

Reminder - BATS to Decommission Legacy Drop Protocol

Overview

BATS BYX Exchange, BZX Exchange, and BATS Options will decommission the Legacy Drop protocol effective December 31, 2014. FIX Drop and Order-by-Order FIX Drop ports will continue to be supported.

As of the effective date, all Legacy Drop ports will be permanently decommissioned and the DROP CSV-formatted trade data file option will be removed from the Member Web Portal. Members currently utilizing Legacy Drop ports will be contacted directly by the BATS Trade Desk to migrate to FIX-formatted drop ports prior to December 31, 2014. Additionally, Members that currently download DROP CSV-formatted trade data files using the Member Web Portal will need to switch to the standard human-readable CSV format.

For More Information

Please contact the BATS Trade Desk or your Director of Sales with any questions, comments or feedback. We appreciate your continued support of BATS and look forward to earning more of your business. For updated information about the BATS/Direct Edge integration, please refer to www.bats.com/edgeintegration.
