

## Final Reminder: Enhanced Market Maker Quotation Obligations Effective Monday, December 6, 2010

### Overview

As a reminder, **the BATS Market Maker Quoter will be replacing the Stub Quoter effective December 6, 2010.** The Securities and Exchange Commission has approved rules proposed by BATS BYX Exchange (see [SR-BYX-2010-001](#); as amended by [SR-BYX-2010-001 Amendment 1](#)) and BZX Exchange (see [SR-BATS-2010-025](#); as amended by [SR-BATS-2010-025 Amendment 1](#)) in conjunction with other exchanges and FINRA to strengthen minimum quoting standards for market makers and to prohibit stub quotes in the US equity markets.

Under the new rules, BATS will require that Registered Market Makers maintain continuous two-sided quotes during regular trading hours within a defined price range. **The effective date for the new rule is Monday, December 6, 2010.**

Note that compliance with these new rules is the responsibility of Registered Market Makers and use of the BATS Market Maker Quoter to facilitate compliance is optional. The new Market Maker Quoter is currently available for testing within the BATS Certification environment.

### Registration via Market Maker Quoter

Note that **Market Makers currently using the BATS Stub Quoter that wish to take advantage of Market Maker Quoter functionality will be required to re-register for automated quoting of registered securities by Monday, December 6, 2010.**

Existing Market Makers that have access to the BATS Member Web Portal will now find a new link labeled "Market Maker (Dec 6)" as highlighted below. This can be used to populate symbol registrations that will be effective December 6, 2010 and will be managed by the new Market Maker Quoter process.
