

Update Regarding Order Cancels During CFE System Suspension Periods

Overview

Cboe Futures Exchange, LLC (CFE) is issuing this notice to advise CFE Trading Privilege Holders (TPHs) of when it will become permissible for TPHs to submit cancels during a suspended state.

Time Periods for Cancels

Effective beginning with the CFE trade date of **April 26, 2018**, CFE rules will permit cancels to be submitted while the CFE trading system is in a suspended state following CFE system restart. Suspended states occur between CFE business days and between multiple trading sessions in connection with holidays.

In the meantime, TPHs should refrain from submitting cancels when the CFE trading system is in a suspended state. TPHs may currently and will continue to be able to submit cancels during any queuing period, trading hours, and or halt state for a product.

Please refer to Policy and Procedure XIX of the [Policies and Procedures Section of the CFE Rulebook](#) for additional detail regarding what types of orders (including cancels) may be submitted to the CFE trading system during particular time frames. The rule change referenced above is subject to regulatory review and will be incorporated into the CFE Rulebook when it becomes effective.

Additional Information

Please contact the CFE Trade Desk with any questions.

We appreciate your continued support and will work hard every day to keep earning your business by powering your potential to stay ahead of an evolving market. As always, we are committed to our customers and to making markets better as your partner in trading.
