

Cboe Announces Addition of DeliverToCompld (FIX Tag 128) on FIX Trade Cancel/Correct Messages

Reference ID: C2019071201

Overview

Effective Wednesday, **August 21, 2019**, Cboe Global Markets will include *DeliverToCompld* (FIX tag 128) on Trade Cancel/Correct messages (UCC) on the BZX Options, C2 Options and EDGX Options Exchanges.

Testing Opportunities

The new behavior will be available in the BZX Options, C2 Options and EDGX Options certification environments effective **July 24, 2019**.

Additional Information

For additional information on the FIX Trade Cancel/Correct message, please refer to the following specification:

- [US Options FIX Specification](#)

Please note that receipt of Trade Cancel/Correct messages is managed by a Port Attribute and is turned off by default. Changes to this attribute can be requested via the [Logical Port Request](#) tool on the Customer Web Portal.

Please contact the Cboe Trade Desk for support or with any questions.

We appreciate your business and remain committed to powering your potential with Cboe products, technologies, and solutions.
