

## BATS One Feed Update

### Overview

BATS has completed work on all versions of the BATS One Feed and is on-track for the planned production release on October 1, 2014. However, the introductory release of the Feed scheduled for August 1, 2014, has been deferred, pending SEC approval. BATS continues to offer all versions of the BATS One Feed in the certification environment, and firms are encouraged to take advantage of the environment for development and testing.

### More Information
