listing standards applicable to Equity Index-Linked Securities under Rule 14.11(d)(2)(K)(i)(b)(1)(A)<sup>8</sup> on a continuous basis, even though the Index does not currently meet the initial listing requirements under the Initial Listing Rule. Upon rebalance in October 2019, the Index will meet the concentration limitations applicable under both the Initial Listing Rule and the Continued Listing Rule and would be able to list on the Exchange pursuant to the generic listing standards applicable to Equity Index-Linked Securities at that time.<sup>9</sup> However, the five highest dollar weighted components in the Index currently represent 52.82% of the weight of the Index.

As such, the Exchange is submitting this proposal in order to allow the Notes to list and trade on the Exchange pursuant to Rule 14.11(d)(2)(K)(i) in a manner identical to the way that the Notes are currently listed on Arca – pursuant to the generic listing standards applicable to Equity Index-Linked Securities with the obligation to comply with all continued listing obligations under that rule. In the event that the Index does not

---

<sup>8</sup> Rule 14.11(d)(2)(K)(i)(b)(1)(A) (the “Continued Listing Rule”) is substantively identical to the initial listing requirements under Rule 14.11(d)(2)(K)(i)(a)(2)(C) (the “Initial Listing Rule”) except that the Continued Listing Rule provides that the concentration requirements need only be satisfied at the time an index is rebalanced.

<sup>9</sup> As further described below, the Index methodology provides that at each annual rebalancing, no stock can have a weight of more than 15% in the Index and all stocks with a weight greater than 4.5%, based on float-adjusted market capitalization, are not allowed, as a group, to exceed 45% of the Index. As such, the Index methodology will definitively prevent the Index from exceeding the concentration limitations in the Continued Listing Rule upon rebalance.

meet the requirements of Rule 14.11(d)(2)(K)(i)(b)(1)(B) upon rebalance or the Index or Notes fail to meet any other continued listing obligation under Rule 14.11(d), the Exchange will initiate delisting proceedings pursuant to Rule 14.12.

All statements and representations made in this filing regarding (a) the description of the Index, (b) limitations on Index or portfolio holdings or reference assets, (c) the dissemination and availability of the Index, and reference assets; or (d) the applicability of Exchange rules and surveillance procedures shall constitute continued listing requirements for listing the Notes on the Exchange. The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Notes to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Act, the Exchange will surveil for compliance with the continued listing requirements.

#### S&P MLP Index

The Index is designed to provide exposure to leading partnerships that trade on major U.S. exchanges and are classified in the GICS Energy Sector and GICS Gas Utilities Industry according to the Global Industry Classification Standard. It includes both MLPs and publicly traded limited liability companies which have a similar legal structure to MLPs and share the same tax benefits as MLPs. The Index is calculated, maintained and published by S&P Dow Jones Indices LLC. The composition of the Index is rebalanced annually after the market close of the third Friday of October.

To qualify for membership in the Index, a stock must satisfy the following criteria: (i) be a publicly traded partnership with either a master limited partnership or a limited liability company structure; (ii) be listed on the NYSE (including NYSE Arca),

the NYSE MKT, the NASDAQ Global Select Market, the NASDAQ Select Market or the NASDAQ Capital Market; and (iii) belong to the GICS Energy Sector (GICS Code 10) or Gas Utilities Industry (GICS Code 551020).

At each annual rebalancing, a company in the qualifying universe is added to the Index if it meets the following requirements: (i) float-adjusted market capitalization of at least US \$300 million as of the rebalancing reference date; and (ii) average daily value traded above US \$2 million for the three months prior to the rebalancing reference date. No additions are made to the Index between rebalancing.

The Index methodology employs a modified market capitalization-weighting scheme, using the divisor methodology used in most S&P Dow Jones equity indices. At each annual rebalancing, no stock can have a weight of more than 15% in the Index and all stocks with a weight greater than 4.5%, based on float-adjusted market capitalization, are not allowed, as a group, to exceed 45% of the Index.

#### Availability of Information

The website for the Notes, [www.ipathetn.com](http://www.ipathetn.com), is publicly available and includes a form of the prospectus for the Notes that may be downloaded. Daily trading volume information for the Notes will also be available in the financial section of newspapers, through subscription services such as Bloomberg, Thomson Reuters, and International Data Corporation, which can be accessed by authorized participants and other investors, as well as through other electronic services, including major public websites. The website and information will be publicly available at no charge. The value, components, and percentage weightings of the Index will be calculated and disseminated at least once daily and will be available from major market data vendors. Rules governing the Index are

available on the Index Provider's website, <http://us.spindices.com/>. Quotation and last sale information for the Notes will be available via the Consolidated Tape Association ("CTA") high speed line. The Index value, calculated and disseminated at least every 15-seconds, as well as the components of the Index and their percentage weighting, will be available from major market data vendors.

#### Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Notes. The Exchange will halt trading in the Notes under the conditions specified in BZX Rule 11.18. Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Notes inadvisable. These may include: (1) the extent to which trading is not occurring in the securities composing the Index; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

#### Trading Rules

The Exchange deems the Notes to be equity securities, thus rendering trading in the Notes subject to the Exchange's existing rules governing the trading of equity securities. The Exchange will allow trading in the Notes from 8:00 a.m. until 5:00 p.m. Eastern time and has the appropriate rules to facilitate transactions in the Notes during all trading sessions. As provided in BZX Rule 11.11(a), the minimum price variation for quoting and entry of orders in securities traded on the Exchange is \$0.01, with the exception of securities that are priced less than \$1.00, for which the minimum price variation for order entry is \$0.0001.

### Information Circular

Prior to the commencement of listing on the Exchange, the Exchange will inform its members in an Information Circular of the special characteristics and risks associated with trading the Notes. Such Information Circular will include information related to: (a) the special risks of trading the Notes; (b) the Exchange Rules that will apply to the Notes, including Rule 3.7, which imposes suitability obligations on Exchange members with respect to recommending transactions in the Shares to customers; (c) information about the dissemination of the value of the Index; and (d) the risks involved in trading the Shares during the Pre-Opening<sup>10</sup> and After Hours Trading Sessions<sup>11</sup> when the value of the Index will not be calculated or publicly disseminated.

### Surveillance

The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Notes on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. Trading of the Notes through the Exchange will be subject to the Exchange's surveillance procedures for derivative products, including Linked Securities. The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Notes to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Notes are not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures for the Notes

---

<sup>10</sup> The Pre-Opening Session is from 8:00 a.m. to 9:30 a.m. Eastern Time.

<sup>11</sup> The After Hours Trading Session is from 4:00 p.m. to 8:00 p.m. Eastern Time.

under Exchange Rule 14.12. The Exchange or the Financial Industry Regulatory Authority (“FINRA”), on behalf of the Exchange, or both, will communicate as needed regarding trading in the Notes and the Index Constituents with other markets or other entities that are members of the Intermarket Surveillance Group (“ISG”) or with which the Exchange has in place a comprehensive surveillance sharing agreement, and may obtain trading information regarding trading in the Notes from such markets or entities.<sup>12</sup> The Exchange prohibits the distribution of material non-public information by its employees. The Index Provider is not a registered broker-dealer and is not affiliated with a broker-dealer. In the event that the Index Provider becomes a broker-dealer or becomes affiliated with a broker-dealer, the Index Provider will implement and maintain a fire wall with respect to its relevant personnel regarding access to information concerning the composition and/or changes to the Index. In addition, the Index Provider has implemented and will maintain procedures around the relevant personnel that are designed to prevent the use and dissemination of material, non-public information regarding the Index.

b. Statutory Basis

The Exchange believes that the proposal is consistent with Section 6(b) of the Act<sup>13</sup> in general and Section 6(b)(5) of the Act<sup>14</sup> in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in

---

<sup>12</sup> The Exchange notes that all Index Constituents are required to be listed on a U.S. national securities exchange.

<sup>13</sup> 15 U.S.C. 78f.

<sup>14</sup> 15 U.S.C. 78f(b)(5).

facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. Specifically, the Exchange believes that the proposal is consistent with the Act because of the near-miss nature of the Index exceeding the concentration limitation in the Initial Listing Rule by less than 3% and the Notes will meet the continued listing standards applicable to Equity Index-Linked Securities under Rule 14.11(d)(2)(K)(i)(b)(1)(A) on a continuous basis. The Exchange points out that the Notes will meet the continued listing standards at all times that they are listed on the Exchange and the period of non-compliance will be a relatively short time – the Index will meet the initial listing standards upon rebalance in October 2019. As such, the Exchange believes that this proposal is consistent with the Act and raises no substantive issues for the Commission to consider.

Further, the Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Notes on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. Trading of the Notes through the Exchange will be subject to the Exchange's surveillance procedures for derivative products, including Linked Securities. The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Notes to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Notes are not in compliance with the continued listing requirements, the Exchange will commence delisting procedures for the Notes under Exchange Rule 14.12. FINRA conducts certain cross-market surveillances on

behalf of the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA's performance under the regulatory services agreement.

The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Notes and the Index Constituents with other markets or other entities that are members of the ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement, and may obtain trading information regarding trading in the Notes from such markets or entities. The Exchange prohibits the distribution of material non-public information by its employees. The Index Provider is not a registered broker-dealer and is not affiliated with a broker-dealer. In the event that the Index Provider becomes a broker-dealer or becomes affiliated with a broker-dealer, the Index Provider will implement and maintain a fire wall with respect to its relevant personnel regarding access to information concerning the composition and/or changes to the Index. In addition, the Index Provider has implemented and will maintain procedures around the relevant personnel that are designed to prevent the use and dissemination of material, non-public information regarding the Index. The Index value, calculated and disseminated at least every 15-seconds, as well as the components of the Index and their percentage weighting, will be available from major market data vendors.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest. In addition, a large amount of information is publicly available regarding the Notes, thereby promoting market transparency. Information regarding market price and trading volume of the Notes will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services, and quotation and last sale information will be

available via the CTA high-speed line. The website for the Notes will include the prospectus and additional relevant data. With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Notes. Trading also may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Notes inadvisable. If the Index value is not being disseminated as required, the Exchange may halt trading during the day in which the interruption to the dissemination of the Index value occurs. If the interruption to the dissemination of the Index value persists past the trading day in which it occurred, the Exchange will halt trading. Trading in the Notes will be halted if the circuit breaker parameters in BZX Rule 11.18 have been reached or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Notes inadvisable. In addition, investors will have ready access to information regarding Index, quotation, and last sale information for the Notes.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the transfer of the listing of an exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange has in place surveillance procedures relating to trading in the Notes and may obtain information via ISG from other exchanges that are members of ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement.

4. Self-Regulatory Organization's Statement on Burden on Competition.

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change, rather, will facilitate the transfer from Arca and listing of an additional exchange-traded product on the Exchange, which will enhance competition among listing venues, to the benefit of issuers, investors, and the marketplace more broadly.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The Exchange believes that the foregoing proposed rule change may take effect upon filing with the Commission pursuant to Section 19(b)(3)(A)<sup>15</sup> of the Act and Rule 19b-4(f)(6) thereunder<sup>16</sup> because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate.

Furthermore, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that

---

<sup>15</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>16</sup> 17 CFR 240.19b-4(f)(6).

subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. The Exchange has provided such notice.

The Exchange believes that its rule change proposal is appropriate for filing on an immediately effective basis under paragraph (f)(6) of Rule 19b-4. The Exchange believes the proposed rule change will not significantly affect the protection of investors or the public interest because of the near-miss nature of the Index exceeding the concentration limitation in the Initial Listing Rule by less than 3%, because the Notes will meet the continued listing standards applicable to Equity Index-Linked Securities under Rule 14.11(d)(2)(K)(i)(b)(1)(A) on a continuous basis, and because the rule proposal is simply requesting approval to list a series of Linked Securities on the Exchange that are currently listed on Arca. As noted above, the Index methodology guarantees that the Notes will be in compliance with the concentration requirements of both the Initial Listing Rule and the Continued Listing Rule upon its next rebalance in October 2019 and the generic listing standards for Equity Index-Linked Securities Exchange would permit the Listing of the Notes at that time. The Exchange points out that the Notes will meet the continued listing standards at all times that they are listed on the Exchange and the period of non-compliance will be a relatively short time – the Index will meet the initial listing standards upon rebalance in October 2019. Further, all statements and representations made in this filing regarding (a) the description of the Index, (b) limitations on Index or portfolio holdings or reference assets, (c) the dissemination and availability of the Index, and reference assets; or (d) the applicability of Exchange rules and surveillance procedures shall constitute continued listing requirements for listing the Notes on the Exchange. As such, the Exchange believes that

the ability to list the Notes on the Exchange raises no substantive issues for the Commission. The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change, rather, will facilitate the transfer from Arca and listing of an additional exchange-traded product on the Exchange, which will enhance competition among listing venues, to the benefit of issuers, investors, and the marketplace more broadly. For the foregoing reasons, this rule filing qualifies for immediate effectiveness as a “non-controversial” rule change under paragraph (f)(6) of Rule 19b-4.<sup>17</sup>

The Exchange respectfully requests that the Commission waive the 30-day operative delay so that the proposed rule change may become effective and operative upon filing with the Commission pursuant to Section 19(b)(3)(A) of the Act<sup>18</sup> and paragraph (f)(6) of Rule 19b-4 thereunder.<sup>19</sup> Waiver of the 30-day operative delay will allow the Notes, which are already listed and trading on another exchange, to transfer listing to the Exchange as soon as is practicable and minimize the amount of time that the listing venue will be in transition. Waiver of the operative delay is consistent with the protection of investors and the public interest for the reasons described above.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for

<sup>19</sup> 17 CFR 240.19b-4(f)(6).

the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

8. Proposed Rule Change Based on Rule of Another Self-Regulatory Organization or of the Commission

Not applicable.

**I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change**

The Exchange proposed rule change to list and trade under BZX Rule 14.11(d)(2)(K)(i) shares of the iPath S&P MLP ETN (the “Notes”) issued by Barclays Bank PLC (“Barclays” or the “Issuer”), which are currently listed on NYSE Arca, Inc.

## **II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

### **A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

#### **1. Purpose**

The Exchange proposes to list and trade the Notes<sup>6</sup> on the Exchange. The Exchange is submitting this proposed rule change because the Index<sup>7</sup> does not currently

---

<sup>5</sup> 17 CFR 240.19b-4(f)(6)(iii).

<sup>6</sup> The Exchange notes that the Notes are currently listed on Arca pursuant to that exchange’s generic listing standards.

<sup>7</sup> The index underlying the Notes is the S&P MLP Index (the “Index”). The Index is designed to provide exposure to leading partnerships that trade on major U.S. exchanges and are classified in the GICS Energy Sector and GICS Gas Utilities Industry according to the Global Industry Classification Standard. It includes both master limited partnerships (“MLPs”) and publicly traded limited liability companies which have a similar legal structure to MLPs and share the same tax benefits as MLPs (the “Index Constituents”). The Index is calculated, maintained and published by S&P Dow Jones Indices LLC (the “Index Provider”). The composition of the Index is rebalanced annually after the market close of the third Friday of October.

meet all of the “generic” listing requirements of BZX 14.11(d)(2)(K)(i)(a)(2)<sup>8</sup> applicable to the listing of Equity Index-Linked Securities. The Index meets all requirements of Rule 14.11(d)(2)(K)(i) except for Rule 14.11(d)(2)(K)(i)(a)(2)(C)<sup>9</sup> and will continue to meet all other requirements of Rule 14.11(d)(2)(K)(i) on an ongoing basis. The Exchange notes that the Notes are currently listed on Arca and the Notes are already trading on the Exchange pursuant to unlisted trading privileges, as provided in Rule 14.11(j).

Specifically, the Exchange submits this rule filing because the Index exceeds the concentration limitation for initial listing on the Exchange included in Rule 14.11(d)(2)(K)(i)(a)(2)(C) by less than 3%. The Notes will meet the continued listing standards applicable to Equity Index-Linked Securities under Rule 14.11(d)(2)(K)(i)(b)(1)(A)<sup>10</sup> on a continuous basis, even though the Index does not currently meet the initial listing requirements under the Initial Listing Rule. Upon rebalance in October 2019, the Index will meet the concentration limitations applicable under both the Initial Listing Rule and the Continued Listing Rule and would be able to

<sup>8</sup> The Commission approved BZX Rule 14.11(d) in Securities Exchange Act Release No. 65225 (August 30, 2011), 76 FR 55148 (September 6, 2011) (SR-BATS-2011-018).

<sup>9</sup> BZX Rule 14.11(d)(2)(K)(i)(a)(2)(C) provides that no underlying component security (excluding Derivative Securities Products and Linked Securities) will represent more than 25% of the weight of the index, and, to the extent applicable, the five highest weighted component securities in the index (excluding Derivative Securities Products and Linked Securities) do not in the aggregate account for more than 50% of the weight of the index (60% for an index consisting of fewer than 25 component securities). Specifically, the five highest weighted component securities in the Index, as defined below, represent 52% of the weight of the Index.

<sup>10</sup> Rule 14.11(d)(2)(K)(i)(b)(1)(A) (the “Continued Listing Rule”) is substantively identical to the initial listing requirements under Rule 14.11(d)(2)(K)(i)(a)(2)(C) (the “Initial Listing Rule”) except that the Continued Listing Rule provides that the concentration requirements need only be satisfied at the time an index is rebalanced.

list on the Exchange pursuant to the generic listing standards applicable to Equity Index-Linked Securities at that time.<sup>11</sup> However, the five highest dollar weighted components in the Index currently represent 52.82% of the weight of the Index.

As such, the Exchange is submitting this proposal in order to allow the Notes to list and trade on the Exchange pursuant to Rule 14.11(d)(2)(K)(i) in a manner identical to the way that the Notes are currently listed on Arca – pursuant to the generic listing standards applicable to Equity Index-Linked Securities with the obligation to comply with all continued listing obligations under that rule. In the event that the Index does not meet the requirements of Rule 14.11(d)(2)(K)(i)(b)(1)(B) upon rebalance or the Index or Notes fail to meet any other continued listing obligation under Rule 14.11(d), the Exchange will initiate delisting proceedings pursuant to Rule 14.12.

All statements and representations made in this filing regarding (a) the description of the Index, (b) limitations on Index or portfolio holdings or reference assets, (c) the dissemination and availability of the Index, and reference assets; or (d) the applicability of Exchange rules and surveillance procedures shall constitute continued listing requirements for listing the Notes on the Exchange. The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Notes to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Act, the Exchange will surveil for compliance with the continued listing requirements.

---

<sup>11</sup> As further described below, the Index methodology provides that at each annual rebalancing, no stock can have a weight of more than 15% in the Index and all stocks with a weight greater than 4.5%, based on float-adjusted market capitalization, are not allowed, as a group, to exceed 45% of the Index. As such, the Index methodology will definitively prevent the Index from exceeding the concentration limitations in the Continued Listing Rule upon rebalance.

### S&P MLP Index

The Index is designed to provide exposure to leading partnerships that trade on major U.S. exchanges and are classified in the GICS Energy Sector and GICS Gas Utilities Industry according to the Global Industry Classification Standard. It includes both MLPs and publicly traded limited liability companies which have a similar legal structure to MLPs and share the same tax benefits as MLPs. The Index is calculated, maintained and published by S&P Dow Jones Indices LLC. The composition of the Index is rebalanced annually after the market close of the third Friday of October.

To qualify for membership in the Index, a stock must satisfy the following criteria: (i) be a publicly traded partnership with either a master limited partnership or a limited liability company structure; (ii) be listed on the NYSE (including NYSE Arca), the NYSE MKT, the NASDAQ Global Select Market, the NASDAQ Select Market or the NASDAQ Capital Market; and (iii) belong to the GICS Energy Sector (GICS Code 10) or Gas Utilities Industry (GICS Code 551020).

At each annual rebalancing, a company in the qualifying universe is added to the Index if it meets the following requirements: (i) float-adjusted market capitalization of at least US \$300 million as of the rebalancing reference date; and (ii) average daily value traded above US \$2 million for the three months prior to the rebalancing reference date. No additions are made to the Index between rebalancing.

The Index methodology employs a modified market capitalization-weighting scheme, using the divisor methodology used in most S&P Dow Jones equity indices. At each annual rebalancing, no stock can have a weight of more than 15% in the Index and

all stocks with a weight greater than 4.5%, based on float-adjusted market capitalization, are not allowed, as a group, to exceed 45% of the Index.

#### Availability of Information

The website for the Notes, [www.ipathetn.com](http://www.ipathetn.com), is publicly available and includes a form of the prospectus for the Notes that may be downloaded. Daily trading volume information for the Notes will also be available in the financial section of newspapers, through subscription services such as Bloomberg, Thomson Reuters, and International Data Corporation, which can be accessed by authorized participants and other investors, as well as through other electronic services, including major public websites. The website and information will be publicly available at no charge. The value, components, and percentage weightings of the Index will be calculated and disseminated at least once daily and will be available from major market data vendors. Rules governing the Index are available on the Index Provider's website, <http://us.spindices.com/>. Quotation and last sale information for the Notes will be available via the Consolidated Tape Association ("CTA") high speed line. The Index value, calculated and disseminated at least every 15-seconds, as well as the components of the Index and their percentage weighting, will be available from major market data vendors.

#### Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Notes. The Exchange will halt trading in the Notes under the conditions specified in BZX Rule 11.18. Trading may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Notes inadvisable. These may include: (1) the extent to which

trading is not occurring in the securities composing the Index; or (2) whether other unusual conditions or circumstances detrimental to the maintenance of a fair and orderly market are present.

#### Trading Rules

The Exchange deems the Notes to be equity securities, thus rendering trading in the Notes subject to the Exchange's existing rules governing the trading of equity securities. The Exchange will allow trading in the Notes from 8:00 a.m. until 5:00 p.m. Eastern time and has the appropriate rules to facilitate transactions in the Notes during all trading sessions. As provided in BZX Rule 11.11(a), the minimum price variation for quoting and entry of orders in securities traded on the Exchange is \$0.01, with the exception of securities that are priced less than \$1.00, for which the minimum price variation for order entry is \$0.0001.

#### Information Circular

Prior to the commencement of listing on the Exchange, the Exchange will inform its members in an Information Circular of the special characteristics and risks associated with trading the Notes. Such Information Circular will include information related to: (a) the special risks of trading the Notes; (b) the Exchange Rules that will apply to the Notes, including Rule 3.7, which imposes suitability obligations on Exchange members with respect to recommending transactions in the Shares to customers; (c) information about the dissemination of the value of the Index; and (d) the risks involved in trading the Shares during the Pre-Opening<sup>12</sup> and After Hours Trading Sessions<sup>13</sup> when the value of the Index will not be calculated or publicly disseminated.

---

<sup>12</sup> The Pre-Opening Session is from 8:00 a.m. to 9:30 a.m. Eastern Time.

### Surveillance

The Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Notes on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. Trading of the Notes through the Exchange will be subject to the Exchange's surveillance procedures for derivative products, including Linked Securities. The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Notes to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Notes are not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures for the Notes under Exchange Rule 14.12. The Exchange or the Financial Industry Regulatory Authority ("FINRA"), on behalf of the Exchange, or both, will communicate as needed regarding trading in the Notes and the Index Constituents with other markets or other entities that are members of the Intermarket Surveillance Group ("ISG") or with which the Exchange has in place a comprehensive surveillance sharing agreement, and may obtain trading information regarding trading in the Notes from such markets or entities.<sup>14</sup> The Exchange prohibits the distribution of material non-public information by its employees. The Index Provider is not a registered broker-dealer and is not affiliated with a broker-dealer. In the event that the Index Provider becomes a broker-dealer or becomes affiliated with a broker-dealer, the Index Provider will implement and maintain a fire wall

---

<sup>13</sup> The After Hours Trading Session is from 4:00 p.m. to 8:00 p.m. Eastern Time.

<sup>14</sup> The Exchange notes that all Index Constituents are required to be listed on a U.S. national securities exchange.

with respect to its relevant personnel regarding access to information concerning the composition and/or changes to the Index. In addition, the Index Provider has implemented and will maintain procedures around the relevant personnel that are designed to prevent the use and dissemination of material, non-public information regarding the Index.

## 2. Statutory Basis

The Exchange believes that the proposal is consistent with Section 6(b) of the Act<sup>15</sup> in general and Section 6(b)(5) of the Act<sup>16</sup> in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system and, in general, to protect investors and the public interest. Specifically, the Exchange believes that the proposal is consistent with the Act because of the near-miss nature of the Index exceeding the concentration limitation in the Initial Listing Rule by less than 3% and the Notes will meet the continued listing standards applicable to Equity Index-Linked Securities under Rule 14.11(d)(2)(K)(i)(b)(1)(A) on a continuous basis. The Exchange points out that the Notes will meet the continued listing standards at all times that they are listed on the Exchange and the period of non-compliance will be a relatively short time – the Index will meet the initial listing standards upon rebalance in October 2019.

---

<sup>15</sup> 15 U.S.C. 78f.

<sup>16</sup> 15 U.S.C. 78f(b)(5).

As such, the Exchange believes that this proposal is consistent with the Act and raises no substantive issues for the Commission to consider.

Further, the Exchange believes that its surveillance procedures are adequate to properly monitor the trading of the Notes on the Exchange during all trading sessions and to deter and detect violations of Exchange rules and the applicable federal securities laws. Trading of the Notes through the Exchange will be subject to the Exchange's surveillance procedures for derivative products, including Linked Securities. The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Notes to comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Exchange Act, the Exchange will surveil for compliance with the continued listing requirements. If the Notes are not in compliance with the continued listing requirements, the Exchange will commence delisting procedures for the Notes under Exchange Rule 14.12. FINRA conducts certain cross-market surveillances on behalf of the Exchange pursuant to a regulatory services agreement. The Exchange is responsible for FINRA's performance under the regulatory services agreement.

The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Notes and the Index Constituents with other markets or other entities that are members of the ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement, and may obtain trading information regarding trading in the Notes from such markets or entities. The Exchange prohibits the distribution of material non-public information by its employees. The Index Provider is not a registered broker-dealer and is not affiliated with a broker-dealer. In the event that the Index Provider becomes a broker-dealer or becomes affiliated with a broker-dealer,

the Index Provider will implement and maintain a fire wall with respect to its relevant personnel regarding access to information concerning the composition and/or changes to the Index. In addition, the Index Provider has implemented and will maintain procedures around the relevant personnel that are designed to prevent the use and dissemination of material, non-public information regarding the Index. The Index value, calculated and disseminated at least every 15-seconds, as well as the components of the Index and their percentage weighting, will be available from major market data vendors.

The proposed rule change is designed to promote just and equitable principles of trade and to protect investors and the public interest. In addition, a large amount of information is publicly available regarding the Notes, thereby promoting market transparency. Information regarding market price and trading volume of the Notes will be continually available on a real-time basis throughout the day on brokers' computer screens and other electronic services, and quotation and last sale information will be available via the CTA high-speed line. The website for the Notes will include the prospectus and additional relevant data. With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to halt or suspend trading in the Notes. Trading also may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Notes inadvisable. If the Index value is not being disseminated as required, the Exchange may halt trading during the day in which the interruption to the dissemination of the Index value occurs. If the interruption to the dissemination of the Index value persists past the trading day in which it occurred, the Exchange will halt trading. Trading in the Notes will be halted if the circuit breaker parameters in BZX Rule 11.18 have been reached or because of market conditions or for

reasons that, in the view of the Exchange, make trading in the Notes inadvisable. In addition, investors will have ready access to information regarding Index, quotation, and last sale information for the Notes.

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the transfer of the listing of an exchange-traded product that will enhance competition among market participants, to the benefit of investors and the marketplace. As noted above, the Exchange has in place surveillance procedures relating to trading in the Notes and may obtain information via ISG from other exchanges that are members of ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change, rather, will facilitate the transfer from Arca and listing of an additional exchange-traded product on the Exchange, which will enhance competition among listing venues, to the benefit of issuers, investors, and the marketplace more broadly.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

The Exchange has neither solicited nor received written comments on the proposed rule change.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the foregoing proposed rule change does not:

- A. significantly affect the protection of investors or the public interest;
- B. impose any significant burden on competition; and
- C. become operative for 30 days from the date on which it was filed, or such

shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>17</sup> and Rule 19b-4(f)(6)<sup>18</sup> thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission will institute proceedings to determine whether the proposed rule change should be approved or disapproved.

### **IV. Solicitation of Comments**

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

#### **Electronic comments:**
