

Introducing the BATS Order Type Guide

BATS places a relentless emphasis on market quality, fairness and a high standard of customer service in its mission of Making Markets Better.

Another vital component of our mission is transparency. We have spent several months developing a comprehensive Order Type Guide to clearly explain the order types available on our BZX and BYX Exchanges and to fully illustrate their functionality.

You are invited to watch the [BATS Order Type Guide](#) video to gain a better understanding of the order types available on the BATS BZX and BYX Exchanges. The video allows you to easily jump to the information that is most important to you. You may also pause the video and come back to it later.

We believe this guide provides a clear picture of BATS' order type offerings. Should you have any questions regarding the order types available on our exchanges, please contact the [BATS Trade Desk](#) or your Director of Sales.
